H. L. HARRISON,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 29th September 1879.—In the exercise of the powers conferred on him by Section 314 of the Bengal Municipal Act, 1876, the Lieutenant-Governor is pleased to confirm the bye-laws stated at foot of this notification which have been made by the Commissioners of the Chuttra Municipality, in the district of Hazareebagh, at a meeting convened expressly for the purpose, and of which due notice was given, and in exercise of the power conferred by Section 315 of the same Act, the Lieutenant-Governor is pleased to sanction the penalties for breaches of the said bye-laws which have been declared by the Commissioners.

BYE-LAWS.

For regulating the time and mode of collecting taxes.

1. Every officer authorized to grant receipts shall be provided with a certificate of his authority to collect, and every certificate shall bear the seal of the Municipality and the signature of the Chairman or Vice-Chairman. Every collecting officer at the time of demanding payment shall show his certificate, if required, and no tax-payer shall be bound to pay unless a receipt is tendered to him.

2. Every person required in writing to furnish any schedule or return which the Commissioners may lawfully require him to furnish, shall send such schedule or return to the office of the Commissioners within two weeks from the date of service of the requisition in the manner described in section 367 of the Act. Every person failing to do so shall be liable to a penalty not exceeding Rs. 5, and to a penalty not exceeding Re. 1 for every day the omission shall continue.

3. Payment of purchase-money for property sold, and delivery of the property, shall be made immediately after the sale, and if the purchaser fail to pay the full amount of his bid, it shall be lawful for the distraining officer, at his discretion, to sell the property again on the same day or any other day; and the former purchaser shall in such case be responsible to the Commissioners for any loss which shall be recoverable as a debt due to them.

For regulating the conduct of persons employed by the Commissioners.

4. All persons employed by the Commissioners, whose services may be no longer required, shall be liable to discharge after receipt of previous notice of one month, and no such person shall withdraw from the duties of his office without having given previous notice for the period of one month.

5. All persons now holding, or who may hereafter be appointed to, any office under the Commissioners shall, when required so to do, furnish good security to such amount as the Commissioners may from time to time fix, and any person failing to furnish such security within such time as the Commissioners may appoint, shall be held to have thereby forfeited his appointment and may be removed from office.

For regulating the disposal of offensive matter, rubbish, and dead bodies of animals.

6. Every person within whose premises any animal may die shall within four hours after its death, or if the death occurs at night within two hours after sunrise, either remove at his own expense, or report its death to the Conservancy Officer; and in such latter case shall pay to the said officer the expense of removing the carcass at such rate as the Commissioners may determine, and in cases in which the said person is not the owner of the animal, and the owner is known, the owner shall alone be responsible for the payment of such expense, and such expense shall be recoverable as a debt due to the Commissioners. No Conservancy Officer, when called upon, shall neglect to remove a carcass.

The penalty for infringement shall be a fine not exceeding Rs. 5.

7. No person shall deposit or cause to be deposited any carcass, or any part of a carcass, in any place other than such place as may from time to time be appointed by the Commissioners for the reception of such carcass.

The penalty for infringement shall be a fine not exceeding Rs. 10.

For regulation and management of privies.

8. Every owner or occupier of any house, land, or premises from which offensive matter is not removed by the said owner or occupier, shall give free access to the servants of the Municipality to his house, land, or premises for the removal of any night-soil or filth within such hour as may have been fixed on by the Municipal Commissioners.

The penalty for infringement shall be a fine not exceeding Rs. 5.

9. On receipt of a notice from the Municipal Commissioners every owner or occupier of any house, land, or premises in or on which any well-privy, or other noxious or improperly constructed privy may be situated, shall fill up, close, or otherwise alter the construction of the said privy as may be directed in the notice, and if the orders contained in the notice are not carried out within 15 days, the Commissioners may fill up, close, or otherwise alter the said privy, and any expense incurred in so doing shall be recoverable as a debt due to the Commissioners.

10. No owner or occupier of any house, land, or premises in or on which any privy may be situated shall allow night-soil or filth of any kind to flow or be discharged from such privy into any drain, water-course, tank, hollow, or excavation, or any place containing waste or stagnant water.

The penalty for infringement shall be a fine not exceeding Rs. 20.

11. No person shall throw, deposit, or discharge any night-soil, sewage, or the contents of any drain, privy, or cess-pool into any tank, water-course, or receptacle for water, or dispose of the above-mentioned kinds of offensive matters in any other way than as the Municipal Commissioners may from time to time direct.

The penalty for infringement shall be a fine not exceeding Rs. 20.

12. The Municipal Commissioners may direct the use of lime, coal-tar, carbolic acid, or other deodorants or disinfectants in any privy or premises if at any time it shall seem to them necessary for the preservation of public health, or for the prevention of infection or spread of disease, provided that the Municipal Commissioners shall be bound to supply such deodorants, &c., at cost price, and the price shall be recoverable as a debt due to the Commissioners.

13. No person shall carry night-soil through the streets otherwise than in a closely covered receptacle of such description and pattern as shall be required from time to time by the Municipal Commissioners, and between such hours as the Municipal Commissioners may from time to time direct.

The penalty for infringement shall be a fine not exceeding Rs. 5.

14. No person shall perform any office of nature in any place outside private premises other than such as may have been appointed by the Commissioners, provided that such places have been set apart by the Commissioners.

The penalty for infringement shall be a fine not exceeding Rs. 5.

For regulating traffic in the streets.

15. No person shall carry through the streets, either on carts or on his person, long and entire bamboos one hour after sunset.

The penalty for infringement shall be a fine not exceeding Rs. 5.

16. No carriage or cart shall be driven by a driver under 14 years of age.

The penalty for infringement shall be a fine not exceeding Rs. 5.

17. Every cart laden with bamboos shall not use the public road within the limits of the Municipality, unless the cart is attended by a driver and another man.

The penalty for infringement shall be a fine not exceeding Rs. 2.

For regulating or prohibiting the use of fire-balloons, fire-works, fire-arms, or any other missiles in the vicinity of public roads.

18. No one shall let off any fire-balloons, fire-works, fire-arms, or any other missiles in or near any public road or street without the consent of the Municipal Commissioners previously obtained.

The penalty for infringement shall be a fine not exceeding Rs. 10.

GENERAL BYE-LAWS.

19. If any house, wall, or other erection, or any part thereof, fall upon any public highway, or into any public drain, the owner of such house, wall, or erection shall remove it after notice within the time prescribed by the Commissioners.

The penalty for infringement shall be a fine not exceeding Rs. 10.

The penalty for continued infringement after notice shall be a fine not exceeding Rs. 2 daily.

20. No person shall prepare any channel, or convey water by any channel, across any public thoroughfare, except in such manner as shall have been first approved by the Commissioners.

The penalty for infringement shall be a fine not exceeding Rs. 10.

The penalty for continued infringement after notice shall be a fine not exceeding Rs. 2 daily.

21. No person shall steep in any khal, tank, or ditch within the municipal limits any jute, hemp, bamboos, or other vegetable or animal matter likely to render the water of such khal, tank, or ditch offensive or noxious to the neighbourhood.

The penalty for infringement shall be a fine not exceeding Rs. 5.

The penalty for continued infringement after notice shall be a fine not exceeding Rs. 2 daily.

22. No person shall let loose, or cause or allow to be let loose, or allow to get loose, any diseased or worn out animal on any highway or into any public place.

The penalty for infringement shall be a fine not exceeding Rs. 5.

23. No person shall picket animals or collect carts or form any encampment upon any public ground without the permission of the Commissioners.

The penalty for infringement shall be a fine not exceeding Rs. 5.

Rules made by the Lieutenant-Governor of Bengal under Section 2, Act VII (B. C.) of 1879, for the examination of, and the granting of certificates to, Commanders of Inland Steam Vessels.

N.B.—The provisions of Rule 1 will not be applied in the case of candidates who are at the date of the publication of these rules actually in command of a river steamer.

1. Candidates for certificates as commanders of inland steam vessels must be not less than 21 years of age, and have served at least 3 years at sea, and 3 years as mate of a river steamer, or master of a river flat.

2. Every such candidate shall apply for permission to appear for examination in a printed form,* to be filled up by him, and forwarded to the Port Officer, Calcutta, together with such documentary evidence as shall satisfy the Port Officer that the candidate has complied with the conditions of Rule 1 above, and that he is of sober habits and of good character. Each candidate shall forward with his application a fee of Rs. 16.

3. The Port Officer shall notify to accepted candidates the date and hour of examination, in fixing which he shall have due regard to the convenience of their employers. The fees of any candidate who is not accepted shall be returned to him.

4. The examination of candidates shall ordinarily be conducted by the Committee which sits quarterly for the examination of pilots, but the Port Officer may at any time convene a special committee for the examination of candidates under these rules.

5. Before proceeding to examine any candidate in the manner provided in the rule next following, the Committee shall carefully test his ability to distinguish the following colours which enter largely into the combinations of signals by day and night, viz. black, white, red, green, yellow, and blue. In the event of any candidate failing to satisfy completely the usual tests for colour blindness in respect of all of these colours, the Committee will decline to proceed with his examination, and will report the case through the Port Officer for the information of the local Government.

6. The Committee will examine each candidate apart, and *vis à voce*, in each and all of the following subjects:—

(1).—The names and courses of the river reaches from Calcutta to Mud Point, and the extent of the sands in such reaches.

(2).—The sets of the tides within the said limits.

(3).—The names of all Points in the river within the said limits.

(4).—The candidate's general knowledge of soundings in the channels and over the sands within the said limits.

(5).—The tracks over the Moyapore and Royapore flats, the Fultah tracks, and the Eastern and Western Guts.

(6).—The marks for fair channels or hauling into reaches where such exist.

(7).—The marks for the limits of sands where such exist.

(8).—The rules of the road.

(9).—The management of river steamers under all contingencies of meeting, overtaking, and passing vessels in all possible positions within the limits described in No. 1.

(10).—The anchorages to select in view of the requirements of sea-going vessels.

(11).—The Tide Table.

(12).—The rules of the Port of Calcutta including the prescribed Storm Signals.

(13).—The provisions of Act VII of 1879.

7. If the candidate satisfy the Committee as to his knowledge of the subjects set forth in the foregoing rule, and generally as to his competency to command an inland river steamer, they shall certify the same to the Port Officer, who will then grant a certificate of such competency in the form appended to these rules.

8. No candidate who fails to satisfy the Committee shall be at liberty to submit a fresh application for examination until six months have passed from the date of such failure.

HIGH COURT NOTICES.

Circular Order issued by authority of the High Court of Judicature at Fort William in Bengal.

MEMORANDUM.

It is requested that this copy of Circular No. 4 of the 30th August 1879 may be substituted for the one previously issued, which should be destroyed.

THOMAS C. LEDLIE, *for Registrar.*

HIGH COURT, ENGLISH DEPARTMENT, the 10th September 1879.

CRIMINAL.

No. 4, dated the 30th August 1879.

UNDER Chapter XII of the Code of Criminal Procedure, service of a summons should, if possible, be made personally; but when the person named therein cannot be found, substituted service is allowed to be made, (1) by giving a copy to a male adult member of his family living with him, or, where there is none such on whom service can be made, (2) by fixing a copy on some conspicuous part of the house in which the person to whom the summons is addressed ordinarily resides.

2. The court has reason to believe that some laxity of practice exists in the matter of seeing that the requirements of the law are strictly attended to, and in a case recently brought to its notice has observed that a Magistrate taking affidavits of the service of summonses received from the Calcutta Small Cause Court, under Section 30, Act IX of 1850, entirely failed to record the particulars which were material to enable that Court to judge whether the provisions of the law had been complied with. The Judges are therefore pleased to circulate, for the information and guidance of the Criminal Courts, the accompanying rules extracted from Circular Order No. 9 of 6th April 1871, addressed to Civil Judges, pointing out how the service of process should be proved, and to direct that the instructions given be observed not only with respect to process received from other courts or districts, but in every case where it is material to prove the service of process.

Rules.

Rule 1.—When the summons or notice is served on the defendant personally, the service and the signature of the defendant on the back of the summons or copy should be proved by the affidavit or solemn declaration recorded in writing of the person who actually effected the service; and the identity of the person served with the party to whom the process is addressed, should be proved by the affidavit or solemn declaration of some one personally acquainted with the party to be served.

Rule 2.—If the service be made on an adult male member of his family residing with him, it should be proved by the affidavit or solemn declaration of the officer effecting the service, and, if necessary, of some other person or persons acquainted with the facts that the defendant could not be found, and that the person to whom the process was delivered was an *adult* male member of his family, and was actually residing with him at the time of such service.

Rule 3.—If the service be made by affixing it to the dwelling-house of the defendant, it should, in like manner, be proved that the defendant could not be found nor any other person on whom the service could be made, and that the defendant *was actually dwelling* in the house, on the outer door of which a copy of the process was fixed, at the time when it was so fixed.

CIVIL.

No. 33, dated the 18th September 1879.

THE High Court finds it necessary to call the attention of the Judges of Subordinate Courts to the following observations and rules with reference to Sections 294 and 306 of the Code of Civil Procedure.

2. Section 294 does not provide for the set-off of a part of the purchase-money against a part of the amount due under a decree. The whole of the purchase-money may be set off against a part of the amount due under a decree, where the latter exceeds the former; or where the purchase-money exceeds the amount due under the decree, the whole of the latter may be set off against the former.

3. When the decree-holder purchasing property of his debtor at an execution sale, with leave of the Court, desires to make a set-off, the Court executing the decree "shall enter up satisfaction of the decree, in whole or in part, accordingly." No receipt is

required from the decree-holder, and the entering up of satisfaction does not depend upon his giving such receipt. When he has signified his intention of claiming a set-off, the Court is to *enter up satisfaction* in full, or in part, as the case may be, without any further action in that respect by the decree-holder.

4. Satisfaction cannot be entered up until the sale has been confirmed, and must then be done once for all. The practice of entering up satisfaction, as for the earnest-money required under Section 306, is irregular and is prohibited.

Rules framed under Section 652 of the Civil Procedure Code.

I.—When the amount to be paid by a decree-holder buying with the leave of the Court, and who has signified his intention of claiming a set-off, is not more than the amount due to him under the decree, and for the costs of executing it, the deposit required shall not exceed the amount of the court fees due on the sale under Clause F, Article 6, Parts II, III, and IV of the Rules under the Court Fees' Act, Section 20, Clause 1.

II.—When the amount of purchase-money exceeds the amount due to the decree-holder as above, but such excess, together with the amount of Court fees due for the sale, does not exceed 25 per cent. of the purchase-money, the deposit required shall not exceed the amount of such excess and court fees.

III.—When the excess, with or without the court fees for the sale, is greater than 25 per cent. of the purchase-money, the full deposit of 25 per cent. shall be required as authorized by Section 306.

IV.—Whenever the amount due as court fees for the sale of the property has been deposited under Rule I or Rule II, the Court shall, at the time of confirming the sale, direct that such sum be applied by an officer of the Court to the purchase of the necessary stamps, and shall cause the same to be attached to the proceeding containing the order of confirmation, and to be then and there properly defaced. All Judges will be held personally responsible for compliance with this order, which, if attended to at the proper time, will give no appreciable trouble.

NOTIFICATION.

The following rule, framed by the High Court under Section 10 of the Letters Patent 1865, is published for general information.

By order of the High Court.

FORT WILLIAM, the 11th September 1879.

J. CRAWFURD, Registrar.

RULE.

The Court are pleased to direct that the following be substituted for Rule 17 of the rules for the admission of Vakils in the High Court, dated the 13th September 1873 :—

Any person intending to apply to be admitted to practice as a pleader in the High Court shall, after obtaining such certificate, cause to be inserted in the *Calcutta Gazette* for four successive weeks a notice of his intention, and shall also give to the Registrar a notice in writing of such intention accompanied by the said certificate.

Barometric Pressure.—The pressures are reduced from those given in column 18 of the above table for all stations below 500 feet elevation, by adding the weight of a column of air of the temperature of the station. For stations above 500 feet elevation the reduction is made by Captain No. CXIII." The temperature

Temperature.—The temperatures are reduced from those in column 18 on the preceding page, by adding 1° Fahr. at foot

Wind Resultant.—The resultant is from the whole number of wind observations in the direction of the resultant is given. The direction is computed in the usual way.

Cloud.—This column gives the proportion of clouded sky, a cloudless sky being indicated by 0, and one completely overcast by 100.

The above, being all comparable, affords a basis for constructing a meteorological chart for the month, which will show the isobaric and anemometric lines and the resultant wind directions, which last may be represented by arrows of varying length, proportioned to the prevalence of the wind. The barometer readings are corrected approximately to those of the standard Newman's No. 8 formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The direction and movement of the wind are taken from the trace of a Beckley's anemograph.

Reports of Fluctuation of Traffic on the East Indian Railway for five weeks ending 30th August 1879.

EAST INDIAN RAILWAY TRAFFIC MANAGER'S OFFICE, JAMALPORE, THE 16TH SEPTEMBER 1879.
Remarks on Traffic of East Indian Railway for five weeks ending 30th August 1879.

The approximate figures for the period are as follows:—

		Coaching.		Goods.		Total.
			Rs.	Mds.	Rs.	Rs.
1879	...	656,960	7,54,608	47,43,280	18,50,582	26,05,190

Ghee and oil

A portion of this decrease is in kerosine oil from Howrah owing to the up-country markets being overstocked, and, as explained in my last report, there is still a falling off in ghee and other oils from Behar and the North-Western Provinces.

Hides

There is active demand for Patna and North-Western Provinces hides, but business is entirely restricted by want of supplies.

Lac

Owing to the raw material being scarce and its price high, little or no shellac has been manufactured; the entire shipments from the port during August being 32 chests only.

Seeds

The local prices at Cawnpore and Patna are still high, and the market in Calcutta has not been attractive.

Tobacco

I remarked in my last monthly report on the falling off in this staple, and there is nothing further to add. The train mileage for the period is—

	1879	1878	Increases	Decreases	Coaching.	Goods.	Total.
	228,744	332,600	561,344
	233,362	294,313	527,675

	3 4 9	5 0 5	4 10 3
	5 0 5	5 0 5	4 5 5
	0 4 4	0 2 2	0 4 10

The total increase of 4 annas 10 pies per train mile must, I think, be considered satisfactory.

Shunting mileage.—Increase

This slight increase is at Howrah, and calls for no comment.

We now come to the Jubbulpore line traffic:—

	1879	1878	Increases	Decreases	Coaching.	Goods.	Total.
	No. 23,072	Mds. 5,24,994	Rs. 1,38,004

	140	2,51,861	47,564
	851	47,564	48,415

The earnings show an increase of over 52 per cent. in goods traffic owing to despatches in grain, wheat, and jaggree from Cawnpore principally to the Great Indian Peninsula and connected railways.

Train mileage for the period is—

	1879	1878	Increases	Decreases	Coaching.	Goods.	Total.
	23,149	35,887	59,036
	21,884	...	43,419

Reports of Fluctuation of Traffic on the Eastern Bengal Railway for the four weeks ending the 23rd August 1879.

Report on the Goods Traffic for the four weeks ending the 23rd August 1879.

Dated Calcutta, the 15th September 1879.

From—W. INNES, Acting Traffic Superintendent, Eastern Bengal Railway,
To—The / Bengal Railway, Calcutta.

THE total weight of goods carried over this Railway during the above period was 5,48,807 maunds, which, as compared with the corresponding period of last year, shows a decrease of 1,07,333 maunds. This decrease is chiefly in gunny, jute, seeds, tobacco, turmeric, and miscellaneous goods. The articles showing the largest increase are hides, salt, sugar, and tea.

Decreases.

Gunny ... Bundles. Bales.
Mds. 110 1,968
The Serajgunj Jute Company have not been shipping so largely of late.

Jute, drums and bales ... Drums. Bales.
Mds. 74,240 8,080
This decrease is owing to the depressed state of the market, and consequently smaller quantities have been forwarded.

Seeds ... Mds. 14,581
The decrease is owing to the bare year and smaller quantities on hand for export.

Tobacco ... Bundles. Bales.
Mds. 15,125 3,050
This decrease is to be attributed to a falling off in the demand for export, the same being regulated by the market, which fluctuates.

Turmeric ... Mds. 10,706
This decrease may also be accounted for by a lesser demand in the market, which fluctuates greatly.

Miscellaneous goods ... Mds. 27,889
This may be accounted for by depression generally.

Increases.

Hides ... Mds. 10,338
The quantity forwarded of these is regulated by the demand for exports, and fluctuates accordingly.

Salt ... Mds. 21,174
This increase is satisfactory, and is due to the facilities offered for carriage over the line.

Sugar ... Mds. 2,222
This increase is owing to manufacturers having their stocks on account of previous low prices and now clearing them out.

Tea ... Mds. 6,121
This is owing to the increase in demand now being met from Darjeeling and Cachar.

I attach the usual statement of ...

Rules made by the Lieutenant-Governor of Bengal under Section 2, Act VII (B.C.) of 1879, for the examination of and the granting of certificates to, Commanders of Inland Steam Vessels.

N.B.—The provisions of Rule 1 will not be applied in the case of candidates who are at the date of the publication of these rules actually in command of a river steamer.

1. Candidates for certificates as commanders of inland steam vessels must be not less than 21 years of age, and have served at least 3 years at sea, and 3 years as mate of a river steamer, or master of a river flat.

2. Every such candidate shall apply for permission to appear for examination in a printed form,* to be filled up by him, and forwarded to the Port Officer, Calcutta, together with such documents as shall satisfy the Port Officer that the candidate has complied with the provisions of Rule 1 above, and that he is of sober habits and of good character. Each candidate shall forward with his application a fee of Rs. 16.

3. The Port Officer shall notify to accepted candidates the date and hour of examination, in fixing which he shall have due regard to the convenience of their employers. The fees of any candidate who is not accepted shall be returned to him.

4. The examination of candidates shall ordinarily be conducted by the Committee which sits quarterly for the examination of pilots, but the Port Officer may at any time convene a special committee for the examination of candidates under these rules.

5. Before proceeding to examine any candidate in the manner provided in the rule next following, the Committee shall carefully test his ability to distinguish the following colours which enter largely into the combinations of signals by day and night, viz. black, white, red, green, yellow, and blue. In the event of any candidate failing to satisfy completely the usual tests for colour blindness in respect of all of these colours, the Committee will decline to proceed with his examination, and will report the case through the Port Officer for the information of the local Government.

6. The Committee will examine each candidate apart, and *visà voce*, in each and all of the following subjects:—

- (1).—The names and courses of the river reaches from Calcutta to Mud Point, and the extent of the sands in such reaches.
- (2).—The sets of the tides within the said limits.
- (3).—The names of all Points in the river within the said limits.
- (4).—The candidate's general knowledge of soundings in the channels and over the sands within the said limits.
- (5).—The tracks over the Moyapore and Royapore flats, the Fultah tracks, and the Eastern and Western Guts.
- (6).—The marks for fair channels or hauling into reaches where such exist.
- (7).—The marks for the limits of sands where such exist.
- (8).—The rules of the road.
- (9).—The management of river steamers under all contingencies of meeting, overtaking, and passing vessels in all possible positions within the limits described in No. 1.
- (10).—The anchorages to select in view of the requirements of sea-going vessels.
- (11).—The Tide Table.
- (12).—The rules of the Port of Calcutta including the prescribed Storm Signals.
- (13).—The provisions of Act VII of 1879.

7. If the candidate satisfy the Committee as to his knowledge of the subjects set forth in the foregoing rule, and generally as to his competency to command an inland river steamer, they shall certify the same to the Port Officer, who will then grant a certificate of such competency in the form appended to these rules.

8. No candidate who fails to satisfy the Committee shall be at liberty to submit a fresh application for examination until six months have passed from the date of such failure.

A. MACKENZIE,
Secy. to the Govt. of Bengal.

NOTIFICATION.

The 30th September 1879.—The Lieutenant-Governor of Bengal sanctions the following alterations in the thana jurisdictions of district Nuddea with effect from the 1st August 1879:—

1st.—The transfer of the villages, as per list A annexed, from thana Daulatpoor to thana Nayapara.

2nd.—The establishment of an outpost at Damukdea, subordinate to thana Nayapara.

The revised boundaries of thanas Daulatpoor and Nayapara will be as described below:—

BOUNDARY OF THANA NAYAPARA.

On the North and North-east—The boundary accords with that of the zillah between the villages of Kishorpoor or Chundeepeer and Matecpara on the river Ganges.

On the East and South-east—The boundary coincides with the boundaries of thanas Kooshtea and Bhadoolea as defined by the notification dated 29th April 1863.

On the South and South-west—The boundary agrees with that of sub-division Kooshtea, as previously defined, between the villages of Sreerampoor and Khulisakhoondee.

On the West—Commencing from the junction of the Hower khal with the Mata-bhanga river at the village of Khulisakhoondee the boundary remains the same as previously defined up to the Chundana nuddce, which it crosses at the village of Kodaleapara, and thence follows the boundaries of the following villages, viz. Satbarea-Nitarpole or Bittipara, Satbarea, Dhurmpoor, Kajihatta, Patiakandee, Nuleah, Gobindpoor, Dullooah, Mirzapoor, Jooneadoho, Fyzoollahpoor, Ryta, and Chukla Benodepoor.

BOUNDARY OF THANA DAULATPOOR.

On the North—The boundary agrees with that of the zillah.

On the East and South-east—The boundary marches with that of thana Nayapara.

On the South and West—The boundaries remain unaltered.

NOTE.—In the above all villages named as situated along the boundaries are included within the thanas to which reference is made.

By C. F. AMERY.

Deputy Conservator, Forests, N. W. Province.

THIS little work, published with the approval of the Government of India, treats of the general principles of forest management in all its branches, and is recommended not only to forest officers, but to all who are interested in the progress of forest management in this country.

May be obtained of Messrs. King, King & Co., Bombay, and of Messrs. Wyman & Co., Calcutta. Price, Rs. 3-8, or including postage, Rs. 4. Or of the publishers, Messrs. Trübner & Co., Ludgate Hill, London. Price five shillings.

The Indian Law Reports.

Published under Authority of the Governor-General in Council.

THE Reports appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and will comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court will be reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court will be reported in the Calcutta Series.

The Parts of each Series can be had separately, or all four Parts can be had stitched into one wrapper at the option of subscribers and purchasers. It will be observed from the following statement of the terms of subscription and sale, that a considerable reduction is allowed to persons taking the complete set.

Terms of subscription, payable annually in advance.

RESOLUTION ON THE ADMINISTRATION OF THE SALT DEPARTMENT IN 1878-79.

THE most important measure of the year, in connection with the administration of the department, was the reduction of the duty on salt in furtherance of the policy of equalizing the duty throughout India, which the Supreme Government had kept in view for many years. The rate of duty on imported salt, which had been fixed at Rs. 3-4 per maund in 1875 and reduced to Rs. 3-2 in December 1877, was further reduced to Rs. 2-14 by a notification issued on the 31st July 1878. Under another notification of the same date, the rates of duty on salt manufactured in Orissa were revised and reduced to the scale of Rs. 2-8 for the whole of the districts of Pooree and Cuttack, Rs. 2-10 for the portion of the Balasore district lying between Cuttack and the Kansbans River, and Rs. 2-12 for the rest of the district. The receipts of the past year show a decrease of Rs. 32,45,045 in the amount of duty realized on imported salt, due to the reduction of the duty, and of Rs. 91,335 in the rents received from the bonding golahs. On the other hand, there was an increase of Rs. 2,14,815 in the revenue from excise salt and of Rs. 7,660 in the miscellaneous receipts.

The net decrease of revenue for the year was Rs. 31,13,905. At the same time, a reduction of Rs. 3,08,447 was made in the charges. The receipts of the past five years have been as follow:—

					Rs.
1874-75	2,64,87,143
1875-76	2,53,41,925
1876-77	2,56,90,656
1877-78	2,68,77,604
1878-79	2,37,63,699

2. The following statement shows the salt supplies of the past five years:—

	1874-75.	1875-76.	1876-77.	1877-78.	1878-79.
	Mds.	Mds.	Mds.	Mds.	Mds.
Stocks at commencement of year	20,59,418	20,87,317	41,53,880	42,50,816	21,28,568
Imported and manufactured during the year	82,88,091	1,00,24,738	82,86,000	84,63,127	76,77,764
Cleared for consumption	81,09,300	79,14,513	81,07,022	84,62,402	84,67,247
Wastage, &c.	80,793	43,600	83,032	1,03,213	87,473
Balance at close of year	20,87,317	41,53,880	42,50,816	21,28,568	12,01,860

The total quantity imported during the last year was 70,92,645 maunds. The importations were confined to Calcutta and Chittagong, and, as compared with those of the previous year, show an increase of 8,00,654 maunds. Balasore received no imports by sea. No salt came to Calcutta from Egypt, but the importations from all other places of supply increased. Chittagong imported 1,67,696 maunds, the whole quantity coming from the United Kingdom, against 1,19,545 maunds in 1877-78. The increase is attributed to the chance importation of 3,000 tons by two European vessels which came to the port for jute cargoes. It must also have been due in some measure to a larger demand caused by the low stocks with which the year opened.

3. The clearances for consumption in the last two years were as follow:—

	1877-78.		1878-79.	
	Quantity.	Duty.	Quantity.	Duty.
	Mds.	Rs.	Mds.	Rs.
Sales of imported salt from ship-board	54,59,877	1,09,50,194	57,49,843	1,00,15,755
Ditto from bond	26,51,799	82,78,811	22,42,059	61,50,594
Sales of excise salt	3,70,986	10,03,065	4,04,745	12,22,555
Total	81,82,362	2,02,41,070	84,57,247	2,33,97,904

It is observed that the total clearances of the past year were less than those of 1877-78 by 25,115 maunds. This small decrease makes no appreciable difference in the consumption of the two years. The increase of consumption which occurred in 1877-78 has thus been maintained. The clearances from shipboard increased by 2,46,516 maunds in Calcutta and by 53,450 maunds in Chittagong. This was naturally accompanied by a reduction of the clearances from bond, with the result in Calcutta of diminishing largely the income from golah rents.

4. There was a marked increase in the manufacture of excise salt, the quantity produced being 5,84,395 maunds against 1,70,986 maunds in 1877-78. Of the total produce only 7,750 maunds were manufactured in the 24-Pergunnahs, the rest being entirely manufactured in Orissa. In this Division there was an increase in every district, but it was particularly large in Pooree, where the outturn was 4,01,436 maunds against 47,839 maunds in 1877-78. In Cuttack 27,653 maunds were produced against 10,996 maunds in 1877-78, and in Balasore 1,47,555 maunds against 94,127 maunds. The increase was partly due to favourable weather, but manufacture was chiefly stimulated by an increase in the duty on Ganjam salt, which competes with Orissa salt, and by the fact that Government defrayed the cost of the preventive establishments. In paragraph 8

of the report the Board allude to the correspondence which took place during the year regarding the charges for these preventive establishments. It has now been decided that the cost of the establishments shall be borne by Government on all works yielding duty equal to twenty times the charges, and that on smaller works the establishments must be paid for by the manufacturers themselves.

5. Sales of excise salt increased during the year from 3,70,686 maunds, yielding Rs. 10,03,065, to 4,64,745 maunds, yielding Rs. 12,22,555. In Pooree 1,02,116 maunds and in the 24-Pergunnahs 1,225 maunds were sold in excess of the quantity in the previous year; but the sales fell off by 436 maunds in Cuttack and 8,846 maunds in Balasore. The large transactions in Pooree were no doubt developed by the ability of the local traders to compete successfully with Ganjam manufacturers, the duty on Ganjam salt having been raised by three annas, while that on Pooree salt remained at Rs. 2-8. The decrease in Balasore was nearly made up by larger clearances of Madras salt from bond and by the importation of Liverpool salt from Calcutta through Midnapore.

6. The quantity of salt sold in the saliferous districts shows a net increase of 16,064 maunds. Midnapore, the 24-Pergunnahs, Backergunge, Noakholly, and Balasore were the districts in which an increase occurred. In the first two the result was partly due to increased exertions on the part of the police to prevent the consumption of illicit salt. In Backergunge and Noakholly it is attributed to renewed prosperity of the people in the tracts which suffered most from the cyclone of 1876. The Collector of Balasore is unable to account for the increase in his district. The largest reduction of sales occurred in Chittagong and Cuttack. In Chittagong it amounted to 2,680 maunds, and is attributed partly to a misconception of an order issued by the Commissioner permitting manufacture in small quantities for home consumption, and partly to the introduction of supplies from the Arracan side of the border. The Lieutenant-Governor agrees with the Board that the decrease of 17,773 maunds, or 8·6 per cent. in the quantity sold in Cuttack, indicates the prevalence of illicit manufacture in that district, and he will look to the local officers to take proper measures for the protection of the revenue.

7. The number of cases in which salt was seized was 256 in excess of that in the previous year. The quantity of salt seized amounted to 3,657 maunds. Of the total quantity under attachment, including the balance of the previous year's seizures, only 634 maunds were confiscated. A comparison of the quantity attached with that eventually confiscated gives decidedly unsatisfactory results in Howrah, the 24-Pergunnahs, and Pooree.

8. Prosecutions under the salt law increased by 330, the total number being 1,452 against 1,122 in 1877-78. The number of persons apprehended was 1,597 against 1,189, and convictions were obtained in 1,400 cases against 1,057. The offences were, as usual, of a petty character. The largest increase took place in Midnapore (64), the 24-Pergunnahs (253), and Jessore (31). The fines and forfeitures realized amounted to Rs. 11,853, but only Rs. 2,894 were paid to informers and police officers. The Lieutenant-Governor is glad to learn that the Board have called the attention of district officers to the great importance of making prompt payment of rewards to the persons entitled to them. The Board justly remark that it is idle to look for information from the public, and special exertion from the police, if the rewards which the law sanctions are withheld, or are disbursed only after great delay; and it is not satisfactory that officers should have to be reminded of this. On the whole, the police appear to have worked fairly well for the protection of the salt revenue during the past year. In Chittagong and Pooree, however, there is evidently much room for improvement.

9. The quantity of salt conveyed into the interior from Calcutta, by rail and water, was 77,16,653 maunds as compared with 79,41,633 in the previous year. The despatches by water fell off by 1,84,769 maunds. There was a slight increase in the quantity conveyed by the East Indian Railway; but a decrease of 44,459 maunds in the despatches by the Eastern Bengal Railway, the Calcutta and South-Eastern Railway, and the Chitpore Canal.

10. The experience of the past year has been again favourable to the scheme of restricting the rowanna system introduced on the 1st April 1877.

The increased sales in the 24-Pergunnahs, Midnapore, and Backergunge show clearly that the measure has had no evil effects on the revenue in those districts. In Pooree, the Commissioner reports that it has in no way proved injurious. The only unfavourable report comes from Chittagong. The Commissioner remarks that illicit salt made in the saliferous tracts is notoriously sold or exchanged for goods in places where the rowannah system has been withdrawn; but the Board observe that this statement is hardly in keeping with the opinion expressed in another part of the Commissioner's report. The Lieutenant-Governor will await the submission of the special report which has been called for by the Board.

11. A further heavy decline in bonding took place during the past year. Bonders availed themselves very slightly of the concession of bonding any quantity less than 5,000 maunds without being liable for the rent of an entire golah which was accorded to them during the year. Mr. Maclean's explanation, which is given at length in the report, appears to the Lieutenant-Governor to account in great measure for the late falling off in bonding. There is also reason to believe that the expansion of the railway system, by enabling dealers to forward salt to the interior at all times, has had something to do with the decline.

12. The question of improving the salt protective establishments in Behar has been under discussion for a considerable period. A report on the subject was received from the Board during the past year, and orders have now been issued for the preparation of a final scheme for establishing an effective control over private manufactories and refineries, the rules in force in the North-Western Provinces being adopted as far as suitable. The Lieutenant-Governor trusts that there will be no delay in submitting the scheme, and that it will be possible to dispose of this long-pending matter without further loss of time.

By order of the Lieutenant-Governor of Bengal,

COLMAN MACAULAY,

Offg. Secretary to the Government of Bengal.

CALCUTTA,

Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather, and State and Prospects of the Crops in the different Districts of Bengal, as reported to Government during the week ending the 4th October 1879.

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
BENGAL			
<i>Western Districts.</i>			
BURDWAN DIV.	1 Burdwan, Oct. 4 '79	1.23	Weather—seasonable. In Cutwa and Culna early rice being cut and promises to give a fair outturn. Prospects of late rice improved throughout district. Sugarcane below average, except in Bood-Bood. General health very good for the time of year, though some cholera cases in Ketugram and bad malarious fever in Kotalghosh.
	Cutwa ...	0.52	
	Raneegunge ...	0.25	
	2 Bankoora, " 4 "	1.45	Weather—showery, and strong sun. Nights and mornings getting cooler. Beneficial rains general. On the whole prospects not bad in Bishenpore. In Ramsagar, the worst village there, one-half of land was uncultivated, but by recent rains a half of that has been cultivated. Recent plantings will only yield a quarter crop. Joypore not worse. <i>Aus</i> generally in; in some places a more than usual crop obtained. Pulses and other crops seem very favourable.
	Bishenpore ...	0.13	
	3 Beerbhoom, " 4 "	0.46	Weather—seasonable. Prospects of rice good. Even late plantings have come on lately better than could be expected. Sugarcane not doing so well.
	4 Midnapore, " 4 "	0.60	Weather—hot and sultry. State and prospects of crops generally good; scarcely anywhere very bad.
	Tumlook ...	1.60	
	Contai ...	1.47	
	Ghatal ...	1.08	
PRESIDENCY DIV.	5 Hooghly, " 4 "	0.47	Weather—warm and fine. State of crops on the whole fair; but they will require much rain during current month.
	Howrah, " 6 "	0.10	Weather—seasonable; mornings and evenings cool. Prospects continue good.
	Mohsarekha ...	0.82	
	<i>Central Districts.</i>		
	6 24 Pargunnahs, Oct. 4 '79	0.11	Weather—hot and bright. State and prospects of crops fair. <i>Aus</i> being reaped. Some damage done by overflow of rivers. Public health in general good.
	7 Nuddea, " 4 "	0.59	Weather—cloudy during first portion of week; clear, sunshiny and warm towards end. In Kooshtea and Meherpore <i>aus</i> harvested and ploughing for winter crops commenced. Floods fast subsiding everywhere, but commenced doing so last in Bongong. Prospects of <i>amun</i> unfavorable.

	Meherpore ...	1.80	
	Chooadanga ...	0.90	
	Ranaghat ...	0.23	
	Bongong ...	0.70	
	8 Jessore, " 4 "	0.81	Weather—generally dry, with occasional showers. Prospects of <i>amun</i> good. Preparation being made in some parts for winter crops. A good deal of fever reported.
	Magoorah ...	0.42	
	Narail ...	0.11	
	Khoolna ...	0.75	
	Bagirhat ...	2.84	
RAJSHAHY AND COOCH BEHAR DIV.	9 Moorshedabad, " 4 "	1.20	Weather—occasionally cloudy and rainy. Prospects of <i>haimanti dhan</i> pretty fair. Prices of food-grains as high as before. <i>Kalai</i> being sown. Fever much abated. Cattle disease in Lalbaugh now abated.
	10 Dinagepore, Oct. 3 '79	0.06	Weather—continues cool. Transplantation finished. Prospects good. Jute has yielded an average harvest.
	11 Rajshahye, " 4 "	1.81	Two or three heavy showers during week in every part of district, except in north, where slight rain on one day only. <i>Aus</i> harvest nearly over; yield good where crop not damaged by floods. <i>Amun</i> promises to be a very good crop. <i>Kalai</i> and <i>khesare</i> being sown. <i>Ganja</i> being transplanted and doing well. Rivers falling rapidly, and floods gradually receding. Public health good. A few cases of cattle disease in thana Manda. Price of common rice 11½ to 12 seers per rupee.
	12 Rungpore, " 3 "	0.78	Weather—very warm till 2nd, since when cooler. State and prospects of crops very satisfactory. Public health good.
	Gaibanda ...	2.17	
	Bagdogra ...	4.30	
	Kurigram ...	1.56	
	13 Bogra, " 4 "	1.20	Weather—most favourable for crops, generally bright with occasional showers. Temperature falling. Crops continue most promising.
	14 Pubna, " 4 "	1.53	Weather—fine and fine, with showers. Every hope of an excellent crop of <i>amun</i> rice. Winter sowing commenced. Cutting of jute, which is a limited crop, proceeding. Public health fairly good.
	15 Darjeeling, " 3 "	1.25	Weather—fine, with occasional showers of rain. In Terai prospects of <i>haimanti dhan</i> not very good, as much damage done to young plants by insects. <i>Til</i> and <i>Kalai</i> doing well. In Hills crops good.
	16 Julpigoree, " 4 "	0.02	Weather—fine, but not settled. <i>Haimanti</i> crop promising. Land being cultivated for cold-weather crops. Jute outturn below average. Tobacco sowings going on. General health good.
	Cooch Behar, " 2 "	1.76	Weather—cool. Prospects of winter paddy very favourable. Public health good.

The mean pressure, temperature, &c., are deduced from observations made at 6h., 10h., 16h., and 22h.; the maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a painted shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The direction and movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

W. M. JOHNSTON, Assistant Traffic Supdt.

Report of Fluctuation of Traffic on the Tirhoot State Railway for the month of August 1879.

THE total quantity of goods carried during the month of August 1879 aggregated maunds 92,075 as compared with maunds 1,04,543 carried during the corresponding period of 1878, and maunds 97,840 carried during the previous month, showing a decrease of maunds 12 468 in the one case and of maunds 5,765 in the other. This falling off in the traffic is due to the extraordinary inundation in the district during the past and previous months, which not only damaged the line in several places but also cut off communication between the stations and surrounding districts and necessitated the suspension of through booking of goods with other railways from the 18th July to the 6th September 1879.

INCREASES.

	Mds.	
Hides and horns	1,568	Notwithstanding disadvantages under which traffic has been worked during the month owing to the flood and its results, there is still a favorable increase in these staples.

DECREASES.

	Mds.	
Coal	5,475	The floods still continue. Local goods traffic with Durbhunga was resumed on the 24th July and has been carried on under great disadvantage with country craft, goods having to be transhipped at the Bilaspore Gap. On the 17th August there was a temporary suspension of goods traffic between Dalsing Serai and Bazidpur, owing to the flooding of the line, and on the 19th August 1879, the ferry steamer <i>Barrh</i> grounded.

Rules made by the Lieutenant-Governor of Bengal under Section 2, Act VII (B. O.) of 1879, for the examination of, and the granting of certificates to, Commanders of Inland Steam Vessels.

N.B.—The provisions of Rule 1 will not be applied in the case of candidates who are at the date of the publication of these rules actually in command of a river steamer.

1. Candidates for certificates as commanders of inland steam vessels must be not less than 21 years of age, and have served at least 3 years at sea, and 3 years as mate of a river steamer, or master of a river flat.

2. Every such candidate shall apply for permission to appear for examination in a printed form,* to be filled up by him, and forwarded to the Port Officer, Calcutta, together with such documentary evidence as shall satisfy the Port Officer that the candidate has complied with the conditions of Rule 1 above, and that he is of sober habits and of good character. Each candidate shall forward with his application a fee of Rs. 16.

* Copies will be supplied to intending candidates by the Port Officer, Calcutta, on application.

3. The Port Officer shall notify to accepted candidates the date and hour of examination, in fixing which he shall have due regard to the convenience of their employers. The fees of any candidate who is not accepted shall be returned to him.

4. The examination of candidates shall ordinarily be conducted by the Committee which sits quarterly for the examination of pilots, but the Port Officer may at any time convene a special committee for the examination of candidates under these rules.

5. Before proceeding to examine any candidate in the manner provided in the rule next following, the Committee shall carefully test his ability to distinguish the following colours which enter largely into the combinations of signals by day and night, viz. black, white, red, green, yellow, and blue. In the event of any candidate failing to satisfy completely the usual tests for colour blindness in respect of all of these colours, the Committee will decline to proceed with his examination, and will report the case through the Port Officer for the information of the local Government.

6. The Committee will examine each candidate apart, and *vis à voce*, in each and all of the following subjects:—

- (1).—The names and courses of the river reaches from Calcutta to Mud Point, and the extent of the sands in such reaches.
- (2).—The sets of the tides within the said limits.
- (3).—The names of all Points in the river within the said limits.
- (4).—The candidate's general knowledge of soundings in the channels and over the sands within the said limits.
- (5).—The tracks over the Moyapore and Royapore flats, the Fultah tracks, and the Eastern and Western Guts.
- (6).—The marks for fair channels or hauling into reaches where such exist.
- (7).—The marks for the limits of sands where such exist.
- (8).—The rules of the road.
- (9).—The management of river steamers under all contingencies of meeting, overtaking, and passing vessels in all possible positions within the limits described in No. 1.
- (10).—The anchorages to select in view of the requirements of sea-going vessels.
- (11).—The Tide Table.
- (12).—The rules of the Port of Calcutta including the prescribed Storm Signals.
- (13).—The provisions of Act VII of 1879.

7. If the candidate satisfy the Committee as to his knowledge of the subjects set forth in the foregoing rule, and generally as to his competency to command an inland river steamer, they shall certify the same to the Port Officer, who will then grant a certificate of such competency in the form appended to these rules.

8. No candidate who fails to satisfy the Committee shall be at liberty to submit a fresh application for examination until six months have passed from the date of such failure.

A. MACKENZIE,
Secy. to the Govt. of Bengal.

NOTIFICATION.

The 30th September 1879.—The Lieutenant-Governor of Bengal sanctions the following alterations in the thana jurisdictions of district Nuddea with effect from the 1st August 1879:—

1st.—The transfer of the villages, as per list A annexed, from thana Daulatpoor to thana Nayapara.

2nd.—The establishment of an outpost at Damukdea, subordinate to thana Nayapara.

The revised boundaries of thanas Daulatpoor and Nayapara will be as described below:—

BOUNDARY OF THANA NAYAPARA.

On the North and North-east—The boundary accords with that of the zillah between the villages of Kishorpoor or Chundeeppoor and Mateepara on the river Ganges.

On the East and South-east—The boundary coincides with the boundaries of thanas Kooshtea and Bhadoolca as defined by the notification dated 29th April 1863.

On the South and South-west—The boundary agrees with that of sub-division Kooshtea, as previously defined, between the villages of Sreerampoor and Khulisakhoondce.

On the West—Commencing from the junction of the Hower khal with the Mata-bhanga river at the village of Khulisakhoondce the boundary remains the same as previously defined up to the Chundana nuddec, which it crosses at the village of Kodaleapara, and thence follows the boundaries of the following villages, viz. Satbarea-Nitarpole or Bittipara, Satbarea, Dhurmpoor, Kajihatta, Patiakandee, Nuleah, Gobindpoor, Dullooah, Mirzapoor, Jooneadoho, Fyzoollahpoor, Ryta, and Chukla Benodepoor.

BOUNDARY OF THANA DAULATPOOR.

On the North—The boundary agrees with that of the zillah.

On the East and South-east—The boundary marches with that of thana Nayapara.

On the South and West—The boundaries remain unaltered.

NOTE.—In the above all villages named as situated along the boundaries are included within the thanas to which reference is made.

BENGAL			
<i>Western Districts.</i>			
BURDWAN DISTRICT.	1 Burdwan, Oct. 11 '79	0.21	Weather—seasonable. Late rice, as far as it was sown, promises fairly. Prospects of sugarcane not good. General health good for the time of year
	Culna	0.13	
	Cutwa	0.19	
	Raneegunge	1.07	
	2 Bankoora, „ 11 „	1.71	Rain plentiful at head-quarters, but only in slight showers at Bishenpore. In high lands even of Saltora outpost only two annas of cultivable land no cultivated, and remaining fourteen annas reported as looking up. Telka seed supplied by Government have, with a few exceptions, failed; people rely on jowar and mowa instead. In Joypore outpost a little over a 5-anna crop calculated. In Bishenpore thana prospects better than expected. On the whole rest of district, including transferred thanas, doing well, except Kotulpore where only a half outturn expected.
	Bishenpore	0.40	
	3 Beerbhoom, „ 11 „	0.11	Weather—seasonable. Aman flourishing. Aus being cut in north. Sugarcane not good.
	4 Midnapore, „ 11 „	0.10	Weather—very hot and sultry. State and prospects of crops generally good, but more rain wanted; in fact there could not be too much
	Ghatal	1.51	
	Tumlook	0.47	
	5 Hooghly, „ 11 „	0.14	Weather—warm and bright. Aus generally harvested. Area of aman cultivation small in many parts, and unless copious rain falls prospects of this crop decidedly poor.
	Howrah	...	Return not received.

No.	District and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.	
BENGAL.—(Continued.)				
Central Districts.				
PRESIDENCY DIV.	6 24-Pergunnahs, Oct. 11 '79	1.51	Weather—hot. State and prospects of crops fair. More rain wanted for high lands. Fever in some places.	
	7 Nuddea, „ 11 „	0.50	Weather—warm. <i>Amun</i> nearly reaped. In parts prospects of <i>amun</i> more hopeful. Ploughing going on rapidly for winter crops, which will be sown more extensively than usual. Floods rapidly subsiding. A good deal of fever over most of district.	
	Koochtea „ „	0.30		
	Choodanga „ „	1.39		
	Bongong „ „	0.42		
8 Jessore, „ 11 „	0.26	Weather—generally dry, and rather hot. Inundation nearly quite subsided. Prospects of <i>amun</i> good. Preparations for winter sowings being made in some parts. October indigo being sown. A good deal of fever reported, particularly in Khoorna and Bagirhat.		
Jhenida „ „	0.69			
Magoorah „ „	1.04			
9 Moorshedabad, „ 11 „	Nil	Weather—hot. Prospects of <i>haimanti</i> spared by flood good. Cutting of <i>bhadoi</i> paddy nearly over. Fever in a mitigated form reported from all parts of district.		
RAJSHAHY AND COOCH BEHAR DIV.	10 Dinagepore, Oct. 10 '79	1.74	Slight showers occasionally. Weather cool. Prospects of winter rice good.	
	11 Rajshahye, „ 11 „	1.98	Rain more or less heavy in almost all parts of district on one day in week. Rains now seem to be over. Floods have greatly receded. <i>Kalai</i> and <i>khasaree</i> being sown. Prospects of winter rice good. Public health good. Price of common rice 12½ seers.	
	12 Rungpore, „ 10 „	1.06	Weather—very warm, with slight rain. State and prospects of crops very favourable. Public health good.	
	Bagdogra „ „	2.17		
	Kurigram „ „	1.32		
	13 Bogra „ „	Return not received.	
	14 Pubna, „ 11 „	0.10	Weather—hot and close. <i>Amun</i> going on well. <i>Mattar</i> and <i>kalai</i> being sown. Rivers falling very fast. Public health good.	
	15 Darjeeling, „ 10 „	0.68	Weather—gloomy, but not much rain. In Terai <i>haimanti dhan</i> now doing well; insects becoming less; loss will be about 4 annas. Other crops in Hills and Terai prosperous.	
16 Julpigoree, „ 11 „	0.22	Weather—fine, with occasional light showers. <i>Haimanti</i> crop reported good from every part of district. <i>Rubbee</i> sowings well advanced. Preparation for tobacco-sowings going on. General health good.		
DACCA DIV.	Cooch Behar, „ 9 „	0.88	Weather—hot during day. Nights cool and pleasant. Occasional showers. Late paddy doing very well. Weather favourable for preparation of fields for winter crops. Outturn of jute will be below average. Public health good.	
	Mathabhanga „ „	0.14		
	Meckligunge „ „	0.35		
	Eastern Districts.			
	17 Dacca, Oct. 11 '79	0.9	Weather—clear, but close and warm for this time of year. Floods steadily falling. Relief measures still continue. <i>Amun</i> promising. Public health fair.	
	Manickgunge (for week ending 9th Oct.)	0.55		
	18 Furreedpore Oct. 11 „	Nil	Weather—hot. State and prospects of crops good.	
	19 Backergunge, „ 9 '79	0.06	Weather—generally fine. Crops continue to do well. Coconut and betelnut coming into market. For the former, owing to a poor season, prices 50 per cent. higher than last year; betelnut somewhat cheaper, the Mughas, the principal exporters, not having yet come forward.	
	20 Mymensingh, „ 10 „	0.24	Weather—hot. Hardly any rain. Prospects of crops favorable. A little more rain wanted.	
	21 Tipperah, „ 10 „	3.07	Weather—sultry, with occasional rain. <i>Amun</i> and sugarcane promise well.	
Brahmunbaria „ „	2.71			
Chaudpore „ „	1.73			
22 Chittagong Oct. 14 „	3.80	Weather—cloudy. Prospects of crops favorable throughout district. Public health good.		
23 Noakholly, „ 9 '79	3.53	Weather—showery and oppressive. <i>Amun</i> harvested with good results, <i>Amun</i> all transplanted and doing well. General health improved.		
CHITTAGONG DIV.	24 Chittagong Hill Tracts, „ 7 „	4.00	Weather—sunny and cloudy, with heavy rain at intervals throughout week. River Kurnaphuli has risen considerably. Harvesting of <i>joom</i> paddy still continues, but heavy rain done some damage. Prospects of plough cultivators' paddy good, but if river rises a few feet higher, crops in many places will be submerged. Fever still very prevalent.	
	Hill Tipperah, „ 8 „	3.99	Weather—seasonable. Rain on three days of week. <i>Amun</i> and <i>mugdana</i> gathered. Prospects of <i>amun</i> fair. Price of rice fallen. Public health improving. Fever not yet wholly disappeared.	

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date
BEHAR			
PATNA DIVN.	25 Patna Barrh Oct. 11 '79	4.91	Heavy rain. A full rice crop now secured and <i>rubber</i> prospects very favorable.
	26 Gya. Aurangabad " 11 "	2.79	Weather cloudy. Maximum reading in shade 93°. <i>Hatia</i> rain fell abundantly during week, and proved very beneficial. Every hope of a bumper crop this year. A few cases of fever and small-pox reported. Health of plough-cattle good.
	27 Shahabad, " 11 "	2.40	
	28 Durbhunga, " 11 "	5.40	
	29 Mozufferpore, " 11 "	0.55	Weather—seasonable. A few showers. Paddy good; other crops fair.
	30 Hajeepore " 11 "	3.88	Weather—rainy. It has been raining heavily since last three days to the benefit of <i>dhas</i> on high land which should now be quite secure. <i>Bhadai</i> harvest over. Prices show a tendency to fall. Public health good.
	31 Seetampurhee " 11 "	2.40	Weather—cool and cloudy. Heavy rain throughout district. Prospects of rice crop excellent. Prices of food-grain slightly fallen. Public health good.
	32 Sarun, " 11 "	6.75	Weather—cloudy and rainy. Nights and mornings getting cooler. East wind prevailing. More showers probable. Rain general throughout district. Heavy rain of 7th done slight damage to some of newly sown <i>rubber</i> fields, but greatly benefitted high land paddy. Sugarcane doing well. Prices stationary. Fever still prevalent.
	33 Sewan " 11 "	2.44	
	34 Chumparun " 11 "	5.71	Weather—very hot. Country much flooded. Some damage by floods, but rice prospects very good. Cholera again broken out in many parts of district.
BHAGALPORE DIVISION	35 Monghyr. Beguseral Oct. 11 "	10.38	Rain towards end of week. Prospects of crops good.
	36 Jamui " "	0.96	
	37 Bhagulpore, " 11 "	0.05	Weather—hot during early part of week; since then heavy rain and cool westerly breeze. Rain of 9th and 10th all that was wanting to ensure a bumper rice crop and a good prospect for cold-weather crops.
	38 Purneah, " 11 "	2.35	Weather—showery and damp. Excessive damp and want of sunshine must affect crops. Reports generally good. Health good.
	39 Kissengunge Arrareah " "	3.92	
	40 Maldah, " 11 "	0.25	Weather—fair, hot, and occasionally cloudy. A little rain on 9th and 10th. Winter rice in good condition. <i>Kalai</i> germinated and thriving. Health fair except in Sibgunge and Kaliachuk.
ORISSA.	41 Sonthal Pergah. Deoghur Oct. 11 "	0.46	Monsoon continues with heavy rain and thunderstorms. Rice promises a bumper crop, and safe as far as moisture wanted. Other prospects good.
	42 Jamtara " "	0.26	
	43 Cuttack Oct. 11 '79	0.67	Weather—fine and warm. <i>Beali</i> rice has come into market; average outturn 8 annas. Early <i>saradh</i> in ear. Late <i>saradh</i> doing well. <i>Rubbers</i> being sown and in some places sprouting. Fever still prevails in many places.
	44 Pooree, Khoorda " 9 "	2.39	Weather—hot. Second weeding of <i>saradh</i> rice in Khoorda sub-division going on. Some injury done to young plants by a second flood. Elsewhere state of surviving crop generally good. Fever very prevalent owing to excessive damp. Common rice sells at 17½ to 18½ seers a rupee.
CHOTA NAGPORE	45 Balasore, " 10 "	3.53	Weather—hot and bright, with occasional showers. Main crop may now be considered safe; general average will probably be 11 or 12 annas. Public health fair.
	46 Hazareebagh, Oct. 10 '79	2.25	During first part of week little or no rain. Heavy rain with thunder on 9th. It looks like breaking up of rains. <i>Bhadai</i> all cut; good outturn. Rain still wanted for paddy, but prospects good.
<i>South-West Frontier Agency.</i>			
CHOTA NAGPORE	47 Lohardugga, " 11 "	0.51	Weather—seasonable. Prospects continue good. Heavy rain on 10th has secured winter rice crop. Still a good deal of fever and small-pox about.
	48 Singbhoom, " 10 "	2.17	Weather—unsettled, with occasional slight showers. Days still warm and sultry, but nights and mornings becoming sensibly cooler. Prospects continue excellent. All crops doing well.
	49 Janbhoom, " 11 "	0.85	Weather—generally fair, with showers. Heavy rain at Govindpore. Upland paddy being reaped. Prospects of crops generally good.
	50 Govindpore (up to 9th instant). " "	0.00

The mean pressure, temperature, &c., are deduced from observations made at 6h., 10h., 16h., and 22h.; the maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The direction and movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

The results of observations at the Alipore Observatory are not rigorously comparable with the registers of past years (at the Park Street Observatory). The barometer is about 3 feet higher at Alipore, and other things being equal, reads therefore .003 lower. The diurnal range of temperature is also greater at Alipore, and the mean temperature apparently about 1° or 1½° lower; and finally, the thermometer, which has furnished the record of temperature at the Surveyor-General's Office during the last 20 years and upwards, is found to read 0.6 higher than the Kew standard thermometer, which is the standard of reference at the present Observatory.

Building materials	140	140	140
Sundries	2,597	1,972	1,568	2,597	2,640	43

The decrease in firewood traffic is due to less import owing to wood-cutters being engaged in cultivation.

The decrease in hay is due to less demand in selling markets.

The increase in straw is insignificant.

The increase in paddy is due to favourable market at selling stations.

The decrease in rice is insignificant.

The decrease in building materials is insignificant.

The increase in sundries is also insignificant.

Calcutta, the 13th October 1879.

R. G. MOOKERJEE, Manager.

Nalhati State Railway.

Statement showing Increases and Decreases in maundage of Staples carried over the line during the month of September 1879, as compared with the corresponding period of September 1878.

The decrease in brass and bell-metal ware is due to less import to unfavourable market.

The decrease in coal is due to larger import in March 1879.

The increase in edible grains is due to greater import to favourable market in the neighbourhood of Azimgunge, owing to failure of early crops on account of early floods of the Padma river.

The decrease in jaggree and sugar is trifling.

The decrease in piece-goods is due to less import on account of inundation in the districts of Rajshahye and Moorshedabad.

The increase in silk and silk-cloths is due to greater export.

The increase in seeds is due to greater import to favourable market.

The decrease in shoes is trifling.

The increase in sundries is due to greater import to favourable market.

NOTIFICATION.

The 22nd October 1879.—The following rules having been published in the *Calcutta Gazette* since the 20th August 1879, will take effect from the 21st October 1879, in accordance with the provisions of Section 2, Act VII (B.C.) of 1879:—

Rules made by the Lieutenant-Governor of Bengal for the examination of, and the granting of certificates to, Commanders of Inland Steam Vessels.

N.B.—The provisions of Rule 1 will not be applied in the case of candidates who are at the date of the publication of these rules actually in command of a river steamer.

1. Candidates for certificates as commanders of inland steam vessels must be not less than 21 years of age, and have served at least 3 years at sea, and 3 years as mate of a river steamer, or master of a river flat.

2. Every such candidate shall apply for permission to appear for examination in a printed form,* to be filled up by him, and forwarded to the Port Officer, Calcutta, together with such documentary evidence as shall satisfy the Port Officer that the candidate has complied with the conditions of Rule 1 above, and that he is of sober habits and of good character. Each candidate shall forward with his application a fee of Rs. 16.

* Copies will be supplied to intending candidates by the Port Officer, Calcutta, on application.

3. The Port Officer shall notify to accepted candidates the date and hour of examination, in fixing which he shall have due regard to the convenience of their employers. The fees of any candidate who is not accepted shall be returned to him.

4. The examination of candidates shall ordinarily be conducted by the Committee which sits quarterly for the examination of pilots, but the Port Officer may at any time convene a special committee for the examination of candidates under these rules.

5. Before proceeding to examine any candidate in the manner provided in the rule next following, the Committee shall carefully test his ability to distinguish the following colours which enter largely into the combinations of signals by day and night, viz. black, white, red, green, yellow, and blue. In the event of any candidate failing to satisfy completely the usual tests for colour blindness in respect of all of these colours, the Committee will decline to proceed with his examination, and will report the case through the Port Officer for the information of the local Government.

6. The Committee will examine each candidate apart, and *vis à vis*, in each and all of the following subjects:—

- (1).—The names and courses of the river reaches from Calcutta to Mud Point, and the extent of the sands in such reaches.
- (2).—The sets of the tides within the said limits.
- (3).—The names of all Points in the river within the said limits.
- (4).—The candidate's general knowledge of soundings in the channels and over the sands within the said limits.
- (5).—The tracks over the Moyapore and Royapore flats, the Fultah tracks, and the Eastern and Western Guts.
- (6).—The marks for fair channels or hauling into reaches where such exist.
- (7).—The marks for the limits of sands where such exist.
- (8).—The rules of the road.
- (9).—The management of river steamers under all contingencies of meeting, overtaking, and passing vessels in all possible positions within the limits described in No. 1.
- (10).—The anchorages to select in view of the requirements of sea-going vessels.
- (11).—The Tide Table.
- (12).—The rules of the Port of Calcutta including the prescribed Storm Signals.
- (13).—The provisions of Act VII of 1879.

7. If the candidate satisfy the Committee as to his knowledge of the subjects set forth in the foregoing rule, and generally as to his competency to command an inland river steamer, they shall certify the same to the Port Officer, who will then grant a certificate of such competency in the form appended to these rules.

8. No candidate who fails to satisfy the Committee shall be at liberty to submit a fresh application for examination until six months have passed from the date of such failure.

COLMAN MACAULAY,
Offg. Secy. to the Govt. of Bengal.

Orders and Notifications by the Government of India, &c.

[Reprinted from the Gazette of India.]

The following orders, issued by the Government of India in the Home, Revenue, and Agricultural Department, are republished for general information :—

NOTIFICATIONS—PUBLIC.

Simla, the 10th October 1879.

No. 1842.—The Governor-General in Council is pleased to sanction the following revised rule in substitution of rule 5 of the rules under the “Indian Arms Act, 1878,” published in Home Department Notification No. 518, dated the 6th March 1879 :—

5. No license shall be granted, save by the special order of the Governor-General in Council, certified under the signature of the Secretary to the Government of India in the Home Department, for the importation into British India, by sea, or river, or land, or for exportation from British India, by sea, of any cannon, or of any rifles or parts of or fittings for rifles, except rifles or parts of or fittings for rifles of such quality, or in such quantity, as may reasonably be held to be intended for *bonâ fide* sporting purposes.

ESTABLISHMENTS.

The 10th October 1879.

No. 559.—Mr. W. J. Money, c.s.i., is permitted to resign Her Majesty’s Bengal Civil Service, with effect from the 8th August 1879.

This cancels Notification No. 445, dated the 11th July last.

The following orders, issued by the Government of India in the Department of Finance and Commerce, are republished for general information :—

NOTIFICATIONS.

Simla, the 11th October 1879.

No. 3178.—On and after the 1st January 1880, the business of issuing and paying *

* *Nota.*—Money orders issued by the Treasury Department prior to the 1st January 1880 shall be payable by the Treasury under the former rules.

money orders, both Inland and Foreign, shall be transferred from the Treasury Department to the

Post Office, under the following rules :—

RULES FOR THE ISSUE AND PAYMENT OF INLAND MONEY ORDERS.

1. Imperial post offices generally (as per list in the Indian Postal Guide), with such exceptions as may be ordered by the Director-General of the Post Office from time to time, shall be authorized to issue and pay money orders, and shall be open for that purpose between the hours of 12 noon and 5 p.m., on every day except Sundays, Christmas Day, New Year’s Day, the Queen’s birthday, and Good Friday.

- 2. A separate application must be made for each money order. The application**

Applications for money orders must be made in this form between the hours of 12 noon and 5 p.m. on week days.

Inland money order application.

Date _____

* The post office at which the money order is to be made payable will generally be the same as the post office mentioned in the payee's address, but the remitter may name a different office of payment if he so desires.

† The district in which a post office is situated will be found immediately following the name of the office in the list of post offices in the Postal Guide. If the name of the office of payment mentioned by the applicant is the same as, or similar to, the name of any other post office, the addition of the name of the district by the applicant is compulsory. In other cases the post office is allowed to fill in the name of the district when omitted by the applicant.

should be written on one of the printed forms supplied (gratis) by the post office for that purpose. A diagram of the form is given on the margin.

3. The name of only one person may be entered in the application as payee, and the name of only one person as remitter, except in the case of firms or corporations, when the usual designation must be given.

4. All the entries to be made in the application (as indicated in the form) must be legibly writ-

ten: and the name and address of the payee must also be entered with such completeness as shall secure identification and avoid risk of wrong delivery. The occupation, rank, trade, or profession of the payee, and any other particular calculated to help in identifying him, should be added. The post office shall not be responsible for any wrong delivery or payment resulting from, or facilitated by, indistinctness, inaccuracy or incompleteness of name or address, or any other defect in the application. The entries in an application may be made by the remitter or any one employed on his behalf.

5. The application may be presented ready written at the post office or it may be written at the post office. Where other facilities for getting applications written do not exist, the post office officials will ordinarily be able to write an application on behalf of a remitter who appears in person at the post office, or sends an intelligent messenger, to the post office to give the necessary particulars.

6. Applications for money orders must be presented at the post office window. The remitter or his messenger, on presenting the application duly prepared together with the required amount (being the value of the money order and the commission chargeable thereon), shall receive a receipt bearing the dated stamp of the post office and the signature of the postal official who receives the money. The receipt shall contain particulars of the money order to be delivered to the payee and of his address ; *and the remitter should examine the receipt with the view of seeing that the particulars have been correctly entered.* Any error or omission should be pointed out at once by the remitter to the post office : and if he omits to do so, the responsibility of any mistake will rest with him.

7. The remitter shall have nothing to do with the transmission of the money order, this work being done entirely by the post office, but in due course he should expect to receive through the post office an acknowledgment signed by the payee. And if any unreasonable delay should occur in the receipt of this acknowledgment, he should represent the matter to the post office. On receiving the acknowledgment, the remitter should examine it to see that the particulars entered therein are correct, and that the signature is that of the payee, any observed defect or discrepancy being at once reported to the post office.

8. A money order shall be delivered by the post office of the post town named in the address given by the remitter, and if necessary, it shall be re-directed to a revised address within the limits of British India; but no such re-direction shall affect the office of payment as originally named by the remitter. A money order delivered by the post office to the payee shall be accompanied by a receipt and an acknowledgment, both of which must be signed by him on taking delivery of the money order. The acknowledgment so signed shall be forwarded by the post office to the remitter.

9. On every money order there shall be entered the post office of payment mentioned by the remitter in his application, as well as the head office thereof (if the office mentioned by the remitter be a sub or branch office) : and an order bearing the names of two post offices (sub or branch and head) as above may be presented for payment at either of them.

10. A money order is not transferable by endorsement: it must be signed by the payee named therein: and having been so signed, it may be presented for payment by the payee or any other legitimate holder. It should be presented at the post office of payment on as early a day as possible after receipt, delay in presentation being liable (in the case of small offices of payment) to necessitate the return of the funds originally provided for payment and to involve delay in the obtainment of a fresh supply of funds. After the close of the month following the month of the date of the money order, it shall lapse: a lapsed order shall, however, be payable within two months from the date of its lapsing, if notice

stamps equal in value to a second commission be affixed to the back of it. After the expiration of two months from the date of lapsing, the amount of the money order shall be forfeited. Thus an unpresented money order bearing any date in June shall lapse at the close of July and shall be forfeited at the close of September.

11. As an exception to the preceding rule, the signature of the payee shall be dispensed with when the payee cannot write and attends personally at the post office to make his mark in presence of a witness who knows him and is known to the post office.

12. A money order can be paid only at the office or offices of payment mentioned thereon, and if a payee desires to receive payment elsewhere, he should sign the order and send it to the *Head Office* of payment named thereon, with an application for the issue to him of a *new order* payable to himself or any one else named by him at such office as he may specify. A new order will thereupon be issued in accordance with his instructions, the amount of a second commission on the original order being deducted from the amount of the new order. The post office which receives the letter of application and issues the new order will send a receipt direct by post to the applicant. Any legitimate holder of a money order duly signed by the payee may make the application herein referred to.

13. A money order which cannot be delivered within the limits of British India shall be forwarded by the post office free of charge to the remitter.

14. A person to whom a money order issued on his own application has been returned by the post office as *undeliverable* may make application for a *new order* in the manner described in paragraph 12 above, and no deduction for second commission will be made in this case; but in attestation of his being the remitter, he must attach to his letter of application the receipt granted to him on his original application, or (if he has lost it) a duplicate obtained from the post office to which the original application was made.

15. If a money order is lost, application for a *duplicate* may be made *by the payee* to the office of payment or its head office, accompanied by a fee in cash equal to a second commission. It must be made in writing, and the post office shall require the applicant to furnish such particulars or evidence as may be deemed necessary to establish the claim. Such an application, if the office of payment be a sub or branch office, shall be submitted for orders to its head office. Second duplicates shall in no case be granted. The *remitter* of an undeliverable money order may also make the application herein referred to, but he must attach to his application the original receipt or a duplicate thereof as provided in the preceding paragraph. A duplicate order shall bear the *same date as the original, the dates of lapse and forfeiture being consequently the same*. Discretionary authority shall be vested in offices of payment to stop payment of an order represented to have been lost pending the presentation of a formal application by the payee for a duplicate.

16. The post office reserves the right of paying a money order to the bearer thereof, and shall not be responsible for the genuineness of the signature professing to be that of the payee, or for the legitimacy of the possession of the person presenting the order. The payee of a money order should, therefore, attend to its custody prior to presentation. After once making payment of a money order, by whomsoever presented, the post office shall not be liable to any further claim.

17. The following conditions shall be applicable to money orders granted by the post office, viz.—

- (1) The value of a money order shall not exceed Rs. 150, and shall not include the fraction of an anna.
- (2) The same remitter shall not be allowed to obtain in one day more than four money orders payable to the same person, except under special permission conveyed to the issuing office by the Compiler of Post Office Accounts, Calcutta.
- (3) The grant of money orders may be refused by any post office acting under special orders, owing to an unusual condition of the exchange market, an exceptional state of treasury balances, or any other special cause.
- (4) The commission charged on the issue of money orders shall be as follows :—

- (5) The second commission payable on lapsed orders, &c., shall be the same amount as a first commission according to the preceding scale.

RULES FOR THE ISSUE AND PAYMENT OF FOREIGN MONEY ORDERS.

18. All Imperial post offices authorized to receive applications for inland money orders shall be authorized also to receive applications for foreign money orders, and shall be open for that purpose between the hours of 12 noon and 5 P.M. on every day except Sundays, Christmas Day, New Year's Day, the Queen's birthday, and Good Friday.

19. Applications for foreign money orders must be written on the prescribed form

by the applicant himself, or by some friend or agent on his behalf, it being undesirable to allow the officials of the post office to write such applications, except in cases of special necessity. The amount of the foreign money order (whatever be the foreign country of destination) must be stated by the applicant in the appropriate place in British (sterling) money. If the foreign country of destination has a different

currency, the sterling amount will be converted by it into the local currency for the purpose of payment. The amount to be paid in India for the money order (including the commission) will be entered by every head post office on presentation of an application in which the value of the desired order has been stated in sterling money, and the applicant can then pay the amount indicated, obtaining a receipt on which further instructions will be found.

20. If the post office at which an application for a foreign money order is presented be a sub or branch office, it will be necessary for it to forward the application to its head office for examination, and in order to ensure the correct calculation of the amount due. On return from the head office the application will be delivered to the applicant, who may then present it accompanied by the required amount.

21. In preparing an application for a foreign money order, the name of the payee or the person to whom the money order is made payable should include the surname and at least the initial letter of one christian name. If the payee be a firm or company, the name of the firm or company will suffice. The address of the payee should be full and precise, as on it depends the determination of the particular money order office in the foreign country at which the money order is made payable. The same instructions apply as respects the name of the remitter, and if the remitter be a native of India, his tribe or caste and his father's name should also be given.

22. It will be necessary for the remitter of a foreign money order to write to the payee informing him of his (the remitter's) name as entered in the application. The payee will receive the money order direct from the head money order office of the country of payment.

23. The remitter shall receive from the Presidency post office, Bombay, an intimation that the money order has been communicated to the foreign country of payment. The remitter should retain in his possession this intimation, and also the receipt given to him for the amount paid by him, in case occasion should arise for making inquiry regarding the money order.

24. Foreign money orders shall be granted on the countries noted on the margin and

on any other countries which may from time to time be added to this list. The list will be found in the Postal Guide.

25. For the purpose of calculating the Indian equivalent of the amount of a foreign money order and the commission chargeable thereon, all head post offices shall be supplied with schedules drawn out at different rates of exchange, and shall receive orders from time to time as to the particular schedule to be used in such calculations. Copies of the schedules can be seen at any head post office or in the Postal Guide.

26. The following conditions shall be applicable to foreign money orders :—

- (1) The amount of a foreign money order shall not exceed £10 or contain the fraction of a penny.
- (2) The same remitter shall not be allowed to obtain in one day more than four money orders payable to the same person except under special permission conveyed to the issuing office by the Compiler of Post Office Accounts.

- (3) The grant of foreign money orders may be refused by any post office acting under special order owing to an unusual condition of the foreign exchange market, an exceptional state of treasury balances, or any other special cause.

27. The rates of commission are as follow :—

			Rs.	A.
On sums not exceeding £2	0	8
Exceeding £2 and not exceeding £5	1	0
Exceeding £5 and not exceeding £7	1	8
Exceeding £7 and not exceeding £10	2	0

These rates of commission are doubled in the case of money orders payable in Canada.

28. If the remitter of a foreign money order desires any of the services noted on the margin or has any complaint to make with regard to the money order remitted by him, he should address the deputy postmaster of Bombay enclosing the receipt granted to him

by the office of issue or the intimation received by him from the office in Bombay. The Bombay post office will communicate with the foreign money order office concerned and intimate the result. In the case of the cancellation of an order after reference to the foreign country of payment, the amount to be refunded will be the value of the order, but not the commission.

29. If a money order is returned by the foreign country of payment as undeliverable to the office in Bombay, the value of the money order, but not the commission, will be refunded to the remitter.

30. No second commission will be charged in India for any of the services mentioned in the two preceding paragraphs.

31. Foreign money orders coming from places abroad will be converted in Bombay into ordinary inland money orders, the value in sterling money of the original order being entered in Indian currency according to the schedule of exchange in force at the time (see Rule 25).

32. The Indian inland money orders so granted in discharge of orders from foreign countries shall bear the dates of actual preparation in the head office of payment, and shall be governed in all respects by the rules appertaining to ordinary inland money orders, *e. g.*, in respect of payment, lapse, forfeiture, and obtainment of duplicates or new orders. The second commission chargeable for the two last-mentioned services (*viz.* duplicates and new orders) shall be the same as the second commission which would be chargeable for similar services in respect of an inland money order of like value.

FROM

THE AUDITORS OF THE ACCOUNTS OF THE MUNICIPAL CORPORATION
FOR THE TOWN OF CALCUTTA,

To

THE MUNICIPAL COMMISSIONERS FOR THE TOWN OF CALCUTTA.

GENTLEMEN,

We have the honor to inform you that we have audited the cash and store accounts of the Corporation of Calcutta for the year 1878 and have found them to be correct.

2. The printed accounts of the several funds and loan accounts have been prepared in the forms which were introduced in 1877, and show the actual receipts and payments compared with the budget figures of the year and subsequent sanctions, bringing out the excesses or deficiencies in separate columns against every detailed heading. The balance of each account is stated also, as in 1877, so as to show in what proportions it is held in cash and stores and recoverable advances.

3. *General Fund.*—The general results of the year's operations for this fund are shown in the two memoranda given below:—

Actuals as compared with Estimate.

1878.					Receipts.	Charges.	Surplus.	Deficit.
					Rs.	Rs.	Rs.	Rs.
Estimate	21,21,922	23,24,241
Subsequent sanction	1,37,970
Total					21,21,922	24,62,211	3,40,289
Actuals	19,37,082	19,62,759	25,677

Less than the estimate	1,84,840	4,99,452	3,14,612

Actual Receipts and Charges.

* This includes Rs. 53,835-11-3 invested in Government securities. † This includes Rs. 54,373-1-3 repayable to the Bank of Bengal.

4. The figures which are shown in these statements as the estimated revenue and expenditure of the year differ, in regard to both receipts and charges, from the totals of the budget for 1878 as sanctioned by the Com-

missioners. The differences are as follows, and will be found explained in greater detail at pages 20 and 21 of the printed account :—

	Budget figures.	Revised figures.	Excess in budget.
Receipts	24,83,634	21,21,922	3,61,712
Expenditure	25,80,508	23,24,241	2,56,267

They are due to the following causes. An entry of Rs. 89,210 was unnecessarily made on both sides of the budget of the General Fund, in anticipation of the consolidation of the Government loans; as a contribution on account of the proportion of interest payable to the Government from the water-rate account. And, as in 1877 (see paragraph 8 of our report for that year), credit was taken in the budget as revenue for the value of stores issued to other departments and for advances recovered, to an amount in the aggregate of Rs. 2,72,502, while, on the other hand, advances to be repaid to other funds, to the amount of Rs. 1,67,057, were estimated as expenditure.

5. *Receipts.*—The deficiency in the revenue of Rs. 1,84,840 occurs under the following headings :—

	Rs.
House-rate	1,49,277
Hackery carriage fees	23,328
Notice of demand and warrant fees	10,783
Removal of business refuse	10,381
De-watering and filling up tanks	6,782
Night-soil assessment bills	68,027

and there are small excesses over the estimate under other headings forming a set-off against these figures.

6. We have to repeat the remarks which we made last year on the following points. The collections of the Dhurumtollah Market still include the taxes realized from the tenants, which are incorrectly shown as market receipts, and the headings Tank filling receipts and House Drainage fees include many items which are not items of revenue. The register of lands and immoveable property, and of rents realizable from surplus lands, which were directed to be opened on our recommendation in 1876, have not been produced to us, and we have therefore been unable to trace in them the sales of land for which credit appears in the accounts of the year.

7. *Expenditure.*—The falling-off in the expenditure as compared with the estimates is due, as in 1877, to the liabilities of the year not having been fully met. We presume that the budget of 1878 included provision for the outstanding liabilities of the former year. In the following cases, however, the estimated figures have been exceeded, and subsequent sanctions have not been produced to us to cover the excess :—

	Rs.	A.	P.
Conservancy and road establishment	190	3	0
Store Department ditto	44	5	9
Proportion of Collector's establishment for collecting miscellaneous bills	875	10	5
Repair of office	44	4	5
Hackery tickets	120	2	0
Hackery carriage tickets and other charges	659	8	0
Crushing machine	40	15	10
Repairs of roads	37,914	14	8
Purchase of water carts	1,478	13	1
Repair of engine of drainage pumping station	743	13	2
New boiler	89	12	0
House drainage establishment	1,205	15	5
Repair of railway locomotives and wagons	498	15	2
Night-soil out-door establishment	1,774	10	2
Profit and loss	323	15	2
New machinery and boiler for Entally	114	6	6

8. The explanatory foot-note at page 3 of the printed accounts will show that the amount which, under section 337 of the Act, has to be set aside annually on account of interest on the debenture loans in anticipation of payment to debenture-holders, was not so set aside during 1878.

No charge was made during the year against revenue on account of the contribution to the Debenture Loan Sinking Fund under section 337 of the Act, and therefore the investment which is prescribed by the law was not made. The amount due on this account on the 31st December was Rs. 1,16,083-5-4, made up as follows :—

	Rs.	A.	P.	
* From Genl. Fund	5,600	10	8	1,10,000 0 0 on old loans,
.. Water-rate Fund	416	10	8	6,083 5 4* on loan of 1878.
	6,083	5	4	1,16,083 5 4

The Accountant-General duly brought to notice the non-receipt of securities which should have been forwarded to him on account of the old loans, and he has since received them; but we understand that he has received no replies to his enquiries whether fresh additions have been made to the debenture loans in the course of the year 1878.

9. We observe also that the following sums, which are shown to have been paid to the Accountant-General, Bengal, on behalf of the Trustees of the Municipal Loan Sinking Fund on the dates stated, have not been credited in the Trustees' accounts for the year :—

	Rs.	A.	P.	
Paid on the 29th June 1878	18,478	14	8	Contribution towards Drainage Loan Sinking Fund.
	951	5	5	Ditto Office Loan do.
	4,102	8	0	Ditto W. S. Extension do.
	23,532	12	1	
Paid on 31st December 1878	31,454	0	0	
	54,986	12	1	

Interest has thus been lost to the Sinking Fund on Rs. 23,532-12-1, which remained uninvested for more than six months.

10. The expenditure shown under the heads House Drainage and Tank filling includes, as it did in 1877, amounts which are recoverable from contractors or the public. We repeat our remarks that the check over the realization of these advances is not satisfactory.

11. Of the numerous items of expenditure which were incurred during the year without the sanction of the Commissioners in meeting, the Town Council have sanctioned all but the following charges, which, we observe, they have declined to sanction:—

	Rs.
Cost of an iron latrine	1,200
Conveyance allowance to the assistant assessor	52

In anticipation of the proceedings of the Town Council being approved by the Commissioners in meeting, we note these charges as having been disallowed, having passed the others in audit.

12. We observe also that the Town Council, in sanctioning the arrangements made by the Chairman under which leave was granted to a clerk in the Engineer's office on half pay, and a substitute appointed on the other half, have expressed their opinion that such arrangements can be made by the executive. We beg accordingly to call your attention to section 36 of Act IV of 1876, which provides that "the Chairman may, with the sanction of the Commissioners in meeting other than an ordinary meeting, pay out of the Municipal Fund such allowances to the said persons respectively, or in case of absence on leave such portion thereof as he shall think reasonable, provided that the allowances of the offices filled by the said persons shall have been sanctioned in meeting other than an ordinary meeting."

The power to sanction allowances to acting incumbents, thus expressly reserved by the law to the Commissioners in meeting, cannot be delegated to any executive officer with reference to section 53 of the Act, which provides that neither the Chairman nor the Vice-Chairman shall exercise any of the powers reserved by the law for the Commissioners in meeting.

13. *Water-rate Account.*—We subjoin a summary of the transactions for the year of the water-rate account in the forms given at paragraph 3.

14. The payment which was made to the Accountant-General on the 29th June, as noticed at paragraph 6, on account of the contribution to the Municipal Loan Sinking Fund, included a sum of Rs. 4,102-8-0 from water-rate revenue which had not yet appeared in the Trustees' account on the 31st December.

15. The following charge has been disallowed by the Town Council and is noted accordingly:—

Cost of three street bathing lamps, Rs. 1,050.

16. *Lighting-rate Account.*—The following are the figures for the lighting-rate account in the forms given at paragraph 3:—

† Repayable to General Fund.

17. The expenditure incurred during the year under the following headings exceeded the budget figures to the amounts stated, and the excesses have not been covered by subsequent sanctions of the Commissioners:—

	Rs. A. P.
Miscellaneous contingencies ...	385 8 8
Illumination on the 1st January ...	74 0 0
Gas Analyst's salary and establishment ...	12 0 0

18. The charges of the Lighting-rate Fund include this year large sums which have been expended in the purchase of new lamps and lamp-posts and in setting them up, and we observe that provision was made for the first time for such expenditure in the budget of the year.

Hitherto, in accordance with section 192 of the Municipal Act, the Lighting-rate Fund has been debited with only the "current expenses of lighting the streets," while the "expenditure requisite for the purchase, setting up, clearing, and maintenance of lamps, lamp-posts, pipes, and other necessary apparatus" has been made from the General Fund. We are of opinion that the former practice was correct, and that it is contrary to the law to debit to the Lighting-rate Fund the cost of new lamps and lamp-posts which should be paid from the General Fund. We note that the Town Council differ from us in opinion in this matter, and have stated in reply to our objection that they do not consider such charges to be contrary to section 192 of the Municipal Act.

19. We have recorded the same objection, and with a similar result to a charge against the Lighting-rate Fund of the cost of illuminating the municipal buildings on the 1st January 1878, Rs. 485. Such a charge cannot be said to form one of the current expenses of lighting the streets, which are only the charges admissible against this fund.

20. The effect of these transfers of expenditure from the General to the Lighting-rate Fund is to relieve the house-owners of a portion of their legal liability as the expense of the tenants of houses in Calcutta.

21. *Drainage Loan Account.*—The printed account of the expenditure from the Drainage Loan has been altered this year, so as to show for every sewer which was under construction during the year (besides the year's charges), the entire amount that has been expended upon it since the work was begun. By this means it is possible to compare the sanctioned cost of each work with the actual expenditure on it to the end of 1878. In the following cases the sanctioned cost has been exceeded to the amounts stated:—

DRAINAGE WORKS COMPLETED DURING THE YEAR.

	Rs. A. P.
Rajah Rajbullub's Street ...	1,679 10 2
Ramkisto Bose's Lane ...	477 7 4
Bonomally Sircar's Street ...	1,213 15 3
Nundoram Sen's do. ...	490 13 1
Kripanath's Lane ...	83 9 10
Modhoo Pal's do. ...	127 10 6
Sewer in ditch No. 2 ...	226 1 3

Do. do. do. ...	4,376 2 2
Gooriamah's Lane ...	291 7 11
Establishments ...	138 7 4
Repairs of damages done in Copalitollah Lane ...	11,092 1 5
Stamp on debentures ...	350 0 0
Night-soil depôts ...	517 7 0
	4,019 14 2
	16,879 6 7

In the following drainage works under construction the estimated cost of the completed work has already been exceeded:—

	Rs.	A.	P.
Forriapooker Street	103	5	11
Hurry Mohun Bose's Street	73	7	8
Nilmoney Mitter's do.	1,250	8	2
Kally Persad Dutt's do.	282	2	8
Ballakhannah Street through Rajah's Garden	125	4	6
Kristodas Pal's Lane new road land	18,879	2	8
Mitter's Lane, and new road	1,507	11	10
Do. do. do. land	10,847	6	7
South Collingah Street, new road	799	9	11
Do. do. do. land	15,301	4	6
	<u>48,970</u>	<u>0</u>	<u>5</u>

22. Of the drainage works on which expenditure was incurred during the year, the Commissioners do not appear to have sanctioned the estimates in 26 cases which were dealt with by the Chairman alone.

The total amount so sanctioned by the Chairman was Rs. 62,634-1-3.

23. Among the items of contingent expenditure met from the Drainage Loan there has been included, we observe, the cost of stamps for the new debentures Rs. 517-7-0, but the charge ought, we think, to be met from the revenue of the year, and we note it accordingly as realizable from the General Fund.

24. *Balance Sheet.*—The balances on the 31st December of the stores and suspense accounts, as shown in the printed balance sheet, have been analysed and explained in detail with the following exceptions:—

	Rs.	A.	P.
1. Deposit for appeal against assessments	3,058	10	0
2. Road Department recoverable charges	809	5	3
3. Town Hall recoverable charges	1,188	12	0
4. Group drainage recoverable from private parties under section 225 of the Act	363	14	0

Of the amount (Rs. 38,323-7-0) entered as the balance of miscellaneous bills in the hands of the Collector, the detailed list of bills furnished by the Collector includes only Rs. 34,448-13-6.

The difference Rs. 3,874-9-6 represents bills made over by the Collector to other Departments, from whom lists have not been obtained.

25. We have not been shown the Bank's statement which should exhibit the Government promissory notes, which were held by the Bank on the 31st December on behalf of the Comptroller-General and Chairman of the commissioners as Trustees of the Water-supply Loan Sinking Fund.

26. We find also that the balance, which remained at debit of the Trustees of the Municipal Loan Sinking Fund on the municipal ledger, differs from the balance of the account to the 31st December rendered by Trustees, and published in accordance with the law in the *Calcutta Gazette* of the 18th June last. The difference is explained as follows:—

	Rs.	A.	P.
Interest realized by the Trustees during the year and credited in their account, but not brought upon the municipal ledger	69,739	14	3
Paid to the Accountant-General on behalf of the Trustees, but not credited by the Trustees during the year—			
On the 29th June 1878	23,532	12	1
On the 31st December 1878	31,454	0	0
	<u>54,986</u>	<u>12</u>	<u>1</u>
Difference short credited in municipal ledger	14,753	2	2

27. The balance of the market loan also on the 31st December is differently stated by the municipality and the Accountant-General as follows:—

	Rs.	A.	P.
Municipal ledger balance	11,77,330	2	2
Accountant-General's balance	11,74,984	1	5
Difference	<u>2,346</u>	<u>0</u>	<u>9</u>

The Accountant-General, it is explained, credited the market loan on his books with an amount which was intended by the municipality to be applied to a different purpose.

28. We observe that a payment of Rs. 292-4-0 was made during the year to the Accountant-General in reduction of the amount due to the Government, with a view to the issue of a consolidated loan of an even sum for which application had been made. No authority from the Commissioners for this payment has been produced to us, and as the Government loans have not yet been consolidated, this amount, which is held in a suspense account, should be recovered from the Accountant-General.

29. The separation of the Debenture Loan Sinking Fund from the Sinking Fund maintained for Government loans has not yet been carried out. The balance under the former heading includes at present only the sums contributed from revenue during 1877. We beg to call your special attention to the necessity of making this separation without delay.

30. The balances of the material depôts have been verified this year under the supervision of the Engineer of the Corporation, who took charge of the Store Department on the 31st December. The results have been agreed with the balance on the ledger. The Kotrung stock list has been similarly verified. But the stock lists of the Entally store and the Entally manufactory were not received before the closing of the books, which therefore show only the book balances under those headings. The necessary re-adjustments have been made in 1879, and involve the writing off to profit and loss of Rs. 1,114-13-3 and Rs. 7,978-13-10 respectively, for which the sanction of the Commissioners in meeting will be necessary.

31. We consider it right to point out, in connection with the Entally stock list, that it includes a quantity of tramway stores and materials valued at Rs. 37,445-15-3, which are now brought upon the store ledger for the first time, having hitherto been included, we presume, in the total of the tramway block, which is still shown in the balance sheet at Rs. 1,47,175-12-8, and of which no details are obtainable. A re-adjustment of these figures will be necessary in 1879.

32. The following amounts are shown in the balance sheet as having been held by the late collectors and the Arrear Department in outstanding rate bills at the close of the year:—

	Rs.	A.	P.
Chunder Sekur Bose, collector, house-rate	1,35,995	4	3
Jogendro Nath Mookerjee, late collector, ditto	52,589	10	3
Chunder Sekur Bose, night-soil bills	65,669	1	0
Jogendro Nath Mookerjee, late collector, ditto	66,570	3	6
Superintendent, Arrear Collection Department, house-rate	16,629	15	0
Ditto ditto night-soil bills	14,681	2	9

WATER-RATE.

Chunder Sekur Bose	54,479	12	3
Jogendro Nath Mookerjee, late collector	30,302	15	3
Superintendent, Arrear Collection Department	11,880	4	0

LIGHTING-RATE.

Chunder Sekur Bose	30,958	8	9
Jogendro Nath Mookerjee, late collector	19,227	12	0
Superintendent, Arrear Collection Department	5,868	2	3

POLICE-RATE.

Chunder Sekur Bose	34,924	9	0
Jogendro Nath Mookerjee, late collector	21,823	0	6
Superintendent, Arrear Collection Department	6,672	0	0

Stock of these bills has not been taken, nor have detailed lists of them been produced to us. The amounts stated above agree with sums which are shown to be outstanding in statements prepared in the late collector's and the Arrear Department. These give, but only in lump sums, the bills received, collected, and outstanding. We observe that, as regards the late collector's department, all the statements are signed by Baboo Chunder Sekur Bose, whereas a large portion of the balance is held against Baboo Jogendro Nath Mookerjee.

33. We have further to remark, with reference to these outstandings, that the year's demand on account of the several rates as originally certified by the assessor of the Corporation was reduced during the year by an amount of Rs. 13,616-14-6 in the aggregate on reports from the collector (who had been debited with the full amount in every case) that the figures were incorrect. The revised figures were subsequently accepted by the assessor, and the collector's liability reduced accordingly.

We have, &c.,

Offy. Comptroller-General.

JAS. TAYLOR,
Assistant Comptroller-General.

RESOLUTION ON THE REPORT ON THE ADMINISTRATION OF THE REGISTRATION DEPARTMENT DURING THE YEAR 1878-79.

REGISTRATION.

Calcutta, the 13th October 1879.

RESOLUTION.

READ—

The Report on the Administration of the Registration Department during the year 1878-79.

Read again—

The Report for the previous year, with the orders of the Government passed thereon.

The results of the working of the Registration Department during the past year were eminently satisfactory. Notwithstanding the abolition of fourteen offices, and the introduction of an enhanced fee table, there was an increase of 48,882 in the total number of registrations; while the financial result was a net revenue of Rs. 3,79,531, as compared with Rs. 2,06,881 in the previous year and Rs. 1,36,714 in 1876-77. In no previous year except 1877-78 did the net surplus approach even one-half that of the past year.

2. The following statement exhibits the leading statistical data connected with registration during the past fourteen years:—

YEARS.	NUMBER OF REGISTRATIONS.				Total receipts.	Total expenditure.	Surplus.	Number of registration offices.
	Affecting immovable property.		Other registrations.	Total.

4. It appears from this table that there was an increase of 11·8 per cent. in registrations affecting immoveable property, while there was a decrease of 2 per cent. in the registration of documents not relating to immoveable property. In compulsory registration the increase was 11·9, and in optional registration 4·9 per cent. The total increase compared with the previous year was 8·8 per cent. There was an increase in the registrations of each class of document relating to immoveable property, except leases for one year and less, and miscellaneous documents; in the registrations of documents of which registration is compulsory, which comprise all the most important classes of deeds, there was an increase under every head. In ordinary agricultural leases there was an increase of 13 per cent. The districts which contributed most to the general increase in registration are Durbhunga, Shahabad, 24-Pergunnahs, Chittagong, Midnapore, Sonthal Pergunnahs, Tipperah, Nuddea, Noakholly, and Burdwan; while the only districts that show any decrease as compared with the preceding year are Chumparun, Maldah, Monghyr, Bogra, and Singbhoom. The total decrease in the last-named five districts was 23,118, while the total increase in the remaining districts was 72,000. In each of the ten districts Jessore (94,660), 24-Pergunnahs (42,581), Backergunge (39,827), Burdwan (28,193), Durbhunga (28,062), Chittagong (26,943), Nuddoa (25,438), Midnapore (24,986), Furreedpore (21,703), and Noakholly (20,284), more than 20,000 deeds were registered. The only district that showed any very marked falling off was Chumparun; and the decrease there was really nothing more than the necessary result of the abnormal increase in the two previous years in consequence of the ryots refusing to sow indigo unless their deeds were registered. The falling off of 20,285 registrations in Chumparun was compensated for by an equally abnormal increase of 20,419 registrations in Durbhunga, due to the presentation of an enormous number of agricultural leases from the Durbhunga Raj; so that the net increase of 48,882 registrations represents fairly the actual progress of registration in the past year. In Shahabad and Cuttack there were special causes for the increase of registration that took place; but the operations of those districts are not sufficiently numerous to materially affect the gross returns. The different provinces under this Government contributed to the total operations of the department in the following proportion:—Bengal Proper, 75·8; Behar, 19·8; Chota Nagpore, 2·2; and Orissa, 2·2 per cent.

5. The total number of perpetual leases registered during the past year was 119,015, a higher number than in any previous year, the registrations of 1877-78 being 108,678; of 1876-77, 102,747; and of 1875-76, 109,399. The districts that registered the greatest number of perpetual leases are—Jessore (32,805), Backergunge (17,969), Chittagong (15,501), Furreedpore (11,015), 24-Pergunnahs (7,732), Noakholly (4,851), and Nuddea (4,834). Besides these there are only four districts in which more than two thousand perpetual leases were registered—Burdwan (3,058), Midnapore (2,852), Pubna (2,533), and Bankoora (2,386.) The eleven districts just named are the same in which the registrations of perpetual leases were highest in 1877-78. In each of these districts except Midnapore there was an increase in the number of registrations, but the fluctuations were not sufficiently great to require explanation. In the remaining 33 districts, the number of perpetual leases registered annually is very small, but the returns show that there was an increase in 21 districts, against a falling off in 12 districts. In Manbhoom, the number of perpetual leases registered rose from 891 to 1,115, the increase being due to the grant in perpetuity of a large number of clearing leases of jungle lands. The abnormal increase in the number of perpetual leases in the Maldah district has ceased, and the number of registrations is now approximately the same as in 1875-76. The attempt made by several registrars to explain the increase in the number of perpetual leases by the high prices of food and the scarcity prevailing during the past year does not commend itself to the Lieutenant-Governor. There was a falling off in the number of perpetual leases registered in seven out of the twelve Behar districts.

6. The number of term leases registered was 141,805, against 125,211 in 1877-78 and 95,616 in 1876-77. More than half the increase in 1877-78 was due to the operations of indigo-planters in the Chumparun district, and the number of term leases in the district fell in the past year from 24,767 to 5,506.

This fall was, however, far more than compensated for by the increase of 21,186 in the number of agricultural leases granted by the Durbhunga Raj, and by the general increase in 28 districts against a decrease in only 15 districts. The increase in the number of registrations of term leases in Behar and Orissa is very satisfactory. In seven out of the twelve districts in Behar there was an increase, and excluding the abnormal registrations in Durbhunga and Chumparun, there was a total increase of 5,587 over the returns of the previous year. In Shahabad alone there was an advance of 3,349 registrations, or 198 per cent. on the number in the preceding year, the increase being mainly due to the grant of leases by indigo-planters. The registrations in Orissa were 4,315, against 1,172 in 1877-78. Next to Durbhunga, the district in which the greatest number of terminable agricultural leases was registered was Mymensingh, where there were 12,771 registrations, against 11,571 in the previous year. There is no doubt that the great majority of agricultural leases are not formally reduced to writing, and both the zemindar and the ryot are often averse to the execution of a lease, the former as it restricts his power of enhancing the rent, and the latter, lest it should bar his claim to a right of occupancy. The Lieutenant-Governor approves the proposal of the Inspector-General to issue for gratuitous distribution a broad sheet in the vernacular setting forth the provisions of the Stamp and Registration Acts regarding agricultural leases. The request made in paragraph 7 of the resolution on the report for 1877-78, that detailed information might be given as to the proportion of leases registered to counterparts, appears to have been overlooked. The last column of Statement No. IX only shows the number of kabuliyats registered simultaneously with pottahs. The information asked for would be interesting, and should be given in future reports. The Lieutenant-Governor will also be glad to receive in future reports information as to the character of the tenures transferred by sale or mortgage and the status of the parties to the sales. The form of statement given in the appendix is not, however, well suited to Bengal, and the Inspector-General should submit a revised form for approval.

7. There was an increase of 14,279, or 11·7 per cent., in the number of optional registrations of documents affecting immoveable property, the increase being distributed over 36 out of 44 districts. In the registrations of leases for one year, and miscellaneous documents affecting immoveable property, there was a slight decrease of 613; but as the total number of registrations of these documents is very small, the decrease has no significance whatever. The increase of 2,015 in the number of optional registrations of documents affecting immoveable property in the Sonthal Pergunnahs is attributed to the settlement of that district, which has given fixity to the ryots' tenures and rendered their transfer possible. The number of obligations for the payment of money registered in the past year was 88,612, as compared with 89,818 in 1877-78 and 69,047 in 1876-77. The decrease of 1,206, as compared with the returns of the previous year, is more than accounted for by the falling off of 1,524 in the registrations of the Jessore district alone. As in the year 1877-78 more than half of the total number of bonds for the payment of money registered in Bengal were registered in Jessore, and the falling off was only 3 per cent. of the actual registrations. The decrease in the number of bonds registered was entirely in those of less value than Rs. 25, and the returns of registrations of bonds of every value above that amount show an increase over those of the previous year. The aggregate value of the bonds registered in 1878-79 was nearly ten lakhs of rupees in excess of the aggregate value in 1877-78. No explanation has yet been found to account satisfactorily for the extraordinary fact that the number of bonds for the payment of money registered in Jessore is in excess of the number registered in the whole of the rest of Bengal.

8. There was a slight falling off in the registration of wills, the number registered being 1,849, as compared with 1,954 in 1877-78 and 1,681 in 1876-77. In the other minor operations of the Department there was a satisfactory increase. The number of authorities to adopt was 47, against 35 in the previous year; and the number of applications for search and copies of documents was 17,733, against 16,575 in 1877-78 and 13,362 in 1876-77.

9. Registration was refused in 2,560 cases, against 2,222 in 1877-78; and the Inspector-General reports that appeals against orders refusing registration were made to district registrars in 176 cases, apparently under the term

'appeals' Mr. Bourdillon has included applications made to the registrar under section 73 of the Act, which are not really appeals, as the sub-registrar has under section 35 no option but to refuse registration when any of the persons by whom the document purports to be executed deny its execution. The reasons given by the Inspector-General in paragraph 16 of his report would be applicable against any proposal to transfer to special sub-registrars the strictly appellate powers of the registrar under section 72 of the Act; but they would not apparently apply to a proposal to grant to special sub-registrars under section 7 the power of hearing applications under section 73. The question for determination in these cases is one of fact only, and the special sub-registrar should, the Lieutenant-Governor thinks, be competent to decide it, especially as, if he refused registration, there would be an appeal to the civil court, while, if he directed registration, his decision would not bar the objecting party from denying the validity of the document in any subsequent suit. In very few districts, however, is the number of applications under section 73 sufficiently large to render it desirable that they should be heard by special sub-registrars. As the question is one on which there appears to be considerable difference of opinion between many of the district registrars and the Inspector-General, the Lieutenant-Governor desires that any application from a district registrar to depute his appellate powers to a special or sudder sub-registrar may be submitted to Government for orders. The report called for from the Registrar of Pubna regarding the deeds of gift by which female children are made over to prostitutes should be submitted to Government, and it should be stated whether a prosecution under the Penal Code was instituted in any case.

10. The number of registered documents ascertained to have been discredited and rejected by civil courts during the past year was only 9 as compared with 25 in the previous year. Under the High Court's circular No. 6, dated the 3rd March 1877, which was issued after communication with Government judicial officers are directed to inform the Registration Department in only those cases in which registered documents have been discredited, and where there is also a strong *prima facie* case indicating the propriety of a prosecution. In cases, however, where a prosecution may be inexpedient, the Inspector-General would often desire to hold a departmental enquiry, and the High Court will therefore, as requested by Mr. Bourdillon, be moved to order that a brief notice of the facts may be given to the district registrar whenever a registered document is discredited. The prosecutions under the Registration Act instituted during the year were 76 against 67 in 1877-78 and 38 in 1876-77, the increase being attributed to more frequent and careful investigation in cases in which registration was refused. Out of 121 persons tried, 83 were convicted, 70 being punished with imprisonment, and 13 with fine.

11. The following statement shows the actual cash receipts and expenditure of the Department for the past five years:—

		Receipts.	Expenditure.	Surplus.
		Rs.	Rs.	Rs.
1874-75	...	5,52,325	3,86,953	1,65,372
1875-76	...	5,56,505	4,17,402	1,39,103
1876-77	...	5,66,882	4,30,168	1,36,714
1877-78	...	6,64,236	4,57,355	2,06,188
1878-79	...	8,70,497	4,90,966	3,79,531

To the departmental cash expenditure of Rs. 4,90,966 must be added Rs. 57,654 on account of stationery and printing, and Rs. 8,571 for Public Works charges, thus reducing the surplus, after the deduction of book debits, to Rs. 3,13,306. The charge for stationery is necessarily very high, and the Lieutenant-Governor is glad to learn that the Inspector-General proposes to effect a considerable reduction by the adoption of a cheaper kind of paper for some of the departmental books and forms. Apart from such measures as this, the expenditure on account of paper and printing must be expected to increase with the expansion of registration. Out of the total departmental expenditure of Rs. 4,90,966, the percentage paid to registering officers amounted to Rs. 2,65,924 as against Rs. 2,50,127 in 1877-78. Owing, however, to the adoption of revised rates of remuneration for special and sudder sub-registrars, and the closing of several

rural offices, the charge on this account was only 30·5 per cent. of the gross receipts as compared with 37·6 per cent. in the previous year, the actual increase being far more than accounted for by the increase in the amount of fees realized. The abolition of rural offices has in some cases necessitated an increase in the establishment of the nearest *ex-officio* officer, and this fact explains the increase under the head of permanent establishment in the mofussil.

12. In pursuance of the policy of closing small rural offices and of substituting *ex-officio* sub-registrars for special and rural officers at district and sub-divisional head-quarters, two district offices and fifteen rural offices were closed during the year, the work being made over to a Deputy Magistrate when the office was at the district head-quarters, and to the sub-divisional officer in the other cases. Ten small rural offices, six of which were in the Burdwan district, were abolished, and it is satisfactory to find that, notwithstanding the decrease in the number of offices, there was an increase in registration; while owing to the heavy rates of commission at the smaller offices having ceased, the surplus revenue was larger than in any previous year. The total number of offices on the 31st March 1879 was 295, as compared with 309 on the same date in 1878. Since the close of the year two more special sub-registrarships and four rural offices have been closed.

13. Although several rural sub-registrars were dismissed or suspended for misconduct in connection with their official duties, their actual work, as well as that of the other special-officers of the Department, is reported to have been good during the past year. Sir Stuart Bayley, however, regrets to find that several of the *ex-officio* sub-registrars are mentioned unfavourably. The Lieutenant-Governor can scarcely believe that any district officer would knowingly place the least effective Deputy Magistrate at head-quarters in charge of the sub-registry office, or that he would, if the matter were properly represented to him, insist on giving the work to the treasury officer who cannot possibly inspect the rural offices. If any district officer so misunderstood his duty, Mr. Bourdillon should have referred the matter to Government. The Lieutenant-Governor regrets that the Inspector-General was on several occasions compelled to refuse his countersignature to the commission bills of *ex-officio* sub-registrars who showed laxity and indifference in their work. Mr. Bourdillon states that the effect of withholding a part or the whole of the sub-registrar's commission has been unsatisfactory; but it is not clear from the report whether the Inspector-General desires to propose any other measure more calculated to induce *ex-officio* sub-registrars to give greater attention to the registration of assurances. If so, a special report should be submitted on the subject. The Lieutenant-Governor will be prepared to consider any proposals that the Inspector-General may make for placing special officers at the head-quarters of sub-divisions in Jessore or elsewhere where the work connected with registration is so heavy as to make it impossible for the sub-divisional officer to perform it satisfactorily.

14. The extraordinary fluctuations in the receipts of many of the special and rural offices during the past year caused corresponding variations in the income of the officers in charge, rendering their remuneration in many cases wholly out of proportion to their work. It became therefore necessary to consider whether a system of remuneration could not be adopted which should give even the sub-registrar with the smallest amount of work a fair livelihood; while, in the event of the work of his office increasing, his income should rise gradually, without being dependant upon the value of the deeds presented for registration. Such a system for the remuneration of special sub-registrars was devised by the Inspector-General, and was, with a slight modification, submitted for the sanction of the Supreme Government. The scheme came into force at the beginning of the current year, and the Lieutenant-Governor is now awaiting a report on its working during the first six months since its introduction. For rural sub-registrars, the system of remuneration by percentages on the receipts from fees is still in force, but the necessity of constantly revising the percentages according to the variations in the work and receipts of the different offices has caused so much inconvenience both to the sub-registrars and the Government that, if the new

system for the payment of special sub-registrars is successful, the Lieutenant-Governor will gladly recommend to the Government of India the adoption of a scheme based on the same principles for the remuneration of rural sub-registrars. In order to guard the records of the Registration Department against destruction by fire, the Lieutenant-Governor directed that all fire-proof safes should, whenever it was possible, be imbedded in masonry, and this order has now been carried out in 32 out of 44 districts. The theft of books from the Gya record-room in January last should have been reported to Government at the time of its occurrence.

15. The operations under the Mahomedan Marriage Registration Act, I (B.C.) of 1876, were but slightly more successful during the past year than in the year 1877-78. The Act was not extended to any fresh district, and the number of officers remained 103—the same number as at the close of the previous year. The following statement shows the number of ceremonies registered in the last three years:—

YEAR.	Number of districts in which the Act was in force at the beginning of the year.	Marriages.	Khula division.	Other divisions.	Total ceremonies.
1876-77	6	2,555	161	402	3,118
1877-78	13	7,391	595	1,404	9,390
1878-79	14	8,161	771	1,705	10,637

Of the 103 offices open at the close of the year, only five registered more than 500 ceremonies, and only six other offices more than 200 ceremonies. As many as 62 offices registered less than 50 ceremonies each, 45 of the 62 offices registering less than 20 ceremonies each. It is, as the Inspector-General states, clear that the Act is not appreciated generally even in the districts to which it has been extended, and the Registrars of Chittagong and Rungpore, where the ceremonies registered were 2,802 and 2,305 respectively, are the only two district officers who report favourably of the working of the Act. The Lieutenant-Governor does not, however, agree with the Inspector-General in his opinion that the Act has been long enough in force to justify Government in declaring it a total failure. Registration under the Act is voluntary, and the Lieutenant-Governor sees no reason why, if care is taken in the selection of persons to be marriage registrars, the Act or its working should be unpopular. The small number of ceremonies registered at Cox's Bazar as compared with the registrations at Puttya and Satkania is no doubt due to the small number of Mahomedans in the neighbourhood of the first named station, compared with the number at Puttya or Satkania.

16. The work of inspection both by the special officers of the Department and by local officers was fairly carried out during the past year, but the Lieutenant-Governor found it necessary to define more strictly the duties of special sub-registrars and sub-divisional officers in this respect. According to the orders of Government of the 5th December last, each rural office must now be inspected once a quarter by the special sub registrar or sub-divisional officer, and the Lieutenant-Governor trusts that the returns of the current year will show that these orders have not been neglected. The remarks of the Inspector-General regarding the special officers of the Department, and the names of the other officers who are favourably mentioned for their work in connection with registration, will be forwarded to the Appointment Department of this office.

By order of the Lieutenant-Governor of Bengal,

HORACE A. COCKERELL.

Secretary to the Government of Bengal.

RESOLUTION ON THE GENERAL ADMINISTRATION REPORT OF THE ORISSA DIVISION FOR 1878-79.

GENERAL DEPARTMENT.—MISCELLANEOUS.

Calcutta, the 16th October 1879.

RESOLUTION.

READ—

The General Administration Report of the Orissa Division for 1878-79.

Mr. Smith was Commissioner of the Division throughout the year. The report submitted by him is very full and contains copious and interesting extracts from the reports of the district officers.

2. *Tours.*—The Commissioner was out for over three months altogether at different periods of the year. His presence was required at the beginning of the year in the tracts adjoining the Chilka Lake, where the failure of the crops in the two preceding seasons, and the high prices then ruling, had rendered necessary the opening of relief works on a small scale for the benefit of the people. In the cold weather his tour was confined to the Tributary Mehals. The District and Sub-Divisional Officers also travelled a good deal over their jurisdictions. The late Sub-Divisional Officer of Kendrapara alone failed to give sufficient attention to this duty.

3. *Weather and the Crops.*—The season was on the whole a good one. For several weeks after May the weather was unusually dry, and fears were entertained for the rice crop, but good and well-distributed rainfall was subsequently obtained, and prospects rapidly improved. There was fortunately no recurrence of floods, such as caused much damage in the previous year. The general outturn of late rice, the staple crop of the division, is reported to have been up to the average. In Cuttack the Collector states that the season was an unusually favourable one for the agriculturist. He estimates the yield of early rice at 14½ annas, of late rice at 14 annas, and of the cold-weather crops at 10 annas. In Balasore the area of cultivation was somewhat contracted in consequence of the drought experienced in the early part of the year, and the crops were injured by unseasonable and stormy weather in November and December. The outturn for the whole district was about 11½ annas. In Pooree the result of the harvest was less favourable than in the other districts. A general failure of the late rice crop appeared imminent at one time in the Khoorda sub-division, but an outturn of 12 annas was eventually obtained.

4. *Public health and material condition of the people.*—A great deal of sickness prevailed in the division during the year. The delay which occurred in the breaking of the rains, an unusually high range of the temperature throughout the greater part of the year, and the fact that the poorer classes were compelled on account of high prices to consume less nutritive food than in ordinary years, are mentioned by the Commissioner as probable causes of the unhealthiness of the year. In Cuttack there was a considerable increase of mortality, due chiefly to fever and cholera. In Pooree the inhabitants of the forest tracts of Khoorda and the neighbouring Gurjat territory suffered badly from fever. An epidemic of malarious fever broke out in various parts of Balasore at the close of the rains, and lasted through the entire cold season. Three native doctors were specially deputed to the affected localities. It is believed by the people that the absence of the annual inundations contributed to produce the outbreak. A similar cause has been assigned for the prevalence of the disease in Maldah during the past few years. The arrangements made for securing the cleansing of the pilgrims' rest-houses along the Trunk Road are reported to be working satisfactorily. The vaccination establishment in Cuttack performed 34,619 operations against 36,375 in the previous year, and were successful in 98·71 per cent. of the cases against 93·87 per cent. The Lieutenant-Governor quite concurs in the Commissioner's opinion that the time has not arrived for prohibiting inoculation in the district.

5. Of the material condition of the people, the Collector of Balasore remarks—"Whatever change there has occurred in the material condition of the people during the year under report has been in the direction previously indicated; it has consisted in the amelioration of the circumstances of the

cultivators and the deterioration of the condition of the non-agricultural classes." The Commissioner also testifies to the improvement which has taken place in the condition of the cultivating classes in recent years. The scarcity which prevailed in the neighbourhood of the Chilka Lake during a portion of the year was judiciously met by small relief works and charitable relief. The total expenditure incurred amounted to Rs. 30,864.

6. *Emigration and Immigration.*—There is no emigration deserving of the name from the districts of the division. A large number of men annually leave to take service in Calcutta and elsewhere in Bengal, but these constantly return to their homes for the purpose of spending their savings. They form, with the pilgrims to the Temple of Juggernaut and other shrines, the bulk of the passengers carried by the steamers which ply between Calcutta and the Orissa ports. The number of passengers who embarked and landed at Chandbally during the past year was 33,640 and 33,430 respectively, against 27,681 and 30,285 in the previous year. It is reported that from Madras the division receives a steady influx of Telugu labourers, whose numbers appear to be gradually increasing, and who are settling down with their families. Instances of the acquisition of land by Bengalis are not very common in the present day. The maritime commerce of the province is still mostly in the hands of foreigners, but the Ooryas are gradually taking a larger share in it. They are also helping to develop the trade with the Tributary Mehals, where the maintenance of order has led to a large increase of cultivation.

7. *Prices of food and labour.*—Prices were high everywhere in the division during the year. The Commissioner attributes the rise partly to large exportations to Madras and other ports, and partly to the diminution of the outturn in some places in consequence of heavy rainfall in December. The wages of skilled labour have undergone no material change, but those of unskilled labour are said to be rising, owing to the increased cost of food.

8. *Salt manufacture.*—Salt manufacture, which is the principal industry of the province, has undergone a most satisfactory revival, much to the advantage of the poorer classes on the saliferous tracts, to whom it affords employment. An increase in the rate of duty on Ganjam salt enabled the Orissa manufacturers to under-sell that salt in the local markets, and they were further benefitted by the Government paying the cost of the protective establishments. The total quantity of salt manufactured was 5,76,644 maunds as compared with 1,52,963 maunds in 1877-78. In Cuttack 27,613 maunds were manufactured against 10,996; in Balasore 1,47,555 maunds against 94,127; and in Pooree 4,01,436 maunds against 47,839. The salt revenue amounted to Rs. 11,59,748, and the sales to 4,41,915 maunds; the figures for the previous year being Rs. 9,37,960 and 3,47,864 maunds respectively.

9. *Trade and Commerce.*—The value of the trade of the Orissa ports in the last two years is shown in the following statement:—

		1877-78.		1878-79.	
		Rs.		Rs.	
FALSE POINT	Imports	...	36,23,812	...	19,28,230
	Exports	...	36,74,817	...	28,28,183
	Total	...	72,98,629	...	47,56,413
BALASORE	Imports	...	53,08,743	...	35,82,421
	Exports	...	58,63,579	...	49,24,834
	Total	...	1,12,32,322	...	85,07,255
POOREE	Imports	...	62,629	...	1,30,302
	Exports	...	5,62,894	...	3,95,484
	Total	...	6,25,523	...	5,25,786

The total trade of the past year was thus valued at Rs. 1,37,89,454, as compared with Rs. 1,91,56,474 in 1877-78. In the latter year, however, trade was abnormally active, owing to the large demand for grain in the famine district of Madras, and the returns cannot be fitly compared with those of any other year. The steady development of the trade of these ports, which began in 1869-70, has, as a fact, been maintained in the past year. The Commissioner observes: "In 1869-70 the total value of trade, both in imports and exports, was Rs. 14,92,666; in 1873-74 it had risen to Rs. 58,98,464; and in

the year under report it was Rs. 1,37,89,454: in other words, the traffic in 1878-79 was nearly four times that of 1869-70, and that of 1878-79 a little more than twice that of 1873-74. The figures of the intermediate years, notwithstanding the fluctuations revealed, show a steady development, which is full of hope for the future progress of the trade of Orissa."

The chief article of export is rice. In the past year 423 tons of unhusked, and 22,183 tons of husked rice, valued at Rs. 16,156 and Rs. 20,28,970 respectively, were exported from the province. The imports consist mainly of cotton and silk fabrics, metals, spices, gunny-bags, and ghee. In addition to the sea-borne trade, a large traffic is carried on by means of the Chilka Lake and Ganjam road.

10. *State of public feeling.*—There was no manifestation of strong public feeling on any subject during the year. The high price of food was naturally a subject of complaint everywhere among the labouring classes and people with fixed incomes. The license tax is also said to have excited a good deal of grumbling, but the Commissioner makes only a passing allusion to this subject. The extent to which public feeling was excited by the working of the measure, and the points to which objections were chiefly addressed, should certainly have been discussed in a report which purports to treat of the general administration of the division. Among local topics, which have created some interest and discussion, the most important were the settlement of the Khoorda Estate and the demand for putwaree papers from the zemindars.

11. *Public Press.*—The division possesses three vernacular newspapers—two published at Balasore and one at Cuttack. They are reported to be fairly well-conducted and generally loyal in tone. As exponents of the feelings and opinions of the people they have no practical value, and their influence is small.

12. *Police and Justice.*—The returns of cognizable crime show a decrease in the number of cases from 7,640 in 1877 to 7,318. The decrease is observed in all classes of crime, except serious offences against property, which the high prices of the year tended rather to develop. The number of cases actually investigated was 6,060 against 5,290 in 1877, and convictions were obtained in 2,453 cases. Of the 6,484 persons tried, 3,853 were convicted and 2,368 acquitted, the remainder being still under trial at the close of the year. The proportion of convictions to acquittals cannot be deemed satisfactory. The number of false cases, and of cases which the police refused to investigate, shows an improvement. The returns of non-cognizable crime call for no remark.

13. The conduct of the regular police is well spoken of by the district officers. The reduction in the strength of the force carried out in the past year is objected to by the Magistrate of Balasore, but the Commissioner is not satisfied that the difficulties pointed out may not be overcome by proper arrangements, and, in this view, the Lieutenant-Governor concurs with him. The village police in Balasore continue to give satisfaction. The measure taken by the Magistrate of supplying police stations with copies of the settlement records affecting police service tenures is likely to check in great measure alienations of these tenures.

14. In connection with civil justice, the Commissioner notices an increase in the number of Small Cause Court suits instituted in Cuttack. Suits for the recovery of rent have fallen off. A serious disagreement between landlords and tenants in certain pergunnahs of Balasore, which was at one time assuming a threatening aspect, is settling down, and it is hoped that the parties will shortly be reconciled. The ryots are now freely executing kabuliyats and presenting them for registration.

15. *Land Revenue.*—The total demand of the year was Rs. 18,09,037, and the collections amounted to Rs. 17,62,305. There was no sale for arrears of revenue in Pooree, and one only in Balasore. Four estates were sold in Cuttack, the proprietors who were involved in debt having, it is stated, deliberately allowed the estates to fall into arrears in the hope of realizing a better price at the public sale.

16. The arrangements for completing the settlement of the large Government estate of Khoorda were modified during the year. The cadastral work which had not been taken up by the professional party was transferred to the settlement officer and his establishment, and the operations of the pro-

fessional party are to be confined to the demarcation of the outer boundary of the estate. The change will result in a considerable saving of expenditure.

17. The registration of proprietary rights has made fair progress, but the number of cases pending is still very large, and an increased establishment has been sanctioned since the close of the year for the purpose of clearing off the work. The large number of revenue-free properties in Orissa, of which 102,977 still remain to be registered, accounts for the delay in completing operations under the Act.

18. *Excise.*—A considerable decrease in the consumption of country spirit and ganja, accompanied by an increase in the consumption of opium, is observed in the returns. The consumption of country spirits and ganja was doubtless checked by the enhanced cost of these articles, due in the one case to the higher price of rice, and in the other to partial failure of the crop in the producing districts. The total revenue of the year was Rs. 3,78,838, showing an increase of Rs. 74,774 on the average of the five previous years, and of Rs. 16,818 on the receipts of 1877-78. The measures adopted to prevent the smuggling of Gurjat ganja into the regulation districts have not, in the Commissioner's opinion, been quite successful. The Lieutenant-Governor will await a report on the subject from the Board after further experience has been acquired.

19. *Stamps.*—The revenue from all classes of stamps amounted to Rs. 2,86,931, as compared with Rs. 3,39,103 in the previous year. The decrease occurred chiefly under the head of judicial stamps. Sales of non-judicial stamps show an increase in every district. There was also a slight increase in the receipts from postage stamps.

20. *License Tax.*—The working of the Act is fully shown in the following statement:—

DISTRICTS.	Population as per last census.	Number of persons assessed.	Demand.	Collections.	Remission.	Balance.	Percentage of assessments to population.	Incidence of the tax per head of assessed.	Percentage of collection on demand.
			Rs.	Rs.	Rs.	Rs.		Rs. A. P.	
Cuttack	1,494,784	13,732	41,978	33,075	3,907	4,996	01	3 0 10	78 79
Pooree	700,674	7,537	35,922	25,043	10,880	07	4 12 1	69 85
Balasore	770,232	6,600	42,568	27,273	15,147	148	25	4 5 11	64 03
Total	3,034,690	30,869	1,20,468	85,390	29,934	5,144	101	3 14 1	71 26

The proportion of remissions to original demand in Pooree and Balasore was not satisfactory. Of the total number of assesses no less than 29,729 or 96 per cent. belonged to the two lowest classes. A large proportion of these persons will benefit by the recent order fixing the limit of assessable earnings at Rs. 250. It is worthy of note, as evidence of the extent to which the lending of money and grain on a small scale is practised in the division, that 5,338 of these assesses have been taxed for business of this nature.

21. *Monetary arrangements.*—Transactions in currency notes and money orders were naturally influenced by the falling off in trade. A large reduction took place in the total receipts and issues of notes, and in the amount of money-orders cashed. The Commissioner's remarks, in paragraph 62 of the report, on the large imports and exports of silver at Cuttack deserve the attention of the Accountant-General and will be communicated to him.

22. *Irrigation.*—There are no irrigation works in Pooree, and the third range of the High Level Canal, which lies in Balasore, has not yet been completed. The results of the working of the department in Cuttack during the past two years appear in the following statement:—

YEAR.	Area assessed on application under section 79.	Area assessed on account of unauthorized irrigation, section 7A.	Total assessment.	Collections.	Cost of collection.	Net receipts.	Percentage of cost on assessment.	Percentage of cost on collection.
			Rs.	Rs.	Rs.	Rs.		
1877-78	97,201	234	1,58,132	1,22,862	37,097	95,865	18 40	22 78
1878-79	100,203	658	2,05,932	1,21,804	28,208	93,696	13 74	23 16

The decrease in the receipts was partly due to delay in making collections within the year. Five-year leases have now been taken for 94,636 acres. The increase in the irrigated area within the last two years has been very marked. A cadastral survey of the area is proceeding.

23. *Roads and Communications*.—A fair amount of the available funds was devoted to village roads in Cuttack. Of the total expenditure on works, Rs. 16,989 were spent on repairs and Rs. 16,734, inclusive of Rs. 7,466 allotted to village roads, on original works. A sum of Rs. 1,504 was also spent on arboriculture. In Balasore the Collector reports that the roads are remarkably good and are improving year after year under the application of road cess funds. Much is still required in Pooree to perfect communications, and it will take some years before any great improvement can be effected.

24. *Education*—The system of payment-by-results, which was introduced into Pooree during the past year and is now working throughout the division, has led to a large increase in the number of primary schools under inspection. These schools have increased from 4,368 with 51,805 pupils in 1877-78 to 6,111 with 65,393 pupils. The working of the new system has so far been attended with complete success. In higher and middle schools, however, no progress has apparently been made in the past year. The Joint-Inspector, indeed, speaks of the growing deterioration of the middle schools, a result which he considers to be partly due to the fact that, under the system of payment-by-results, the primary schools are engrossing a larger share of the attention of inspecting officers at the expense of other schools. The Lieutenant-Governor is not prepared to accept this explanation, and he will expect the Joint Inspector himself to supplement largely the efforts of the Deputy Inspectors in supervising the middle schools. The Cuttack (now the Ravenshaw) College was established on a permanent footing during the year by an endowment of Rs. 20,000 received from the Maharajah of Mohurbhunj. The thanks of Government were tendered to the Maharajah for this munificent gift. The first examination of the students of the Medical School of Cuttack for certificates was held in the course of the year, with results very creditable to them. There were 33 students on the roll at the close of the year. It is noted in the report that out of a population of 731 Europeans and Eurasians in the division, only 46 children are under instruction in the public schools.

25. *Committees*.—The Educational Committees are reported to have given valuable assistance in the supervision of zillah schools and the disposal of current business. Other Committees have also worked satisfactorily.

26. *Wards' and Attached Estates*.—Pooree has only one Ward's estate, and Balasore one Ward's and one Attached Estate. These Estates are quite unimportant. In Cuttack there are eight Wards' Estates and one Attached Estate. Of the former, the only valuable estate is that of Kanika, which was brought under the management of the Court in December 1864. Over nine lakhs of debt have been cleared off since that period, and the property is now practically solvent. It has a net income of Rs. 72,270 a year.

27. *Conduct of zemindars*.—Several zemindars of the division are favourably mentioned for their liberality and public spirit. In Balasore Coomar Boikanta Nath Dey, son of Rajah Shamananda Dey, generously defrayed the expenses attending the deputation of one of the native doctors specially employed in the parts of the district affected by the fever epidemic. He has also provided funds for repairing and cleansing the wells along the Grand Trunk Road in his district.

28. The remarks of the Commissioner on his subordinate officers will be communicated to the Appointment Department.

By order of the Lieutenant-Governor of Bengal,

COLMAN MACAULAY,

Offg. Secretary to the Government of Bengal.

Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather, and State and Prospects of the Crops in the different Districts of Bengal, as reported to Government during the week ending the 18th October 1879.

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
BENGAL			
<i>Western Districts.</i>			
Burdwan Divn.	1 Burdwan, Oct. 18 '79	1.34	Heavy rain. Prospects of crops improved owing to rain. Fever appeared in different places in Cutwa. Other parts of district healthy for time of year.
	Culna ...	3.48	
	Cutwa ...	4.27	
	Raneegunge ...	2.47	
	2 Bankoora, " 18 "	1.41	Rain general and beneficial. State and prospects of crops improving much, and as far as can be, the weather making up previous deficiency. Manbhoom transferred tracts good. Burdwan transferred tracts fair, but complaints in Kotulpore of previous deficiency. Bishenpore and Joypore promising and fair. No report from Saltora.
	Bishenpore ...	1.56	
	3 Beerbhoom, " 18 "	0.41	Mornings cooler. Week's showers have still further improved prospects. A full average crop now certain.
	4 Midnapore, " 18 "	Nil	Weather—hot and sultry; become cool since. State and prospects of crops generally good, but more rain wanted.
	Contai ...	0.94	
	Ghatal ...	1.89	
Presidency Divn.	5 Hooghly, " 18 "	2.60	Weather—bright and fine. Wind going round to north. Want of rain has caused considerable injury to <i>aman</i> rice. Land being prepared for cold-weather crops which are being sown in some parts. Public health on the whole fair.
	Tumlook ...	0.48	
	Howrah, " 20 "	0.52	Weather—cloudy, with occasional showers. Prospects of crops continue good.

	Madaripore ...	0.65	
CHITTAGONG DIV.	19 Backergunge, " 16 '79	1.56	Weather—fine up to 12th, since when squally and unsettled. <i>Amun</i> going on well, and every prospect so far of a good crop.
	20 Mymensingh, " 17 "	0.02	Heavy rain during latter part of week, very beneficial to winter rice.
	21 Tipperah " 17 "	2.37	Weather—sultry. Occasional heavy showers. Prospects of <i>amun</i> continue good.
	Brahmunbaria ...	2.22	
	Chandpore ...	2.53	
	22 Chittagong Oct. 21 "	1.29	Weather—fair. Mornings cooler. Prospects of crops favourable. Public health good.
	23 Noakholly, " 16 '79	3.57	Weather—cool in latter part of week with heavy showers. <i>Aus</i> all harvested. <i>Amun</i> doing well. Prices of grain falling.
PATNA DIV.	24 Chittagong Hill Tracts, " 14 "	4.17	Weather—cloudy, with occasional showers of rain throughout week. Harvesting of <i>joom</i> paddy still continues. Prospects of plough-cultivators' paddy crop good. Fever still prevalent.
	Hill Tipperah, " 15 "	2.72	Weather—cloudy and windy. Rain during last three days of week. Gathering of <i>aus</i> and <i>mugdana</i> almost completed. Price of rice considerably fallen. Prospects of <i>amun</i> fair. Public health improving. Fever disappearing.
BEHAR			
PATNA DIV.	25 Patna Oct. 18 '79	1.62	Weather—seasonable. State and prospects of crops very good.
	Behar ...	5.26	
	26 Gya, " 18 "	0.42	Weather—fair. Maximum reading in shade 90.8°. Prospects of <i>aghani</i> continue favourable as before. Public health generally good. Health of plough-cattle good.
	Jehanabad ...	0.19	
	27 Shahabad, " 18 "	0.97	Weather—seasonable. A few showers. State and prospects of crops good.
	28 Durbhunga, " 18 "	1.88	Weather—cloudy, but clear to-day (18th). Prospects of <i>dhan</i> on high land excellent. No more rain required. Prices falling. <i>Rubbee</i> being sown; a little injured by late rain. Cattle disease in Ladania.
	29 Mezufferpore, " 18 "	0.50	Weather—cool and cloudy. Prospects of rice crop generally continue very good. <i>Rubbee</i> sowings commenced in a few places, but in most parts of district late heavy rains have retarded preparation of lands. Bagmattee and Little Gunduck in flood, and large tracts of country inundated.
	Hajepore ...	4.13	
	Sectamurhee ...	0.97	
BRAGULPORE DIVISION	30 Sarun, " 18 "	1.06	Weather—cloudy and rainy up to 16th; since then clear. Days moderately hot, but mornings and evenings cool. East wind prevailing. Late rain done some injury to <i>aghani</i> rice in ear, and newly sown <i>rubbee</i> fields which will have to be re-sown. <i>Rahar</i> , cotton, <i>urid</i> , and sugarcane doing well. Prices stationary. Fever still prevalent.
	Sewan ...	0.87	
	31 Chumvarun, " 18 "	Nil	A few thunder clouds in early part of week; sky now quite clear. Sun bright; dews heavy. Much damage done by floods and damp to autumn harvests. Much of maize has sprouted in stacks, and much <i>kodo</i> flooded and damaged. Cholera nearly disappeared. Fever prevalent.
	32 Monghyr, Oct. 18 "	0.60	Weather—bright, with cool nights and heavy dew. Cold-weather sowings commenced. Rice prospects good.
	Beguserai ...	1.88	
	Jamui ...	1.90	
	33 Bhagulpore, " 18 "	0.97	Rains breaking up. Cool mornings and evenings. Rice prospects excellent. Preparation of land for cold-weather crops progressing rapidly. Cholera dying out.
	34 Purneah, " 18 "	1.05	Weather—seasonable. Nights cool. Outturn of <i>bhadai</i> not more than half average. <i>Aghani</i> reported excellent, as also <i>rubbee</i> prospects. Health very good for Purneah.
	Kissengunge ...	4.03	
BRAGULPORE DIVISION	Arrareah ...	3.62	Weather—generally fair. Slight and partial rain on four days. Winter rice and <i>Kalai</i> promise well. Water in Mahananda and Pagla rose about three feet and destroyed <i>Kalai</i> sown on banks of those rivers. Fever more prevalent. An outbreak of cholera at Malipakar in Khurba thana.
	35 Maldah, " 18 "	0.70	
	36 Sonthal Pergah, " 18 "	3.09	Rains apparently ended on 16th instant and cold weather set in. State and prospects of crops excellent. Rice above average.
	Deoghur ...	4.65	
	Rajmehal ...	1.72	
BRAGULPORE DIVISION	Godda ...	2.85	

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.

The mean pressure, temperature, &c., are deduced from observations made at 6h., 10h., 16h., and 22h.; the maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shelter open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The direction and movement of the wind are taken from the face of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

METEOROLOGICAL OFFICE, INDIA,
The 20th October 1879.

JOHN ELIOT,
For Meteorological Reporter to the Government of India.

Report on the Fluctuations in Traffic on the Northern Bengal State Railway during the month of September 1879.

GENERAL REMARKS.

A REFERENCE to the figures in the statement attached will show that there has been an increase under all heads of traffic during the period under review.

The gross weight in all staples carried during the month stands at 2,11,700 maunds, being nearly three times the weight lifted during the corresponding month last year.

Increases.

Ale Mds. 603

This, although an increase over the despatches for September 1878, is only about the average quantity of Commissariat beer sent through since the rains set in.

Food-grain Mds. 17,218

The demand for common descriptions of rice for shipment still continues.

Ginger Mds. 212

Immense stocks of this article are held by growers in the district, but the absence of all demand effectually stops despatches. The increase shown is the result of a slight movement for local consumption.

Gunny bags Mds. 474

The up traffic in gunnies has been considerably in excess of the down during the month, a result which tends to show a decided decline in the hand-bag-making industry of the district, which at one time promised to be of considerable importance.

Jute Mds. 36,853

The total traffic in this staple during the month was 49,896 maunds, which is the greatest weight we have yet carried in any one month. At the present low rate there is no doubt most, if not all, of the jute grown in the vicinity of the line is being despatched by rail.

Piece-goods Mds. 19,793

The traffic during the month under this head has been unusually heavy, and is due to the push that is being made to stock the local markets before the Poojah holidays.

Railway material Mds. 5,078

Material for the tramway continues to go forward in considerable quantities.

Salt Mds. 11,030

With the end of the rains and the closing of the waterway to our stations this staples is again finding its way to the line. At the low rate at which salt is being carried a considerable increase may now be looked forward to.

Sugar Mds. 873

The movement in this staple continues to be purely for local consumption.

Tea Mds. 9,226

The lateness of the season throughout the whole of the Darjeeling district is now beginning to tell. The weight carried during the month is nearly three times that lifted in September 1878.

Tobacco Mds. 13,191

A special through rate of 9 annas per maund from Damer and Kawnia and intermediate stations came into force for this staple on and from 1st of the current month, and the impetus given to despatches by rail is shown by the result.

All other goods Mds. 20,380

This traffic, like that of piece-goods, is being effected by the near approach to the Poojahs. A desire to stock the local markets with all the miscellaneous goods carried under this head has in a great measure helped to the result shown.

DECREASES.

				Mds.	The through booking of goods with other railways was resumed on the 6th September, and the working of the flotilla was strengthened by the arrival of the steamer <i>Teesta</i> on the 18th September. Owing to the continuous heavy rains and the flooded state of the country there has been little opportunity for the transit of goods, and business has not been brisk.

RESOLUTION ON THE EXCISE ADMINISTRATION REPORT FOR 1878-79.

FINANCIAL DEPARTMENT—EXCISE.

Calcutta, the 20th October 1879.

RESOLUTION.

READ—

The report of the Board of Revenue on the administration of the Department of Excise in the Lower Provinces for the year 1878-79.

During the year under review the excise law of Bengal has been consolidated by Act No. 2 (B.C.) of 1878, while a new opium law, Act I of 1878, has also been enacted.

New excise laws.

These laws remedy some inconveniences in administration that were experienced under the former laws, and augment the discretionary power of the Revenue authorities in the scale of fees for licenses; but make no substantial alteration in the general excise system, which is still, for all practical purposes, the same as was described in the Board's report for 1876-77, though considerable extension has been given during the year to the outstill system.

2. Excise was first made over to the local Government as a branch of its finance in the beginning of the year 1877-78. The income for which the local Government was made responsible was Rs. 64,00,000. In that year, however, the revenue was administered with great care and ability, and the actual receipts of the year were Rs. 68,66,130 as shown in the Board's report, or Rs. 68,67,888 as shown by the Accountant-General. For the year 1878-79 the Bengal Government is responsible for a revenue of Rs. 65,00,000 ; but in spite of the great augmentation to the revenue in 1877-78, the excise yielded more than the estimated increment of one lakh, and the receipts amounted to Rs. 70,33,939 as shown by the Board's report, or Rs. 70,28,263 as shown by the Accountant-General. The expenditure during the same period has been considerably decreased. The provincial allotment was Rs. 2,92,000, or Rs. 2,89,000 omitting stationery. The precise amount of the saving effected varies very considerably according as the figures given by the Accountant-General or by the Board are followed. The Accountant-General shows the expenditure during the two years as—

				Rs.
1877-78	3,02,299 including stationery.
1878-79	2,92,810 excluding ditto.

The Board's figures are considerably less, viz.—

				Rs.
1877-78	2,91,774
1878-79	2,66,593

With a view to obviate these discrepancies in future years, the Board should endeavour to make their figures harmonize with those of the Accountant-General before submitting their report. Although the final report of actuals is not due from the Accountant-General till the 15th August, it is believed that his excise figures are generally available at a much earlier date.

3. The revenue of the year as shown by the Board is thus distributed over the several excisable articles and compared with the receipts for 1877-78 and the five years ending 1877-78 :—

It will be seen that opium yields almost to a rupee the net increase of the year, viz. Rs. 1,67,648, and that the increase and decrease in the other excisable articles balance one another, the chief increase being under the head of country spirits Rs. 80,451, and the chief decrease under the head of rum, the revenue of which suffered much during 1878-79 as well as during 1877-78 from the importation of rum that had paid duty in the North-Western Provinces. A similar complaint has been made by the Assam Administration that the Bengal rum is injuriously affecting the excise revenue of Assam. The increase in opium is mainly due to the selling price having been raised in December 1877.

4. The excise is a branch of the revenue to which different portions of the provinces under the Lieutenant-Governor of Bengal contribute in very different proportions, as the following figures, taken from Statement I, Appendix B of the Board's report, shew :—

Division.	Population according to census.	Total excise revenue.	Incidence per Rs. 100 of population.
		Rs.	Rs.
Burdwan	7,193,389	6,90,092	9
Calcutta with Suburbs and Howrah	786,229	14,22,313	180
Rest of Presidency Division ...	7,192,579	6,55,131	9
Rajshahye and Cooch Behar ...	7,377,063	4,92,067	6
Dacca	9,144,126	5,54,160	6
Chittagong	1,841,336	82,615	4
Patna	13,122,743	15,41,941	11
Bhagulpore	7,289,784	8,66,716	11
Orissa	3,162,490	3,78,829	11
Chota Nagpore	3,322,748	3,50,075	10
Total	60,432,487	70,33,939	11

Omitting Calcutta, the circumstances of which are of course exceptional, and which, under the head of rum especially, as well as under other heads, derives a large income from the mofussil consumption, it will be seen that the contribution from Eastern Bengal is far less per head than from Behar. The difference is obviously due to the religious denominations of the population.

5. The total revenue of Bengal from spirituous liquors and other exciseable articles is not fully represented by the figures shown above. The import duty on wine and spirits last year amounted to Rs. 13,54,506, the whole of which is credited as customs revenue. This raises the total revenue raised in Bengal from wines, spirits, and drugs to Rs. 83,87,445.

6. The most important measure connected with the excise revenue during the year was the return from the central distillery to the outstill system. A commencement in this direction was made some years ago, but the progress made in closing distilleries and licensing shops under the outstill system was very rapid during the past year, as the following figures show :—

	1877-78.	1878-79.
Number of shops under sudder distillery system	3,512	1,938
Number of shops under outstill system	862	3,911
Total receipts under sudder distillery system ...	25,41,021	16,97,085
Ditto ditto outstill system ...	3,49,439	12,73,826
Ditto under both systems ...	28,90,460	29,70,911

7. The Board review the measures taken in each Division, notice the opinions of the Commissioners of Rajshahye, Patna, and Bhagulpore, and conclude that—

“The outstill system is beginning to show its superiority notwithstanding its imperfect development, and the great difficulties arising from permitting the concurrent existence of the outstill and sudder distillery systems in the same or adjacent districts. During the past year, owing to the high price of food-grains and the scarcity which existed in some parts of the country, a diminution of the Government revenue might certainly have been expected under the sudder distillery system, the high cost of the liquor produced in the sudder distilleries would have prevented many of the poorer labouring classes from satisfying even their most ordinary cravings. The outstill system has supplied the people with a cheaper and weaker liquor, which is comparatively free from intoxicating effects, and has led to no complaints of any increase of drunkenness. The financial results have been very satisfactory, and the settlements of the current year show even more favourable financial prospects.”

8. Sir Steuart Bayley notices with satisfaction that the Board are sanguine as to the financial results of the measure. There are reasons to fear that the excise revenue will exhibit a falling off during the current year, though it is premature to express any opinion as to whether this is in any way connected with the introduction of the outstill system, or is solely due to high prices or

other causes. As regards the moral effect of the change, the Lieutenant-Governor concurs with the Commissioner of Patna that it is premature to express a decisive opinion on the point at present. It cannot be disputed that the licensee has a more powerful interest in augmenting the sale of his spirit under the outstill system than when he pays according to the amount consumed. The spirit distilled is weaker, but also cheaper, and is drunk in larger quantities. The question is one which may rightly engage the attention of the Board, but, in contrasting the moral effects of the two systems, it is essential not to lose sight of the important element of illicit distillation which necessarily flourished far more under the sudder distillery system than under that of outstills.

9. It is observed that the falling off in the revenue derived from country spirits in Burdwan is ascribed partly to dearth of *mowah*. But it would seem from Statement No. V, Appendix B, that no country spirit is distilled from *mowah* in Burdwan. It is probable that this statement is inaccurate, as the same is said of Midnapore also. The entire population in both these districts is shown as using spirits distilled from grain and molasses, but it is believed that in Midnapore the greater portion of the spirit consumed is distilled from *mowah*.

10. The experience of the year under review was very unfavourable to the experiment of levying the revenue from country spirits on the materials from which they are distilled. There was a marked decline in the revenue of every single distillery in which the system was adopted, though the force of the evidence is much weakened by the undoubted fact that the falling off was also largely due to the competition of the outstills which everywhere proved detrimental to the distilleries when they came into competition with them. The Board, referring to paragraph 9 of the Government Resolution on the Excise Administration Report for 1876-77, say that they will await the decision of Government whether the experiment shall be continued or not. It seems to Sir Stuart Bayley that, in the face of the general return to the outstill system, the experiment has lost much of its importance, and the Board report that out of 11 distilleries in which it was at work all but three have been abolished during the year. Under these circumstances the Board should report separately as to its discontinuance, as it is inconvenient to dispose of such questions finally in a resolution on an annual report.

11. Rum, as before observed, exhibits a very marked decline, a result, however, to be in no way regretted so far as it is due to the last of the causes specified by the Board in the extract below from paragraph 66 of the

report:—

“The yearly consumption of rum during the last five years was on the average 72,920 gallons; in 1877-78 it amounted to 62,018 gallons; in 1878-79 it declined to 39,298 gallons. This heavy falling off is ascribed to a preference shown for country spirits in the districts of the 24-Pergunnahs and Dacca; to less demand in Midnapore and Hooghly; and in Calcutta to the importation of cheap brandies and of Shajehanpore rum, which is sold at lower rates than those charged for Calcutta rum. The decrease is also in some measure attributed to the improved condition of the sailors and seafaring class of persons visiting this port, among whom, it is stated, intemperance has been much checked by the establishment of coffee and reading-rooms in several parts of the town. The Sailors' Home is also represented as having contributed its share to this improved state of things.”

The amount of Shajehanpore rum imported in 1878-79 was 11,566 gallons against 12,572 gallons in 1877-78.

12. The excise revenue derived from imported wines and spirits consists merely of the license fees from their sale. This item of revenue was during the year from Rs. 1,04,501 to Rs. 1,15,846.

13. In paragraph 9 of the Resolution on last year's report, it was suggested that by increasing out circles as in Burmah, instead of single shops, a higher revenue might be obtained from tãri. The Board consulted some of the Commissioners, who were disposed to think that the measure would not be financially a success. The Board, however, have directed its trial in the Rajmehal sub-division and in Hooghly, and the results will be noticed in next year's report. The revenue from tãri increased during the year from Rs. 6,36,693 to Rs. 6,53,832, while that from pachwai decreased from Rs. 1,33,529 to Rs. 1,33,424.

14. The ganja crop in Rajshahye in 1878-79 appears to have been very nearly a total failure, and the following interesting statistics of its cultivation are given in paragraph 83 of the Board's report :—

YEARS.	Quantity of land estimated to have been cultivated with ganja.	Number of ryots engaged in cultivation.	Quantity of ganja estimated to have been produced.	Average production per beegha.
	Bgs. c.		Mds. s.	Mds. s. c.
1874-75	2,278 14	2,003	11,885 24	5 8 10
1875-76	1,300 2	1,280	6,490 29	5 1 7
1876-77	1,818 18	1,008	10,414 12	5 37 9
1877-78	3,102 14	1,877	9,448 7	4 19 11
1878-79	1,446 7	1,308	3,768 0	2 24 3

15. With so small an outturn it was inevitable that prices should rise very considerably and consumption decrease. A considerable decrease in the revenue would have been the result were it not for the very successful manner in which the shops were settled at increased license fees. This reduced the loss from Rs. 69,778 to Rs. 40,108. In the Rajshahye and Cooch Behar Division this was especially marked, there being a decrease in consumption of 107 maunds and an increase in revenue of Rs. 24,284.

16. The high price of ganja is said to have caused an increased consumption of charas and siddhi, the receipts from which increased by Rs. 516 and Rs. 3,508 respectively, while majum shewed a slight decline of Rs. 134.

17. The large increase in the revenue derived from opium is ascribed not only to the increase in the selling price, but also to the system, adopted from the 1st April 1878, of putting up the licenses to auction. The Board of Revenue, in paragraph 117, return to the question of the absence of any appreciable revenue from opium in the poppy-growing districts, regarding which it was remarked, in paragraph 13 of the Resolution in the report for 1877-78, that "the question of how to obtain a fair revenue from the opium consumed in those districts has long occupied the attention of many officers of ability and experience, but without receiving a satisfactory solution." The Board discuss the various means of meeting the difficulty which have suggested themselves, and have eventually accepted a proposal of Government to revert to the farming system which was tried some 30 or 40 years ago, but unsuccessfully.

"Under this system the district in which it is to be tried is divided into circles corresponding with the sub-divisions or the police thanas, and the right to open a group of shops within the circle is put up to auction. The number of shops is determined beforehand and announced at the time of auction. An upset price is fixed, and it is made a condition of the license granted to the farmer that he must purchase all his opium from the Government treasury and that his purchases must not fall below a certain quantity to be determined by the Collector. The farmer is allowed to locate the shops wherever he pleases within the circle, and the only restriction imposed upon the shop-keepers is as to the quantity to be sold to a single purchaser, with the other general conditions contained in a license. On this plan the system of farming out the opium revenue has, in consultation with the Commissioner of Patna, been introduced as an experimental measure from the 1st April 1879 in the districts of Mozufferpore and Durbhunga. The results of the arrangements will appear in 1879-80, and be noticed in the report for that year."

18. The Lieutenant-Governor will await with much interest the result of these measures; but it may be remarked that, while no doubt there is every facility to obtain illicit opium for personal consumption, and that a certain amount of illicit opium is consumed in the districts in which the poppy is grown, there is also good reason to suppose that the greater portion of the Behar population do not consume opium, and that the revenue to be obtained from its consumption in those districts will never bear any appreciable proportion to that derived from some other parts of Bengal. Behar, with the exception of Mozufferpore and Durbhunga, contributes a disproportionately large revenue from country spirits, and it is believed that the same people that consume country spirits rarely, if ever, consume opium, and *vice versa*. In some districts, such as Hooghly and the 24-Pergunnahs, there is a considerable consumption of both; but where the population that uses excisable articles is addicted to country spirits, the sale of opium is almost always nominal, and where it is addicted to opium, the consumption of country spirits is almost nil. In general

the great opium-consuming districts are those along the seaboard, or else with a very relaxing and depressing climate, such as Rungpore and Assam. Western Behar is certainly not the climate which develops a taste for opium.

19. The entire revenue from country spirits in the year under report was Rs. 29,70,911, and from opium and its preparations Rs. 15,77,659. The population of Bengal, according to the census of 1871, was 60,432,487, so that the average revenue from country spirits per 1,000 of population was Rs. 49 and from opium Rs. 26. Omitting Calcutta, which of course has a large spirit-drinking as well as a large opium-eating population, the averages would be Rs. 37 and Rs. 22 respectively. Now the districts in which the highest revenue is derived from country spirits are—

Revenue per mille in 1878-79.			Revenue per mille in 1878-79.		
Rs.			Rs.		
Darjeeling	318	Lohardugga	117
Patna	199	Gya	84
Hazaribagh	126	Monghyr	81

while the revenue derived from opium is—

Rs.			Rs.		
Darjeeling	19	Lohardugga	10
Patna	3	Gya	less than 1 Re.
Hazaribagh	2	Monghyr	3

Darjeeling is altogether exceptional in the character of its population, which it is probable has increased considerably since the census. Taking the figures, however, as they stand, its consumption of opium is below the average, and in all the other districts the contrast is complete.

20. On the other hand, among the great opium-consuming districts are—

Revenue per mille in 1878-79.			Revenue per mille 1878-79.		
Rs.			Rs.		
Balasore	184	Rungpore	48
Cuttack	63	Chittagong	45
Revenue from country spirits per mille.			Revenue from country spirits per mille.		
Rs.			Rs.		
Balasore	5	Rungpore	7
Cuttack	9	Chittagong	5

It is true that in some districts, such as Maldah, Hooghly, the 24-Pergunnahs, and Moorshedabad, there is a large consumption of opium and of country spirits; but it is probably due to their containing a large proportion of inhabitants of both classes.

It is probable therefore that the consumption of opium in most of the Behar districts is as small as it is in the other dry districts in the Lower Provinces, and though some revenue must undoubtedly be lost, it is not so large as might at first sight be expected.

21. The statistics of prosecutions show a slight falling off in the year 1878-79 as compared with 1877-78, aggregating 2,842 persons prosecuted against 2,916: of these 2,442 were convicted.

Prosecutions under Excise Act.

The arrests include—

	By aid of Police.	By Excise Officers.	Total.
Licensed vendors for breach of rules ...	386	218	604
Excise officers ...	1	18	19
Other persons ...	1,674	545	2,219
Total ...	2,061	781	2,842

The largest number of arrests were in the districts of—

Beerbhoom ...	253	Calcutta ...	186
24-Pergunnahs ...	214	Moorshedabad ...	182
Midnapore ...	188	Patna ...	153

22. The experiment was tried; in November 1877, of appointing four Experiment of appointing Excise Inspectors. Excise Inspectors, who are reported to have "done good service by detecting illicit dealings, prosecuting the parties concerned, checking smuggling, introducing uniformity of practice, assisting in the settlement of shops, and making suggestions for the improvement of revenue." Only three Inspectors, however, are being employed during the current year.

23. The Commissioners named in the margin are especially thanked by the Board for their care and attention in supervising the Excise Department during the year. The favourable notice of the District Collectors and Deputy Collectors named in paragraph 139 of the Board's report will, as usual, be noted in the Appointment Department.

The thanks of the Lieutenant-Governor are due to the Board of Revenue for the efficient and successful administration of the department during the year.

By order of the Lieutenant-Governor of Bengal,

H. L. HARRISON,

Offg. Secretary to the Govt. of Bengal.

RESOLUTION ON THE GENERAL ADMINISTRATION REPORT OF THE DACCA DIVISION FOR 1878-79.

GENERAL DEPARTMENT.—MISCELLANEOUS.

Calcutta, the 23rd October 1879.

RESOLUTION.

READ—

The General Administration Report of the Dacca Division for 1878-79.

1. The report is submitted by Mr. Pellow, who assumed charge only twelve days before the close of the year. He has necessarily laboured under the disadvantage of possessing no personal knowledge of most of the subjects discussed in the report. Mr. Lyall held charge of the division for four months, and Mr. Peacock for nearly eight months of the year.

2. *Tours.*—The information given in the report on this subject is meagre, and if the district officers have given any detailed accounts of their visits to the interior, the Commissioner has omitted to reproduce them. The importance of this subject has been frequently impressed on officers of late, and it is needless to dwell upon it again. The Lieutenant-Governor will expect to see the subject fully treated in the future reports of the division. Except in Mymensingh, the tours of the district officers in the past year fell far short of the time which they should ordinarily spend in the interior of their districts. In Backergunge 64, in Tipperah 56, in Furreedpore 39, and in Dacca 30 days were spent on tour. The Commissioner draws attention to the insufficiency of the tours of the district officers of Dacca and Furreedpore, "though the license-tax work urgently demanded local supervision." The Lieutenant-Governor desires that the reasons for the unusually short tours in these four districts may be explained. The report entirely omits to notice the tours of the sub-divisional officers.

3. *Weather and crops.*—In all districts save Dacca the rainfall was less abundant than in the previous year. In June it was unusually scanty in Dacca, Furreedpore, and Backergunge, and the progress of the rice crops was in consequence somewhat retarded. Floods did considerable damage later in Mymensingh, Dacca, and Furreedpore. The Manickgunge sub-division in Dacca, the Goalundo and Madaripore sub-divisions in Furreedpore, and the alluvial lands on the Jamuna in Mymensingh, were the parts which suffered

most. With the exception of these tracts in which the yield was much reduced, the general outturn of the rice crops was fair. The cold-weather crops are reported to have suffered from deficient rainfall in Backergunge, Mymensingh, and Tipperah; but they are not largely cultivated in these districts. In Furreedpore, Tipperah, and Dacca a good jute crop was obtained. In Mymensingh the crop was damaged in parts by prolonged immersion of the stalks during the inundations.

4. *Public health and material condition of the people.*—Outbreaks of cholera and small-pox occurred in some localities during the year, but the division was otherwise fairly healthy. Native doctors were specially deputed to the tracts affected by cholera and small-pox. The Commissioner states that “the high prices of food-grains have pinched the middle classes not engaged in trade or handicraft, but the agricultural classes, and those who provide their wants, have had a prosperous time.” In some parts, however, the agricultural classes, under the temptation of high prices, appear to have disposed too freely of their stocks, and found themselves much pressed when compelled subsequently to become buyers, in consequence of the shortness of their crops. This was especially the case in the inundated tracts. The great expansion of the jute trade has undoubtedly brought considerable wealth to the people of this Division of late years, and the Commissioner reports that much debt has been paid off by the cultivators. Considerable sums were subscribed by the local zemindars in some places for the relief of casual distress.

5. *Emigration and Immigration.*—Emigration is unknown among the agricultural population of the division. Such large movements of the people as occur are confined to the division itself, and consist of migrations from one district to another to assist in cutting the crops during the rice harvest. It is reported that about 20,000 persons annually migrate in this manner from the Madaripore sub-division of the Furreedpore district to Backergunge and Noakholly. Large numbers of labourers, chiefly from Behar, visit the division every year, and are employed by the peasantry. Some 2,000 females are said to have been imported by speculators into Backergunge in the past year from Chittagong and Noakholly, and to have easily gained husbands in the tracts which were devastated by the cyclone of 1876. This statement is somewhat mysterious, and further information should have been given.

6. *Prices of Food and Labour.*—The prices of the principal food-grains have been gradually rising for some years past, and the rates attained last year were extremely high. The following table shows the highest, lowest, and average prices of common rice in every district of the division in the past three years:—

DISTRICT.	1876-77.			1877-78.			1878-79.		
	Highest.	Lowest.	Average.	Highest.	Lowest.	Average.	Highest.	Lowest.	Average.
	S. C.	S. C.	S. C.	S. C.	S. C.	S. C.	S. C.	S. C.	S. C.
Dacca	25 0	20 0	21 1	22 14	11 13	16 9	13 0	10 0	11 10
Furreedpore	28 8	19 8	22 8	20 0	11 8	15 4	12 8	10 0	11 8
Backergunge	23 0	15 0	21 0	17 0	11 0	14 6	13 0	9 0	11 12
Mymensingh	27 0	20 0	23 13	26 8	12 0	17 12	13 8	9 4	11 5
Tipperah	27 8	17 8	21 0	19 0	11 8	15 5	13 4	10 0	12 2
General average for the division	26 3	18 6	22 1	21 1	11 9	16 13	13 0	9 10	11 11

The general rise is apparently attributable to excessive exportation to meet the demand in Southern India during the Madras famine, and to partial failure of crops in some localities since that period. Notwithstanding a heavy fall in exportation during the past year, it would seem that so large a portion of the season's produce was required to renew stocks depleted by previous exportation as to leave a very inadequate supply for the market. If exportation is not abnormally large during the current year, some fall in prices after the ensuing harvest may be expected.

The wages of labour have not apparently been much influenced by the increased cost of food. They are reported to be nearly stationary, and no doubt there has been some distress in consequence among landless labourers.

7. *Manufactures.*—The fish-curing industry carried on in bonded enclosures at Goalundo is rapidly expanding. The results of the past four years are shown in the following statement:—

YEAR.								Fish cured.	Salt used.	Drawback.	REMARKS.
								Mds. s. c.	Mds. s. c.	Rs. A. P.	
1875	1,362 28 6	320 14 14	907 2 0	
1876	4,835 0 0	1,208 18 0	3,328 5 5	
1877	11,258 9 8	2,664 4 8	7,326 2 9	
1878	14,000 0 0	3,757 0 0	10,385 0 0	

Sanction has been accorded to the maintenance of the preventive establishment for another year. Besides the fish cured under this system, it appears that nearly 50,000 maunds of salted fish were despatched from Goalundo to Calcutta.

8. *Trade and Commerce.*—Trade is reported to have been dull during the year. The principal exports are rice and jute. The returns prepared in the Statistical Department of this office show a heavy falling off in the exportation of both articles to Calcutta. The total quantity of rice exported was only 34,05,650 maunds, as compared with 68,60,550 maunds in 1877-78. From Dacca only 2,15,934 maunds were exported, against 13,05,847 in 1877-78; from Furreedpore only 1,73,847 maunds, against 17,06,949; from Backergunge only 29,12,462 maunds, against 31,95,972; from Mymensingh only 8,120 maunds, against 1,80,280; and from Tipperah only 94,687 maunds, against 4,71,502. In Dacca and Mymensingh one large firm found it profitable to import from Chittagong. The decrease in the jute exports to Calcutta is partly made up by an increase in the quantity sent to Chittagong for shipment. The total exports in 1877-78 amounted to 61,79,540 maunds, of which 59,88,540 maunds went to Calcutta and 1,91,000 maunds to Chittagong. In the past year they amounted to 59,71,263 maunds, of which 55,15,988 went to Calcutta and 4,55,276 maunds to Chittagong. Another important article of export from the division is betelnut, which is extensively cultivated in Tipperah and Backergunge. Its price fell considerably in Backergunge during the year. The trade in safflower and hides is said to be on the decline. The imports of the division consist chiefly of piece-goods, English earthenware, salt, sugar, spices, and tobacco.

9. *State of public feeling.*—The license tax was the chief subject of discussion during the year. It was received with general dissatisfaction, increased in some places by irregularities on the part of the circle officers. It appears, however, that unfavourable criticism was provoked chiefly by the low minimum of taxable income, which at a time of high prices of food told with some severity on the petty artizans and traders. This ground of complaint has now been removed. "On the whole," the Commissioner says, "people have not grumbled more than they do in England when an extra penny is added to their income tax." The Collector of Dacca states that the Land Registration Act has caused annoyance to petty landholders, and expresses a doubt as to its beneficial effect. His opinion is singularly at variance with that of his predecessor, and with the fact noticed in the report that the Act is popular in the neighbouring district of Furreedpore. The Road and Public Works cesses are said to cause discontent among the superior landlords of Backergunge, owing to the difficulty which they experience in realizing the proportion payable by the under-tenants. The Lieutenant-Governor would wish to receive a special report on this subject. In Tipperah the object of the road cess is beginning to be appreciated, and frequent applications are made for the construction and repair of village roads, and the clearing out of water-channels. The Afghan war excited a great deal of interest in the division, and the movements of the troops were carefully followed.

10. *Public Press.*—Dacca has two English and five vernacular papers, and Mymensingh two vernacular papers. In each district a new weekly vernacular paper was started during the year. Of the papers in his district, the Collector of Dacca remarks: "The papers criticise fully all that goes on, and at times use language that is not well chosen; but, on the whole, I do not

consider the papers to be disloyal at heart." The *Bharat Mihir* in Mymensingh is said to have secured a large local circulation.

11. *Administrative changes.*—The general introduction of the Chowkidary Act has been impeded by the pressure of other important work. Naraingunge was constituted a port during the year, and has since been placed under a special officer. A new sub-division, which was much needed, has been created at Netrokona in Mymensingh. Another, comprising the thanas of Chandpore and Hajigunge, was opened at Chandpore in Tipperah. The Collector reports that the sub-divisional officer has already, with the assistance of the zemindars, opened a dispensary, raised the status of the local school, established a bazar, and dug several tanks at the head-quarters of the sub-division.

12. *Police and Crime.*—The Chowkidary Act is in force in 9,436 out of 17,615 villages in all the districts except Mymensingh. Its introduction into the latter district has been postponed. It has worked fairly well, although difficulties have been met with, especially in the selection of the punchayets. The regular police is reported to be inefficient in Furreedpore and Tipperah, but their general conduct in the remaining districts is not unfavourably noticed. Considerable difficulty exists in obtaining good men from other parts of Bengal for the police of the eastern districts, and only an inferior class of men is available locally.

13. There was some decrease in crime during the year. It is satisfactory to notice a diminution of 42 in the number of riots, although the offence is still deplorably common. The cases were 762 in number, against 804 in 1877; and 18 cases were attended with loss of life, against 25 in the previous year. Eighty-seven cases of murder and 80 of culpable homicide were reported, as compared with 116 and 64 cases respectively in 1877. Twenty-four of the cases were declared to be false. Dacoities, robberies, and other serious offences against property increased from 2,392 cases to 2,529. The increase is attributed to the prevalence of high prices, and the growth of an inter-district trade in rice carried on by petty traders who keep their capital in cash in their boats, and thus afford frequent opportunities for theft to the bad characters.

14. *Civil Justice.*—An increase has been made in the staff of Moonsifs with the result of greatly accelerating the disposal of rent suits, but landholders are reported to be still dissatisfied. This question was carefully considered during the year with reference to the remarks of the Officiating Commissioner, Mr. Lyall, in the report for 1877-78. The High Court, in submitting a very able and temperate report on the subject by Mr. Goddes, then District Judge of Tipperah, pointed out that the average duration of rent suits taken for a whole year is unavoidably greater than the character of the suits themselves might seem to warrant. The reason of this is that about two-thirds of the total number are instituted in the second quarter of the year, after the close of the harvest operations, while there is always, at the same season, a large increase in the number of suits to recover money. The only remedy for this would be a periodical temporary addition to the number of the courts. This system, however, has been deliberately abandoned by Government at the instance of the High Court, and a permanent increase to the number of courts has been made at a considerable cost. The comparative inefficiency of temporary establishments, the temptations to which ministerial officers entertained for short periods are exposed, and the waste of strength involved in the transfer of pending cases to the permanent courts at the close of a limited period, have been held to outweigh the disadvantages of some delay in the disposal of suits instituted after the close of the Bengali year. Government have done all that was possible to diminish the inconvenience experienced, and such as remains is unavoidable. The relations between landlords and tenants continue to be unsatisfactory, especially in Backergunge.

15. *Land Revenue.*—The revenue-roll of the division contains 25,832 estates paying a total yearly revenue of Rs. 43,22,512. The demand in the past year was Rs. 49,52,533, including arrears amounting to Rs. 6,30,021. The collections within the year amounted to Rs. 44,15,202, and a considerable portion of the balance has since been realized. The number of estates sold was 109, of which 22 found no bidders and were purchased by Government.

16. *Excise and Stamps.*—The excise revenue shows a slight increase, the amount realized being Rs. 5,53,952, as compared with Rs. 5,48,606 in the previous year. In country spirits there was an increase of consumption with a decrease of revenue—a result which the district officers attribute to the simultaneous working of the sudder distillery and the outstill system. This matter has doubtless received the attention of the Board. In the case of ganja and opium, an increase of revenue has been attended with a falling off in consumption. The stamp revenue rose from Rs. 19,18,296 to Rs. 19,86,598, the increase having occurred chiefly in the sales of postage, hoondie, and non-judicial stamps.

17. *Communications.*—The existing roads in Dacca have been kept in fair order, and some new works are in progress. In Furreedpore Rs. 11,934 were expended in the repairs of the Pangsa road, which connects the centre of the district with the railway, and the construction of a new road between the civil station and Rajbari on the railway was begun. The Collector suggests a modification of the law with the view of empowering the Road Cess Committees of Furreedpore and Backergunge to establish lines of steamers as a rapid means of communication along the waterways of these districts. The proposal seems decidedly ambitious, and Mr. Pellew rightly observes that such recommendations should form the subject of a separate reference. In Backergunge the Committee have directed their attention to the construction of a system of roads with good ferries wherever practicable. In Tipperah a great deal has been done on village roads, and some small channels have been cleared out for boat traffic.

18. *Education.*—The number of schools and pupils in each district of the division was as follows:—

Districts.			Schools.	Pupils.
Dacca	807	26,496
Furreedpore	382	14,229
Backergunge	652	20,556
Tipperah	816	18,693
Mymensingh	434	14,530
Total			3,091	93,904

There was an increase of 223 schools and 3,561 scholars in Dacca, and of 17 schools and 1,365 scholars in Furreedpore. In these districts, Backergunge and Mymensingh, progress was made in primary education during the year. It has been remarked in the resolution on the annual education report that the people of this division take a special pride and interest in the prosperity of their middle schools. The number of schools in Tipperah has fallen off owing to the inefficiency of the inspecting staff. The matter has been specially enquired into.

19. Female education appears to be gaining in popularity in the division. The girls' schools increased during the year from 158, with 2,510 pupils, to 174, with 2,869 pupils. In addition to these, 2,965 girls were attending boys' schools and pathshalas, against 2,513 in 1877-78. The Eden School at Dacca had 153 pupils on its roll at the end of the year. In several districts girls have been successful at the public examinations. Two passed the Lower Vernacular Scholarship examination in Burrisaul, two the Primary Scholarship examination in Furreedpore, and three the same examination in Tipperah. "Mary Carpenter's" scholarships were gained by one girl in Burrisaul and another in Tipperah. It would appear, however, that zenana education is making no satisfactory progress in any district except Backergunge. One of the examining bodies of Burrisaul is very favourably spoken of by the Inspector.

20. *Committees.*—The various Committees have worked satisfactorily. The members of the Municipal and Road Cess Committees are said to take considerable interest in their work, but non-official members and landholders residing out of the stations are less regular than is desirable in their attendance. In Dacca and Naraingunge the Municipal Commissioners have worked well both as Commissioners and as Honorary Magistrates.

21. *Court of Wards.*—Thirty-four estates were under the management of the Court during the year. Some of the estates have given considerable

trouble. In Mymensingh a portion of the large estate of the late Bahoo Ram Kishore Acharjya had to be sold to clear off some pressing claims.

22. *Conduct of Zemindars.*—Some of the zemindars of Dacca received the thanks of Government during the year for their liberality in helping people whom the high prices had temporarily thrown into distress. The zemindars of Furrcehpore and Backergunge are mostly absentees, and their estates, it is said, are not unfrequently managed by untrustworthy subordinates over whom they can exercise no supervision. In Mymensingh the zemindars are on good terms generally with their tenantry, except on the estates of Naraindhar and Kagmari, where constant affrays have occurred for some time past. The Kagmari zemindars have been specially excluded from the list of zemindars entitled to carry arms, in consequence of their turbulence. The Lieutenant-Governor is glad to learn that a better system of management has been introduced on the estate of Baboo Mohim Chunder Roy.

23. The Commissioner's remarks on his subordinates will be communicated to the Appointment Department.

By order of the Lieutenant-Governor of Bengal,

COLMAN MACAULAY,

Offg. Secretary to the Govt. of Bengal.

RESOLUTION ON THE GENERAL REPORT ON PUBLIC INSTRUCTION FOR THE YEAR 1878-79.

GENERAL DEPARTMENT.—EDUCATION.

Calcutta, the 22nd October 1879.

RESOLUTION.

READ—

The General Report on Public Instruction for the year 1878-79.

The most encouraging feature in the educational history of the year 1878-79 is that, for the first time, since the Department was constituted, the contribution from private sources to the total cost of education has exceeded the Government grant, a result to which, as the Director observes, the experience of the last few years has steadily pointed. The Government contribution, which in the previous year fell from 53 to 51 per cent., or, excluding building charges, from 52 to a fraction over 50 per cent., has now decreased to 47·75 per cent. The departmental figures show that out of a total expenditure on education of Rs. 45,45,000, the Government contribution amounted to Rs. 21,72,000, while the people paid Rs. 23,73,000, their contributions in the previous year having been Rs. 21,43,000.

2. There is still some slight discrepancy between the departmental account of receipts and expenditure and the figures furnished by the Accountant-General. According to these the actual net Government expenditure for the year amounted to Rs. 19,65,416. In order to compare this with the actual net expenditure as it appears from the departmental figures, it is necessary to subtract from the latter the sum of Rs. 2,35,000, being the charges for medical expenditure. The net expenditure is thus reduced to Rs. 19,37,000, which amount is less by about Rs. 30,000 than the actuals of the year as furnished by the Accountant-General. The Director remarks that, of this difference a sum of Rs. 18,000 is explained by the purchase money of the Constantia Estate at Kurseong, Rs. 4,000 by the contribution in aid of Dr. Fallon's Dictionary, and Rs. 1,000 by the cost of medical stores supplied from England. There remains a difference of about Rs. 7,000 which is not accounted for.

3. The following table shows the state of education for the last two years:—

Class of Instruction.				1878.		1879.	
				Schools.	Pupils.	Schools.	Pupils.
Superior	Colleges	19	2,003	20	1,963
	Higher English Schools	176	31,688	196	36,033
	Middle " "	572	31,618	540	31,490
Secondary	" Vernacular "	1,087	53,234	1,061	52,607
	Lower " "	1,604	56,012	1,641	53,391
Primary	Primary Schools	22,126	446,522	29,270	531,064
Special	66	3,779	60	3,805
Female	519	11,964	543	12,777
European and Eurasian	49	4,580	47	4,577
Total				26,218	641,400	33,278	727,707

Under superior instruction there is no actual gain, the increase of one in the number of colleges being due to the fact that La Martinière has for the first time furnished the details of its college department. If it is excluded, with its eighteen under-graduate pupils, there is a net loss of forty-eight students in colleges, of which Government colleges have lost fifteen.

Under secondary instruction there is a reduction of 101 in the number of schools and an increase of 969 in the number of pupils. The decrease in the number of schools is due to three causes—(1) the withdrawal of grants-in-aid from a large number of inefficient middle schools; (2) the orders of Government of October 1877 re-constituting Middle English schools on a vernacular basis which have had the twofold effect of raising good schools to the higher class, and turning bad schools into vernacular schools; (3) the growing disinclination in certain districts to aid secondary schools from the primary grant. The loss in secondary schools is therefore not to be regretted.

Primary instruction shows an increase of 7,144 schools and 84,542 pupils, the bulk of the increase being in the Behar Circle. This means, not that the numbers of schools and pupils in the country has suddenly increased to this extent, but that a large number of schools already existing have been brought within the purview of the Educational Department. Under special instruction there is a loss of six schools and a gain of twenty-six pupils. Twenty-four native girls' schools and 811 pupils were added during the year.

4. In the following table the schools are classed according to the source of their income and the grant by which they are maintained :—

Class of Institutions.	1878.		1879.	
	Schools.	Pupils.	Schools.	Pupils.
Government Schools and Colleges	316	28,728	307	28,423
Grant-in-aid	1,779	85,563	1,677	83,281
Circle grant	262	10,742	287	11,947
Primary grant	17,395	406,135	24,354	489,518
Unaided	6,406	110,232	6,653	114,538
Total	26,218	641,400	33,278	727,707

The Director points out that the number of unaided primary schools which lie outside the Government organization has advanced from 6,084 with 86,200 pupils to 6,232 schools with 84,196 pupils. If these are separated from the other unaided schools, it appears that schools of organized instruction have attained an increase amounting in round numbers to 7,000 schools and 88,000 pupils, a far larger increase than in the previous year. It is clear that each year extends the operations of the primary system to schools of a humbler status than the year before. The closing of one army, six normal, and four vernacular schools accounts for the decrease in the number of Government schools. The reduction in aided schools is due to the fact that greater strictness has been exercised in renewing and continuing grants. Many new primary schools have been brought within the circle system with a total resulting gain of twenty-five. Greater caution has been used in aiding middle schools from the primary grant, but, on the other hand, there is an increase of 7,000 schools in primary schools proper.

5. Excluding colleges and schools of special instruction, the number of students in schools of all kinds, who are in the upper stage of instruction, is 7,413; of those in the middle stage 64,920; of those in the higher primary stage 264,448, and of those in the lower primary stage 385,178, making a total of 721,959. The upper stage includes pupils who have reached a standard equivalent to that of the first or second class of a school reading the University Entrance course; the middle stage all between these and the next following class; the primary stage scarcely goes beyond reading, writing, and arithmetic; it includes in its higher section those who can, and in its lower section those who cannot, read, write, and understand easy sentences in their mother-tongue. The statistics of the social position of the pupils cannot be compared with those furnished last year, owing to a change which has been introduced in the definition. It is observed, however, that of 571,202 pupils returned as belonging to the lower classes, 349,885 are children of cultivators and 65,423 are children of small traders.

6. The Lieutenant-Governor observes with satisfaction that the modifications introduced into the organization of the Department by the Resolution dated the 29th July 1878 have on the whole worked well. The higher inspecting officers have been freely consulted by Magistrates on matters connected with the administration of the primary grant; in some cases references have been made to the Director; but in only one case has it been necessary to refer a question for the decision of Government. The transfer to the Circle Inspectors of the direct responsibility for secondary education has caused all grant-in-aid schools to be subjected to a stricter scrutiny than was possible under the old system. The results have been economy in the administration of the grant, and greater activity and efficiency in aided schools. The Director regrets that there is still some ambiguity in the position of Assistant Inspectors, and suggests that, if some of them be raised to the rank of Joint-Inspectors, they might be more useful advisers to Commissioners, without any prejudice to their due subordination to their departmental superiors. This proposal will be taken into consideration.

7. There appears to have been some misunderstanding on the part of Magistrates regarding the policy which Government wish to pursue with reference to the distribution of the primary grant. Doubtless, payments to primary schools proper should absorb the greater part of the grant, and care should be exercised that the character of a school is not changed without necessity. But there are many cases in which schools, though no longer primary, cannot be brought under the grant-in-aid rules, and it is desirable that Lower and even Middle Vernacular schools that have grown out of primary schools should in some instances be aided out of the primary grant. The laudable desire of district officers to extend primary education has also led them in some instances to require from Deputy Inspectors so unremitting an attention to it as to interfere with their inspection of secondary schools. The Lieutenant-Governor is unwilling to hamper the Magistrates in this matter by any fixed rule, but he thinks it well to remind all officers concerned in the management of primary instruction that properly the duties of Deputy Inspectors are (1) the immediate personal inspection of secondary schools, and (2) the general supervision of primary education through the agency of Sub-Inspectors.

8. The new graded system for the subordinate officers of the department, which was introduced during the year, will no doubt prove satisfactory. The number of officers admitted to the classes is 318, of whom six are in the first class on Rs. 400 rising to Rs. 500, ten in the second class on Rs. 300 rising to Rs. 400, twenty-five in the third from Rs. 200 to Rs. 300, forty in the fourth from Rs. 150 to Rs. 200, sixty-two in the fifth from Rs. 100 to Rs. 150, seventy-five in the sixth from Rs. 75 to Rs. 100, and one hundred in the seventh from Rs. 50 to Rs. 75. Promotion will now depend, not alone on the length of time for which each officer has served, but also on the character which he has earned for general ability and zeal. The future of each officer is thus very much in his own hands, and it may fairly be anticipated that increased efficiency will result.

9. The total number of Government colleges is twelve as in the previous year, but the abolition of the Rungpore second grade college has been decided on, and it will be carried out at the end of the present session. There are still six aided and three unaided colleges. The number of college students has decreased in the year under report from 2,003 to 1,963. The Director shows that this is not due to any temporary decline in the demand for University education, but simply to the decrease in the number of successful candidates in the Entrance Examinations of 1876, 1877, and 1878, which has diminished the amount of "potential college material." The total cost of each student to the State, as calculated by the average daily attendance, has decreased from Rs. 395 to Rs. 376, after a decrease in the previous year to nearly the same amount. But if the fairer mode of reckoning by the average monthly roll number recently prescribed by the Government of India be applied to the year under report, it will be found to have decreased from Rs. 334 to Rs. 316. At Berhampore the cost has increased from Rs. 479 to Rs. 605 for each student—a rate which the Director justly characterizes as serious, and which renders it incumbent on the Lieutenant-Governor to consider whether its status as a college can any longer be maintained without some prospect of material improvement in its finances. On this subject the Director is requested to submit a separate report. The Director points out that the increase at Rungpore from Rs. 127 to Rs. 452 supplies a further argument for the abolition there of the college classes.

10. For the First Examination in 1879 759 candidates appeared, of whom 672 were students of colleges, and 87 were ex-students and teachers, and of these 208 passed. Of the candidates from Government schools 35 per cent. passed. Aided colleges produced 26 per cent., and private institutions 20 per cent. of successful candidates, but among independent candidates only 6 per cent. were successful. Of candidates from Government colleges, one in 11 was placed in the first division, of those from aided and private colleges 1 in 24. The Director points out that there is an increase this year in the number of successful Mahomedan candidates, and that three have passed in the first and three in the second division against none in the previous year. None of the Rungpore College students passed this examination.

Of nine candidates from the Cuttack College no less than eight were successful, and the new second grade college of Chittagong passed three candidates out of eight at its first competition. For the B A Examination 262 candidates appeared, of whom 213 were students of colleges and 71 passed. The Government colleges passed 37 per cent. of their candidates, aided colleges passed 16 per cent., and of private students 18 per cent. passed. The Cuttack College has again failed to pass any candidates for this examination. The Dacca College succeeded better in this than in the F A Examination, but it only passed six out of sixteen. The athletic pre-eminence of the Dacca students is scarcely sufficient compensation for their scholastic deficiencies.

For the M A degree with honours there were twenty-three candidates, of whom thirteen passed; for the ordinary degree there were nineteen candidates, of whom nine passed.

11. From the college reports it is evident that the Presidency College continues to show a satisfactory increase in the number of its regular students notwithstanding its high rate of fees. The decrease in the Hooghly College is due principally to the fact that the schools which feed it have been unsuccessful in the Entrance Examination. The Rajshahye, Midnapore, and Dacca Colleges show an increase in the number of their students. The athletic proclivities of the students of the Dacca College have been successfully encouraged by the present Officiating Principal, and he has organized a society in connection with the college, which has for its object to diffuse general knowledge by means of popular lectures and a reading room. There is a similar association at Patna College, which was founded by Dr. Roy, re-modelled by Dr. Watt, and is now in a flourishing condition. Among the aided colleges the General Assembly's College has far the largest number of students; on the other hand, the Free Church Institution attained considerable success in the M A Examination. In the General Assembly's College the cost of each student to Government is Rs. 18 only, in the Free Church Institution Rs. 63, in the Cathedral Mission College Rs. 86, in St. Xavier's College Rs. 51, in the London Mission College Rs. 60, in the Doveton College Rs. 176. The Doveton College, which receives a monthly grant of Rs. 250, has only passed six students at the First Arts Examination during the past five years, while no student has succeeded in attaining the degrees of B A or M A. It is apparent from the figures supplied that the aid received from Government is in more than one case entirely out of proportion to the usefulness of the institution.

12. The following table shows the distribution of the grant-in-aid allotment for the last two years, exclusive of special grants for building and other purposes:—

The reduction in expenditure is due to the reduction in the number of aided schools brought about by the great activity that has been shown during the past year in scrutinizing the character of the work done by them, an activity which has had for its result the withdrawal of grants from numerous inefficient schools. Remedial measures, such as a revision of establishment, the appointment of new teachers, or a new committee, the reduction of the class of the school, the change of its site, or the increase of local subscriptions, have

been adopted in all the more hopeful cases; but in some cases all such measures have been found unavailing. The principal reductions have taken place in the Presidency Circle and in the districts of Jessore and Nuddea; but when the small number of schools in Oriassa is taken into account, it will be seen that considerable activity has been displayed in that province also. In the district of Burdwan greater leniency has been shown in dealing with inefficient schools, as the prevalence of epidemic fever during the last few years sufficiently accounts for their decline. The system on which these grants-in-aid have been reduced or withdrawn for proved and long-continued inefficiency is explained in the report, and is clearly based on sound and equitable principles. Mr. Croft says—

“ There still remain a large number of schools which, professing to belong to a given class, and receiving grants corresponding thereto, have nevertheless for years together either sent no candidates to the departmental examinations of the class, or failed to ensure their success. In other words, they have not fulfilled the conditions under which, whether expressly stated or not, grants were given them. That one or more pupils should pass each year by the standard which a school professes to teach is, if not the best criterion of efficiency throughout its classes, at any rate the only test which we can now apply. Inspectors have been urgently reminded that a grant-in-aid is not a benefice, to be held by a school irrespectively of its merits or success. The test of efficiency is not a severe one. In defining inefficient schools, those only have been regarded whose pupils have entirely failed at two or more out of the last three examinations. Further, those schools which, having failed at two, have succeeded at the third of these examinations are regarded as “improving” schools. Those again which have been newly established, or whose class has been newly raised, are reserved for special consideration. Hence, an inefficient school means, as regards the present question, an old-established school with a sufficient grant, whose pupils have either not appeared, or have altogether failed at the scholarship examinations of 1878, and of one or both of the two preceding years. With regard to each of these schools, of which detailed lists have been furnished, the Inspector has been requested to make a special investigation, and to report what are the causes of failure and what the prospects of success in each case.”

13. The number of Higher English Government schools in Bengal remains the same as last year, but there is an increase in the number of pupils. The number of aided schools increased from 84 to 85, while the number of pupils attending them declined from 9,383 to 8,894. In private English schools, however, there was a large increase. The number of schools of this class was 63, against 44 in the previous year, and the number of pupils attached to them 13,903 against 9,430. Government schools, as in the previous year, passed half their candidates in the Entrance Examination, and, as in the previous year, unaided schools attained a greater percentage of success than aided schools. The latter phenomenon is easily explained. Higher schools that ask for no grant-in-aid are maintained by some wealthy man who willingly pays for good teachers, or they are situated in populous localities where a large income is provided and the fees of the pupils, while many aided schools struggle on with difficulty in less advanced tracts. The comparative merit of higher English Government schools is roughly estimated by assigning one, two, and three marks for each boy passing in the third, second, or first division respectively. Applying this test, we find that among collegiate schools the Hindu and Hare Schools show results far beyond those of other institutions. The Dacca and Kishnaghur Schools follow at a long interval. The latter owes much to the exertions of Mr. Pope, the Officiating Principal of the College. From the Rajshahye Collegiate School four candidates passed in the first division. Zillah schools are divided into three classes—the first consisting of those whose pupils are over 300; the second of those whose pupils are between 175 and 300; the third of those whose pupils are below 175. Among first class schools the Uttarparah School has for the first time taken the highest place in the Entrance Examination. Its figure of merit is inferior only to those of the first four collegiate schools. The Beerbhoom School is second, beating the two great schools of Eastern Bengal at Mymensingh and Barisal. It is explained, however, that these two schools have really done better than in previous years, but Uttarparah and Beerbhoom have done better still. The Beerbhoom School is said to owe much of its success to the efficiency and high character of the present head-master. Among second class schools Bankoora stands first; the third class is headed by Purulia and Balasore.

14. The gain of one in aided schools is accounted for by the Contai School in Midnapore, the Jamalpore School in Bhagulpore, and four schools in Jessore having been raised from the middle to the higher class, while from five

schools in the Presidency Division the grant has been withdrawn. The increase in the class of unaided schools which takes place in the advanced districts round Calcutta may be a subject of congratulation, as it is due to a genuine desire for higher English education. But it would appear that the rise of such schools in Orissa and Behar is due principally to a spirit of restlessness and rivalry, and that this influence is, during the short lifetime of these ephemeral institutions, prejudicial to the cause of education, as it tends to substitute a lower for a higher standard of excellence.

15. Middle English schools have decreased from 572 with 31,618 pupils to 540 with 31,490 pupils. Government schools have decreased from seven with 1,037 pupils to six with 820 pupils, and aided schools from 453 with 24,906 pupils to 422 with 24,387 pupils. Private schools continued to be 112 in number, while the number of their pupils has advanced from 5,675 to 6,283. The loss of one Government school is due to the reduction to a lower class of the English school for the children of sepoys in the cantonments at Bhagulpore. The Director explains the loss of thirty-one aided schools thus:—"From nineteen the grants have been withdrawn, six have been raised to the higher class, and seventeen reduced to the class of vernacular schools, while eleven new grants have been sanctioned. In the Presidency Division there is a reduction of twenty-four middle English schools, of which fourteen have been converted into middle vernacular schools, and four raised to the higher class, leaving a net loss of six schools." The District Committee of Jessore have been especially vigorous. In conjunction with the Inspector they have carried out most systematically the orders of Government with regard to inefficient schools, and their reconstitution on a vernacular basis.

16. The policy of placing the course in middle English schools upon a vernacular basis has been discussed at considerable length in the Inspectors' reports, and, though some officers, notably in the Eastern Circle, regard the change with disfavour, the balance of opinion inclines to the view adopted by the Director that the measure was sound in principle, and that it will be productive of good results. Mr. Bellett, Inspector of the Rajshahye Circle, writes thus—"The measure was by no means a popular one, and its unpopularity was, I believe, almost without exception in proportion to the need which existed for it. The class of teachers which most hates to be obliged to teach in Bengali is the class in which the knowledge of English is the slightest; and not only is it the case that the pupils in middle English schools now learn their other lessons more satisfactorily by far than they could formerly, when they were taught in a tongue 'not understood of' either pupil or teacher; but I have noticed during the course of my tours this past year that there is less of that miserable parrot-work than there used to be in the teaching of English itself." Sir Steuart Bayley entirely concurs in the view expressed by Mr. Croft, and in the soundness of the arguments which he brings forward in support of it. Under the old system the boys obtained a superficial knowledge of English without any thorough grounding in the several subjects of study, and it is to be feared that the acquisition of this smattering too often unsettled them and led them to look beyond their proper station in life. Their education was sound neither in English nor in the Vernacular nor in the subjects studied through these media. The system resembled the often condemned plan employed in some European schools of compelling little boys to begin their study of Greek through ponderous grammars written in Latin. To the allegation that the new system provides an inferior preparatory course for the Higher English schools, Mr. Croft replies that the vast majority never go beyond the middle course, and that what is required for them is a sound middle-class education, complete as far as it goes. It appears that the proportion of students in the Middle English schools that proceed to higher schools is only one in 16, and Mr. Croft rightly urges that, "in determining the course of a school, we should regard the interests of the fifteen who finish their education therein, rather than of the one who goes to a higher school." But there is little chance of even this one suffering under the change of system. As might be expected from the greater thoroughness of the teaching they have received, Middle Vernacular scholarship-holders are notoriously more successful at the Entrance examination than holders of Middle English Scholarships. Turning, however, from scholars who are required by the conditions of their stipends to proceed to Higher English schools to the voluntary students in the latter, we find that they are drawn from Middle English schools, and Middle Vernacular

schools, in the proportions of $5\frac{1}{2}$ and $6\frac{1}{2}$ per cent. respectively to the total number of pupils in those schools, while, if Vernacular schools aided from the primary grant, from which few pupils seek higher education, are excluded, the proportion of middle vernacular pupils who voluntarily attend higher class schools is still further increased. The Director points out that even in Calcutta the great middle schools are purely vernacular. Sir Steuart Bayley has no doubt that the change of system will be found beneficial to the true interests of the pupils. It is entirely in accordance with the recommendation of the Simla Text-book Committee that in the lower stages of instruction substantive knowledge should, if possible, be imparted in the vernacular, a recommendation based upon the rational principle that students who have had their minds trained and developed by the acquisition of ideas through their own mother-tongue are more likely to turn out clever men than those who have spent the best years of their childhood in the painful acquisition of foreign words to which they are unable to attach any ideas.

17. The Middle Vernacular Scholarship Examination of 1878 was the last under the old system. Out of 540 Middle English schools, 315 sent 1,002 candidates to the examination and 594 passed. In the previous year the total number of schools that sent candidates was 308 out of 572, the number of candidates was 934, and out of these 575 passed. The improvement in the general efficiency of the schools, which these results indicate, is most conspicuous in the Burdwan Division. In the Presidency and Patna Divisions the number of competing schools and of passed candidates shows a sensible decrease. This may be accounted for by the fact that in the Patna Division the Inspector with the full consent of the Director raised the standard of examination to the level of that of Burdwan. The teachers of the Behar schools and more especially the teachers of English, are in many cases incompetent and unacquainted with the language of the province. Qualified natives of Behar can command higher wages than middle schools can afford to pay to their head masters, and the consequence is that many schools are in charge of men who were unable to secure similar appointments in Bengal. It is to be hoped that the re-constitution of the Normal School at Patna will furnish the province of Behar with a better set of teachers. In the Presidency Division there is a decrease of thirteen competing schools with twenty-seven candidates, and of ten successful schools with twenty-four passed candidates. This decrease is most marked in Jessore, in which district there is a loss of eleven competing schools and of eighteen passed candidates. This is due to the reforms mentioned in a preceding paragraph. The Director remarks that the immediate loss of the few passed students which these schools have been able to furnish is more than counterbalanced by the gain of skilled teachers and a useful course of study.

18. In Middle Vernacular schools there is a loss of five Government schools with 1,712 pupils, and of forty-seven aided schools with 805 pupils, and a gain of twenty-six unaided schools with 890 pupils. The loss of forty-seven aided schools is made up of thirty-nine circle and primary grant schools and of eight grant-in-aid schools. Among the former, two circles with six schools were closed in Furreedpore, and sixteen circle schools in Dacca were reduced or closed, owing, as the Inspector alleges, to the withdrawal by the Magistrate of the allowance from the circle grant, though this grant is no longer under the control of the Magistrate. In Jessore the primary grant has for some years been exceeded, and in order to rectify this at once, it was decided, rather hastily perhaps, to withhold grants from 21 middle schools. In Midnapore 11 middle schools were similarly dealt with. The loss of eight grant-in-aid schools is explained by the withdrawal of grants from thirty-six, and the reversion of seven to lower vernacular schools, counterbalanced by the reduction into this class of fourteen Middle English schools and the sanctioning of twenty-one new grants. The orders constituting Middle English schools on a vernacular basis have facilitated the development of Middle Vernacular schools into Middle English schools. With the permission of the Circle Inspector, any Middle Vernacular school may at its own expense add an English class. Many schools have availed themselves of this privilege. As soon as the English classes in these schools reach the standard of the Middle Scholarship they will be placed on the same footing as Middle English schools. The Lieutenant-Governor quite concurs with the Director in his opinion that, if it is constantly recognized as the aim of the teaching that a sound vernacular standard is to be maintained, and that all subjects are to be taught through the medium

of the vernacular, the extension of English teaching within proper limits is likely to be beneficial. In the Middle Vernacular Scholarship examination there is a loss under every head as compared with the previous year. The loss has taken place principally in the Presidency, Rajshahye and Patna Divisions; in the Eastern Circle, and in the divisions of Bhagulpore, Chota Nagpore, and Orissa, there is a gain both of successful schools and of successful pupils. Much of the loss in the Presidency Division is explained by the reduction of middle schools in Jessore. In the northern districts of the Rajshahye Division there is a difficulty in obtaining competent pundits, but this will be removed by the transfer of the Normal School from Rampore Bauleah to Rungpore. In this, as in the Middle English Scholarship examination, the results in the Patna Division were affected by the introduction of the Burdwan standard of examination.

The success of the schools in the Dacca Division is remarkable. It is ascribed by the Director to the excellence of the teachers trained in the Dacca Normal School, which had in former years a very high reputation. The Director says—"The villagers take the greatest interest and pride in their schools, and in the general competition for scholarships; and they display no anxiety whatever to convert a good vernacular into an indifferent English school." He points out also that the success of the numerous Dacca schools has been attained at little cost.

19. During the course of the year Pundit Mohesh Chandra Nyayaratna, Officiating Principal of the Sanskrit College, put forward a proposal to modify in several respects the course of study in Middle Vernacular schools which was fixed in 1875. His proposals were (1) to appoint some central authority to select text-books in Bengali in order to define the standard in language and literature at the Middle Scholarship Examination; (2) to omit mensuration from the course as involving a knowledge of the 3rd Book of Euclid, and to omit the alternative subjects of botany and chemistry as requiring practical appliances not existing in the schools, and scientific knowledge not possessed by the teachers, and as having no relation to the course in higher schools; (3) to substitute hygiene for these subjects; (4) to raise the marks assigned to the Bengali language as by far the most important subject of the course. These proposals were thoroughly discussed. It was agreed by all that the first proposal suggested a valuable reform which, under the orders of Government placing the selection of text-books for middle schools in the hands of Inspectors, can be carried into effect. The other proposals were rightly condemned as retrograde and unsound in principle. It is hoped that the scientific instruction in these schools will be gradually improved by the improved teaching of the Normal schools. The adoption by the Government of India of Dr. J. M. Cunningham's Sanitary Primer may to some extent facilitate the introduction of the subject of hygiene.

20. Lower Vernacular schools have diminished in number from 1,604 to 1,541. The loss has taken place principally in aided schools, for in the Government schools there is a gain of three schools, and the number of pupils has almost doubled itself. This loss is due to the fact that this class of schools has not been so liberally aided as formerly from the primary grant. The results of the Lower Vernacular Scholarship examination are on the whole satisfactory. The number of competing schools has largely increased, though the number of successful schools and pupils is less. The Director explains that this does not point to any decline in efficiency. Owing to the reduction of many schools of the previous year, a large number of the competing schools of 1877 were not in existence in 1878, while the few schools were scarcely strong enough to succeed at a first attempt. It is believed that in the Presidency Circle the standard of examination was raised.

21. A large increase is shown over the previous year in the number of organized primary schools, the total being 29,270 schools with 531,064 pupils, against 22,126 and 446,522 respectively. A remarkable extension of the circle of organized instruction has taken place in the Bhagulpore Division under the operation of the "chief guru" system. In Monghyr and Bhagulpore especially the results come up to the most sanguine anticipations. In these districts the class of unaided schools has, as was last year anticipated, totally disappeared under the influence of this system. In Monghyr the number of schools aided from the primary grant has risen from 153 with 5,355 pupils to 1,464 with 18,235 pupils, and in Bhagulpore from 180 with 4,037 pupils to 1,303

with 13,877 pupils. Moreover a remarkable increase has taken place in the number of candidates who passed the Primary Scholarship Examination. In Monghyr the number of successful candidates has risen from 443 to 647; in Bhagulpore from 69 to 193. The same system has produced a large increase of aided primaries and of successful primary scholarship candidates in the Patna Division, though the system is not pushed equally in all districts. In this system the patshalas of each district are grouped into circles, with one more efficient than the rest, under a stipendiary chief guru at the centre. The chief guru is charged with the duty of communicating with all the patshalas in his circle, of getting information from them, of teaching and inspecting them to some extent, and of paying them the rewards they may have earned at the examinations. The introduction of this system may seem to involve hardship at the outset, as it implies the withdrawal of regular monthly stipends from the gurus of the pathsalas surrounding the chief guru's pathsala, and the substitution of rewards according to the success of their pupils in examinations. On the whole, it appears to be a very successful form of the system of payment by results.

22. This system has been considerably extended during the past year with due modifications to adapt it to the needs of particular districts. In last year's report it was stated that Mr. Larminie had introduced into Burdwan the system of small stipends and large rewards which proved so successful in his hands in Bankoora. It has now been brought into full operation, and the results are highly encouraging. The system of payment by results has been more successful in the 24-Pergunnahs this year, as the gurus have come to understand that it does not imply the discontinuance of Government aid. It is proposed to substitute for the present system of quarterly local examinations the Midnapore system of yearly central examinations.

The Midnapore system, pure and simple, does not seem applicable to all districts. It cannot be carried out in its entirety in Backergunge on account of the district being "a network of khals." Here the method of administering the grant is a combination of payment by stipends and payment by results. Similar causes make it inapplicable to Rajshahye. The system is to be tried there in certain thanas where the waters subside early. In Cuttack the system of payment by results is said by the Joint-Inspector to have advanced beyond the experimental stage. In Balasore, the form in vogue last year has been modified by the institution of inspecting abadhans who have improved the accuracy of the returns, and have done good service by inducing teachers from various parts of the district to attend the Normal schools, by introducing printed books and by assisting the Sub-Inspectors at the time of the pass and primary examinations. Balasore now stands at the head of the list of districts as regards the percentage of pupils to population in all schools coming under the cognizance of the Department. Midnapore, which last year headed the list, now stands second. In Hooghly no change has been made in the simplified form of payment by results described in last year's report. In Howrah a large increase in the number of aided pathsalas has been brought about by the introduction throughout the district of the Hooghly system of payment by results slightly modified. In Rungpore the system of payment by results failed last year. The form adopted was that of small fixed grants supplemented by rewards after quarterly examinations. It has now been considerably modified. New schools are no longer limited as before to the smallest rate of aid. The consequence is an increase of over 100 schools and about 2,000 pupils. The large increase in the number of aided schools in the district of Dacca is due to the orders authorizing payment to all gurus who sent in returns and the classing of their schools as aided. In both districts of the Chittagong Division the system of stipends is still in force. Mr. Cotton points out that in the district of Chittagong the Mahomedans do not care to send their children to our schools through dislike to the secular character of the instruction. He considers that our object should be to improve the existing maktabas in which the Koran is the principal subject taught, not to supplement them by pathsalas; and if his statement is correct that three out of four aided pathsalas in the district are artificial institutions where the Government grant is the mainstay of support and not merely supplementary to other sources of income, no doubt the maktabas, which are said to be six times more numerous, are also

more deserving of support, if the teaching which they afford can be to some extent liberalized and enlarged. It is essential, however, that some secular subjects should be introduced into the course of teaching, so that the elements of expansion may not be wanting. The Director points out that the system which should govern all methods of primary instruction in Bengal is to endeavour by the help of Government support to introduce into the traditional course of study, whether religious or secular, in the indigenous schools, certain subjects of instruction which will bring it into accordance with the general system of education in the province. In these views the Lieutenant-Governor entirely concurs, and will be glad to see a commencement made of Mr. Cotton's scheme for assisting and improving the indigenous maktabas of the district. This may be done without interfering with the religious character of the instruction given. It is only necessary that secular instruction should be superadded.

23. In the Primary Scholarship Examination of the year under report, there has been an increase of 1,579 competing schools with 3,925 pupils, and of 945 successful schools with 2,318 pupils. The bulk of the increase is found in the divisions of Patna and Bhagulpore. In every division there is an increase, except in Rajshahye. The proportion of pupils in the higher section of the primary stage (*i. e.* those who can read, write, and understand easy sentences in their mother-tongue) has increased from 34.4 to 37.1 per cent.; the proportion of those in the lower section has decreased from 64.5 to 61.7 per cent. It is very satisfactory to observe that 73 per cent. of the primary scholarships were gained by boys of the lower classes.

24. There is a slight diminution in the number of Eurasian and European schools and of pupils under instruction. More than three-fourths of the whole number of pupils belong to Calcutta schools. The number of candidates from these institutions that passed the Entrance Examination is the same as last year, but only one scholarship has been gained this year against seven in the preceding year. St. Paul's School at Darjeeling has recovered from its temporary depression under the skilful management of the present head master Mr. Carter. Its numbers have doubled, and last year it passed two candidates at the Entrance Examination—one in the first division. The Jamalpore School is the best of the Railway schools; it has been admirably managed by Mr. and Mrs. Pegler, who have now been transferred to the Constantia School at Kurseong.

25. There has been an increase of pupils in all classes of girls' schools, and an addition of 1,612 to the number of girls reading in boys' schools. The latter is due to the increase in the number of girls attending primary grant pathshalas. There appears to be a slight falling off in the number of girls in the two upper stages of instruction, but it is doubtful if implicit reliance can be placed upon the figures. One very interesting incident in the educational history of the year was the success of Miss Kadambini Bose at the Entrance examination. This is the first instance of a Bengali lady passing an examination of the University. Miss Bose was graded in the second division, having failed by one mark only to obtain a place in the first division. A special Junior Scholarship was created for her by Sir Ashley Eden, and it is hoped that her distinguished success may stimulate her young fellow countrywomen to endeavour to follow her example. Three young ladies—whose names are Kamini Sen, Abala Das, and Suburna Prabha Bose, all like Miss Kadambini Bose pupils of the Bethune School—passed the Middle Scholarship Examination, two in English and the third in Vernacular. Five "Mary Carpenter" scholarships, instituted by the National Indian Association of London, have been competed for during the course of the year—three of Rs. 48 per annum by the Lower Vernacular, and two of Rs. 30 per annum by the Middle Vernacular standard. Forty-seven girls presented themselves for examination for the Utterparah Hitaishini Sabha scholarships. Of these twenty-six passed—ten by the first, twelve by the second, and four by the third standard.

26. Mrs. Monmohini Wheeler, Inspectress of Schools, examined during the year 1,059 out of the 1,639 pupils returned as under instruction in zenanas or zenana schools. The discrepancies between the returns made by her of the standards attained by the examinees and those made by the Superintendents of the zenana agencies are very striking. Thus Mrs. Wheeler places 82 per cent. of the pupils in the lowest stage, in which the attainments are limited to read.

ing small words, writing the alphabet and counting to 50; while the zenana agents claim that the proportion is only 30 per cent. It is not possible to reject the judgment of the Inspectress in favour of that of the Superintendents, nor is it possible to reconcile estimates which exhibit such wide differences. Mr. Croft justly observes that these discrepancies illustrate the difficulty of introducing any method of payment by standards. The Director also refers to the grave defects in the existing system of zenana teaching reported by Mrs. Wheeler. These defects are partly in the management, partly in the character of the teachers employed. The want of co-operation among the different agencies, an absence of any sustained effort to enforce the payment of fees, the multiplication of schools within a limited area, the attempt to teach elderly women who have received no previous training, are defects of the first kind. The incapacity of many, and untrustworthiness of some, of the Native Christian teachers are defects of the second kind. The supply of good teachers is decidedly insufficient, and perhaps really the most satisfactory solution of the existing difficulty would be a contraction of the work of the different agencies and an improvement of the average teaching staff. It might then be possible to bring a reasonable system of payment by standards into operation. On the other hand, it is gratifying to observe that Mrs. Wheeler speaks highly of the work done by the ladies of the Zenana Association at Barrackpore, who have been trained in the Free Church Orphanage and Normal School. This institution is remarkable for the admirable discipline enforced within its walls, and it has turned out a succession of able teachers. The Church Mission School and Orphanage at Agurpara is of the same excellent class.

27. The number of law students has diminished from 316 to 227. The Presidency College law class has a surplus of Rs. 1,710, the Patna College of Rs. 317. If the cost to Government of the Hooghly and Dacca classes is deducted, there remains a surplus on all the classes of Rs. 1,134. Both the Dacca and Hooghly law classes, the only two which are a source of expense to Government, do very badly in the University examinations. It has now been decided to limit the salary of the Professor of Law at Dacca to the amount of fees paid by the students, provided they do not exceed Rs. 200 a month.

28. The number of students in the Medical College has increased from 145 to 208, whereas that of pupils in vernacular medical schools has declined from 686 to 609. The increase in the Medical College is due partly to the fact that the hospital class has been nearly doubled, partly to the re-admission of old University students or of those that failed at the last examination, at which the number of failures was greater than in preceding years. The effective desire for medical degrees is measured by the number of new admissions; of these there were only twenty against thirty-five of the previous year. The reports of the Superintendents of the Vernacular Medical Schools are very encouraging. In accordance with the recommendation of the Superintendent of the Campbell Medical School, the number of admissions each year is henceforth to be limited to fifty, and more satisfactory guarantees of preliminary education are to be required. The admission of casual students to this school has recently been stopped. These persons, unable to procure the necessary certificates for admission as regular students, have been known to return to practice in their villages after a brief attendance in the casual class, and thus bring discredit on the European system of medicine. The Director has this year, for the first time, had the advantage of the comments made by the Surgeon-General upon the various reports of the medical schools and colleges. Dr. Irving speaks highly of the hospital assistants turned out from the Temple Medical School. The Cuttack Medical School has made very satisfactory progress. This year's operations amply justify the opinion expressed in the last Resolution that there can be no doubt about the ultimate success and permanent usefulness of these institutions.

29. In the Civil Engineering Department of the Presidency College the number of students has increased from eighty-seven to eighty-nine, while those in vernacular survey schools have advanced from 160 to 165. Technical schools number 149 pupils, an increase of one. Arrangements for the establishment of an Industrial School on the site of Bishop's College are in progress, and the

Lieutenant-Governor has every confidence that this institution will prove of the utmost benefit to the youth of the province. It will give native boys of all classes the means of obtaining a thoroughly practical education, and enable them to leave the beaten track of clerical and ministerial service, for which alone they now care to qualify themselves; and it will open to them, as well as to the European and East Indian boys of the large cities, a large and useful professional career.

30. On the 31st of March there were seventy-six students on the roll of the School of Art, of whom sixty-nine were Hindus. Besides these seventy-six, fifty-one students had been in the school for longer or shorter periods, so that the total number who had received instruction during the year was 127. The Principal repeats with satisfaction his statement of last year, that continued improvement is taking place with regard to the length of time the students remain in the school. Out of the seventy-six students on the 31st March, forty had been in the school from two and a half to three years. He complains of the rawness of the students that come to him, and suggests that simple outline drawing should be made part of the instruction given in every school that receives Government aid. This suggestion is, the Lieutenant-Governor fears, impracticable. The progress made by the students continues to be most satisfactory. At the Fine Arts Exhibition held in Calcutta last cold weather, fourteen students and ex-students of the school contributed no fewer than sixty-six paintings and other studies from life, and 122 specimens of wood engraving and lithography, and they carried off four prizes and three certificates of honourable mention. Their success reflects great credit upon the Principal, Mr. H. H. Locke. Mr. H. H. Locke is also in immediate charge of the Art Gallery. The expenditure on the Gallery during the present year was Rs. 8,076 out of an annual grant of Rs. 10,000. Of this sum Rs. 3,280 was spent upon the purchase of four pictures which are regarded as very valuable additions to the Gallery.

31. In accordance with the policy followed in past years, six more Normal schools were closed during the year and two have been closed since the end of the year. Fifteen now remain, besides the boarding school at Rangamatti in the Hill Tracts of Chittagong, which is returned as a Normal school. Owing to the recent extension of primary education, it is found impossible to train more than a small fraction of the teachers of pathshalas. Third rate Normal schools have therefore been closed in all districts where secondary education is sufficiently widely spread to provide a fair supply of school-trained teachers to take employment in private schools. Such as remain are reported to do good service in fixing and maintaining a standard of efficiency that might otherwise suffer decline. In the Vernacular Master-ship Examination of this year, 224 candidates appeared, the same number as last year; but only 143 passed against 150. The Hooghly Normal School is again easily first, and that of Beaulah second. The Calcutta and Dacca schools again failed conspicuously. The continued ill-success of these institutions is said to be due rather to permanent adverse conditions than to any failure of duty on the part of the teachers. The Director justly remarks that the task now before the Department in connection with all Normal schools is not to provide better teachers, but to ensure an adequate and sustained supply of stipendiary students, qualified by their attainments and capacity to profit by their teaching.

32. The number of Mahomedans under instruction in Government aided and unaided schools has risen from 111,645 to 131,998. The policy of giving facilities for the study of English ~~in~~ the Madrasas whenever there is a genuine desire to learn that language, by the appointment of English-speaking Moulavis and by the allotment of Anglo-Persian scholarships chargeable to the Mohsin Fund, has been continued this year. A scholarship of Rs. 2,000 was granted in the course of the year to Syed Hossein, son of Moulavi Zainuddin Hossein, a well-known Mahomedan gentleman of Patna, to enable him to visit England for the purpose of prosecuting his studies there. Five Madrasas are supported from this Fund; the Calcutta Madrasa being the only one supported from General Revenues. In the general examination of the Madrasas, 112 candidates passed out of 167: forty-eight were placed in the first, twenty-eight in the second, and thirty-six in the third division. In the previous year, out

of 161 candidates only eighty-six were successful. In the Calcutta Madrasa there is a steady increase of pupils from year to year. The Hooghly Madrasa is still weak, but it is expected that the Joraghat Branch Madrasa will soon be able to supply it with pupils. No changes of importance have taken place in the Dacca Madrasa. The results of the different annual examinations were satisfactory. There is a slight falling off in the Chittagong Madrasa. The establishment of a school as a feeder to it seems to be required.

33. In the early part of the year 1878, the Director proposed that, with a view to encourage the study of Sanskrit literature among private students, an examination should be held in the four subjects of literature, law, philosophy and the Vedas, and that certificates signed by the Director of Public Instruction and the Principal of the Sanskrit College should be given to successful candidates. Sanction having been given to the proposal, the first examination was held in April: fifty-two candidates appeared, and twenty-four certificates were granted. Each recipient of a certificate had a Sanskrit title bestowed on him, showing the branch in which he was proficient. The Principal of the Sanskrit College confidently anticipates that this examination will become one of the most popular institutions in the country.

34. In Bengal the supply of school books does not require any artificial stimulus. The work of selection is left to a Central Committee, which has for three or four years done very useful work. In the more backward province of Behar, the present Inspector has shown great energy in stimulating the compilation and translation from the Bengali of useful works. The Joint-Inspector of Orissa states that the patronage offered to authors by Government and the Maharajah of Dhenkanal has resulted in the production of a valuable series of school books: at the same time he points out that there is a want of Ooriya atlases and dictionaries.

35. No change of any importance has taken place in the educational policy of the Department during the past year. Superior instruction has been maintained at its former high level; great efforts have been made to secure the efficiency of secondary instruction, and the due application of the funds assigned to it, while the circle of organized primary instruction has been still further extended. The demand for education of all kinds is continually increasing, and the people show every year greater readiness to contribute towards its cost. Sir Stuart Bayley desires cordially to acknowledge the good work done by the officers of the Department, and the influence which their labours have exercised in stimulating the desire for knowledge among the people. The gentlemen who constitute the teaching and inspecting staff have earned a very high reputation for the educational body of Bengal. Mr. Croft directed the Department during the year with marked ability, and he has presented the results of the year's administration in a report which, for fulness and lucidity, leaves nothing to be desired.

By order of the Lieutenant-Governor of Bengal,

COLMAN MACAULAY,

Offg. Secy. to the Govt. of Bengal.

RESOLUTION ON THE REPORT ON THE CHARITABLE HOSPITALS AND DISPENSARIES IN BENGAL FOR THE YEAR 1878.

MEDICAL.

Darjeeling, the 23rd October 1879.

READ—

The Report by the Surgeon-General on the working of the Charitable Hospitals and Dispensaries in Bengal (excluding those in Calcutta and its Suburbs) for the year 1878.

Read again—

The Report for 1877, and the orders passed by Government thereon.

THE number of permanent dispensaries and hospitals at work in the interior of Bengal at the close of the year 1877 was 239. Eight new dispensaries were established during the year under review, and three, including a new dispensary, were closed. Thus 244 dispensaries remained open at the close of the year, and of these 166 were under the rules of 1872. Six temporary dispensaries, established in consequence of the outbreak of epidemics, were in existence in the Midnapore district for very short periods during the year, and one was opened in the Beerbhoom district on the 28th December. The present report does not show the statistics of the Synthia dispensary which was closed on the 1st June 1878, or of three newly established dispensaries which were not in full working order during the year. Of the 243 dispensaries from which returns were received by the Surgeon-General, 154, or 63·37 per cent., admitted both in and out-door patients, as compared with 62·2 per cent. in 1877; and the remaining 89, or 36·63 per cent., treated out-patients only.

2. Of the medical subordinates who had charge of dispensaries during 1878, 58 were Assistant Surgeons and 183 Civil Hospital Assistants. The Assistant Surgeons are reported to have generally done their work well, but many of the Hospital Assistants are, the Surgeon-General states, quite unfit for the posts they hold, being men without training and experience, who had to be thrust into independent charges in consequence of the sudden withdrawal of the Military-class Hospital Assistants for special famine duty in Madras and Mysore. Of the Civil Hospital Assistants attached to dispensaries, 78 drew extra pay in consequence of their knowledge of English, against 84 in 1877. Many others besides those who have passed the qualifying examination are reported to be able to write their returns and registers in English.

3. The total number of patients treated during 1877 in the mofussil dispensaries, including those omitted from the report for that year, was 874,264, of whom 23,853 were in-door and 850,411 out-door patients. The number of patients treated in the 243 dispensaries during the past year was 921,252, a higher number than in any previous year and 46,988 more than in 1877. Of those treated 27,720 were in-patients and 893,532 out-patients. Although the total number of in-door patients was thus greater by 3,867, and the number of out-door patients greater by 43,121 than in 1877, the average daily attendance of both in-patients and out-patients at each dispensary was lower in 1878 than in the previous year, being 7·75 and 33·72 as compared with 7·92 and 35·75 in 1877. The dispensaries which treated the largest number of patients were Dacca (19,305), Mozufferpore (16,491), Burdwan (15,738), Patna (14,730), and Midnapore (14,006). The total number of patients treated in the hospitals and dispensaries, permanent as well as temporary, both in Calcutta and in the interior of Bengal, was 1,245,776 against 1,225,852 in 1877. The proportion of the population treated in all the dispensaries and hospitals in the province was 2·05 per cent. against 2·02 per cent. in 1877. In the tabular statements in the report under review, the Surgeon-General should have entered the complete figures for 1877 instead of repeating the incomplete returns given in the previous reports.

4. Of the patients treated 60·46 per cent. were male adults, 19·57 per cent. female adults, and 19·96 per cent. children; 11 per cent. were Europeans, 39 per cent. Eurasians, 31·44 per cent. Mahomedans, 66·29 per

cent. Hindus, and 1·76 per cent. persons of other races and religions. These proportions were nearly the same as in previous years.

5. Of the total number of in-door patients treated, 54·30 per cent. were cured, 11·07 per cent. were relieved, 20·22 per cent. died, and 14·4 per cent. are returned as otherwise accounted for. These results compare unfavourably with those of the previous year, when 55·03 per cent. were cured, 12·25 per cent. relieved, and 17·38 per cent. died. During 1878, the mortality was more than 30 per cent. in 22 dispensaries, and between 25 and 30 per cent. in 10 more. It was 50 per cent. at Bussirhat, 58·81 per cent. at Goalundo, 60·60 per cent. at Barrackpore, and 83·33 per cent. at Magoora. At Bussirhat and Magoora the average daily attendance of in-door patients was too small to render the high mortality of any significance.

6. As in 1877, the chief diseases treated in mofussil dispensaries were fever, goitre, diseases of the skin, diseases of the spleen, rheumatic affections, and ulcers. The patients suffering from these complaints were 22·88, 7·10, 6·70, 5·48, 4·83, and 4·73 per cent. respectively of the total number treated, as compared with 22·74, 6·66, 6·51, 6·59, 4·98, and 4·06 per cent. in the previous year. These figures show a decrease in the proportion of patients treated for diseases of the spleen and rheumatism, and a slight increase in the proportion of those suffering from the other diseases mentioned. There was a falling off in the number of fever cases treated in the dispensaries in the Burdwan Division from 84,509 in 1877 to 80,345 in 1878. The total number of cases of goitre treated in the past year was 65,401 against 55,480 in 1877. These cases were most numerous in the dispensaries in the districts of Mozufferpore (14,537), Sarun (13,245), Chumparun (10,044), Rangpore (10,520), Durbhunga (6,222), Purneah (2,735), Mymensing (2,113), Bhagulpore, (1,556), and Dacca (1,490), while in many of the adjoining districts there were scarcely any cases of the disease treated. With reference to the remarks made in the Resolution on the Report for 1877, on the subject of the prevalence of goitre in certain parts of Bengal and Behar, the Surgeon-General quotes a passage from the annual report of Dr. Mathew, Civil Surgeon of Mozufferpore, from which it appears that, while the disease may be very prevalent in one village, it may be almost unknown in others in the immediate vicinity. The Surgeon-General remarks that little or nothing is known as to the cause of the disease, though it is "variously ascribed to drinking snow water or water impregnated with calcareous or earthy particles, or to living in damp places imperfectly drained." Dr. Irving's suggestion for the deputation of a special officer to investigate the origin of the disease cannot at present be adopted, but the Sanitary Commissioner will be desired to make enquiries on the subject during his visits to districts in which the disease prevails.

7. Altogether 48,970 surgical operations are reported to have been performed in the mofussil dispensaries during the past year, and of these 2,791 are classified as major and 46,179 as minor operations. The number of major operations reported to have been performed during 1877 was 2,301, and of minor operations 37,908. As in 1877, the greatest number of major operations were performed in the dispensaries of Monghyr (416), Dacca (176), Mozufferpore (105), and Dinapore (95). Though the total number of major operations performed in 1878 was greater than in 1877, the number performed by Civil Surgeons themselves was less than in the preceding year. The Superintendents of the Hooghly, Rajshahye, Julpigoree, Patna, Bankipore, and Mozufferpore dispensaries performed no operations at all, and those of the Berhampore and Arrah dispensaries only one operation each. In the Resolution on the report for 1877, the Lieutenant-Governor drew attention to the neglect of practical surgery by several of the Civil Surgeons; and the Surgeon-General, in contrasting this year the number of operations performed in the dispensaries of the North-Western Provinces with those in Bengal, points out forcibly that, unless the Civil Surgeon takes an interest in the operations at the dispensaries in his charge, there is not likely to be any increase in the number of patients to be operated upon. Of the patients who underwent major operations 86·7 per cent. are shown to have been cured or relieved, against 83·4 per cent. in the previous year; while the mortality was 4·1 per cent. in 1878, against 4 per cent. in 1877, and 3 per cent. in 1876. These figures cannot, however, be accepted without qualification, as in a recent memorandum by the Committee on Medical

Expenditure in Bengal it is shown that most of the so-called major operations performed in dispensaries are such as would be classified as minor operations, or not counted as operations at all at the Medical College Hospital. The present classification is in accordance with the form prescribed in the orders of the Government of India, No. 129 of the 21st February 1877; but it is clear that in many of the dispensaries the principle stated in the note to those orders is neglected, and operations which involve no danger to life or to an organ or limb are classed as major instead of minor operations. This principle also appears not to have been followed with regard to all the operations classified in the prescribed form, and if the Surgeon-General will prepare and submit a revised list of major operations, the Lieutenant-Governor will forward it to the Government of India, with a request that it may be adopted in substitution for the present form.

8. The total income of all the mofussil dispensaries for the past year, excluding the balance on the 1st January 1878, the cost of medicines, forms, and registers supplied by Government, and the sale proceeds of medicines, was Rs. 3,96,885. This is less than the receipts of 1877 by Rs. 3,275, but is greater than those of any previous year. The contributions from Government amounted to Rs. 1,18,945, or 29·97 per cent. of the whole income; Rs. 1,29,599 or 32·65 per cent. was contributed by native subscribers, and Rs. 22,412 or 5·64 per cent. by Europeans; the interest from invested capital amounted to Rs. 31,240 or 7·87 per cent. of the total income; municipalities and town committees contributed Rs. 30,918 or 7·79 per cent.; and Rs. 63,771 or 16·07 per cent. was derived from other local sources. Compared with the previous year, there was a slight increase in the proportion of income derived from private and municipal contributions, and from interest on invested capital, and a slight decrease in the proportion of receipts from Government and from local funds other than those of municipalities.

9. The total cost of European medicines supplied by Government free of charge to dispensaries in the interior appears from the returns furnished by Civil Surgeons to have been Rs. 18,842. It is, however, doubtful if this amount is correct, for the Surgeon-General has been unable yet to obtain accurate information from the Examiner of Medical Accounts. It was expected that the required information which was not available at the time the report was submitted would be forwarded to Government soon afterwards, but it has not yet been received. The Examiner of Medical Accounts will, it is understood, in future furnish the Accountant-General with quarterly statements of the cost of medical stores supplied to each institution in Bengal and the value of articles returned to store. If these statements are regularly and punctually forwarded, as the Lieutenant-Governor trusts they will be, there ought in future to be no difficulty in giving full and accurate information in the Annual Reports. In order to avoid the waste of expensive drugs, and the constant irregularities in the issue and custody of medicines under the present system by which European medical stores are supplied gratuitously by Government to dispensaries, it has been decided to adopt in Bengal the system in force in Madras and Bombay under which dispensaries pay for all medicines and instruments they receive from the Government stores. This measure was suggested by the Government of India in January last, and the Committee on Medical Expenditure, who were consulted on the subject, have recommended its adoption. The Lieutenant-Governor is satisfied that it is the only system under which waste can be prevented, and dispensaries that cannot afford to pay for their own medical stores will be closed unless there are some very special circumstances to render their maintenance necessary. Enquiries have recently been made through the Commissioners to ascertain the exact financial condition of each dispensary, and the future status of each institution will now be definitely determined.

10. In 47 dispensaries, the actual receipts from local sources fell short of the guaranteed income, and the subscriptions promised to many of the dispensaries were not regularly paid. Appendix No. I to the report shows that 147 dispensaries had subscriptions in arrears on the 31st December 1878, and in several cases large sums were outstanding. The fact that Government have hitherto contributed so largely to these institutions appears in some instances to have produced the impression among the people that they are

under no obligation to maintain the dispensaries themselves, and that any failure on their part to pay their promised subscriptions will be met by additional assistance from Government. From the remarks of the Civil Surgeon of Beerbhoom it would appear that the zemindars of that district have been demoralized by the establishment of numerous temporary dispensaries at the sole cost of Government. On the other hand, the Lieutenant-Governor is glad to acknowledge the liberality of many of the Rajahs and zemindars of Bengal, but for whose contributions it would have been necessary to close several institutions that are now in a flourishing condition. The liberality of the Maharajah of Bettiah is specially noticed by the Surgeon-General.

11. The total expenditure during the year, excluding surplus funds invested, was Rs. 4,16,342 against Rs. 3,83,198 in 1877. In two dispensaries, viz. those at Rampore Hât and Doolye, the expenditure exceeded the income. The former showed a deficit also in the previous year, and the latter dispensary has now been closed. The accounts of 32 dispensaries showed no balance at the end of the year, while 21 dispensaries invested a portion of their income after the payment of all expenses. The total amount invested was Rs. 24,501 against Rs. 17,097 in 1877, and Rs. 16,342 in 1876. The surplus balance at the end of the year, including money invested, varied from thirteen annas at the Bussirhat dispensary to Rs. 1,71,649 to the credit of the Mitford Hospital at Dacca. The mean balance at the credit of each dispensary in the province was Rs. 2,906.

12. Out of 198 dispensaries outside the limits of civil stations, 179, or 90·4 per cent., were visited by Civil Surgeons, 64 being inspected once, 63 twice, 31 thrice, 7 four times, and 14 more than four times, while 19 dispensaries were not inspected at all. Notwithstanding the repeated orders of Government on the subject, the duty of inspecting mofussil dispensaries appears to be less and less attended to. The figures just given show that 42 per cent. of the dispensaries were during the past year not visited as often as the existing rules require. The number of inspections prescribed is only two annually, and the Lieutenant-Governor must insist on these inspections being made. The names of those Civil Surgeons who neglect this important portion of their duty should be submitted in future for the Lieutenant-Governor's information. In order to secure that the inspections when made are properly and thoroughly performed, the Surgeon-General prepared a form of inspection report at the close of the past year, and the form is now adopted by all Civil Surgeons. The inspections by Dr. Coates, the Sanitary Commissioner, and Dr. Harvey, the Officiating Sanitary Commissioner, are reported to have been especially thorough and useful.

13. The Dispensary Committees appear to have taken but little more interest in their work during the past year than in 1877, and the returns of meetings held are very unsatisfactory. The Committees of only 9·87 per cent. of the dispensaries met regularly once a month. In 2·05 per cent. of the dispensaries, the Committees assembled ten times; in 2·05 per cent. nine times; in 2·47 per cent. eight times; in 3·7 per cent. seven times; in 5·35 per cent. six times; in 2·88 per cent. five times; in 5·76 per cent. four times; in 9·46 per cent. three times; in 10·28 per cent. twice, and in 11·11 per cent. only once during the year. The Committees of 22·64 per cent. of the dispensaries either held no meeting at all during the year, or kept no record of their meeting. The continuance of the dispensaries will in future depend more than hitherto on the exertions of the Committees, and the Lieutenant-Governor trusts that the increased responsibility devolving upon them will lead to their devoting more time and attention to the institutions in their charge.

14. The amount realized by the sale of medicines at dispensaries in the financial year 1878-79 was Rs. 3,509, against Rs. 11,989 in 1877-78 and Rs. 6,539 in 1876-77, the falling off being accounted for by the sale of sulphate of quinine being stopped and the substitution of the cheaper cinchona febrifuge manufactured at the Government plantation at Rungbee, of which 67 lbs. were sold to the public during the year. Having regard to the very small demand for other drugs, the Surgeon-General recommends that their sale by Government should be discontinued. There is no doubt considerable loss by the deterioration of the drugs kept in stock by Civil Surgeons, but some benefit must be caused by even the small sales that now take

place, and the Lieutenant-Governor will await the results of another year before deciding whether the cinchona febrifuge shall alone be sold by Government. The extracts given from reports by medical officers as to the value of the mixed cinchona alkaloids are interesting, and the experiences of Dr. Harvey and Dr. Gopal Chunder Roy form a valuable addition to the overwhelming testimony as to the efficacy of the febrifuge. Dr. Harvey, who has not only prescribed the drug extensively but used it largely himself, considers it to be very little, if at all, inferior to quinine; and in the sudder dispensary at Beerbhoom 3,945 cases of fever were treated in three months, the febrifuge being supplemented by only $2\frac{1}{2}$ oz. of sulphate of quinine. The observations of the Civil Medical Officer of Dinapore certainly require to be tested by other observers before any importance can be attached to them. Sir Steuart Bayley finds it difficult to accept, without further explanation, Dr. Mookerjee's assertion that the febrifuge, "is useless in the constitution of a higher class native, while it is a very useful remedy for people of a lower stratum in society."

15. Orders have issued separately regarding the payment to be made by Magistrates in certain cases for the maintenance of persons sent to dispensaries by the police in consequence of injuries sustained under circumstances which form the subject of a criminal enquiry. The proposal made by the Surgeon-General that each Civil Hospital Assistant should be compelled to subscribe for a small half-yearly or annual medical periodical to be published in Bengali is now under consideration, and orders will be issued hereafter.

ORDER—Ordered that a copy of this Resolution be forwarded to the Surgeon-General for information and guidance, and to all Commissioners of Divisions for information and for communication to District Officers.

Ordered also that a copy of the Resolution, together with a copy of the Report, be forwarded to the Inspector-General of Jails for information, and to the Sanitary Commissioner for information and guidance.

Ordered also that a copy of the Resolution, together with a copy of the Report, be forwarded to each member of the Committee on Medical Expenditure for information.

Ordered also that a copy of the Resolution, together with a copy of the Report, be submitted to the Government of India in the Home, Revenue and Agricultural Department for information.

By order of the Lieutenant-Governor of Bengal,

HORACE A. COCKERELL,

Secretary to the Government of Bengal.

RESOLUTION ON THE GENERAL ADMINISTRATION REPORT OF THE
CHOTA NAGPORE DIVISION FOR 1878-79.

GENERAL DEPARTMENT—MISCELLANEOUS.

Calcutta, the 24th October 1879.

RESOLUTION.

READ—

The General Administration Report of the Chota Nagpore Division for 1878-79.

The Commissioner has dealt fully with most of the branches of the administration and other subjects regarding which information is desired in these reports. Mr. Mangles held charge of the division until the end of October 1878, when he was compelled by ill-health to take furlough. Mr. Hewitt, who succeeded him, has since been in charge.

2. *Tours.*—The Sudder and Sub-Divisional Offices of Hazareebagh were inspected by Mr. Mangles before his departure. Mr. Hewitt commenced his tour on the 3rd December, and, from that date until his return to head-quarters on the 20th February, he marched through Lohardugga, Palamow, the Tributary States, Singbhoom, and Manbhoom, doing the usual inspection at the different places visited by him. The tour of the Deputy Commissioner of Hazareebagh extended over four months, and was very usefully employed by him in the inspection of police stations, schools, and other departments. The Deputy Commissioner of Manbhoom was out for more than three months, during which period his attention was chiefly given to the organization of relief measures on a small scale in the western portion of the district, and the settlement of important matters affecting some of the large estates of the district. In Lohardugga the Deputy Commissioner having recently joined, and being new to the district, was unable to absent himself for any considerable time from head-quarters. In Singbhoom the cold-weather tour was interrupted by unavoidable changes of the district officer. The Lieutenant-Governor trusts that in this district and Lohardugga the Deputy Commissioners will be able to give more time to their tours in the ensuing cold season. The Sub-Divisional Officer of Palamow spent the entire cold weather in camp, and enquired into the license tax assessments in no less than 400 villages, besides doing a good deal of other routine or special work.

3. *Weather and crops.*—The rainfall of the year was both scanty and badly distributed, contrasting very unfavourably with that of the previous year, which was itself deficient as compared with the rainfall of 1876-77. The rainfall in the past three years has been as follows:—

			1876-77.	1877-78.	1878-79.
Hazareebagh	58.78	40.58	41.27
Lohardugga	67.64	53.83	46.74
Manbhoom	69.27	61.29	50.28
Singbhoom	70.35	60.51	37.54

The heat is reported to have been intense in Singbhoom for some weeks during May and June last year. The rainy season came to an early termination everywhere, and was followed by a winter of great severity in Hazareebagh and Lohardugga. Rice gave an outturn of 12 annas in Hazareebagh and the head-quarters sub-division of Lohardugga, but of only 6 or 7 annas in Palamow. In Manbhoom the harvest was fairly successful, the low land crops in a few pergunnahs being pronounced magnificent. The outturn for the whole district in Singbhoom was below the average. The bhadoi crops and Indian-corn did well in all districts, but the cold-weather crops and mohwa, which enters largely into the food consumption of the people, suffered generally from frost and unseasonable weather.

4. *Public health and material condition of the people.*—Manbhoom is the only district in which the public health is reported to have been good during the year. In Hazareebagh 12,467 deaths were registered against 8,565 in 1877-78. The district suffered from a cholera epidemic, which spread gradually from north to south over a considerable tract, and proved fatal to a large number of people. It was found expedient to stop the emigration of coolies from the 17th July to the 24th October. The Deputy Commissioner attributes the

outbreak in some measure to the impoverished state of the people, who were compelled for a time to consume jungle produce, such as roots and tender bamboo shoots, for want of better food. The Lieutenant-Governor observes that the same cause has been assigned by the local officers for the unusual prevalence of sickness in parts of Orissa during the past year. The mortality registered in Lohardugga was also higher than in the preceding year. The prevailing disease was fever, to which 21,820 deaths out of the 28,694 registered were ascribed. Singbhoom suffered more than usual from its common diseases—fever and bowel-complaints. The bad condition of the water-supply in the interior of the district renders the people peculiarly prone to the latter disease.

The high range of prices combined with the poor outturn of some of the crops, especially mohwa, must have caused much suffering to a large section of the people during the last two years. Works were started last year in some localities in Hazareebagh and Lohardugga with the special object of affording relief to persons in distress. With regard to the general condition of the people, the Deputy Commissioner of Manbhoom states that the regular cultivators, who cultivate their own lands with their own ploughs, are fairly off, but that the non-cultivating classes lead a hand to mouth existence. The Deputy Commissioner of Singbhoom gives a more pleasing account of the people of his district. The Hos, who constitute the bulk of the population, are said to be prosperous and contented, although the poverty-stricken appearance of their habitations would convey an opposite impression to a stranger.

5. *Emigration and Immigration.*—The number of emigrants, inclusive of dependents, registered for the tea districts of Assam, Sylhet, and Cachar in the past two years was as follows:—

		1877-78.	1878-79.
Hazareebagh	...	6,953	4,698
Lohardugga	...	10,021	11,210
Manbhoom	...	11,153	9,296
Singbhoom	...	444	410
Total	...	28,571	25,614

The district officers should in future specify the number of dependents and emigrants separately. It is impossible to gather accurate information on the subject for every district from the present report. So far as can be ascertained, it appears that, of the total number of emigrants last year, 10,863 were dependents, 1,570 having been registered in the sudder sub division of Hazareebagh, 5,107 in Lohardugga, and 4,186 in Manbhoom. In 1877-78 the number of dependents registered in Lohardugga and Manbhoom was 8,239. No explanation of the falling off in emigration to the tea districts is offered in the report. Some malpractices on the part of sirdars and recruiters were discovered, but, on the whole, the operations in connection with emigration were carried on with less friction than formerly. This result appears to be chiefly due to the gradual substitution of garden sirdars for professional recruiters. The westward movement of the aboriginal population in Lohardugga, which was noticed last year, continues. The emigrants settle in the Tributary States of Gangpore, Jushpore and Sirgajah, to which they appear to be drawn by the easy terms on which land can be procured. There was no emigration to the colonies, and no immigration in the past year.

6. *Prices of food and labour.*—Food was dear throughout the division during the year. In Lohardugga the price of common rice rose to nearly double the rate in 1876-77, and 25 per cent. above the rate in 1877-78. Murwa, a grain much used by the poorer classes, and Indian-corn also advanced in price. In Manbhoom rice was at one time selling at 11 seers the rupee. In Singbhoom its price has doubled within the last few years. The rates of wages remain unchanged everywhere, although a tendency to rise might have been expected not only from the increase in the prices of food-grains, but also from the drain which emigration makes on the supply of labour. The emigrants from Lohardugga in the past year amounted to a percentage of 1.26 of the whole population of Chota Nagpore proper. The system of payment in kind which

exists in most parts of the division fortunately protects the labourer against the effects of a rise in the cost of the principal articles of food.

7. *Manufactures and Mines.*—With the exception of tussor silk, a small quantity of which is exported from Manbhoom, the manufactures of the division are confined to articles required for local consumption. They consist chiefly of brass and pewter utensils, ornaments, and coarse cloth. The use of the small hand sugar-mill patented by Messrs. Thomson and Mylne of Beheca is extending among growers of sugarcane in the Palamow sub-division, and thirty of these machines were sold during the year. A similar machine for oil-pressing would doubtless be much appreciated. The richness of Chota Nagpore in coal is well known. Five mines in Hazareebagh, two in Manbhoom, and one in Palamow were working in the past year, as appears from statistics recently collected. The most important mines are found in the Hazareebagh district. They are stated in the report to have employed 8,000 labourers during the year, the output being 381,173 tons, or 81,772 tons more than in 1877-78. Small quantities of coal were also extracted from the mines in Manbhoom and Palamow. The coal-fields of these tracts remain practically untouched, owing to the absence of easy means of communication with the rest of Bengal. Pergunnahs Jheria and Nowagurh in Manbhoom comprise a vast coal-field, the area of which has been estimated by geologists at 200 square miles. The copper mines of Singhboom are yet unworked, and the Mica mines on the Gowan Estate in Hazareebagh would appear to be worked on a very small scale. The tea industry is alluded to very briefly and in the most general way in the report. In the Resolution issued last year, the Lieutenant-Governor especially desired that this subject should be noticed at length in future reports, and he must now reiterate his wish on this point.

8. *Trade and Commerce.*—The principal exports of the division are rice, oil-seeds, pulses, and molasses, and the principal imports salt, cotton, piece-goods, and spices. The exportation of rice from Manbhoom, the most important rice-producing district of the division, was smaller than usual in the past year, but oil-seeds and molasses were largely exported from the Govindpore sub-division to Beerbhoom and Ranecgunge. In Hazareebagh a large trade in imports and exports is carried on at the large marts of Chattra and Hazareebagh. The trade in country produce was brisk during the cold season in Lohardugga. Almost the whole trade of the most important of the Tributary States passes through the district, borne on pack-bullocks. Looking to the immense resources of Palamow and the Tributary States of Sirgujah and Oodeypore in minerals and forests, the Commissioner has no doubt that in a few years a railway passing through these regions to unite with the Nagpore line at Raipore will be considered one of the best routes on which Government money can be expended.

9. *State of public feeling.*—The division possesses no press and is yet too backward for the existence of anything like public opinion among the people. Measures of local interest are, however, sometimes keenly discussed by the classes whom they specially affect. The license tax is disliked, but it has apparently excited less discussion than in other parts of Bengal.

10. *Administrative changes.*—Several important changes were effected in the past year. In Hazareebagh the areas of several thanas were readjusted, and three new thanas created, and the outposts were more carefully distributed. By these arrangements the police jurisdictions have been made compact, and, as far as practicable, brought to the same size. The changes were completed by a re-distribution of the moonsifec jurisdictions. They are said to have been a great boon to the people. The new Rural Police Act (VIII of 1878) for Hazareebagh and Lohardugga is being introduced in those districts. The position of the "Digwars" will be much improved under the Act, and it is hoped that highway robberies will be effectually checked. The Deputy Commissioner of Hazareebagh thus explains the patrol system adopted for his district:—"The Digwars are to patrol the roads from sunrise to sunset on either side of the road-posts, and raised platforms are erected in the centre of the beats, where they remain during the day. At night they return to their road-posts to sleep, as travellers do not travel about this jungly district at night." Since the close of the year the thanas of Raipore and Khattra, which were found to be inconveniently situated in

regard to Purulia, the sudder station of Manbhoom, have been transferred from that district to Bankoora.

11. *Police and Crime.*—The Commissioner rightly remarks that the regular police have to contend with considerable difficulties in this division, owing to the wild nature of the country and the fact that the criminal classes are distributed over the country instead of being collected in well-known centres. The force appears to be efficient in all districts of the division save Manbhoom. In Lohardugga it contains a large number of old military men, who, though deficient in detective ability, must in other respects make very useful policemen. The police of Manbhoom has been allowed to fall into a state of general laxity. The Commissioner reports that cases were too often very carelessly enquired into during the past year, the whole object of the police apparently being to get the case off their file without caring whether the crime was brought home to the real criminals or not. A marked improvement is said to have occurred of late, but the Lieutenant-Governor expects that the efforts of the local officers will not be relaxed until a thorough change for the better is accomplished. The condition of the force must be specially noticed in next year's report. In Singbhoom the regular police are employed only in pergunnahs Dhalbhoom and Porahat. In the Government Kolhan the village headmen discharge all police functions under the control of the District Superintendent, and in the States of Seraikela and Kharsawan the Chiefs maintain their own police. The rural police, consisting of chowkidars and ghatwals, are reported to be very useful.

12. An increase of crime is observed in the returns of every district, a result which is in the main accounted for by the high prices of the year. In Hazareebagh there were 2,303 cases of all kinds against 2,248 in the previous year; in Lohardugga 1,857 cases against 1,581; and in Singbhoom 428 cases against 298. Figures for only the principal heads of crime are supplied for Manbhoom, and they show a very large increase in the number of offences under these heads within the last three years. The increase in cases of dacoity, lurking house-trespass, cattle-theft and ordinary theft is most marked, and fully bears out the Commissioner's strictures on the state of the police.

13. *Civil Justice.*—The treatment of this subject in the report is still defective. The number of suits instituted and disposed of is stated, but no attempt is made to review the course of civil litigation during the year. The suits instituted and disposed of were as follow :—

			Instituted.	Disposed of
Hazareebagh	1,100	968
Lohardugga	936	850
Manbhoom	3,219	2,802
Singbhoom	1,031	875
Total			6,286	5,495

The figures for Hazareebagh and Manbhoom include 127 and 501 suits respectively pending from the previous year. In addition to the above, there was a large number of miscellaneous cases for disposal. The amount of civil litigation in the whole division cannot be deemed excessive.

14. *Land Revenue and matters connected with the land.*—Chota Nagpore contains 395 revenue-paying estates, bearing an aggregate current demand of Rs. 3,64,200. In the past year the total demand, including arrears, amounted to Rs. 3,80,128, of which sum Rs. 3,59,100 were collected, Rs. 900 remitted, and Rs. 20,118 remained unrealized at the close of the year. The unrealized balance was very heavy in Lohardugga, the collections having, it is said, been affected by failure of crops and high prices. The Deputy Commissioner of this district notices an increase in alienations of estates by sale and mortgage, indicating that the money-lending class is gradually supplanting the old landowners. A large number of estates belonging to influential indigenous families have, however, been already placed under the protection of the Encumbered Estates Act, and others can be protected hereafter should they have a fair claim to the benefit of the Act.

15. Several important settlements were in progress during the year. Operations were nearly completed on the Government Burkagurh estate and the minor estates of Puttia and Silum. Sixty-four square miles of boundary and cadastral survey were accomplished on these estates in the course of the year. In Manbhoom the pergunnahs of Mahta and Koelapal were placed under settlement, and nearly the whole of the latter was measured before the end of the year. The re-settlement of the Porahat estate in Singbhoom was also commenced, and 84 out of 336 villages were measured. The cadastral survey of the Chota Nagpore Estate was discontinued, the expense attending it having been found to be quite disproportionate to the real requirement of the estate and the value of the results to be obtained. The Lieutenant-Governor will give full consideration to any proposals for a less expensive system of measurement which the Commissioner may submit.

16. *Excise.*—The failure of the mohwa crop led to a reduction in distillation and a consequent decrease in the revenue from country spirits in Hazareebagh, Lohardugga, and Manbhoom. The total excise receipts in Hazareebagh were Rs. 1,15,094 against Rs. 1,47,633 in the preceding year. In Lohardugga there was an increase from Rs. 1,67,190 to Rs. 1,69,513, due to the confiscation of deposits on surrender of licenses within the year. In Manbhoom the revenue fell off by Rs. 119, while in Singbhoom it rose to Rs. 16,685, as compared with Rs. 15,899 in 1877-78. The Lieutenant-Governor desires that the result of the enquiries which the Deputy Commissioner of Lohardugga has been directed to make with regard to alleged smuggling across the Gya border may be reported.

17. *License Tax.*—It is clear from the following figures that the assessments were very carelessly made in the first instance:—

		Assessed. Rs.	Remitted. Rs.
Hazareebagh	...	65,698	23,087
Lohardugga	...	59,678	13,795
Singbhoom	...	18,780	4,809

In Lohardugga there were assessments pending revision at the end of the year in which large remissions were likely to be made. The remissions in Manbhoom are not reported. The total assessment of Rs. 14,195 returned for the district would, however, show that it has been lightly assessed.

18. *Monetary arrangements.*—There has been a further increase in the use of copper coins in Lohardugga, the amount received into the treasury being Rs. 1,52,620 and that paid out Rs. 1,06,934. Transactions in currency notes appear to have been also active in all the districts. Savings Banks are not more popular than in other districts of Bengal. The deposits are small and remain nearly the same from year to year. The total amount paid on money-orders in Hazareebagh increased from Rs. 8,969 to Rs. 12,072, owing to the general use of this mode of remittance by emigrants serving in the tea districts.

19. *Communications.*—The three roads from Hazareebagh to Burhee, Bagodur and Band Kheta respectively, and the road from Doomri to Giridih, are reported to be in excellent order and fit for any kind of traffic. Several village roads were repaired during the year, and the municipal roads are said to be in good condition. In Lohardugga communications are still very defective. The Deputy Commissioner's recommendation that the roads from Ranchec to Raneeunge *via* Purulia, and from Ranchec to Hazareebagh *via* Ramgurh, should be made over to the Road Cess Committees of the districts concerned will be referred to the Public Works Department, with which the Commissioner should communicate. In Manbhoom Rs 39,065 were spent on the roads during the year. The completion of the Chyebassa road is an expensive work which will take some years. The Road Cess Act is not in force in Singbhoom, and the roads are maintained by an allotment from the Grant-in-aid Fund.

20. *Schools.*—The division is backward in education, but progress is being gradually made, particularly in the district of Manbhoom, where there is a large Bengali element in the population. The system of payment by results has been introduced of late with good effect in Hazareebagh. The number of schools in this district was 253, and of pupils 5,274, in the past

year, as compared with 233 schools and 4,881 pupils in the previous year. The Lieutenant-Governor agrees with the Deputy Commissioner that the practice of allotting stipends to the gurus of primary schools according to the number of their pupils, hitherto followed in Lohardugga, is open to abuse, and he is glad to learn that the Committee intend to adopt the sounder principle of gauging the claims of the gurus by the general results of their teaching as shown in the inspection reports. There has been a satisfactory increase in the number of schools and pupils in Manbhoom, and the proposed substitution of payment by results for the present system of grants will, no doubt, cause a further expansion of education. Eight boys from the district passed the University Entrance examination. Singbhoom has 83 schools attended by 3,704 pupils. Out of 2,133 pupils at the primary schools, 1,639 or 76 per cent. are Hos.

21. *Vaccination.*—The number of operations performed in Hazareebagh was 37,462, of which 35,859 were successful. In Lohardugga there were 28,072 operations with 25,043 successful cases. In Manbhoom 52,298 operations were reported, but only half the number was verified during the year. The number in Singbhoom was 18,497, of which 16,964 cases were successful. The vaccinators are either retained and paid by Government or licensed and permitted to charge fees. There were 43 in Hazareebagh, 37 in Lohardugga, 35 in Manbhoom, and 22 in Singbhoom, 75 of the whole number being ex-inoculators.

22. *Conduct of zemindars.*—The majority of the zemindars of Hazareebagh are deeply involved in debt and unable to contribute much to objects of public utility. The Tekait of Kurhurbari and the Zemindars of Serampore and Palgunge are, however, again favourably mentioned—the first two for the interest which they have taken in education, and the last for his great moderation and consideration in dealing with his Sonthal ryots. In Lohardugga Hanuman Sing, Baya of Beroo, is regarded as a model landlord by the people, a character which he has borne for many years. The Maharanee of Pandra and the Zemindar of Jheria in Manbhoom are well spoken of.

23. *Court of Wards and Attached Estates.*—The Court of Wards had under its management ten estates, with a total rent-roll of Rs. 4,99,121, and a total revenue and rent charge of Rs. 36,593. The largest of the estates are those of Chota Nagpore and Deogun in Lohardugga, Dhunwar and Gowan in Hazareebagh, and Dhalbhoom in Singbhoom. The Chota Nagpore estate, which comprises the whole of the Sudder sub-division of Lohardugga, was relieved from protracted litigation during the year by the dismissal of an appeal preferred to the Privy Council by a claimant who had contested the minor's title. It has a rent-roll of Rs. 2,81,556, and pays a Government revenue of Rs. 14,364. Debts amounting to nearly six lakhs of rupees had been paid by the end of the past year, and the estate is now solvent. It will now be possible to incur expenditure for the general improvement of the property. The Deogun, Gowan, and Dhunwar estates are also solvent, the first two having large sums invested in Government securities. The Dhalbhoom estate covers an area of 1,188 square miles, inhabited by a population of 1,12,902 souls, and has a rent demand of Rs. 44,000. The minor proprietor is receiving instruction from a private tutor. The Attached Estates under the Political Department have been released since the introduction of the Encumbered Estates Act. Twenty-six of them have been brought under the new Act.

24. The Commissioner's remarks on the officers subordinate to him will be communicated to the Appointment Department.

By order of the Lieutenant-Governor of Bengal,

The mean pressure, temperature, &c., are deduced from observations made at 6h., 10h., 16h., and 22h.; the maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the ... have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed ... shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No. 86 formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The direction and movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

NOTIFICATION.

The 28th October 1879.—The Lieutenant-Governor has sanctioned the substitution of the following for rules 1 and 4 of the rules for the examination of, and granting of certificates to, commanders of inland steam vessels, published in the *Calcutta Gazette* of the 22nd August 1879:—

N. B.—The provisions of Rule 1 will not be applied in the case of candidates who are at the date of the publication of these rules actually in command of a river steamer.

Rule 1.—Candidates for certificates as commanders of inland steam vessels must be not less than 21 years of age and have served either three years at sea, and three years as mate of a river steamer or master of a flat, or six years as mate of a river steamer or master of a river flat.

Rule 4.—The examination of candidates shall ordinarily be conducted by the Committee which sits quarterly for the examination of pilots, assisted by a person, selected in each case by the Port Officer, holding a certificate duly in force under these rules. But the Port Officer may at any time convene a Special Committee for the examination of candidates under these rules.

2. The Lieutenant-Governor has also sanctioned the addition of the following Rule 9 to the above rules:—

Rule 9.—Commanders holding Pilots' certificates will not be required to pass the examination.

The 4th November 1870.—The following Resolution recorded by the Lieutenant-Governor of Bengal in the Financial Department is published for general information :—

CALCUTTA, THE 24TH OCTOBER 1879.

RESOLUTION.

READ AGAIN—

The revised budget estimates for the year 1877-78.

The budget estimates for the year 1878-79.

Resolution of this Department, dated 30th March 1878, reviewing the estimates for the year 1878-79.

Letter from the Government of India, No. 1503, dated 31st March 1879, ordering certain changes in the classification of the heads of account.

Read also—

Endorsement from the Accountant-General, Nos. 1531-32, dated 6th October, forwarding the final consolidated abstract of receipts and disbursements for the month of March 1879, and for the year 1878-79.

Resolution of this Department, dated 9th September 1879, reclassifying the budget estimates for 1879-80.

The statement of the receipts and disbursements of the past year is due from the Accountant-General on the 15th August, but has not been received on this occasion till the 6th October. It is understood that the delay in making up the accounts is mainly due to the departments over which the Accountant-General has no control, but the latest account was, it appears, received from the Marine Accountant on the 20th August, and the delay between that date and the 6th October is unexplained.

2. The following statements show the actuals for the year 1878-79, both Actuals for 1878-79 as shown by receipts and disbursements, as compared with the Accountant-General. budget estimates and regular estimates for the year. The regular estimates have been reclassified in accordance with the orders of the Government of India of the 31st March last, to enable them to be correctly compared with the receipts and disbursements under the same heads :—

The additions exceed the deductions by Rs. 65,000 as the fund for the management of wards' and attached estates has been amalgamated with the provincial revenue under the head provincial rates with a regular estimate of that amount.

Grand Total	3,99,91,000	4,11,39,549	4,04,05,526

The deductions exceed the additions by Rs 71,000, being the regular estimate of disbursements for the Wards' Fund.

3. The above figures are given as received from the Accountant-General, and at first sight they would indicate that the Bengal Government, instead of closing the year with a surplus of Rs. 45,40,750, had in fact a surplus of only Rs. 15,51,883, or nearly 30 lakhs below the regular estimate.

4. This, however, is due to very serious mistakes which have been admitted into the accounts, and which are marked (a), (b), and (c). As regards (a) it will be seen that according to the returns of the State Railway receipts and disbursements, the former were Rs. 6,72,509 and the latter Rs. 7,42,837 below the regular estimate. It is evident that there has been much confusion in these accounts, disbursements having been set off against receipts. If this has been done systematically, and the accounts sent to the Accountant-General show not receipts and not disbursements, the ultimate balance will not be affected; but the latest figures furnished to this department direct by the Railway Department gave Rs. 18,11,192 as receipts and Rs 14,07,636 as disbursements, a result which is Rs. 1,16,528 better than the figures given by the Accountant-General. The State Railway officers should clear up the matter in correspondence with the Accountant-General. As regards (b), the Accountant-General has credited the Government of India with the gross instead of the net collections from the license tax, and thereby imposed upon the provincial revenues the costs of collection amounting to Rs. 2,79,340. To this extent therefore the closing balance has been incorrectly reduced.

5. The worst mistake of all, however, is that marked (c), whereby the whole of the capital expenditure on productive public works has been brought into the ordinary revenue account of the year, and thereby the regular estimate exceeded by Rs. 25,43,808. It has been ascertained that this capital expenditure amounted to Rs. 24,49,850, and to this extent the closing balance has been wrongly decreased.

Correct closing balance determined.

6. The correct closing balance should therefore be—

	Rs.
As shown by the Accountant-General	15,51,825
Add charges for collecting license tax	2,79,340
„ capital expenditure on canals	24,49,850
„ on account of State Railways as shown by that Department	1,10,528
Total	43,97,543

which is Rs. 1,53,247 below the regular estimate. The last item, however, may possibly be liable to further modification.

7. As regards the mistakes marked (a) and (c), it seems to Sir Steuart Bayley the system must be seriously and dangerously incorrect which could have admitted them into these important accounts which set forth the final liabilities for the year of the provincial Government. The Accountant-General, it is understood, urges that it is only his duty to take the figures as given him by the Examiners of the Public Works Department, and throws the blame of the errors committed upon them. The Lieutenant-Governor is not in a position to determine with whom the fault lies; but clearly it is the duty of the account department, as a whole, to send in correct accounts, and in the case of complete failure to do so, as in the present instance, there must be gross errors of system somewhere. Moreover, it must have been clear to the Accountant-General that something was wrong when the railway receipts that were fixed for the regular estimate at Rs. 16,59,000 only amounted to Rs. 9,86,491, while at the same time the expenditure that had been estimated at Rs. 14,42,300 only amounted to Rs. 6,99,463; and when, as regards irrigation, the regular estimate of that department for disbursements was fixed at Rs. 10,32,661, while the results came out at Rs. 35,76,469; and with these facts before him the Accountant-General might surely have taken steps to rectify the mistakes in demi-official correspondence instead of submitting obviously incorrect account.

8. As regards the mistake (b), the orders of the Government of India on the subject of the license tax contribution, which are conveyed in the resolution of the 14th February 1878, are—"The contract amounts to be guaranteed by the several local Governments in respect to the taxes imposed in 1878 will be settled hereafter. Whatever amount may be in any case thus settled, the Imperial Government will limit its demands to the amount actually collected." By this the Government of India intended to take the *net* amount actually collected after defraying costs of collection, but the Accountant-General has understood it to mean the *gross* collections, leaving the local Government to bear the costs of collection. As therefore the Government of India entered in the regular estimates the sum of Rs. 21,15,000 as the amount of contribution, and the total collections only amounted to Rs. 20,19,027, this whole amount has been transferred by the Accountant-General to the Government of India, and the costs of collections treated as a charge on the provincial revenues.

9. The Accountant-General informed this Government that he had done so in his No. 578 of the 1st September, and was in reply directed to rectify the error, but the reply which was dated on the 19th September reached him, it appears, too late to enable him to obtain the consent of the Comptroller-General to make the correction before sending in the statement.

10. The correct interpretation of the intentions of the Government of India is to be found in paragraph 9 of the resolution of this department, dated 19th February. In that paragraph, while estimating the gross receipts at 24 lakhs, and the net revenue at 21 to 21½ lakhs, it is stated. "This sum falls short of the 30 lakhs which the Government of India expected to receive from the Government of Bengal out of the proceeds of this tax. The modifications introduced into the Bill under the instructions of the Supreme Government have made it a much less productive measure than was anticipated, but the Lieutenant-Governor understands that the Government of India will be content to accept whatever the net proceeds of the tax may be within the limits originally laid down."

11.* A copy of this was sent to the Accountant-General as usual, and also to the Government of India, *with reference to their resolution of the 14th February*, quoted above. And besides this, the above view was incorporated in section 37* of the License Tax Act, was approved by the Governor-General, and received formal legislative sanction, so that the action of the Accountant-General in crediting the Government of India with the gross collections is not merely mistaken, but also contrary to the law.

12. Moreover, his own budget estimates are amply sufficient to satisfy the Accountant-General that his interpretation was wrong. The Government of India, which, as above referred to, originally expected to get 30 lakhs from the license tax, eventually entered Rs. 21,15,000 in the budget. It was obvious that the receipts being estimated at Rs. 23,50,000, and the disbursements estimated at Rs. 2,35,000, this amount of Rs. 21,15,000 was equal to the estimated *net* collections, and therefore that it was the intention of the Government of India to take the net and not the gross receipts.

13. The case is so clear, both as regards these costs of collections and the capital expenditure on canals, that the Lieutenant-Governor has no hesitation in taking credit for the additions to the balance thereby obtained in this resolution. Further information must be awaited before it can be finally determined what sum should be added for State Railways; but as the figures sent in by the Accountant-General are manifestly wrong, it is best to take the figures sent to this department by the Railway Department as provisionally correct.

14. Comparing the actuals with the reclassified regular estimate, it will be found that the opening balance has increased by Rs. 44,160. This is due to the amalgamation of the Wards Rate Fund and the Encamping Ground Grazing Fund with the provincial accounts, the former with a balance of Rs. 43,840 and the latter with a balance of Rs. 320. Rectifying the items marked (a), (b), and (c) in the manner indicated in the preceding paragraphs, the total receipts of the year, including the opening balance, amounted to Rs. 4,13,20,289 and the total disbursements to Rs. 3,69,22,746. Thus the receipts have exceeded the budget estimates by Rs. 13,29,289, or, allowing for the decrease in the opening balance, by Rs. 15,37,743, and exceeded the regular estimates by Rs. 1,77,743, or Rs. 1,37,583 if the addition of Rs. 44,160 to the opening balance be allowed for. The disbursements similarly fell short of the budget estimates by Rs. 4,66,254 and exceeded the regular estimates by Rs. 3,23,950.

15. The last two columns shew the extent of the surplus or deficit under each head of account; but as the second year after the extension of the decentralization scheme has now elapsed, the Lieutenant-Governor deems it expedient to review these accounts not merely with reference to the regular estimates for the year as shown in the above statements, but also with reference to the estimates and allotments that were made under each head at the time of the transfer of the charges to this Government, and thus to indicate the heads of revenue and the departments that have conduced to the financial prosperity of the Bengal Government, as well as those that have proved a loss to it. The separate financial responsibility of this Government dates from the year 1871-72, when the decentralization scheme was first introduced; but, for the purposes of the present review, it will suffice, in continuation of the Resolution of the 30th March 1878, to take the estimates for the year 1877-78 as they stood at the time when a considerable increase was made to the direct financial responsibility of the local Government.

16. The budget estimates for the year 1877-78 originally embraced the provincial receipts and expenditure of the Departments of Jails, Registration, Police, Education, Medical, Printing, Miscellaneous, and Public Works; and also certain expenditure incurred under the heads of Minor Establishments, Petty Construction and Repairs, and Rents, Rates, and Taxes. In addition to these heads of account the estimates of the local Government included certain special funds which made up the Provincial Reserve, the surplus of which was at the disposal of the Lieutenant-Governor for general purposes. These

* Section 37.—From the net amount of all fees and penalties paid or recovered under this Act..... after deducting the expense of collection, so much as the Governor-General in Council from time to time directs shall be applied in such manner as the Governor-General in Council thinks fit, for the purpose of increasing the revenues available for defraying expenditure incurred or to be incurred for the relief and prevention of famine in the territories administered by the local Government, or if the Governor-General in Council so directs in any other part of British India. The residue (if any) of such net amount shall be carried to the credit of the local Government.

have subsequently been amalgamated with the general provincial fund. The provincial estimates as first framed for that year show—

	Rs.
Total receipts	25,18,000
To which were added receipts from Provincial Reserve	17,66,000
And allotments from the Government of India	1,10,59,000
Making a total of	1,53,43,000
Against this income the estimates of disbursements were	1,36,84,000
And from Provincial Reserve	15,09,000
	1,51,93,000
Showing a slight estimated surplus of	1,50,000
In addition to an opening balance then estimated at	1,51,000

17. By the orders of the Government of India extending the decentralization scheme, certain further branches of revenue and expenditure, estimated for the year 1877-78 at Rs. 1,91,07,000 receipts, and Rs. 1,34,70,000 disbursements, were transferred to the control of the Lieutenant-Governor, so that, to maintain the equilibrium, the previous allotment of Rs. 1,10,59,000 should have been reduced by Rs. 56,37,000. But as the Government of India imposed upon this Government the obligation of effecting savings to the extent of Rs. 5,90,000, the allotment was still further reduced by this amount, and was therefore originally fixed at Rs. 48,32,000.

18. Besides this deduction of Rs. 5,90,000 the Bengal Government was already liable to an additional burden of Rs. 21,000 for rents of public offices in Calcutta, without any corresponding revenue or assets. In 1873 the capitalised value of these rents was, at the request of Sir George Campbell, made over to the local Government, amounting in all to Rs. 4,66,670, to enable better accommodation to be provided for the Government offices. Before, however, this money could be spent, the Behar famine of 1874 occurred, in the relief of which the whole of this capital was swallowed up. Since that time therefore the Bengal Government has been meeting these rents from its savings under other heads, and this sum is included in the estimated surplus of Rs. 1,50,000 referred to in paragraph 16, which otherwise would have been Rs. 1,71,000.

19. Combining therefore the additions made in 1877-78 with the previous estimates, it will be seen that the modified estimates of the year 1877-78 of the Bengal Government under all heads aggregated Rs. 2,82,23,000 receipts against Rs. 2,86,63,000 disbursements, and hence the deficit, which had to be made good before any surplus could be obtained, either by enhanced receipts or by savings in expenditure, was reduced from Rs. 5,90,000 to Rs. 4,40,000.

20. Moreover, besides the above estimates, this Government was called upon to make good the interest on the capital expended in Bengal on Canals and State Railways. To meet this, the Provincial Public Works Cess was imposed; while more recently the License Tax also was introduced in order to meet the contribution of this Government towards famine insurance.

21. Hence in order to estimate the effect of the Financial Administration of the Bengal Government since the extension of the decentralization system in 1878, the actuals have to be analyzed under three distinct heads:—

Manner in which the actuals of the year 1878-79 can best be compared with the estimates for 1877-78.

(a).—The actual receipts and disbursement of all the services made over in 1871, combined with those subsequently made over in 1877, have to be compared with the estimates on the basis of which the contract was made, and the Lieutenant-Governor left with an estimated deficit of Rs. 4,40,400.

(b).—The receipts from the Public Works Cess, plus the receipts from Irrigation and State Railways, have to be compared with the interest for which the Bengal Government was made liable,

added to the costs of collecting the Public Works Cess, plus the ordinary revenue expenditure on Irrigation and State Railways.

- (c.)—The license tax will yield the local Government a profit if the receipts cover the expenditure incurred in collection, plus the contribution fixed by the Government of India, but not otherwise. In no case, however, should it involve this Government in any loss.

22. By far the most important comparison of the three is that to be made

(a.) Comparison of the estimates on which the provincial contract was revised in 1877 with the actuals under those heads of account.

between the estimates and allotments as framed for the year 1877-78, and the actual receipts and expenditure as now ascertained for the year 1878-79, under the same heads as were then transferred, in order to see in what departments financial success has been mainly attained. But before this comparison can be correctly instituted, some further adjustments have to be made.

23. The Government of India have on various occasions made certain

Modifications necessary owing to subsequent transfers and reclassification.

small additions to the expenditure to be incurred by the local Government, the largest being the charges on account of Government Estates, against which an allotment of Rs. 1,40,000 was given for the year under review. In this way, in all Rs. 3,20,000 have been added to the Imperial allotment, and the corresponding burden imposed upon the local Government of meeting expenditure estimated to amount in the aggregate to an equivalent sum. On the other hand, the Police Clothing Fund has been wound up, and the Darjeeling Improvement and Chittagong Port Funds which, together with the Police Clothing Fund, were included in the Provincial Reserve in 1877-78, are no longer incorporated with the Provincial accounts; more recently the Court of Wards' Rate Fund has been also closed as a separate fund, and its balance has been incorporated with the Provincial balance.

24. Making the necessary additions and subtractions, the receipts and disbursements as estimated for 1877-78, modified so as to be compared with the corresponding actuals of 1878-79, will be—

		Receipts.	Disbursements.
		Rs.	Rs.
		2,82,23,000	2,86,63,000
Add—			
Subsequent additions	...	3,20,000	3,20,000

Total	...	1,47,000	1,45,000
		2,58,000	2,88,81,000

25. Owing, however, to the changes of classification introduced by the letter of the Government of India of the 31st March last, which have been adopted by the Accountant-General in making up the actuals for 1878-79, these estimates cannot be correctly compared, head by head, with the actuals until they have been reclassified so as to make each head include the same sub-heads as it does now in the accounts submitted by the Accountant-General. This adjustment has accordingly been made, and the figures in column 2 of the statement below

show the total amounts given in the last paragraph recast so as to admit of correct comparison with the actuals of the year 1878-79:—

III.—RECEIPTS.

Total	2,84,58,000	2,90,13,761	14,55,761	3,03,74,633	19,16,633

26. It will thus be seen that instead of the estimated income of Rs. 2,84,58,000, the receipts made over to the local Government yielded Rs. 3,03,74,633 for the year 1878-79, or an excess of Rs. 19,16,633. The figures of the year 1877-78 are also given for purposes of comparison: they, too, have been reclassified, but the comparison with them cannot be correct in every detail, as only Rs. 22,000 out of the Rs. 3,20,000 subsequently transferred had by that time been made over, and the expenditure subsequently transferred against an additional allotment of Rs. 2,98,000* will not be found among the disbursements. It would therefore be incorrect to modify the allotment as has been done in column 2 for the grants of 1877-78: the account for that year does not, moreover, include the Court of Wards Rate Fund, for which a separate account was kept.

Actual disbursements under (a).

28. Thus, under head (a), the actuals for the past years instead of yielding a surplus obtained in the ten years a deficit of Rs. 4,40,000, or Rs. 4,23,000 to which it is reduced when the Court of Wards Rate Fund is amalgamated with the accounts, yielded a surplus of Rs. 18,02,472 for the

* This is not strictly correct, as a sum of over Rs. 40,000 was added to the allotment of 1878-79 to meet expenditure on a preventive force entertained in Orissa in 1877-78.

year 1877-78 and Rs. 12,34,949 for the year 1878-79, and thus under this head the local Government has derived a profit during the two years of Rs. 30,37,421 after making good the initial deficit in the estimates.

29. It remains to add the similar results under heads (b) and (c). Under head (b) there is nothing to be gained by comparing the actuals with any estimates for the year 1877-78. No such estimates were framed or taken into consideration in revising the provincial contract in 1877, but these heads were transferred with an undoubtedly large deficit on account of interest, which the local Government had to make up in some way or other, and which it actually met by imposing the public works cess:—

<i>Receipts.</i>				1877-78.	1878-79.
				Rs.	Rs.

State Railways		...	* 6,26,028	14,07,636
Total		...	33,39,155	57,64,021

It will be seen that in 1877-78 the provincial revenues suffered a slight loss of Rs. 7,535 under this head, but in 1878-79 they derived a profit of Rs. 4,72,898.

30. This section of the receipts and disbursements is of special interest as it shows the extent to which the Bengal Government can continue to borrow for the construction of Public Works without loss. The account for 1877-78 is more or less arbitrary, as the Government of India did not press its full claim for interest, owing to the public works cess being only recoverable for three-fourths of the year; but during the year 1878-79 the full interest has been taken and the full cess collected, and it is satisfactory to find that there was a surplus of nearly $4\frac{3}{4}$ lakhs still available. If the expenditure proves really productive, this surplus will remain, as the increased surplus income to be derived from these works will balance the growth of interest. But, if the works do not prove really reproductive to the extent of $4\frac{1}{2}$ per cent., the Bengal Government will not begin to be an absolute loser till the excess of interest over increased receipts mounts up to about $4\frac{1}{4}$ lakhs more. The surplus available for further loans is over $4\frac{1}{4}$ lakhs, as the collection of the Public Works Cess will in future cost nearly half a lakh.

31. The head (c) does not affect the accounts for the present year, and it had no existence in 1877-78. The receipts were so small for 1877-78 that the Government of India takes the entire net collections.

32. From these three heads combined it is easy to make up the figures showing how the Provincial balance of Rs. 43,97,543 at the end of the year under review has been attained. It is stated in paragraph 16 that the estimated opening balance of 1877-78 was Rs. 1,51,000, but when the finals for 1876-77 were made up, it was found that the actual balance was nearly seven lakhs better than the estimate, viz. Rs. 8,50,594, which was the correct amount with which the local Government started under its enlarged responsibilities.

* Of this Rs. 56,715 was capital expenditure, but disbursed from provincial funds.

Thus—

which differs only by Rs. 5 from the balance given in paragraph 6, due to neglecting fractions of a rupee and other insignificant sums.

33. It remains to examine the several heads of account separately in order to point out where the results have been satisfactory and where the provincial revenues have lost.

34. On the receipt side of the account, the improvements have been for the most part under two large heads—Excise and Stamps; stamps alone showing an increase of Rs. 9,64,517 in 1877-78 and Rs. 9,34,690 in 1878-79. The sum of 2½ lakhs was the estimated increase under this head in conjunction with Law and Justice; it will be seen that not only has it fulfilled the anticipations of the Government of India in this respect, but has also by itself alone in each year covered the entire retrenchment of Rs. 5,90,000 that had to be made good under all heads.

While the revenue under this head has increased thus largely, there has been a slight increase in charges from Rs. 2,38,000 to Rs. 2,47,727 in 1877-78 and Rs. 2,50,849 in 1878-79, which represents less than the increased discount to licensed vendors. The charges for superintendence have actually decreased.

35. Excise, in lieu of the anticipated increase of one lakh, has shown during the last year an increase of Rs. 6,28,763 as compared with the original estimate; the collection of this branch of the revenue has been ably supervised by the Board of Revenue at a cost less by Rs. 6,000 than that estimated for 1877-78. The following figures will show the sub-heads under which the increase has been attained :—

	Sanctioned grant, 1877-79 Rs	Actual 1878-79 Rs
License and distillery fees and duties for the sale of liquors and drugs	51,98,500	56,84,655
Sale proceeds of excise opium	12,00,000	13,11,652
Fines, confiscation, and miscellaneous	1,500	8,956
Total	64,00,000	70,28,263

These sub-heads are not such as to throw any light on the details of the excise revenue; but as the Lieutenant-Governor separately reviews this department year by year, it is not necessary to comment on it at greater length.

36. Under this head the actual receipts show an improvement of Rs. 3,23,014. The estimates given for 1877-78 have been altered, so as to include the Pleadership

Law and Justice.

Examination fees, which have been classified by the Government of India under this head. The increase is distributed over the following sub-heads:—

	Sanctioned estimate, 1877-78.	Actuals, 1878-79.
	Rs.	Rs.
Sale proceeds of unclaimed and escheated property	34,000	47,984
Court fees realized in cash ...	21,000	28,265
Pledership Examination fees ...	4,000	16,318
General fees, fines, and forfeitures ...	6,65,000	9,33,274
Miscellaneous ...	5,000	26,173
Total ...	7,29,000	10,52,014

37. Thus these three heads of Excise, Stamps, and Law and Justice, under which an annual increase of Rs. 3,75,000 was anticipated and a corresponding reduction made on that account in the imperial allotment, actually yielded during 1878-79 an excess over the original estimate of Rs. 18,86,467, a rate of increase quite unexpected. However, the real unforeseen increase was rather in the year 1877-78 than in 1878-79. The following figures will show how much was due to the actual increase in 1878-79, and how much to the under-estimate made of the probable receipts for 1877-78:—

	Estimate, 1877-78.	Actuals, 1877-78.	Actuals, 1878-79.
	Rs.	Rs.	Rs.
Excise ...	64,00,000	68,67,888	70,28,263
Stamps ...	98,50,000	1,08,14,517	1,07,84,690
Law and Justice ...	7,29,000	8,20,072	10,52,014
Total ...	1,69,79,000	1,85,02,477	1,88,64,967

38. *Primâ facie* it would appear from these figures that the actual increase in 1878-79 over 1877-78 was Rs. 3,62,490, or within a few thousands of the estimated increment. But this has been entirely obtained from Excise and Law and Justice; Stamps show a slight falling off. The cause of this, however, lies on the surface; probably not less than six lakhs of the stamp revenue in 1877-78 were derived from the operation of the Land Registration Act, and not more than two lakhs in 1878-79. These figures, which cannot be far from correct, leave a satisfactory increment for 1878-79. The stamp revenue still continues to yield an increasing income.

39. Certain minor receipts of a miscellaneous character were made over to the provincial revenues under the heads of Customs and Salt. The increase under Sea Customs is entirely due to the head Miscellaneous, under which Rs. 87,180 were realized, against the estimate of Rs. 29,200. From warehouse and wharf-rents Rs. 2,647 were only realized against Rs. 7,000.

40. Salt on the contrary exhibits a considerable falling off. The provincial receipts under this head were mainly composed of rents from warehouses which only realized Rs. 77,875, against the original estimate of Rs. 1,80,000. It is believed that the decline is due to the low rate of freights which prevailed during the year, so that many ships preferred to keep their salt in ballast instead of as usual in warehouses. The other item—Fines, Forfeitures, and Miscellaneous—realized Rs. 46,402 against Rs. 40,000. Under the head of Salt, therefore, the local Government has incurred a loss of Rs. 1,02,125 of rupees from circumstances in no way under its control.

41. The head Minor Departments only includes receipts from Cinchona Plantations and Botanical Gardens. The increase of Rs. 80,513 is due to the success which has attended the manufacture of cinchona and the working of the plantations.

42. The receipts from Jails in 1877-78 were estimated at Rs. 8,38,000, whereas they only realized Rs. 5,94,008. Part of the decrease, however, is due to the exclusion from both sides of the account of certain items of manufacture consumed in the jails which were formerly shewn as receipts and disbursements. It is necessary

therefore to take the receipts and disbursements together, in order to ascertain the correct financial working of this department. The expenditure was Rs. 18,56,011, against Rs. 16,05,000 the estimate for 1877-78. Combined together, the total loss in the actuals of this department, as compared with the estimate of 1877-78, amounts to Rs. 4,95,003—a loss which it is very important to take steps to obviate in futuro.

During the last four years the actual expenditure has been as follows:—

		Rs.			Rs.
1875-76	...	17,83,000		1877-78	16,13,238
1876-77	...	16,41,000		1878-79	18,56,011

43. The expenditure therefore during the past year has been in excess of the three preceding years. What, however, chiefly affects the present review is the excess of expenditure over the estimates of 1877-78, which form the basis on which the Imperial allotment is calculated. The details of this are as follow:—

		Estimate, 1877-78.	Actuals, 1878-79.
		Rs.	Rs.
Inspection and General Superintendence	...	45,700	57,181
Presidency Jail	...	74,200	78,188
Central Jails	...	3,09,500	3,62,513
District Jails	...	4,85,800	5,05,010
Lock-ups	...	67,100	86,083
Jail Manufactures and School of Industry	...	6,23,000	7,66,976
Total	...	16,05,300	18,56,011

44. It will thus be seen that the increase of expenditure is distributed among all sub-heads, but is largest under the sub head "Manufactures" as under this head a large increase of expenditure is combined with diminished receipts. The receipts from Manufactures have fallen from an estimate of Rs. 8,31,000 to Rs. 5,91,396; sanguine estimates, however, appear to have been habitually made as regards jail manufactures. In 1875-76 the budget-estimate was Rs. 9,57,000; the actuals, however, reached only Rs. 7,91,000. In 1876-77 the estimate was Rs. 9,06,000, and the actuals reached Rs. 7,16,000. The estimate for 1877-78 was therefore by no means sanguine as compared with the estimate for the preceding two years. The actuals, however, were again disappointing, and only amounted to Rs. 6,88,714. The original estimate for the year 1878-79 showed a further decrease, and was computed at Rs. 7,34,000. The actuals, however, are more disappointing than heretofore, being nearly 1½ lakh less than the original estimate. It will also be seen that, leaving estimates out of consideration, the actuals have shown a progressive falling-off as below:—

		Rs.			Rs.
1875-76	...	7,91,000		1877-78	6,88,714
1876-77	...	7,16,000		1878-79	5,91,396

It is probable that these unsatisfactory results admit of explanation. Much outlay, of the form of capital expenditure, has been incurred in the purchase of expensive machinery, and the high prices of food have necessarily kept up the expenditure. The Lieutenant-Governor will consider, in the Judicial Department, whether the serious financial loss which the provincial revenues have incurred from Jails is satisfactorily accounted for.

44. The original estimate for 1877-78 was Rs. 7,18,000.

Registration.

This Rs. 4,42,000 revenue from Record-room receipts and Copying fees, amounting to Rs. 67,000, which are now classified under Miscellaneous. The estimated receipts therefore for comparison with the actuals of 1878-79 are Rs. 6,51,000, and therefore there is under this head a gain of Rs. 2,18,834. As regards expenditure, the original estimate was Rs. 5,76,000. Similar reductions, amounting to Rs. 57,000, have to be made for charges now classified under "Miscellaneous." This reduces the figures to Rs. 5,19,000, which, compared with the actuals of 1878-79, Rs. 4,89,309, show an improvement of Rs. 29,691. In all, therefore, the provincial funds have benefited to the extent of Rs. 2,49,000 under the head of "Registration."

45. The receipts under the head of "Police" were only estimated for 1877-78 at Rs. 70,000 ; but, under the orders of the Government of India, the receipts from "Pounds" and "Steam-boiler inspection fees" are now classified under this head. This raises the total to Rs. 3,57,000, while the actuals of 1878-79 amounted to Rs. 4,27,000, thereby giving an increase of Rs. 70,000.

Distributed under the sub-heads the figures are—

			Sanctioned grants, 1877-78.	Actuals, 1878-79.
			Rs.	Rs.
Police supplied to railways and private persons	14,000	25,383
Fees, fines, and forfeitures	1,000	570
Pounds	2,76,000	3,32,017
Steam-boiler inspection fees	12,000	9,970
Superannuation receipts	14,000	18,210
Miscellaneous	40,000	43,379
			<u>3,57,000</u>	<u>4,29,529</u>

The increase therefore is mainly under the head of Pounds, and there is also a considerable proportionate increase under the head of "Police supplied to Railways and private persons."

46. The original estimate of expenditure for Police was Rs. 40,86,000, and, after making adjustments similar to those under the head of "Receipts" and excluding Rs. 16,000 transferred by the Government of India to "Printing and Stationery," the total is raised to Rs. 42,34,000. The actual expenditure has only reached Rs. 40,21,683, thereby indicating that the working of this department has been economically supervised. The estimates of expenditure under the different sub-heads are as follow :—

			Grants, 1877-78.	Actuals, 1878-79.
			Rs.	Rs.
Presidency Police	2,49,000	2,46,388
Superintendence	1,19,000	1,23,138
District Executive Force	34,67,000	32,70,973
Railway Police	31,000	29,634
Pounds	1,52,000	1,21,897
Municipal Police	38,000	35,656
Steam-boiler Inspection	12,000	10,765
Special Police	1,66,000	1,80,235
Total	<u>42,34,000</u>	<u>40,21,683</u>

It will be seen that the reduction is mainly under the principal head "District Executive Force." Pounds also show a perceptible decrease, which, combined with the large increase under "Receipts," reflects credit on the administration of the local officers.

47. Under the Financial Resolution No. 1899, dated the 29th March 1877, certain marine receipts were surrendered to the local Government for an annual payment of Rs. 10,84,000. But they have yielded in 1878-79 a revenue of Rs. 11,76,486. The details by sub-heads are as follow :—

			Grants, 1877-78.	Actuals, 1878-79.
			Rs.	Rs.
Pilotage receipts	7,93,000	8,62,716
Registration and other fees	22,000	24,535
Miscellaneous	2,69,000	2,89,235
Total	<u>10,84,000</u>	<u>11,76,486</u>

The gain is mainly due to increase under the head of "Pilotage Receipts." As regards expenditure, the original grant was Rs. 10,98,979, to which Rs. 46,000 have been added on account of the salary, establishment, and contingencies of the Port Officer. The actual expenditure has only amounted to Rs. 9,62,794, showing a considerable saving.

The reduction is chiefly due to pilotage, which cost Rs. 5,86,752, against an estimate of Rs. 6,50,000, and building and repair of ships Rs. 168, against Rs. 1,35,236! It would be well if the Marine Department satisfied itself under this last head that no expenditure has been left out of the accounts or otherwise wrongly shown.

48. Education under the head of "Receipts" shows a slight increase, Rs. 5,24,763 as against Rs. 4,74,000, the estimate for 1877-78. While the receipts from college fees have exceeded the estimate of the preceding year by Rs. 40,980, school fees show a falling-off from Rs. 2,61,000 to Rs. 2,44,675.

As regards the expenditure, the actuals of the last year were Rs. 24,88,089, against the estimate for 1877-78 of Rs. 25,04,000, showing an improvement of Rs. 15,911.

49. The receipts under the head of "Medical" were estimated at Rs. 1,63,000; but they realized Rs. 1,95,714 in 1878-79, showing an increase of Rs. 30,000. Under the head of "Expenditure" the estimated disbursements were Rs. 13,53,000 and the actuals Rs. 12,30,980, thereby showing a considerable saving, which has been distributed among the several sub-heads as follows:—

	Grants, 1877-78.	Actuals, 1878-79.
	Rs.	Rs.
Medical Establishment ...	84,000	80,706
Vaccination ...	1,18,000	1,10,447
Medical Schools and Colleges ...	2,54,000	2,48,350
Hospitals and Dispensaries ...	5,74,000	4,82,435
Lunatic Asylums ...	1,85,000	1,71,326
Sanitary Commissioner ...	27,000	24,951
Chemical Examiner ...	2,000	3,469
Grants for medical purposes ...	1,05,000	1,09,297
Total ...	13,49,000	12,30,980

The chief reduction is under the head of "Hospitals and Dispensaries," and is due in great measure to the labour of the Medical Committee and the greater economy which has resulted in the management of the Medical, General, and Campbell Hospitals. It will be remembered that the medical expenditure only amounted to nine lakhs in 1871-72, and rose to 13½ lakhs in 1875-76. All that has been done therefore is to reduce a portion of the additional expenditure which grew up in the first five years of the decentralization scheme.

50. The receipts under the head of Stationery and Printing show an increase of Rs. 46,948. The increase is due to miscellaneous press receipts and to stationery sold to local funds. Under the head of "Disbursements" there is a slight decrease from Rs. 3,75,000 to Rs. 3,56,472.

51. Before considering the receipts and disbursements under the various branches of Public Works, it remains to analyse the disbursements of certain grants which have not been included in the above review, viz. "Land Revenue," "Law and Justice," "Administration," "Minor Departments," "Refunds," "Stationery from Central Stores."

53. The actuals amounted to Rs. 26,52,000, showing an increase of Rs. 95,000. Distributing this amount among the several sub-heads, the figures are as follow :—

	Grants, 1877-78. Rs.	Actuals, 1878-79. Rs.
Collectors' and Deputy Commissioners' establishments	22,45,000	22,51,123
Charges on account of Government estates	1,40,000	1,78,735

Total	25,57,000	26,49,292

54. It will be seen that the only serious increases are under the sub-heads of "Charges on account of Government Estates" and "Land Registration charges." The former is due to a misunderstanding under which this Government laboured as regards the nature of the charge at the time when it was transferred. It was supposed that the term "Government Estates" only included the estates the proprietary right of which was vested in Government. It now appears, however, that it is customary to class under this head all temporary settled and other estates taken under the direct management of revenue officers. As there are one or two large estates of this description, the expenditure considerably exceeds the estimated sum of Rs. 1,40,000, and the Government of India has been asked to increase the allotment proportionately, and has sanctioned its increase to Rs. 1,80,000 from the commencement of the current year,—Government of India, No. 1628 of 18th July 1879.

55. As regards land registration expenses, due to the introduction of the Land Registration Act, VII (B.C.) of 1876, there is a set-off on account of land registration fees handed over by the Government of India to meet these charges. These receipts, which are shown under the head of "Miscellaneous," aggregated in 1878-79 Rs. 29,000. Virtually therefore the loss by the addition of this sub-head has been reduced to Rs. 14,000, against which there has been the receipt of perhaps two lakhs of rupees under the head of stamps.

56. Law and Justice—

	Rs.
The original estimate was	63,97,000
To which it has been necessary to add for pleaders' examination expenses	3,000
And half the cost of sub-divisional establishments	1,09,000
Total	65,09,000
Deduct on account of "Stationery"	58,000
The modified estimate therefore amounts to	64,51,000
And the actual expenditure incurred in 1878-79	64,63,003
Difference	12,003

The difference is divided among the several sub-heads, thus—

	Grants. Rs.	Actuals. Rs.
High Court Judges	6,00,000	5,97,590
Ditto, Appellate Branch	2,92,000	2,80,653
Ditto, Original Branch...	2,02,000	1,92,298
Coroner's Court	12,000	12,965
Justices of the Peace	54,000	48,931

Criminal Courts	18,46,000	18,33,013
Sub-divisional establishments	1,09,000	1,06,561
Rents, rates, and taxes	1,881
Total	64,51,000	64,63,003

The only substantial increase has been under the head of "Civil and Sessions Courts," and is partly due to the cost of the 23 Additional Moonsifs sanctioned during the year.

58. It will be seen that there has been a considerable increase in the expenditure under this head which is more directly under the control of Government than any other, and it is necessary to examine it carefully. The salary of the Lieutenant-Governor shows an increase of Rs. 13,022. This is due to a Chief Commissioner having drawn his salary in Calcutta for some time during the cold weather. It is contended by the Accountant-General that, under the operation of Rule VI* of the rules for the extension of the decentralization scheme, the Bengal Government is bound to bear this expenditure whenever such salaries are drawn in Calcutta. In the present case, even under the strict wording of the rule, there is much doubt if the obligation exists, as the salaries of the Chief Commissioners are part of a head of service which was divided, one portion being made Provincial and the other portion retained as Imperial, and as no allotment was made to Bengal on account of the salaries of Chief Commissioners, it is not clear that the charge is correct. A reference has been made to the Government of India on the subject, the reply to which has not yet been received.

59. The increase in the Lieutenant-Governor's staff is due to the fact of a senior officer having been appointed Private Secretary. The tour expenses have been systematically under-estimated, the actuals almost always being in excess of Rs. 27,000. In the current year the estimate has been raised to Rs. 50,000. Under the head of "Civil Secretariat," the increase is partly due to the creation of a Financial Secretary and an Assistant Secretary in lieu of the Junior Secretary, whose appointment has been

* VI.—A Local Government must accept, without remonstrance, any charge which would, under the system in force before 1871-72, have been recorded, under any of the transferred heads of account, in the accounts of its Presidency or Province; and must not raise objections on such grounds as that the charge has originated outside the Presidency or Province, or that the Presidency or Province is not interested in it, or the like: if any doubt arises at any time, whether any charge should or should not be entered under any particular head in the accounts of any Presidency or Province, such doubt must be solved by one test only, viz.: "How would it have been entered if it had occurred before 1871-72, when the powers and responsibilities of Local Governments were first enlarged?" Thus, for example, the pay or leave allowances of an officer belonging to another Administration on duty or on leave in the North-Western Provinces, and drawn there, must be charged in the accounts of the North-Western Provinces: the Governor-General in Council did not intend by the measure of 1870, and does not now intend, to introduce or authorise any change of practice in such matters, or any inter-provincial, inter-presidential or inter-departmental adjustments not theretofore allowed: in regard to all such transactions, the arrangements made with the Local Governments are calculated upon the basis of the system which existed before the year 1871-72.

abolished ; but, in addition to this, the estimate of the current year, Rs. 3,94,000, has been exceeded by Rs. 8,183. Part of this increase is due to excess expenditure in the purchase of books, Rs. 8,747, against an estimate of Rs. 1,000 only. For the present year the estimate is again Rs. 1,000 only, and it would appear that this item is generally under-estimated.

60. In addition to this, under the same sub-head of Civil Secretariat; Rs. 2,253 were paid as salary of one of the Secretaries to the Government of India. This is another instance of the peculiar operation of Rule VI. This officer happened to find it convenient to draw his salary from the 24-Pergunnahs treasury, and as a consequence it is debited to Bengal. It seems to the Lieutenant-Governor that the anomalies resulting from this rule may easily become such as to render some modification of it necessary. If seven or eight of the High Court Judges were to travel in the North-Western Provinces and Punjab during the Dusserah vacation and draw their salaries for two months from treasuries in those provinces, Bengal would save over half a lakh of rupees at the expense of the North-Western Provinces. Similarly, if the Governor-General were to summon several officers serving under other local Governments, Members of the Board of Revenue, Commissioners, and Heads of Departments to a conference at Calcutta for a week, and during that week a month terminated and these officers drew their salaries in Calcutta, this conference might easily cost the Bengal Government, who had no voice in it whatsoever, and perhaps even no concern in it, Rs. 20,000 or Rs. 30,000. Or, again, if the Secretaries and Under-Secretaries of the Government of India were to find it convenient to draw their pay from the 24-Pergunnahs treasury during the cold weather, from December to April inclusive, the Bengal Government would be called upon to pay over Rs. 1,00,000 with a corresponding saving to Imperial. This sort of lottery cannot but have a bad effect on economy of administration. All interest in saving a few thousand, not to say a few hundred, rupees by judicious economy under any particular head or grant is gone, if ten times the amount is liable to be gained or lost by the mere chance windfall of a highly-paid officer drawing his salary in one treasury or another.

61. The Lieutenant-Governor admits that much inconvenience would result from the constant transfer of charges from one treasury to another, and one province to another; but it does not appear that any practical inconvenience would follow from allowing each local Government, once for all at the close of the year, to send in a list of any special items of expenditure with which it had been debited on account of other Governments, and to allow an addition or reduction to be made accordingly in the Imperial allotments for the ensuing year. The onus of finding out these charges would thus be thrown upon the Government or Administration injuriously affected by them, and it is evident that only a few large amounts would be brought to light, such as those referred to in the above paragraphs, which defeat the anticipations of budget grants; and all the numerous minor charges which would give trouble would be debited as at present. It might indeed be prescribed that only items in excess of Rs. 1,000 would be liable to rectification.

62. The decrease under the head Board of Revenue is mainly due to the reduction in the salary of the Junior Secretary from Rs. 28,000 to Rs. 21,600. Under "Commissioners' Establishments" there is a very large increase, viz. from the original grant in 1877-78 of Rs. 4,56,400 (including circuit houses,) and the budget estimate of 1878-79 of Rs. 4,58,000 to the actuals of Rs. 5,23,427. It has been ascertained from the detailed accounts of the Accountant-General that the increase is due (1) to Commissioners' salaries having exceeded the budget estimate by Rs. 25,353 owing to the absence of Commissioners on privilege leave, (2) to the budget grant for office expenses and contingencies having been exceeded by Rs. 10,471, and (3) above all to the hire of the *Teesta* steamer for the Commissioner of Chittagong at a cost of Rs. 31,969. It was designed that this steamer should pay her expenses (*vide* General Department's letter No. 139 of the 3rd February 1879), but as a fact the receipts have only amounted to Rs. 4,100. The attention of the General Department will be drawn to the question whether this steamer ought to be retained.

63. The estimate in 1877-78, as modified to suit the recent classification, shows a total of Rs. 2,94,000, against the actual expenditure in 1878-79 of Rs. 2,45,356.

The following are the details :—

		Rs.	Rs.
Provincial Museums	...	12,000	9,859
Registration of traffic	...	32,000	17,554
Provincial statistics	...	6,000	2,694
Model farms	...	10,000	20
Examination charges	...	1,000	495
Emigration	...	23,000	25,390
Botanical and other Gardens	...	59,600	86,034
Cinchona Plantations	...	1,31,400	90,804
Donations to Charitable Societies	...	9,000	9,200
Miscellaneous	...	10,000	3,306
Total	...	2,94,000	2,45,356

It will be seen that the largest decrease is under the head of "Cinchona," regarding which it was remarked by the Government of India, when fixing the allotment at Rs. 1,31,000, that it was exceptionally large. Some reductions have also been made under the heads "Registration of traffic," "Provincial statistics," and "Miscellaneous," while all the model farms have been closed.

64. Refunds and drawbacks show an increase of Rs. 93,040 as compared with the budget estimate for 1878-79, and of Rs. 1,33,040 as compared with the grant made by India in 1877-78; while stationery from central stores shows similar increases of Rs. 72,303 and Rs. 89,303 respectively. Under these two heads therefore the local Government has lost heavily. The expenditure under refunds does not admit of much administrative control, but as regards the expenditure on stationery, the Lieutenant-Governor has issued orders in a resolution on the report of the Superintendent of Stationery, which will he hopes enable the local Government to discover where excessive expenditure is incurred as an indispensable step towards its reduction. The contributions to local funds are almost entirely composed of allotments to District Committees for Roads and Communications. Formerly such expenditure was incurred from the funds that made up the Provincial Reserve. Hence no separate allotment was made for this purpose in 1877-78, nor in the original budget estimates for 1878-79.

65. Coming now to the several departments of Public Works it appears that the receipts under the head of Public Works ordinary were estimated at Rs. 93,000; but according to the classification introduced this year, the receipts from ferries and road tolls, and also from Strand Bank rents and staging bungalows, have been added. Under these items there is a falling-off of Rs. 89,000, which is entirely due to ferries and road tolls, the actuals of which amounted to Rs. 4,21,672, as against the estimate for 1877-78 of Rs. 5,45,000. Under the other heads the increase has been considerable, and is due mainly to receipts that had not been anticipated in the budget. Thus it appears from a letter from the Examiner of Public Works Department, No. 6998, dated 8th August last, that Rs. 50,961 were derived from the sale of buildings and lands, Rs. 13,283 from the sale of old materials, and that the profits of the Hastings and Akra workshops amounted to Rs. 90,779.

66. The disbursements in the Public Works ordinary eventually reached Rs. 34,82,802, against the estimate of Rs. 30,99,000 in 1877-78. The sanctioned estimate for the year 1878-79 was Rs. 47,13,000, and hence there was a saving under this head of Rs. 12,30,198. It is deserving of notice that two-thirds of the entire surplus of the year would have been lost had the Public Works ordinary worked up to its budget grant.

67. The sub-head Navigation, which has been newly added this year, includes the "Calcutta Canals" and "Nudda Rivers." Under this sub-head there has been a decrease both as regards receipts and expenditure: the receipts have only reached Rs. 6,75,565, against an estimate of Rs. 7,20,000 for 1877-78. This is due to the falling off in the demand for rice at Madras, and hence to a reduced importation of grain into Calcutta by country boats. The disbursements, however, have declined from Rs. 6,20,000 to Rs. 3,93,382; but certain

expensive works, which have been sanctioned for the past year, could not be carried out within the year, and consequently an increase of expenditure is anticipated in the current year.

68. The Irrigation Department presents a complete contrast to the ordinary Public Works Department in this that its estimates usually prove sanguine and the actual results fall short of the anticipations. The budget estimate from receipts was Rs. 9,72,000, which was reduced in the regular estimate to Rs. 8,52,000, and, eventually, Rs. 8,51,153 were actually realized. The budget estimate from disbursements was only Rs. 6,74,000. This was subsequently raised to Rs. 10,33,000, the chief addition being from the Sarun scheme; but the actuals have reached Rs. 11,26,619, or Rs. 93,000 in excess even of the regular estimate.

69. Under the head of State Railways, taking the figures furnished by the department, the receipts were Rs. 18,11,192, against an original estimate for the year 1878-79 of Rs. 16,18,000, showing an improvement of Rs. 1,93,192. The expenditure debitable to the ordinary expenditure of the year was Rs. 14,07,636, against an original grant of Rs. 11,27,000, or Rs. 2,80,636. There was therefore a net loss of Rs. 87,444, as compared with the original estimate.

70. The rapidity and ease with which the provincial balance has increased from Rs. 8,50,594 to Rs. 43,97,543 at first sight seems to indicate that the financial position of this Government is perfectly secured; but while a large balance has been accumulated, and so far the finances are most prosperous, it is far from certain that the present system affords any adequate guarantee for the continued equilibrium of receipts and expenditure.

71. It is true that for the year 1878-79 the budget estimates were drawn up on the assumption that the balance was to be allowed to decrease by Rs. 2,53,000, and that, instead of this deficit, there has been a surplus of Rs. 17,07,847, and that apparently therefore, if budget equilibrium is provided for, the actuals can be relied on to produce a considerable surplus; but when this surplus is examined, it will be found that it is due to exceptional and peculiar circumstances that may not recur, and that, with a balanced budget to begin with, the Bengal Government might well find itself with a considerable deficit at the end of a year. Of the total improvement of 20 lakhs on the original estimates, as is the approximate amount including the increment of Rs. 44,160 to the opening balance, it may be said that omitting license tax, which does not in the present year affect the provincial finances, the receipts are about 17½ lakhs better than the estimates, and the disbursements also better, *i.e.* less by about 2½ lakhs.

As regards receipts and taking round numbers, it appears that of these 17½ lakhs—

1½ lakhs are due to Excise.
6½ lakhs to Stamps.
3 lakhs to Law and Justice.
1 lakh to Marine.
1½ lakhs to Miscellaneous.
2 lakhs to Public Works Ordinary.
1½ lakhs to State Railways.
1½ lakhs to Imperial Allotment.

—
21 lakhs.
—

While there was a loss of—

1 lakh under Salt.
1½ „ Jails.
1 „ Irrigation.

—
3½
—

72. With reference to these figures, there is no guarantee that Excise will continue to increase; on the contrary, it will probably fall short of the estimate this year. Stamps promise well, but will probably yield a more moderate increase, while under the other heads there is no certainty of any increase at all. If the receipts from Irrigation and Jails therefore fall short of the estimates,

as they have usually done hitherto, there is no guarantee whatsoever that the actuals of the year 1879-80 will much, if at all, exceed the estimated amount of Rs. 4,35,68,000.

73. On the other hand, the disbursements are still less promising. Comparing the actuals with the budget estimates, a general tendency for the former to outrun the latter is traceable, the exceptions being in the departments of Excise, Law and Justice, Marine, Education, and Minor Departments. With these exceptions, omitting the Public Works Department ordinary, the grants have been almost invariably exceeded, while in the case of Jails and Irrigation the excess was nearly eight lakhs. The final result is that, had it not been for a saving of over 16 lakhs in the Public Works Department ordinary, including Navigation which is under that Department, there would have been an excess of expenditure over budget estimates of over 13 lakhs. It is to be feared that the current year may exhibit the same tendency towards exceeding the budget grants, without the corrective element of so large a saving under the head of Public Works ordinary.

74. On the whole, the budget estimates of the grants for Land Revenue, Excise, Customs, Stamps, Administration, Law and Justice, Registration, Police, Education, and Medical Services are prepared in a trustworthy manner, and are either not much exceeded, or exceeded under circumstances which are sufficiently explained and do not interfere with financial control. The receipts budget for State Railways seems to be drawn up with a proper margin for contingencies, but the expenditure was during each of the last two years considerably under-estimated at the outset. The estimates for Minor Departments, Marine, and Public Works ordinary do not appear to be very reliable, but they appear to be as a rule full and complete, so that they are not likely to be exceeded. The budgets for Jails and Irrigation appear, as already said, to be usually drawn up on a defective and over-sanguine system, the receipts invariably falling short of the estimate and the disbursements exceeding it. It is to be hoped that in the budgets now under preparation an ample allowance will be made for all eventualities. There are already reasons for apprehending that the current year will prove very different from those that have preceded it, and that if the actuals do not show a deficit they will show a comparatively small profit.

ORDER.—Ordered that a copy of the above Resolution be submitted to the Government of India in the Department of Finance and Commerce; also that copy be forwarded to the Accountant-General, to the Public Works Department of this Government, to the Public Works Department (Railway Branch), to the Public Works Department (Irrigation Branch), of this Government, to the General, Judicial, Revenue, and Political (Jails) Departments of this office, and to all Heads of Departments.

By order of the Lieutenant-Governor of Bengal,

H. L. HARRISON,

Offg. Secretary to the Government of Bengal.

[Third Part.]

NOTIFICATION.

The 16th October 1879.—Plans and estimates, the latter amounting to Rs. 15,000 and Rs. 18,000 respectively, for the construction of quarters for the accommodation of the 1st and 3rd Divisions River Police at Aheerectollah Ghât and Hastings, having been submitted by the Port Commissioners with their Vice-Chairman's letter No. 1978, dated 19th September 1879, to the address of the Public Works Department of this Government, and approved by that department, the Lieutenant-Governor is pleased to sanction the projects under the provisions of Section 35 of Act V (B.C.) of 1870.

Notice.

THE public are hereby informed that the well known Kartick Baruni Mela, which is held on the banks of the Dhaleshwari, near Munshigunge, in the Dacca district, will commence on the 28th November 1879 A.D., corresponding with the 13th Ugrahayan 1286 B.S., and continue up to the 27th December 1879. Tradesmen, dealers, and others may, during this month, buy and sell there with advantage.

A. W. COCHREAN, Magistrate of Dacca.

Notification.

THE right of selling court fee stamps up to and inclusive of the value of Rs. 75, and non-judicial stamps up to and inclusive of the value of Rs. 50, in the High Court during the remainder of the current official year 1879-80, ending on the 31st March 1880, will be put up to auction at this office at 12 o'clock, on Monday, the 10th November 1879.

2. The vendor who may be appointed will be allowed the usual discount on all purchases made by him from this office. He will further be required to pay one month's fee in advance, and one month's fee on the 1st day of each month for which it is due.

3. A statement showing the amount and description of all stamps sold by the salaried vendor at the place during the last two years, and the amount of discount which would have been payable thereon under the licensed vend system, can be inspected at the Collector's Office from the 5th November 1879, and up to 10th idem, at any hour between 11 A.M. and 4 P.M.

4. The Collector does not bind himself to accept the highest or any offer which may be made, but reserves to himself a discretion to select that person who appears best qualified.

5. Any further information may be obtained by applying to the undersigned at his office daily between the hours of 11 M.A. and 4 P.M.

J. MACKENZIE, Collector of Stamp Revenue.

Calcutta Collectorate, No. 5, Church Lane,

ROBERT J. CARRERY, Secy. and Acct.
CALCUTTA, the 3rd November 1879. (1241-3)

POSTAL NOTICES.

TO obviate inconvenience at present felt by people wishing to register letters for the Assam, Darjeeling, and Northern Bengal Mail (which closes at the General Post Office at 12 noon), a change will be made in the hours of registration at the Calcutta Post Office.

No letters will in future be received for insurance or registration between 7 and 8 A.M., as this time is not found suitable to the public; but registration and insurance will commence at 11 A.M., instead of at noon, and continue till the present hour of 5 P.M.

This change will have effect from 1st December 1879.

The mean pressure, temperature, &c., are deduced from observations made at 6h., 10h., 16h., and 2h.; the maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the new Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The direction and movement of the wind are taken from the trace of Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

PART I A.

Orders and Notifications by the Government of India, &c.

[Reprinted from the Gazette of India.]

The following orders, issued by the Government of India in the Legislative Department, are republished for general information :—

NOTIFICATIONS.

Simla, the 30th October 1879.

No. 24.—The following Statute 42 and 43 Vic., Cap. 32, and parts of Statute 42 and 43 Vic., Cap. 33, are published for general information :—

42 & 43 VIC., CHAPTER 32.

An Act to bring into force the Army Discipline and Regulation Act, 1879, and for other purposes [24th July 1879].

WHEREAS the raising or keeping a standing army within the United Kingdom of Great Britain and Ireland in time of peace, unless it be with the consent of Parliament, is against law :

And whereas it is adjudged necessary by Her Majesty and this present Parliament that a body of forces should be continued for the safety of the United Kingdom, and the defence of the possessions of Her Majesty's Crown, and that the whole number of such forces should consist of one hundred and thirty-five thousand six hundred and twenty-five men, including those to be employed at the depôts in the United Kingdom of Great Britain and Ireland for the training of recruits for service at home and abroad, but exclusive of the numbers actually serving within Her Majesty's Indian possessions :

And whereas it is also judged necessary for the safety of the United Kingdom, and the defence of the possessions of this realm, that a body of Royal Marine forces should be employed in Her Majesty's fleet and naval service, under the direction of the Lord High Admiral of the United Kingdom, or the Commissioners for executing the office of Lord High Admiral as aforesaid :

And whereas the said marine forces may frequently be quartered or be on shore, or sent to do duty or be on board transport ships or merchant ships or vessels, or ships or vessels of Her Majesty, or other ships or vessels, or they may be under other circumstances in which they will not be subject to the laws relating to the Government of Her Majesty's forces by sea :

And whereas no man can be forejudged of life or limb, or subjected in time of peace to any kind of punishment within this realm by martial law, or in any other manner than by the judgment of his peers and according to the known and established laws of this realm ; yet nevertheless it being requisite, for the retaining all the beforementioned forces, and other persons subject to military law, in their duty that an exact discipline be observed, and

that persons belonging to the said forces who mutiny or stir up sedition, or desert Her Majesty's service, or are guilty of crimes and offences to the prejudice of good order and military discipline, be brought to a more exemplary and speedy punishment than the usual forms of the law will allow :

And whereas a Bill has been brought into Parliament, intituled the Army Discipline and Regulation Act, 1879, and the object of such Bill is to provide for the discipline and regulation of Her Majesty's forces, including the said Royal Marine forces :

And whereas it is provided by the said Bill that, when passed into an Act, it shall not come into force except in pursuance of an annual Act of Parliament to be thereafter passed bringing the same into force, and shall continue in force only for such time, and subject to such provisions, as may be specified in such last-mentioned Act :

And whereas it is expedient to provide for the bringing into force and for the continuance in force of the said Bill so intituled as aforesaid, in the event of the same becoming an Act :

Be it therefore enacted by the Queen's Most Excellent Majesty, by and with the advice and consent of the Lords Spiritual and Temporal, and Commons, in this present Parliament assembled, and by the authority of the same as follows :—

Short title.

1. This Act may be cited for all purposes as the Army Discipline and Regulation (Commencement) Act, 1879.

2. The Army Mutiny Act means the Act of the session of the forty-first and forty-second years of the reign of Her present Majesty, chapter ten, intituled "An Act for punishing mutiny and desertion, and for the better payment of the army and their quarters," as continued by the Act of the present session of Parliament, chapter four, intituled "An Act to continue for three months the Act of the session of the forty-first and forty-second years of the reign of Her present Majesty, chapter ten, intituled 'An Act for punishing mutiny and desertion, and for the better payment of the army and their quarters.'"

The Marine Mutiny Act means the Act of the sessions of the forty-first and forty-second years of the reign of Her present Majesty, chapter eleven, intituled "An Act for the regulation of Her Majesty's Royal Marine forces while on shore," as continued by the Act of the present session of Parliament, chapter five, intituled "An Act to continue for three months the Act of the session of the forty-first and forty-second years of the reign of Her present Majesty, chapter eleven, intituled 'An Act for the regulation of Her Majesty's Royal Marine forces while on shore.'"

3. The Bill intituled the Army Discipline and Regulation Act, 1879, shall in the event of the same becoming an Act of Parliament come into and be in force at and for the times hereinafter mentioned, and no longer, unless otherwise provided by Parliament, that is to say—

(1) Within the United Kingdom, the Channel Islands, and the Isle of Man, from the twenty-fifth day of July one thousand eight hundred and seventy-nine to the thirtieth day of April one thousand eight hundred and eighty, both inclusive ; and

(2) Elsewhere in Europe, inclusive of Malta, also in the West Indies and America, from the first day of November one thousand eight hundred and seventy-nine to the thirty-first day of July one thousand eight hundred and eighty, both inclusive ; and

(3) Elsewhere, whether within or without Her Majesty's dominions, from the first day of March one thousand eight hundred and eighty to the thirty-first day of December in the same year, both inclusive :

and the day upon which the Army Discipline and Regulation Act, 1879, so comes into force in any place is in this Act and in reference to such place referred to as the commencement of that Act :

Provided that the Army Discipline and Regulation Act, 1879, shall, if promulgated in any general order in any place out of the United Kingdom, the Channel Islands, and the Isle of Man, come into full force from and after the date named in such general order, anything in this section contained to the contrary notwithstanding.

If the Army Mutiny Act or the Marine Mutiny Act is in force in any place on the day on which the Army Discipline and Regulation Act, 1879, comes into force in that place, then the Army Mutiny Act or the Marine Mutiny Act, as circumstances require, shall be deemed to have expired at the commencement of that day.

4. Where in any place before the commencement of the Army Discipline and Regulation Act, 1879, a court-martial under the Army Mutiny Act or the Marine Mutiny Act has been convened for the trial of any offender, such trial may be carried on, and the offender may be sentenced and punished, in the same manner in all respects as if the Act under which the court-martial was held had not expired : Provided that the offender shall not be subjected to any greater punishment than he would be subject to for his offence if his offence had been committed against the Army Discipline and Regulation Act, 1879.

Subject as aforesaid, all crimes and offences which have been committed against the Army Mutiny Act or any former Act for punishing mutiny and desertion, and for the better payment of the army and their quarters, and all offences which have been committed against the Marine Mutiny Act, or any former Act for the regulation of the Royal Marine forces while on shore, or against any rules, regulations, or articles of war made or in force in pursuance of any of the said Acts, may be tried and punished in like manner as if they had been committed against the Army Discipline and Regulation Act, 1879, subject to the restrictions in the said Act contained as to the time within which persons may be tried or punished for offences in pursuance of the said Act.

All sentences imposed under the Army Mutiny Act, or any former Act for punishing mutiny and desertion, and for the better payment of the army and their quarters, and all sentences imposed under the Marine Mutiny Act, or any former Act for the regulation of the Royal Marine forces while on shore, or under any rules, regulations, or articles of war made or in force by virtue of any of the said Acts, may, after the expiration of the said Acts or any of them, be carried into effect in the same manner in all respects as if such Acts had not expired, and the Army Discipline and Regulation Act, 1879, had not come into force: Provided that the provisions of the Army Discipline and Regulation Act, 1879, with respect to the commutation and remission of sentences and the discharge of offenders, shall be applicable to any offender sentenced under any of such former Acts, rules, regulations, or articles in the same manner as if he had been sentenced under the said Army Discipline and Regulation Act, 1879.

The expiration of the Army Mutiny Act and the Marine Mutiny Act shall not affect—

(a) anything duly done or suffered under any enactment therein contained; or

(b) except in so far as the same are altered or affected by the Army Discipline and Regulation Act, 1879, any office, power, right, privilege, or obligation conferred, acquired, accrued, or incurred under any enactment therein contained.

The commencement of the Army Discipline Act shall not, nor shall the expiration of any enactment contained in the Army Mutiny Act or the Marine Mutiny Act, affect the position of any soldier enlisted or re-engaged before the commencement of the Army Discipline and Regulation Act, 1879, as respects the reckoning of service, the forfeiture of service, his liability to serve or to be detained in service, or his liability to transfer from one corps to another, or to the reserve; and the enactments relating to those matters, including any article of war, shall continue to apply to such soldier unless he consents to the application to him of the provisions of Part II of the Army Discipline and Regulation Act, 1879, relating to the same matters.

Every commission or warrant granted under the Army Mutiny Act, and the Marine Mutiny Act, or either of such Acts, for the holding or convening of courts-martial, or for authorizing any person to convene courts-martial, shall remain in force until revoked, and may be used for the purpose of holding or convening courts-martial or authorizing any person to convene courts-martial under the Army Discipline and Regulation Act, 1879.

5. Any reference in any Act of Parliament or other document to the Army Mutiny Act or the Marine Mutiny Act, or any Act for the punishment of mutiny and desertion, or for the regulation of the Royal Marine forces when on shore, or the articles of war made under any of such Acts, shall, after the commencement of the Army Discipline and Regulation Act, 1879, be deemed to refer to the corresponding provisions of that Act: Provided that as respects section thirty-one of the Militia Voluntary Enlistment Act, 1875, the form of oath therein mentioned shall continue to be referred to, and also so much of the Army Mutiny Act as relates to the auxiliary or reserve forces, and is not inconsistent with the provisions of the Army Discipline and Regulation Act, 1879, and also so much of the Army Mutiny Act as repeals or amends any other Act, shall continue in force so long and in the same places as the Army Discipline and Regulation Act, 1879, continues in force in such places.

Construction of Acts referring to the Mutiny Acts and Articles of War.

Any reference in the Reserve Force Act, 1867, or in any other Act, to the first term of enlistment of a soldier, shall in the case of a soldier enlisted under the Army Discipline and Regulation Act, 1879, be construed to refer to the term of his original enlistment within the meaning of that Act.

6. Any building or part of a building which at the commencement of the Army Discipline and Regulation Act, 1879, is by law set apart as a military prison, shall be deemed, until otherwise directed by a Secretary of State in pursuance of the said Act, to be a military prison set apart and declared under the Army Discipline and Regulation Act, 1879.

Saving for existing military prisons.

7. Any enactments inconsistent with the provisions of the Army Discipline and Regulation Act, 1879, shall, on that Act coming into force in any place, be repealed as respects that place.

Repeal of enactments.

8. There shall be paid to the keeper of a victualling-house for the accommodation provided by him in pursuance of the Army Discipline and Regulation Act, 1879, the prices specified in the Schedule hereto—
Prices in respect of billeting.

Schedule.

Accommodation to be provided.	Maximum price.
Lodging and attendance for soldier where hot meal furnished	Two pence half-penny per night.
Hot meal as specified in Part I of the second Schedule to the Army Discipline and Regulation Act, 1879.	One shilling and one penny half-penny each.
Where no hot meal furnished, lodging and attendance, and candles, vinegar, salt, and the use of fire and the necessary utensils for dressing and eating his meal.	Four pence per day.
Ten pounds of oats, twelve pounds of hay, and eight pounds of straw per day for each horse.	One shilling and nine pence per day.
Lodging and attendance for officer	Two shillings per night.

Note.—An officer shall pay for his food.

42 & 43 VIC., CHAPTER 83.

An Act to amend the law relating to the Discipline and Regulation of the Army
[24th July 1879].

BE it enacted by the Queen's Most Excellent Majesty, by and with the advice and consent of the Lords Spiritual and Temporal, and Commons, in this present Parliament assembled and by the authority of the same, as follows :—

Preliminary.

Short title of Act. 1. This Act may be cited for all purposes as the Army Discipline and Regulation Act, 1879.

2. This Act shall not come into force except in pursuance of an annual Act of Parliament, to be hereafter passed, bringing the same into force, and shall continue in force only for such time and subject to such provisions as may be specified in such last-mentioned Act.

Division of Act. 3. This Act is divided into five parts, relating to the following subject matters; that is to say—

- Part I, discipline :
- Part II, enlistment :
- Part III, billeting and impressment of carriages :
- Part IV, general provisions :
- Part V, application of military law, saving provisions, and definitions.

Offences punishable by ordinary law.

41. Subject to such regulations for the purpose of preventing interference with the jurisdiction of the civil courts as are in this Act after-mentioned, every person who, whilst he is subject to military law, shall commit any of the offences in this section mentioned, shall be deemed to be guilty of an offence against military law, and if charged under this section with any such offence (in this Act referred to as a civil offence) shall be liable to be tried by court-martial, and on conviction to be punished as follows; that is to say,—

(1) if he is convicted of treason, be liable to suffer death, or such less punishment as is in this Act mentioned; and

(2) if he is convicted of murder, be liable to suffer death; and

(3) if he is convicted of manslaughter or treason-felony, be liable to suffer penal servitude, or such less punishment as is in this Act mentioned; and

(4) if he is convicted of rape, be liable to suffer penal servitude, or such less punishment as is in this Act mentioned; and

(5) if he is convicted of any offence not before in this Act specified, which when committed in England is punishable by the law of England, be liable, whether the offence is committed in England or elsewhere, either to suffer such punishment as might be awarded to him in pursuance of this Act in respect of an act to the prejudice of good order and military discipline, though not in this Act specified, or to suffer any punishment assigned for such offence by the law of England.

Provided as follows :—

(a) A person subject to military law shall not be tried by court-martial for treason, murder, manslaughter, treason-felony, or rape committed in the United Kingdom, and shall

not be tried by court-martial for treason, murder, manslaughter, treason-felony, or rape committed in any place within Her Majesty's dominions, other than Gibraltar, unless such person at the time he committed the offence was on active service, or such place is more than one hundred miles as measured in a straight line from any city or town in which the offender can be tried for such offence by a competent civil court.

(b) A person subject to military law when in Her Majesty's dominions may be tried by any competent civil court for any offence for which he would be triable if he were not subject to military law.

59. (1) Where a sentence of penal servitude is passed by a court-martial in India or any colony, the military convict on whom such sentence has been passed shall, as soon as practicable, be transferred to a penal servitude prison, to undergo his sentence according to law.

Execution of sentences of penal servitude passed in India or a colony.

(2) The order of the committing authority (hereafter in this section mentioned) shall be a sufficient warrant for his transfer to a penal servitude prison.

(3) The military convict during the period which intervenes between the passing of his sentence and his arrival at the penal servitude prison (in this section referred to as the term of his intermediate custody) shall be deemed to be in legal custody.

(4) The military convict during his term of intermediate custody may be kept in military custody or in civil custody, or partly in one description of custody and partly in the other, and may from time to time be transferred from military custody to civil custody, and from civil custody to military custody, as occasion may require, and may during his conveyance from place to place, or when on boardship or otherwise, be subjected to such restraint as is necessary for his detention and removal.

(5) "Civil custody" for the purposes of this section means custody in any authorized prison; nevertheless, where it is not practicable to place the military convict in an authorized prison, he may, by way of civil custody, be confined temporarily in any other prison with the assent of the authority having jurisdiction over that prison.

(6) The military convict, whilst in any prison in which he may legally be placed, may be dealt with, in respect of hard labour and otherwise, according to the rules of that prison.

(7) An order of removing authority (hereafter in this section mentioned) shall be a sufficient authority for the transfer of the military convict from military custody to civil custody, and from civil custody to military custody, and his removal from place to place, and for his detention in civil custody, and generally for dealing with such convict in such manner as may be thought expedient during the term of his intermediate custody.

(8) The removing authority during the term of the intermediate custody of the military convict may from time to time by order provide for his being brought before court-martial or any civil court, either as a witness or for trial or otherwise, and an order of such authority shall be a sufficient warrant for the delivering him into military custody, and detaining him in custody, until he can be returned to the place from whence he is brought, or to such other place as may be determined by the removing authority.

(9) Any directions of the removing authority relating to the mode in which the military convict is to be dealt with during the term of his intermediate custody may be contained in the same order or in several orders; and, if the orders are more than one, they may be by different officers and at different times.

(10) At any time before the military convict arrives at a penal servitude prison, the discharging authority (hereafter in this section mentioned) may by order discharge the military convict.

(11) Any one or more of the following officers shall be the committing authority for the purposes of this section; that is to say,—

In India —

- (a) The Commander-in-Chief of the forces in India;
 - (b) The Commander-in-Chief of the forces in any presidency in India;
 - (c) The Adjutant-General in India;
 - (d) The Adjutant-General in any presidency in India; and
- In a colony, the officer commanding the forces in that colony; and
In any case whether in India or in a colony, the prescribed officer.

(12) Any one or more of the following officers shall be the removing authority for the purposes of this section; that is to say,—

- (a) Any officer in this section named as the committing authority; also
- (b) The officer commanding the military district or station where the military convict may for the time being be; also
- (c) Any other prescribed officer.

(13) Any of the following officers shall be the discharging authority for the purposes of this section; that is to say,—

- (a) The officer who confirmed the sentence; also
- (b) Any officer in this section named as the committing authority; also
- (c) Any other prescribed officer.

60. (1) Where a sentence of penal servitude is passed by a court-martial in any foreign country, the military convict, on whom such sentence has been passed shall, as soon as practicable, be transferred to a penal servitude prison for the purpose of undergoing his sentence according to law, and, until so transferred, may be kept in military custody.

Execution of sentences of penal servitude passed in a foreign country.

(2) The order of the committing authority (hereafter in this section mentioned) shall be a sufficient warrant for the transfer of the military convict to a penal servitude prison.

(3) If at any time before his arrival in the United Kingdom the military convict is brought into India or any colony, he may be dealt with by the competent military authority in India or such colony in the same manner in all respects as if he had been there sentenced by court-martial to penal servitude.

(4) The military convict may at any time before he arrives at any place in the United Kingdom, India, or any colony, be discharged by the discharging authority (hereafter in this section mentioned) having jurisdiction in any place where the military convict may for the time being be.

(5) Any one or more of the following officers shall be the committing authority for the purposes of this section; that is to say,—

(a) The officer commanding the army or force with which the military convict was serving at the time of his being sentenced;

(b) The officer who confirmed the sentence of the court;

(c) Any other prescribed officer.

(6) Any officer in this section named as the committing authority shall also be the discharging authority for the purposes of this section.

61. A penal servitude prison for the purposes of the provisions of this Act relating to penal servitude means any prison or place in which a prisoner sentenced to penal servitude by a civil court in the United Kingdom can for the time being be confined, either permanently or temporarily.

An "authorised prison" for the purposes of the provisions of this Act relating to penal servitude means any prison in India or any colony which the Governor-General of India or the Governor of such colony may, with the concurrence of a Secretary of State, have appointed as a prison in which military convicts may during the period of their intermediate custody be confined.

After a military convict has arrived at a penal servitude prison to undergo his sentence, he shall be dealt with in the like manner as an ordinary civil prisoner under sentence of penal servitude.

62. (1) Where a sentence of imprisonment is passed by court-martial or a commanding officer, the person on whom such sentence has been passed (in the provisions of this Act relating to imprisonment referred to as a military prisoner) shall undergo the term of his imprisonment either in military custody or in a public prison, or partly in one way and partly in the other.

(2) The order of the committing authority hereafter mentioned shall be a sufficient warrant for the transfer of a military prisoner to a public prison.

(3) A military prisoner while in a public prison shall be confined, kept to hard labour, and otherwise dealt with in like manner as an ordinary prisoner under a like sentence of imprisonment.

(4) A military prisoner during his conveyance from place to place, or when on board ship or otherwise, may be subjected to such restraint as is necessary for his detention and removal.

(5) The discharging authority hereafter mentioned may, at any time during the period of a military prisoner undergoing his imprisonment, by order discharge the prisoner.

(6) The removing authority hereafter mentioned may, at any time during the period of the military prisoner undergoing his sentence in a public prison, from time by time provide for his being brought before a court-martial, or any civil court, either as a witness, or for trial or otherwise, and an order of such authority shall be a sufficient warrant for delivering him into military custody, and detaining him in custody until he can be returned to the place from whence he is brought, or to such other place as may be determined by the removing authority.

Supplemental provision as to sentences of imprisonment passed in India or colony.

64. Where a sentence of imprisonment is passed in India or any colony, then, for the purposes of the provisions of this Act relating to imprisonment,—

(1) The expression "public prison" means any of the following prisons; that is to say,—

(a) where the sentence was passed in India, any authorised prison in India;

(b) where the sentence was passed in a colony, any authorised prison in that colony;

(c) any such authorised prison in any part of Her Majesty's dominions other than that in which the sentence was passed as may be prescribed; and

(d) any public prison in the United Kingdom as above defined for the purpose of the provisions of this Act relating to imprisonment in the United Kingdom;

(2) "Authorised prison" means any prison in India or any colony which the Governor-General of India or the Governor of such colony, with the concurrence of the Secretary of State, may have appointed as a prison in which military prisoners may be confined;

(3) A military prisoner may temporarily be confined in a prison, not a public prison, with the assent of the authority having jurisdiction over such prison:

(4) A military prisoner may be removed by the warrant of the committing authority or any other prescribed authority from one public prison to another: Provided that he shall not under this section be removed from a prison in the United Kingdom to any prison elsewhere:

(5) Any one or more of the following officers shall be the committing authority; that is to say,—

In India —

- (a) The Commander-in-Chief of the forces in India;
- (b) The Commander-in-Chief of the forces in any presidency in India;
- (c) The Adjutant-General in India; and
- (d) The Adjutant-General in any presidency in India;

In a colony, the officer commanding the forces in that colony; and

In any case, whether in India or in a colony,—

- (a) The officer who confirmed the sentence;
 - (b) The commanding officer of the military prisoner; and
 - (c) Any other prescribed officer;
- (6) Any of the following officers shall be the discharging authority: —

(a) The officer commanding the military district or station in which the prisoner may be;

(b) Any officer in this section named as a committing authority, with this exception, that the commanding officer shall only be a discharging authority where the sentence was passed by a commanding officer; and

(c) Any other prescribed officer.

(7) Any one or more of the following officers shall be the removing authority:—

(a) Any officer in this section named as a committing authority;

(b) The officer commanding the military district or station where the prisoner may be; and

(c) Any other prescribed officer.

65. Where a sentence of imprisonment is passed by a court-martial or commanding

Supplemental provision as to sentences of imprisonment passed in a foreign country.

officer in any foreign country, then if, and as soon as the military prisoner on whom such sentence has been passed is brought into the United Kingdom or India, or any colony, the provisions of this Act shall apply in the same manner in all respects as if the sentence of imprisonment had been passed in the United Kingdom, India, or any colony, as the case may be, with this addition, that the officer commanding the army or force to which the military prisoner belonged at the time of being sentenced shall also be deemed to be a committing authority.

66. The competent military authority (hereafter in this section mentioned) may give

Removal of prisoner to place where corps is serving.

directions for the delivery into military custody of any military prisoner for the time being undergoing his sentence of imprisonment, and the removal of such prisoner, whether with his corps or separately, to any place beyond the seas where the corps, or any part thereof, to which for the time being he belongs, is serving or under orders to serve.

The directions of such competent military authority or an order of the removing authority issued in pursuance of such directions, shall be sufficient authority for the removal of such prisoner from the prison in which he is confined, and for his conveyance in military custody to any place designated, and for his intermediate custody during such removal and conveyance.

The competent military authority may further give directions for the discharge of the prisoner either conditionally or unconditionally at any time while he is in military custody under this section.

For the purpose of this section, any one or more of the following officers shall be the competent military authority:—

- (1) In the United Kingdom—
- (a) The Commander-in-Chief;
- (b) The Adjutant-General; and
- (c) Any other prescribed officer;

(2) In India—

- (a) The Commander-in-Chief of the forces in India;
- (b) The Commander-in-Chief of the forces in any presidency in India;
- (c) The Adjutant-General in India; and
- (d) The Adjutant-General in any presidency in India;

(3) In a colony, the officer commanding the forces in that colony; and

(4) In any case, whether in India or in a colony, the prescribed officer.

67. The term of penal servitude or imprisonment to which a person is sentenced by a

Commencement of term of penal servitude or imprisonment.

court-martial, whether the sentence has been revised or not, and whether the prisoner is already undergoing sentence or not, shall be reckoned to commence on the day on which the original sentence and proceedings were signed by the president of the court-martial.

An offender under this Act shall not be subject to imprisonment for more than two consecutive years, whether under one or more sentences.

Subject as aforesaid, where a sentence of corporal punishment is commuted to imprisonment, and the offender whose sentence is so commuted is undergoing a previous sentence of imprisonment, the commuted sentence may be directed by the commuting authority to commence at the expiration of the imprisonment under such previous sentence.

MISCELLANEOUS.

Articles of War and Rules of Procedure.

68. It shall be lawful for Her Majesty to make articles of war for the better government of officers and soldiers, and such articles shall be judicially taken notice of by all judges and in all courts whatsoever: Provided that no person shall, by such articles of war, be subject to suffer any punishment extending to life or limb, or to be kept in penal servitude, except for crimes which are by this Act expressly made liable to such punishment aforesaid, or be subject, with reference to any crimes made punishable by this Act, to be punished in any manner which does not accord with the provisions of this Act.

Power of Her Majesty to make articles of war.

69. Subject to the provisions of this Act, Her Majesty may, by rules to be signified under the hand of a Secretary of State, from time to time make, and when made, repeal, alter, or add to provisions in respect of the following matters or any of them; that is to say,—

Power of Her Majesty to make rules of procedure.

- (1) the assembly and procedure of courts of inquiry;
- (2) the convening and constituting of courts-martial;
- (3) the adjournment, dissolution, and sittings of courts-martial;
- (4) the procedure to be observed in trials by courts-martial;
- (5) the confirmation and revision of the findings and sentences of courts-martial;
- (6) the carrying into effect sentences of courts-martial;
- (7) the forms of orders to be made under the provisions of this Act relating to courts-martial, penal servitude, or imprisonment;
- (8) any matter in this Act directed to be prescribed;
- (9) any other matter or thing expedient or necessary for the purpose of carrying this Act into execution, so far as relates to the investigation, trial, and punishment of offences triable or punishable by military law:

Provided always that no such rules shall contain anything contrary to, or inconsistent with, the provisions of this Act.

All rules made in pursuance of this section shall be judicially noticed.

All rules made in pursuance of this section shall be laid before Parliament as soon as practicable after they are made, if Parliament be then sitting, and if Parliament be not then sitting, as soon as practicable after the beginning of the then next session of Parliament.

Proceedings for Enlistment.

77. Every person authorised to enlist recruits in the regular forces (in this Act referred to as the "recruiter") shall give to every person offering to enlist in the form for the time being authorised by a Secretary of State, stating the general requirements of attestation and the general conditions of the contract to be entered into by the recruit, and directing such person to appear before a justice of the peace at the time and place therein mentioned.

Mode of enlistment and attestation.

Upon the appearance before a justice of the peace of a person offering to enlist, the justice shall ask him whether he assents to be enlisted, and shall not proceed with the enlistment if he considers the recruit under the influence of liquor.

If he does not appear before a justice, or on appearing, does not assent to be enlisted, no further proceedings shall be taken.

If he assents to be enlisted—

(1) The justice, after cautioning such person that if he makes any false answer to the questions read to him, he will be liable to be punished as provided by this Act, shall read or cause to be read to him the questions set forth in the attestation paper for the time being authorised by a Secretary of State, and shall take care that such person understands each question so read, and after ascertaining that the answer of such person to each question has been duly recorded opposite the same in the attestation paper, shall require him to make and sign the declaration as to the truth of those answers set forth in the said paper, and shall then administer to him the oath of allegiance contained in the said paper:

(2) Upon signing the declaration and taking the oath, such person shall be deemed to be enlisted as a soldier of Her Majesty's regular forces:

(3) The justice shall attest by his signature, in manner required by the said paper, the fulfilment of the requirements as to attesting a recruit, and shall deliver the attestation paper, duly dated, to the recruiter:

(4) The fee for the attestation of a recruit, and for all acts and things incidental thereto, shall be one guinea and no more, and shall be paid to the clerk of the justice:

(5) The officer who finally approves of a recruit for service shall, at his request, furnish him with a certified copy of his attestation paper.

The date at which the recruit signs the declaration and takes the oath in this section in that behalf mentioned shall be deemed to be the date of the attestation of such recruit.

The competent military authority, if satisfied that there is any error in the attestation paper of a recruit, may cause the recruit to attend before some justice of the peace, and that justice, if satisfied that such error exists, and is not so material as to render it just that the recruit should be discharged, may amend the error in the attestation paper, and the paper as amended shall thereupon be deemed as valid as if the matter of the amendment had formed part of the original matter of such paper.

Justices of the Peace for the purposes of enlistment.

90. For the purposes of the attestation of soldiers in pursuance of this part of this Act,—

(1) Any justice of the peace may act as such justice, provided he is within the county, borough, or place of which he is justice;

(2) Every person exercising the office of a magistrate in India or a colony, and also each of the following persons, shall have the authority of a justice of the peace; that is to say,—

In India, any person duly authorised in that behalf by the Governor-General, and in the territories of any Native State in India, the person performing the duties of the office of British Resident therein, or any other person authorised in that behalf by the Governor-General of India; and

In a colony, any person duly authorised in that behalf by the Governor of the colony; and

Beyond the limits of the United Kingdom, India, and a colony, any British Consul-General, Consul, or Vice-Consul, or person duly exercising the authority of a British Consul.

An officer while subject to military law shall not act as a justice of the peace for the purpose of the attestation of soldiers in pursuance of this part of this Act, except officers of militia while the regiments to which they belong are disembodied.

Offences as to Enlistment.

Penalty on unlawful recruiting.

94. If a person without due authority—

(1) publishes or causes to be published notices or advertisements for the purpose of procuring recruits for Her Majesty's regular forces, or in relation to recruits for such forces; or

(2) opens or keeps any house, place of rendezvous, or office as connected with the recruiting of such forces; or

(3) receives any person under any such advertisement as aforesaid; or

(4) directly or indirectly interferes with the recruiting service of such forces;

he shall be liable on summary conviction to a fine not exceeding twenty pounds.

95. If a person knowingly makes a false answer to any question contained in the

Recruits punishable for false answers.

attestation paper, and read or put to him by or by direction of the justice before whom he appears for the purpose of being attested, he shall be liable on summary conviction to be imprisoned with or without hard labour for any period not exceeding three months.

If a person guilty of an offence under this section has been attested as a soldier of the regular forces, he shall be liable, at the discretion of the competent military authority, to be proceeded against before a court of summary jurisdiction, or to be tried by court-martial for the offence.

Summoning and privilege of witnesses at courts-martial.

122. Every person required to give evidence before a court-martial may be summoned or ordered to attend in the prescribed manner.

Every person attending in pursuance of such summons or order as a witness before any court-martial shall, during his necessary attendance in or on such court, and in going to and returning from the same, have the same privilege from arrest as he would have if he were a witness before a superior court of civil jurisdiction.

Misconduct of civilian at court-martial.

123. Where any person who is not subject to military law commits any of the following offences; that is to say,—

(1) on being duly summoned as a witness before a court-martial, and after payment or tender of the reasonable expenses of his attendance, makes default in attending; or

(2) being in attendance as a witness—

(a) refuses to take an oath legally required by a court-martial to be taken; or

(b) refuses to produce any document in his power or control legally required by a court-martial to be produced by him; or

(c) refuses to answer any question to which a court-martial may legally require an answer;

the President of the court-martial may certify the offence of such person under his hand to any court of law in the part of Her Majesty's dominions where the offence is committed which has power to punish witnesses if guilty of like offences in the court, and that court may thereupon inquire into such alleged offence, and after examination of any witnesses that may be produced against or for the persons so accused, and after hearing any statement

that may be offered in defence, if it seem just, punish such witness in like manner as if he had committed such offence in a proceeding in that court.

Where a person not subject to military law when examined on oath or solemn declaration before a court-martial wilfully gives false evidence, he shall be liable on indictment or information to be convicted of and punished for the offence of perjury, or the offence by whatever name called in the part of Her Majesty's dominions in which the offence is tried which, if committed in England, would be perjury.

Where a person not subject to military law is guilty of any contempt towards a court-martial, by using insulting or threatening language, or by causing any interruption or disturbance in its proceedings, or by printing observations or using words calculated to influence the members of or witnesses before such court, or to bring such court into disrepute, the President of the court-martial may certify the offence of such person under his hand to any court of law in the part of Her Majesty's dominions where the offence is committed which has power to commit for contempt, and that court may thereupon enquire into such alleged offence, and after hearing any witnesses that may be produced against or on behalf of the person so accused, and after hearing any statement that may be offered in defence, punish or take steps for the punishment of such person in like manner as if he had been guilty of contempt of that court.

124. A court-martial under this Act shall not, as respects the conduct of its proceedings, or the reception or rejection of evidence, or as respects any other matter or thing whatsoever, be subject to the provisions of the Indian Evidence Act, 1872, or to any Act, law, or ordinance of any legislature whatsoever other than the Parliament of the United Kingdom.

125. The rules of evidence to be adopted in proceedings before courts-martial shall be the same as those which are followed in civil courts; and no person shall be required to answer any question or to produce any document which he could not be required to answer or produce in similar proceedings before a civil court.

126. Where it appears on the trial by court-martial of a person charged with an offence that such person is by reason of insanity unfit to take his trial, the court shall find specially that fact; and such person shall be kept in custody in the prescribed manner until the directions of Her Majesty thereon are known, or until any earlier time at which such person is fit to take his trial.

Where on the trial by court martial of a person charged with an offence it appears that such person committed the offence, but that he was insane at the time of the commission thereof, the court shall find specially the fact of his insanity, and such person shall be kept in custody in the prescribed manner until the directions of Her Majesty thereon are known.

In either of the above cases Her Majesty may give orders for the safe custody of such person during her pleasure, in such place and in such manner as Her Majesty thinks fit.

A finding under this section shall be subject to confirmation in like manner as any other finding.

If a person imprisoned by virtue of this Act becomes insane, then, without prejudice to any other provision for dealing with such insane prisoner, a Secretary of State in any case, and in the case of a prisoner confined in India, the Governor-General of India, or the Governor of any Presidency in which the person is confined, and in the case of a prisoner confined in a colony, the Governor of that colony, may, upon a certificate of such insanity by two qualified medical practitioners, order the removal of such prisoner to an asylum or other proper place for the reception of the insane persons in the United Kingdom, India or the colony, according as the prisoner is confined in the United Kingdom, India or the colony, there to remain for the unexpired term of his imprisonment; and, upon such person being certified in the like manner to be again of sound mind, may order his removal to any prison in which he might have been confined if he had not become insane, there to undergo the remainder of such punishment.

General Provisions as to Prisons.

127. A Secretary of State may from time to time make arrangements with the Governor-General of India or the Governor of a colony for the reception in any prison in India or in such colony of prisoners under this Act, and of deserters or absentees without leave from Her Majesty's service, on payment of such sums as are provided by the arrangement, and the governor of any prison to which any such arrangement relates shall be under the same obligation as the governor of a prison in the United Kingdom to receive and detain such prisoners, deserters, and absentees without leave: Provided that where a prisoner has been sentenced in India or in a colony to a term of imprisonment exceeding twelve months, or to a term of penal servitude, he shall be transferred as soon as practicable to a prison or convict establishment within the United Kingdom, unless in the case of imprisonment the court shall for special reasons otherwise order, there to undergo his sentence.

128. The governor of every prison in the United Kingdom, and the governor of every prison in India or a colony who is under the same obligation as the governor of a prison in the United Kingdom, shall receive and confine, until discharged and delivered over in due course of law, all prisoners sent to such prison

in pursuance of this Act, and every person delivered into his custody as a deserter or absentee without leave by any person conveying him under legal authority, on production of the warrant of a court of summary jurisdiction on which such deserter or absentee without leave has been taken or committed, or of some order from a Secretary of State, or from the Governor-General of India, or the Governor of a colony, which order shall continue in force until the deserter or absentee without leave has arrived at his destination.

The provisions of this section with respect to the governor of a prison in the United Kingdom shall apply to a person having charge of any police-station or other place in which prisoners may legally be confined.

Military Prisons.

129. It shall be lawful for a Secretary of State, and in India for the Governor-General, to set apart any building or part of a building under the control of the Secretary of State or Governor-General as a military prison, or as a public prison for the imprisonment of military prisoners, and to declare that any such building or part of a building shall be a military prison or a public prison, as the case may be, and every military prison so declared shall be deemed to be a public prison within the meaning of the provisions of this Act relating to imprisonment, and if such prison is in India shall be deemed to be an authorized prison.

It shall be lawful for a Secretary of State, and in India for the Governor-General, from time to time to make, alter, and repeal rules for the government, management, and regulation of military prisons, and for the appointment and removal and powers of inspectors, visitors, governors, and officers thereof, and for the labour of military prisoners therein, and for the safe custody of such prisoners and for the maintenance of discipline among them, and for the punishment by personal correction, not exceeding twenty-five lashes in the case of corporal punishment, restraint, or otherwise of offences committed by such prisoners, so, however, that such rule shall not authorize corporal punishment to be inflicted for any offence in addition to the offences for which such punishment can be inflicted in pursuance of the Prison Acts, 1865, 1877, nor render the imprisonment more severe than it is under the law in force for the time being in any public prison in England, subject to the Prison Act of the fortieth and forty-first Victoria, Chapter twenty-one, and provided that all the regulations in the Prison Act of 1865 and in the aforesaid Act as to the duties of gaolers, medical officers, and coroners shall be contained in such rules, so far as the same can be made applicable.

On all occasions of death by violence or attended with suspicious circumstances in any military prison in India, and inquest is to be held to make inquiry into the cause of death. The commanding officer shall cause notice to be given to the nearest magistrate, duly authorized to hold inquests, and such magistrate shall hold an inquest into the cause of any such death, in the manner and with the powers provided in the case of similar enquiries held under the law for the time being in force in India for regulating criminal procedure.

Where from any cause there is no competent civil authority available, the commanding officer shall convene a court of inquest. Such court shall be convened and shall hold the inquest in such manner as may be prescribed.

Such rules may apply to such prisons any enactments of the Prison Act, 1865, imposing punishments on any persons not prisoners.

All rules made by a Secretary of State in pursuance of this section shall be laid before Parliament as soon as practicable after they are made, if Parliament be then sitting, and if not, as soon as practicable, after the commencement of the then next session of Parliament.

130. No soldiers shall be confined, longer than is absolutely necessary, in prisons other than military prisons in India and the colonies where the rules for the government and management of such prisons differ from those made by the Governor-General of India and a Secretary of State in the case of India and the colonies respectively.

131. Whereas it is expedient that a clear difference should be made between the treatment of prisoners convicted of breaches of discipline and the treatment of prisoners convicted of offences of an immoral, dishonest, shameful, or criminal character, a Secretary of State shall from time to time make rules for the classification and treatment of such prisoners.

Exemptions of Officers and Soldiers.

Exemptions of officers and soldiers from tolls.

137. All officers and soldiers of Her Majesty's regular forces on duty or on the march; and

Their horses and baggage; and

All prisoners under military escort; and

All carriages and horses belonging to Her Majesty or employed in her military service, when conveying any such persons as above in this section mentioned, or baggage or stores, or returning from conveying the same;

shall be exempted from payment of any duties or tolls on embarking or disembarking from or upon any pier, wharf, quay, or landing place, or in passing along or over any turnpike or other road or bridge, otherwise demandable by virtue of any Act of Parliament already passed or hereafter to be passed or by virtue of any Act, ordinance, order, or direction of the legislature or other authority in India or any colony:

Provided that nothing in this section shall exempt any boats, barges, or other vessels employed in conveying the said persons, horses, baggage, or stores along any canal from payment of tolls in like manner as other boats, barges, and vessels.

When any soldiers have occasion in their march by route to pass regular ferries in Scotland, the officer commanding may, at his option, pass over with his soldiers as passengers, and shall pay for himself and each soldier one half only of the ordinary rate payable by single persons, or may hire the ferry boat for himself and his party, debarring others for that time, and shall in all such cases pay only half the ordinary rate for such boat.

Any person who demands and receives any duty, toll, or rate in contravention of this section shall, on summary conviction, be liable to a fine not exceeding five pounds nor less than ten shillings.

138. A soldier of Her Majesty's regular forces shall not be liable to be taken out of Her Majesty's service by any process, execution, or order of any court of law, or otherwise, or to be compelled to appear in person before any court of law, except in respect of the following matters, or one of them; that is to say,—

- (1) On account of a charge of or conviction for crime; or
- (2) On account of any debt, damages, or sum of money, when the amount exceeds thirty pounds over and above all costs of suit.

For the purposes of this section a crime shall mean a felony, misdemeanor, or other crime or offence punishable, according to the law in force in that part of Her Majesty's dominions in which such soldier is, with fine or imprisonment or some greater punishment, and shall not include the offence of a person absenting himself from his service, or neglecting to fulfil his contract, or otherwise misconducting himself respecting his contract.

For the purposes of this section a court of law shall be deemed to include a court of summary jurisdiction and any magistrate.

The amount of the debt, damages, or sum shall be proved for the purpose of any process issued before the court has adjudicated on the case by an affidavit of the person seeking to recover the same, or of some one on his behalf, and such affidavit shall be sworn, without payment of any fee, in the manner in which affidavits are sworn in the court in which proceedings are taken for the recovery of the sum, and a memorandum of such affidavit shall, without fee, be endorsed upon any process or order issued against a soldier.

All proceedings and documents in or incidental to a process, execution, or order in contravention of this section shall be void; and where complaint is made by a soldier or his commanding officer that such soldier is dealt with in contravention of this section by any process, execution, or order issued out of any court, and is made to that court or to any court superior to it, the court or some judge thereof shall examine into the complaint, and shall, if necessary, discharge such soldier without fee, and may award reasonable costs to the complainant, which may be recovered as if costs had been awarded in his favour in any action or other proceeding in such court:

Provided that—

(1) Any person having cause of action or suit against a soldier of the regular forces may, notwithstanding anything in this section, after due notice in writing given to the soldier, or left at his last quarters, proceed in such action or suit to judgment, and have execution other than against the person, pay, arms, ammunition, equipments, instruments, regimental necessaries, or clothing of such soldier; and

(2) This section shall not prevent such proceedings with respect to apprentices and indentured labourers as is authorized by this Act.

Court of Requests in India.

141. Where any part of Her Majesty's regular forces is serving in India beyond the jurisdiction of any court of small causes established by or under the authority of the Governor-General of India in Council, actions of debt and personal actions against officers and other persons subject to military law, with the exception of persons being soldiers of the regular forces, which would be cognizable by such court of small causes if the said part of Her Majesty's regular forces were within the jurisdiction of the court, shall be cognizable before a court of requests composed of officers, and not elsewhere: Provided that—

- (1) The value in question does not exceed four hundred rupees; and
- (2) The defendant was a person of the above description when the cause of action arose; and
- (3) Nothing in this Act shall enable an action to be brought in a military court of requests by an officer or soldier of the regular forces against an officer of the regular forces.

The commanding officer of any camp, garrison, cantonment or military post is hereby empowered to convene any such court.

Whenever, owing to paucity of officers, or to any other cause, a court of requests cannot conveniently be held at the place where the defendant may be, the officer commanding the division or district may authorize a court to be convened by the officer commanding at the nearest place where such court can be formed.

142. Courts of request under this Act shall in all practicable cases consist of five officers, and in no instance of less than three.

Constitution and proceedings of military court of requests.

The president thereof shall in all practicable cases be a field officer, and in no case be under the rank of a captain.

Every member shall have served not less than five years as a commissioned officer.

Before any proceedings are had before such court, the president and members shall take the following oath, which oath shall be administered by the president of the court to the other members thereof, and to the president by any sworn member; (that is to say),—

' You swear, that you will duly administer justice according to the evidence in the matters brought before you.

So help you GOD.'

All witnesses before any such court shall be sworn and examined in the like manner as in the case of a trial by court-martial, and shall be liable to the same punishment for giving false evidence.

The provisions of this Act with respect to the substitution of a solemn declaration for an oath in the case of a court-martial shall apply as if they were enacted in this section, and in terms made applicable thereto.

143. A military court of requests held in India under the authority of this Act, on

Execution of judgment of military court of requests.

adjudging payment of any sum by any person subject to military law (in this section referred to as the debtor), may either award execution thereof generally, or direct specially that the amount named in the direction, being the whole or any part of the said sum, shall be paid by instalments or otherwise out of any pay or other public money payable to the debtor, and the amount named in the direction, not exceeding one-half of such pay and public money, shall, while the debtor is in India, be stopped and paid in conformity with the direction.

Where execution is awarded generally by a military court of requests, the sum, if not paid forthwith, shall be levied by seizure and public sale of such of the property of the debtor as may be found within the camp, garrison, cantonment, or military post to which the debtor belongs, and, if the proceeds are insufficient to pay the said sum, as may be found within the limits of a camp, garrison, cantonment, or military post in India to which the debtor may belong at any subsequent time.

The levy and seizure shall be made under a written order of the commanding officer of such camp, garrison, cantonment, or military post, grounded on the judgment of the court.

The arms and equipment of a debtor shall not be liable to be seized or sold under this section.

All orders of the commanding officer as to the manner of such sale, or the person by whom the same shall be made, or otherwise respecting the same, shall be duly observed; and if any question arises whether any such property is liable to be seized or sold as aforesaid, the decision of the said commanding officer thereon shall be final.

If sufficient property is not found within the limits of the camp, garrison, cantonment, or military post, then any pay or public money (not exceeding one-half) accruing to the debtor, shall, while the debtor is in India, be stopped, in liquidation of the said sum.

If the debtor does not receive pay as an officer or from any public department, he may be arrested by order of the commanding officer of the camp, garrison, cantonment, or military post, and imprisoned in some convenient place within the camp, garrison, cantonment, or military post, for any period not exceeding two months, unless the said sum be sooner paid.

The commanding officer shall not, nor shall any person acting on his orders in respect of the matters aforesaid, incur any liability to any person whomsoever for any act done by him in execution or intended execution of the provisions of this section.

144. In India all actions of debt and personal actions against persons subject to military law, other than soldiers of the regular forces, within the jurisdiction of any court of small causes, shall be cognizable by such court to the extent of its powers.

Courts of small causes and civil courts in India.

All such actions where the amount sued for exceeds four hundred rupees shall be cognizable by a civil court or court of small causes only.

A civil court or court of small causes, upon adjudging payment of any sum by any person subject to military law other than a soldier of the regular forces, may either award execution thereof generally, or may direct specially that the amount named in the direction, being the whole or any part of the said sum, shall be paid by instalments or otherwise out of any pay or other public money payable to the debtor, and the amount named in the direction, not exceeding one-half of such pay and public money, shall, while the debtor is in India, be stopped and paid in conformity with the direction.

In regard to award of execution generally, a civil court or court of small causes shall proceed in accordance with the rules of procedure of such court in India.

Legal Penalties in matters respecting Forces.

145. Any person who falsely confesses himself to be a deserter from Her Majesty's regular forces shall on summary conviction be sentenced to be imprisoned, with or without hard labour, for any period not exceeding three months.

Punishment for pretending to be a deserter.

Punishment for inducing soldiers to desert.

146. Any person who in the United Kingdom or elsewhere by any means whatsoever—

(1) Procures or persuades any soldier to desert, or attempts to procure or persuade any soldier to desert; or

(2) Knowing that a soldier is about to desert aids or assists him in deserting; or

(3) Knowing any soldier to be a deserter, conceals such soldier, or aids or assists him in concealing himself, or aids or assists in his rescue,

shall be liable on summary conviction to be imprisoned, with or without hard labour, for a term not exceeding six months.

Apprehension of deserters.

147. With respect to deserters the following provisions shall have effect:—

(1) Upon reasonable suspicion that a person is a deserter, it shall be lawful for any constable, or if no constable can be immediately met with, then for any officer or soldier or other person, to apprehend such suspected person, and forthwith to bring him before a court of summary jurisdiction:

(2) Where a person is brought before a court of summary jurisdiction charged with being a deserter under this Act, such court may deal with the case in like manner as if such person were brought before the court charged with an indictable offence, or in Scotland an offence:

(3) The court, if satisfied either by evidence on oath or by the confession of such person that he is a deserter, shall forthwith, as it may seem to the court most expedient with regard to his safe custody, cause him either to be delivered into military custody in such manner as the court may deem most expedient, or, until he can be so delivered, to be committed to some prison, police-station, or other place legally provided for the confinement of persons in custody, for such reasonable time as appears to the court reasonably necessary for the purpose of delivering him into military custody:

(4) Where the person confessed himself to be a deserter, and evidence of the truth or falsehood of such confession is not then forthcoming, the court shall remand such person for the purpose of obtaining information as to the truth or falsehood of the said confession, and for that purpose the court shall transmit, if sitting in the United Kingdom, to a Secretary of State, and if in India, to the general or other officer commanding the forces in the military district or station where the court sits, and if in a colony, to the general or other officer commanding the forces in that colony, a return (in this Act referred to as a descriptive return) containing such particulars and being in such form as is specified in the Fifth Schedule to this Act, or as may be from time to time directed by a Secretary of State:

(5) The court may from time to time remand the said person for a period not exceeding eight days in each instance, and not exceeding in the whole such period as appears to the court reasonably necessary for the purpose of obtaining the said information:

(6) Where the court cause a person either to be delivered into military custody or to be committed as a deserter, the court shall send, if in the United Kingdom, to a Secretary of State, and if in India or a colony, to the general or other officer commanding as aforesaid, a descriptive return in relation to such deserter, for which the clerk of the court shall be entitled to a fee of two shillings:

(7) A Secretary of State shall direct payment of the said fee.

149. (1.) Every person who—

Penalty on purchasing from soldiers regimental necessaries, equipments, stores, &c.

(a) Buys, exchanges, takes in pawn, detains, or receives from a soldier, or any person acting on his behalf, on any pretence whatsoever, or

(b) Solicits or entices any soldier to sell, exchange, pawn, or give away, or

(c) Assists or acts for a soldier in selling, exchanging, pawning, or making away with,

any of the property following: namely, any arms, ammunition, equipments, instruments, regimental necessaries, or clothing, or any military decorations of an officer or soldier, or any furniture, bedding, blankets, sheets, utensils, and stores in regimental charge, or any provisions or forage issued for the use of an officer or soldier, or his horse, or of any horse employed in Her Majesty's service, shall, unless he proves either that he acted in ignorance of the same being such property as aforesaid, or of the person with whom he dealt being or acting for a soldier, or that the same was sold by order of a Secretary of State or some competent military authority, be liable on summary conviction, in the case of the first offence, to a fine not exceeding twenty pounds, together with treble the value of any property of which such offender has become possessed by means of his offence; and in the case of a second offence, to a fine not exceeding twenty pounds, together with treble the value of any property of which such offender has become possessed by means of his offence, but not less than five pounds, or to imprisonment, with or without hard labour, for a term not exceeding six months.

(2.) Where any such property as above in this section mentioned is found in the possession or keeping of any person, such person may be taken or summoned before a court of summary jurisdiction, and if such court have reasonable ground to believe that the property so found was stolen, or was bought, exchanged, taken in pawn, obtained, or received in contravention of this section, then if such person does not satisfy the court that he came by the property so found lawfully and without any contravention of this Act, he shall be liable on summary conviction to a penalty not exceeding five pounds.

(3.) A person charged with an offence against this section, and the wife or husband of such person, may, if he or she think fit, be sworn and examined as an ordinary witness in the case.

(4.) A person found committing an offence against this section may be apprehended without warrant, and taken, together with the property which is the subject of the offence, before a court of summary jurisdiction; and any person to whom any such property as above-mentioned is offered to be sold, pawned, or delivered, who has reasonable cause to suppose that the same is offered in contravention of this section, may, and, if he has the power, shall, apprehend the person offering such property, and forthwith take him, together with such property, before a court of summary jurisdiction.

(5.) A court of summary jurisdiction, if satisfied on oath that there is reasonable cause to suspect that any person has in this possession, or on his premises, any property on or with respect to which any offence in this section mentioned has been committed, may grant a warrant to search for such property, as in the case of stolen goods; and any property found on such search shall be seized by the officer charged with the execution of such warrant, who shall bring the person in whose possession the same is found before some court of summary jurisdiction, to be dealt with according to law.

(6.) For the purposes of this section property shall be deemed to be in the possession or keeping of a person if he knowingly has it in the actual possession or keeping of any other person, or in any house, building, lodging, apartment, field, or place, open or inclosed, whether occupied by himself or not, and whether the same is so had for his own use or benefit, or for the use or benefit of another.

(7.) Articles which are public stores within the meaning of the Public Stores Act, 1875, and are not included in the foregoing description, shall not be deemed to be stores issued as regimental necessaries or otherwise within the meaning of section thirteen of that Act.

(8.) It shall be lawful for the Governor-General of India or for the legislature of any colony, on the recommendation of the governor thereof, but not otherwise, by any law or ordinance to reduce a minimum fine under this section to such amount as may to such Governor-General or legislature appear to be better adapted to the pecuniary means of the inhabitants.

* * * * *

155. (1.) If a person sentenced by a court-martial in pursuance of this Act to punishment for an offence is afterwards tried by a civil court for the same offence, that court shall, in awarding punishment, have regard to the military punishment he may have already undergone.

(2.) Save as aforesaid, nothing in this Act shall exempt an officer or soldier from being proceeded against by the ordinary course of law, when accused or convicted of any offence, except such an offence as is declared not to be a crime for the purpose of the provisions of this Act relating to taking a soldier out of Her Majesty's service.

(3.) If an officer—

(a) Neglects or refuses on application to deliver over to the civil magistrate any officer or soldier under his command, who is so accused or convicted as aforesaid, or

(b) Wilfully obstructs or neglects or refuses to assist constables or other ministers of justice in apprehending any such officer or soldier, such commanding officer shall, on conviction in any of Her Majesty's superior courts in the United Kingdom, or in a supreme court in India, be guilty of a misdemeanor.

(4.) A certificate of a conviction of an officer under this section, with the judgment of the court thereon in such form as may be directed by a Secretary of State, shall be transmitted to such Secretary of State.

(5.) Any offence committed by any such commanding officer out of the United Kingdom shall for the purpose of the apprehension, trial, and punishment of the offender be deemed to have been committed within the jurisdiction of Her Majesty's High Court of Justice in England; and such court shall have jurisdiction as if the place where the offence was committed or the offender may for the time being be were in England.

(6.) Where a person subject to military law has been acquitted or convicted of an offence by a competent civil court, he shall not be liable to be tried in respect of that offence under this Act.

Evidence.

156. The following enactments shall be made with respect to evidence in proceedings under this Act, whether before a civil court or a court-martial; that is to say,—

Regulations as to evidence.

(a) The attestation paper purporting to be signed by a person as his being attested as a soldier, or the declaration purporting to be made by any person upon his re-engagement

in any of Her Majesty's regular forces, or upon any enrolment in any branch of Her Majesty's service, shall be evidence of such person having given the answers to questions which he is therein represented as having given :

The enlistment of a person in Her Majesty's service may be proved by the production of a copy of his attestation paper purporting to be certified to be a true copy by the officer having the custody of the attestation paper without proof of the handwriting of such officer, or of his having the custody of the paper :

(b) A letter respecting the service of any person in or the discharge of any person from any portion of Her Majesty's forces, or respecting a person not having served in or belonged to any portion of Her Majesty's forces, if purporting to be signed by or on behalf of a Secretary of State, or of the Commissioners of the Admiralty, or by the commanding officer of any portion of Her Majesty's forces, or of any of Her Majesty's ships, to which such person appears to have belonged, or alleges that he belongs or had belonged, shall be evidence of the facts stated in such letter :

(c) Copies purporting to be printed by a Government printer of Queen's regulations, of royal warrants, of army circulars, and of rules made by Her Majesty, or a Secretary of State, in pursuance of this Act, shall be evidence of such regulations, royal warrants, army circulars, and rules :

(d) An army list purporting to be published by authority, and either be printed by a Government printer or to be issued, if in the United Kingdom, by Her Majesty's Stationery Office, and if in India by some office under the Governor-General of India or the Governor of any presidency in India, shall be evidence of the status and rank of the officers therein mentioned, and of any appointment held by such officers, and of the corps or arm or branch of the service to which such officers belong :

(e) Any warrants or orders made in pursuance of this Act by any military authority shall be deemed to be evidence of the matters and things therein directed to be stated by or in any pursuance of this Act, and any copies of such warrants or orders purporting to be certified to be true copies by the officer therein alleged to be authorized by a Secretary of State or Commander-in-Chief to certify the same shall be admissible in evidence :

(f) Evidence of the delivery at the then last registered place of abode of a man enrolled in the army reserve of a notice issued by the proper officer under the direction of a Secretary of State, or of the delivery of a letter containing such notice addressed to the said place of abode, shall be evidence that such notice was brought to the knowledge of such man :

(g) A record made in one of the regimental books in pursuance of the Queen's regulations, purporting to be signed by the commanding officer or by the officer required by the said regulations to make such record, shall be evidence of the facts stated by such record :

(h) A copy of any record in one of the said regimental books purporting to be certified to be a true copy by the officer having the custody of such book shall be evidence of such record :

(i) A descriptive return within the meaning of this Act, purporting to be signed by a justice of the peace, shall be evidence of the matters therein stated.

For the purposes of this Act, the expression "Government printer" means any printer to Her Majesty, and any printer purporting to be the printer authorized to print the Acts of State or other public documents of the Government of India, or any presidency in India, or otherwise to be the Government printer of India or such presidency.

157. Whenever any person subject to military law has been tried by any civil court the clerk of such court, or his deputy, or other officer having the custody of the records of such court, shall, if required by the commanding officer of such person, or by any other officer transmit to him a certificate setting forth the offence for which the person was tried, together with the judgment of the court thereon if he was convicted, and the acquittal if he was acquitted, and shall be allowed for such certificate a fee of three shillings. Any such certificate shall be sufficient evidence of the conviction and sentence or of the acquittal of the prisoner, as the case may be.

158. The original proceedings of a court-martial, purporting to be signed by the president thereof, and being in the custody of the Judge Advocate-General, or of the officer having the lawful custody thereof, shall be deemed to be of such a public nature as to be admissible in evidence on their mere production from such custody ; and any copy thereof purporting to be certified by such Judge Advocate-General or his deputy authorized in that behalf, or by the officer having such custody as aforesaid, to be a true copy of such proceedings or of any part thereof, shall be admissible in evidence without proof of the signature of such Judge Advocate, deputy, or officer ; and a Secretary of State, upon production of any such certified copy, may, by warrant under his hand, authorize the offender appearing therefrom to have been convicted and sentenced to any punishment, to be imprisoned and otherwise dealt with in accordance with the sentence in the certified copy mentioned.

161. All offences under this Act which may be prosecuted, and all fines under this Act which may be recovered on summary conviction, and all proceedings under this Act which may be taken before a court of summary jurisdiction, may be prosecuted and recovered and

Summary proceedings in cases of Man, Channel Islands, India, and the colonies.

taken in the Isle of Man, Channel Islands, India, and any colony in such courts and in such manner as may be from time to time provided therein by law, or if no express provision is made, then in and before the courts and in the manner in which the like offences and fines may be prosecuted and recovered and proceedings taken therein by law, or as near thereto as circumstances admit.

162. It shall be lawful for the Governor-General of India, and for the legislature of any colony, to provide by law for reducing any fine directed by this Act to be recovered on summary conviction to such amount as may appear to the Governor-General or legislature to be better adapted to the pecuniary means of the inhabitants, and also to declare the amount of the local currency which is to be deemed for the purposes of this Act to be equivalent to any sum of British currency mentioned in this Act.

163. Any action, prosecution, or proceeding against any person for any act done in pursuance or execution or intended execution of this Act, or in respect of any alleged neglect or default in the execution of this Act, shall not lie or be instituted unless it is commenced within twelve months next after the act, neglect, or default complained of, or, in case of a continuance of injury or damage, within twelve months next after the ceasing thereof.

In any such action tender of amends before the action was commenced may, in lieu of or in addition to any other plea, be pleaded. If the action was commenced after such tender, or is proceeded with after payment into court of any money in satisfaction of the plaintiff's claim, and the plaintiff does not recover more than the sum tendered or paid, he shall not recover any costs incurred after such tender or payment, and the defendants shall be entitled to costs, to be taxed as between solicitor and client, as from the time of such tender or payment; but this provision shall not affect costs on any injunction in the action.

Every such action, and also every action against a member or minister of a court-martial in respect of a sentence of such court, or of anything done by virtue or in pursuance of such sentence, shall be brought in one of Her Majesty's superior courts in the United Kingdom (which courts shall have jurisdiction to try the same wherever the matter complained of occurred), or in a supreme court in India, or in any colonial court of superior jurisdiction, provided the matter complained of occurred within the jurisdiction of such colonial court and in no other court whatsoever.

PART V.

APPLICATION OF MILITARY LAW, SAVING PROVISIONS, AND DEFINITIONS.

Persons subject to Military Law.

168. The persons in this section mentioned are persons subject to military law as officers, and this Act shall apply accordingly to all the persons so specified; that is to say,—

(1) Officers of the regular forces on full pay, and, if not otherwise subject to military law, officers of the staff of the army, and officers employed on military service under the orders of an officer of the regular forces:

(2) Officers who are members of the permanent staffs of any of the auxiliary forces, and are not otherwise subject to military law:

(3) Officers of the militia other than members of the permanent staff:

(4) All such persons not otherwise subject to military law as may be serving in the position of officers of any troops or portion of troops raised by order of Her Majesty beyond the limits of the United Kingdom and of India, and serving under the command of an officer of the regular forces:

Provided that nothing in this Act shall affect the application to such persons of any Act passed by the legislature of a colony:

(5) Officers of the yeomanry, and officers of the volunteers, whenever in actual command of men who are in pursuance of this Act subject to military law, or when their crops is on actual military service:

(6) Any officer of the yeomanry or volunteers whether in receipt of pay or otherwise, during and in respect of the time when with his own consent he is attached to or doing duty with any body of troops for the time being subject to military law, whether of the regular or auxiliary forces, or, with his own consent, is ordered on duty by the military authorities:

(7) Every person not otherwise subject to military law who under the general or special orders of a Secretary of State or of the Governor-General of India accompanies in an official capacity any of Her Majesty's troops on active service in any place beyond the seas, subject to this qualification, that where such person is a native of India within the meaning of Indian military law, he shall be subject to that law as an officer:

(8) Any person, not otherwise subject to military law, accompanying a force on active service, who shall hold from the commanding officer of such force a pass revocable at the pleasure of such commanding officer entitling such person to be treated on the footing of an officer.

169. The persons in this section mentioned are persons subject to military law as soldiers, and this Act shall apply accordingly to all the persons so specified; that is to say,—

(1) All soldiers of the regular forces :
 (2) All non-commissioned officers and men of the permanent staff of any of the auxiliary forces who are not otherwise subject to military law :

(3) All non-commissioned officers and men serving in a force raised by order of Her Majesty beyond the limits of the United Kingdom and of India, and serving under the command of an officer of the regular forces :

Provided that nothing in this Act shall affect the application to such non-commissioned officers and men of any Act passed by the legislature of a colony :

(4) All pensioners not otherwise subject to military law who are employed in military service under the orders of an officer of the regular forces :

(5) All non-commissioned officers and men belonging to the army reserve force or the militia reserve force,—

(a) When called out for training and exercise ; and

(b) When kept on duty having volunteered their services ; and

(c) When called out for duty in aid of the civil power ; and

(d) When called out on permanent service under Her Majesty's proclamation :

(6) All non-commissioned officers and men in the militia,—

(a) During their preliminary training ; and

(b) When they or their crops are being trained or exercised, either alone or with any portion of the regular forces or otherwise ; and

(c) When they are attached to or otherwise acting as part of or with any regular forces ; and

(d) When their corps is embodied :

(7) All non-commissioned officers and men belonging to the yeomanry force,—

(a) When they or their corps are being trained or exercised, either alone or with any portion of regular forces or with any portion of the militia when subject to military law ; and

(b) When they are attached to or otherwise acting as part of or with any regular forces ; and

(c) When their crops is on actual military service :

(d) When serving in aid of the civil power :

(8) All non-commissioned officers and men belonging to the volunteer forces,—

(a) When they are being trained or exercised with any portion of the regular forces or with any portion of the militia when subject to military law ; and

(b) When they are attached to or otherwise acting as part of or with any regular forces ; and

(c) When their crops is on actual military service :

Provided that it shall be the duty of the commanding officer of any volunteer force, except when on actual military service, to obtain the consent of every non-commissioned officer and man belonging to such force before such non-commissioned officer or man shall enter on any service in which he shall be subject to military law.

(9) All persons who are employed by or are in the service of any of Her Majesty's troops when employed on active service beyond the seas, and who are not under the former provisions of this Act subject to military law ; and

(10) All persons not otherwise subject to military law who are followers of or accompany Her Majesty's troops, or any portion thereof, when employed on active service beyond the seas ; subject to this qualification, that where any such persons are employed by or are followers of or accompany any portion of Her Majesty's forces consisting partly of Her Majesty's Indian forces subject to Indian military law, and such persons are natives of India within the meaning of Indian military law, they shall be subject to that law.

* * * * *

172. In the application of this Act to Her Majesty's Indian forces, the following

Modification of Act with respect to Her Majesty's Indian forces. modifications shall be made :—

(1.) Nothing in this Act shall prejudice or affect the Indian military law respecting officers or soldiers or followers in Her Majesty's Indian forces, being natives of India within the meaning of such law ; and on the trial of all offences committed by any such native officer, soldier, or follower, reference shall be had to the Indian military law for such native officers, soldiers, or followers, and to the established usages of the service, but courts-martial for such trials may be convened in pursuance of this Act.

For the purposes of this Act the expression "Indian military law" means the Articles of War or other matters made, enacted, or in force, or which may hereafter be made, enacted, or in force under the authority of the Government of India ; and such articles or other matters shall extend to such native officers, soldiers, and followers wherever they are serving.

(2.) The Governor of any presidency in India may suspend the proceedings of any court-martial held in India on an officer or soldier belonging to Her Majesty's Indian forces within such presidency.

(3.) An officer belonging to Her Majesty's Indian forces who thinks himself wronged by his commanding officer, and on due application made to him does not receive the redress to which he may consider himself entitled, may complain to the commander-in-chief in the presidency to which such officer belongs, who shall cause his complaint to be enquired into,

and thereupon report to the governor of such presidency in order to receive the further directions of that governor.

(4.) A court-martial may sentence an officer of the Indian staff corps to forfeit all or any part of his army or staff service, or all or any part of both.

(5.) The governor of any of the presidencies in India may reduce any warrant officer not holding an honorary commission who is serving in or belonging to such presidency to a lower grade of warrant rank, or may remand any such warrant officer to regimental duty in the rank held by him immediately previous to his appointment to be a warrant officer.

(6.) The provisions of this Act relating to warrant officers not holding honorary commissions shall apply to hospital apprentices in India although not appointed by warrant.

(7.) Part Two of this Act shall not apply to Her Majesty's Indian forces, but persons may be enlisted and attested in India for medical service or for other special service in Her Majesty's Indian forces for such periods, by such persons, and in such manner as may be from time to time authorized by the Governor-General of India.

In this Act, so far as regards India, any reference to an indictable offence, or an offence punishable on indictment, shall be deemed to refer to an offence punishable with rigorous imprisonment.

Lieutenant-General Sir Donald Martin Stewart, Knight Commander of the Most Hon'ble Order of the Bath ;

Lieutenant-General Sir Samuel James Browne, Knight Commander of the Most Hon'ble Order of the Bath, Knight Commander of the Most Exalted Order of the Star of India, v.c. ;

Lieutenant-General Sir Frederick Francis Maude, Knight Commander of the Most Hon'ble Order of the Bath, v.c. ;

Major-General Sir Michael Anthony Shrapnell Biddulph, Knight Commander of the Most Hon'ble Order of the Bath ;

Major-General Sir Frederick Sleigh Roberts, Knight Commander of the Most Hon'ble Order of the Bath, v.c., and the other officers of the Army, both European and Native,

for the intrepidity, skill, and perseverance displayed by them in the military operations in Afghanistan, and for their indefatigable zeal and exertions throughout the late campaign.

Resolved—

That this House doth highly approve and acknowledge the valour and perseverance displayed by the non-commissioned officers and private soldiers, both European and Native, employed in Afghanistan, and that the same be signified to them by the commanders of the several corps, who are desired to thank them for their gallant behaviour.

Ordered—

That the said Resolutions be transmitted by Mr. Speaker to the Viceroy and Governor-General of India; and that His Lordship be requested to communicate the same to the several officers referred to therein.

T. ERSKINE MAY, *Clerk,*
House of Commons.

TRANSFER OF OFFICER.

No. 1094.—The services of 2nd Class Apothecary G. H. Campbell, Subordinate Medical Department, are placed at the disposal of the Government of Bengal, with effect from the 1st November 1879.

The following orders, issued by the Government of India in the Public Works Department, are republished for general information :—

NOTIFICATIONS.—CIVIL WORKS.

TELEGRAPH.

Simla, the 29th October 1879.

No. 431.—The following rules for Foreign Messages based on the London International Telegraph Convention of 1879, and approved by the Governor-General in Council, will come into force on the 1st April 1880, and are hereby published for general information :—

GENERAL.

Rule 1.—Messages to Europe, Asia, or Africa are accepted subject to the regulations of the International Telegraph Convention for the time being in force. Messages to America are accepted subject to the same conditions as far as regards their transit to the European termini of the cables.

Foreign messages are accepted for transmission under these rules at all such Telegraph stations of the following Railway Companies at which *no Government Telegraph Office exists* :—

Great Indian Peninsula, East Indian, South Indian, Eastern Bengal, and the following stations of the Madras Railway :—

Arconum, Cuddapa, Gooty, Raichur, Jolarapet, Palghat, Beypore, Coimbatore, Salem.

Rule 2.—The Government of India accepts no responsibility whatsoever in respect of Foreign telegrams.

ACCEPTANCE OF MESSAGES.

Rule 3—Foreign telegrams are classified as follows :—

(1st).—*State messages*; those which emanate from the Chief of the State, Ministers, Commanders-in-Chief of Land or Sea forces, and Diplomatic or Consular Agents of the Contracting Governments; also the replies to these messages.

Messages from Consular Agents who are engaged in commerce are not considered as State messages, except when they are addressed to a Government official and relate to the Government service.

N.B.—The new rules affecting Codes are not to be enforced till July.

(2nd).—*Service messages*; those which emanate from the Telegraph Departments of the Contracting States, and which relate either to the service of the International Telegraphs, or to objects of public interest determined upon by common accord by the said Departments.

(3rd).—*Private messages*

Rule 4.—Messages may be written in ordinary language, in code language, or in figure cipher.

Rule 5.—Messages in ordinary language must offer an intelligible sense throughout in one of the languages admitted for international telegraphic correspondence by the States which are parties to the Convention, or in Latin.

Rule 6.—Messages in code language (*i.e.*, those not offering an intelligible sense throughout) must consist of recognized words of the German, English, Spanish, French, Italian, Dutch, Portuguese, and Latin languages. Proper names of every description are inadmissible in a code sense.

Rule 7.—Cipher messages may be either entirely in cipher, or partly in cipher and partly in ordinary language; in the latter case, the cipher portions (which must be composed exclusively of Arabic figures*) must be placed between parentheses.

Rule 8.—State and service messages may be sent in ordinary language or in code or cipher without any reservation.

* Groups of letters, not forming words, cannot be sent.

Rule 9.—Messages must be legibly written in characters which have their equivalent in the official code of telegraph signals, and which are in use in the country where the message is presented.

The body of the message must be preceded by the *address*, which can be written in code or abbreviated form; but in such case the delivery of the telegram is contingent on a previous arrangement between the addressee and the local Telegraph Office.

The signature can similarly be in code or abbreviated form, or may be omitted. If inserted, it should be placed after the body of the message. If not inserted, the last word of the message replaces it.

The sender of a private message can always be called upon to prove that the signature attached to it is genuine.

Every interlineation, reference, crasure, or addition of words must be authenticated by the sender of the message, or his representative.

Rule 10.—The address must contain all the information necessary to insure the delivery of the message at its destination. Such information should be written either in French or in the language of the country to which the message is addressed.

The address of private messages should always be such that delivery can be effected without difficulty or the necessity of making enquiries.

For large towns it should comprise the name of the street and the number of the house, or, in default of these particulars, the profession of the addressee, or some such information.

For small towns the name of the addressee ought, if possible, to be accompanied by information sufficient to guide the office of delivery in case of any alteration in the addressee's name.

It is essential that the name of the country of destination be mentioned whenever any doubt on the subject is possible.

Messages, the addresses of which do not contain these particulars, are nevertheless transmitted, but *in all cases the sender must bear the consequences of insufficiency of address.*

The address of a message to be conveyed beyond the telegraph lines is written as in the following example:—

M. Müller, Johannisthal express (or post) Berlin.

the name of the terminal Telegraph Station being always written last.

The address of a message for a ship at sea should contain, in addition to the ordinary directions, the name or official number of the vessel and its nationality.

Rule 11.—The sender must write immediately *before* the address of his message any instructions he wishes to give relative to its delivery, acknowledgment, collation, prepaid reply, being caused "to follow," &c. Such instructions, if written in abbreviated form, as under, will be counted each as one word:—

Postage prepaid (poste payée)	PP.
Express charges prepaid (express payée)	XP.
Acknowledgment prepaid (accuser réception)	CR.
Collation prepaid (telegramme collationné)	TC.
Reply prepaid (réponse payée)	RP.
To follow (faire suivre)	FS.

When such instructions are given in unabbreviated form, they should be written in French.

Rule 12.—The sender can prescribe the route he wishes his message to follow by *writing* the same on the message form in the place provided for the purpose. The Administrations are not bound to conform to *printed* instructions regarding the route.

When the sender prescribes the route to be followed, his wishes are complied with, unless the route indicated be interrupted, in which case no objection can be raised to the selection of an alternative route.

When no route is specified, the message is sent by the least expensive one.

Rule 13.—Any sender can, on proving his identity, stop, if in time, the transmission of his message.

When the sender withdraws or stops his message before transmission has been commenced, the charges are returned to him after deducting a fixed sum of 4 annas, the fee of the original sending station.

If the message has been already transmitted, the sender's only means of cancelling it is by a *paid* (private) telegram addressed to the terminal station.

The sender must pay also for a reply, if he desires to be informed by telegraph in what manner his request has been acted upon.

A station which receives a message, requesting the suppression of another message previously received, informs the original sending station by post in what manner the request has been acted upon, unless the sender has prepaid a reply by telegraph.

Delivery of Messages.

Rule 14.—Messages may be addressed either to the place of residence of the addressee or *poste restante* (to be kept at the Post Office till called for), or *bureau restant* (to be kept at the Telegraph Office till called for).

Messages which have to be sent to their destination by post, or which are addressed *poste restante*, are immediately sent by the office of destination to the Post Office and treated as registered letters, without charge either to sender or addressee. (See Rule 35.)

Rule 15.—A message taken to the place of residence of the addressee may be delivered either to the addressee, to the adult members of his family, to his employés, lodgers, or guests, or to the porter of the hotel or house in which he resides, unless the addressee has designated in writing a special person to receive it, or the sender has instructed that the message be delivered to the addressee only. This last demand, if made, should be mentioned in the address of the message, and is written on the envelope by the station of delivery.

When a message is addressed *bureau restant*, it is delivered only to the addressee himself or to a person duly appointed by him.

Rule 16.—When the message cannot be delivered, the terminal station intimates the fact by a *Service* telegram to the station of origin, which verifies the correctness of the address, and immediately rectifies any error. If the address has been correctly transmitted, the sender is informed of the non-delivery, but he can only supplement the address by a fresh private message. (See Rule 33.)

Rule 17.—If, in consequence of inaccuracy or insufficiency of address, or the absence or refusal of the addressee, the expenses of a special messenger are not paid on arrival, the costs incurred are specified in the advice of non-delivery or refusal, and ARE RECOVERABLE FROM THE SENDER.

CONTROL.

Rule 18.—The Government of India reserves to itself the right of stopping any private message which may appear dangerous to the security of the State, or which may be contrary to the laws of the country, to public order, or decency; and any intermediate administration may stop the transmission of such a message on condition of immediately advising the Administration to which the original sending station belongs.

This control is exercised by the terminal or intermediate offices subject to recourse to the central Administration, which decides without appeal.

RECORDS.

Rule 19.—The originals and copies of messages, and the slips containing the signals or similar papers, are preserved for a period of 18 months after date, with all necessary precautions to ensure their secrecy.

Rule 20.—The originals or copies of messages can only be communicated to the sender or to the addressee after proving his identity, or to the authorized attorney of either.

The sender and addressee, or the authorized attorney of either, have a right to be furnished with certified true copies of the messages sent or received by them. This right ceases after the expiration of 18 months from the date of the message, and is contingent on the exact date and description of the message to which the request refers being mentioned.

For every such copy, a fee of 4 annas per 100 words, or fraction of 100 words, is payable.

SPECIAL MESSAGES.

Rule 21.—The sender of a message can prepay the reply which he requests his correspondent to send. The amount deposited for the reply must not exceed the cost of an ordinary telegram of 30 words by the same route.

In this case he must write before the address of the message and pay for the instruction "*Réponse payée*, or R. P." Should the number of words for which a reply is prepaid be greater or less than ten, the sender must add to the instruction the number of words, thus—

"R.P. 15" (two words), or "*Réponse payée 15*" (three words).

When a reply is prepaid the station of delivery either pays to the addressee the amount deposited for the reply, in money, or in stamps, or furnishes him with an order, current for six weeks only, authorizing the free despatch of a message to any destination up to the amount prepaid.

In India the amount is always paid to the addressee in cash or telegraph stamps, and the reply, when tendered, is considered and treated as any other message.

If the original message cannot be delivered within 8 days, or if the receiver formally refuses the money, stamps, or order for the reply, the station of delivery informs the sender of it by a telegram, which indicates the cause of non-delivery and *takes the place of the reply*.

Rule 22.—The sender of any message can, by writing the word "*Collationné*" (or "T.C.") immediately before the address, ensure its being repeated. In this case the different officers concerned in its transmission collate it integrally (i.e., it is repeated back from office to office to ensure its correctness).

The charge for collation is equal to half the charge for the message.

Rule 23.—The sender of a message can, by adding the words "*accuser réception*," or "C.R.," immediately before the address, ensure that a notice shall be telegraphed to him of the hour of its delivery.

If the message cannot be delivered, the terminal station intimates the fact and the reason by a *Service* telegram. (See Rule 16.) The return message paid for by the sender is afterwards transmitted, either on delivery of the telegram, should that be found possible, or at the expiration of 24 hours in the contrary event.

The charge for an "acknowledgment" is that for a simple message of 10 words by the same route as that followed by the original message.

Rule 24.—The sender of a message can, by writing the words "*Faire suivre*," or "F.S.," immediately before the address, ensure its following the addressee to different Addressee, if necessary, *within the limits of Europe*.

When a message bears the notice "*Faire suivre*," the terminal station, after presenting it at the address given, transmits it immediately, if requisite, to any new address supplied at the residence of the addressee. If no new address is supplied, the message is kept in the office and its non-delivery reported. (See Rule 16.) If the message is re-transmitted, and the second station cannot find the addressee, the message is retained by that station.

If the notice "*Faire suivre*" is accompanied by successive addresses, the message is successively transmitted to each, if necessary, and the last Office treats it in accordance with the regulations of the preceding paragraph.

The charge for a message "*Faire suivre*" to be levied from the sender is simply the charge to the first terminal station, all the addresses entering into the number of words charged for. The supplementary charge is recovered from the addressee.

Rule 25.—Any person, by explaining the necessity, can request that messages which may arrive at a Telegraph Office to be delivered to him, within the radius of delivery of that office, be re-transmitted, in conformity with the conditions of the preceding paragraphs, to the address which he furnishes; this request must be made in writing.

Rule 26.—Telegraphic messages may be addressed—

I—to several persons in the same place;

II—to the same person at several residences in the same place.

In the first case, each copy of the message bears only its own address, unless the sender requests the contrary, in which case the request must be entered after the address, and will be charged for.

A message addressed to several persons in the same locality, or to one person at several places of residence in the same locality (whether with or without transmission by post), is charged for as a single message; but a copying fee of 4 annas per 100 words, *plus* 4 annas for the excess, is charged for each destination after the first.

Rule 27.—In applying the preceding Rules, the facilities given to the public for prepayment of replies or acknowledgments, collation of messages, messages to follow, multiple messages, or messages for transmission beyond the limits of the Telegraph lines, can be combined, subject to the conditions of Rule 11.

APPLICATION OF CHARGES.

Rule 28.—The minimum charge is for a single word not exceeding ten letters, or for a group of figures not exceeding three.

Rule 29.—All that the sender writes in his message to be transmitted is included in reckoning the cost, except as stated in paragraph 7 of Rule 30 and paragraph 2 of Rule 34.

Words, numbers, or signs added by the Office in the interest of the service are not charged for.

Rule 30.—In *ordinary* and *code* messages the maximum length of a word is fixed at ten letters: every ten letters (or fraction of ten letters) in excess is counted as a word.

Words joined by a hyphen are counted as so many separate words.

Words separated by an apostrophe are counted as so many separate words.

Combinations of words contrary to the usage of the language to which they belong are not admitted, but proper names of towns and persons, names of places, squares, streets, &c., titles, Christian names, particles, and qualifications, as well as numbers written in words, are counted for the number of words (not exceeding ten letters) employed by the sender to express them. Abbreviations and misspelt words are inadmissible.

Numbers expressed in figures are counted at the rate of three figures to a word, *plus* one word for any excess.

Every isolated character, whether letter or figure, is counted as a word. The same applies to an underline.

Signs of punctuation, hyphens, apostrophes, inverted commas, parentheses, fresh paragraphs, are not counted or signalled, but decimal points, commas, and bars of division *used with figures* are each counted as a figure and signalled.

Letters added to figures to form ordinal numbers are each counted as a figure.

444,55 (6 " ")	... 2 "	Emvich (letter cipher)	... Inadmiss-
444,55 (2 groups)	... 2 "	Tmrlz (" ")	... sible.

Rule 31.—In messages which contain cipher, the words in ordinary language or in code are counted according to paragraphs 1 to 4, and groups of figures according to paragraphs 5 to 8 of the preceding rule.

Words in a language not admissible under Rules 5 and 6 *cannot be sent*.

Rule 32.—The name of the original sending station, and the date, hour, and minute (Madras time) of deposit of the messages, are added *free*, and entered in the copy of the message delivered to the addressee.

Rule 33.—Every rectifying or completing message, and generally every communication made to a Telegraph Office relative to a message already transmitted, or in course of transmission, is classed as a private telegram and charged for, but if such communication shall have been necessitated by an error of the Service, the cost of a demand for repetition and of the repetition itself will be refunded on application to the Check Office, Government Telegraph Department, Calcutta.

Rule 34.—The charge on a message is calculated according to the least expensive route from the starting point of the message to its destination, unless that route is interrupted or the sender selects another.

The indication of the route is transmitted in the *Official Instructions*, and is not charged for.

SPECIAL CHARGES.

Rule 35.—Every message which has to be transmitted to its destination by post, or deposited *poste restante*, is posted as a *registered* letter by the Office of delivery, without extra charge either to the sender or addressee, except in the two following cases:—

(a).—Messages which have to be transmitted to destination by *Sea* post, either in consequence of interruption to a sub-marine line, or by reason of being addressed to a country not connected with the International Telegraph system, are subject to a charge for postage of 12 annas, payable by the *sender*†

(b).—Messages transmitted to an Office situated near a frontier, to be delivered by post in the neighbouring territory, are posted as unpaid letters, and the postage is payable by the *addressee*.

PAYMENT.

Rule 36.—The charges on messages are prepaid by the sender. The following are, however, exceptions, and are recovered from the receiver:—

1st.—The charge for messages sent from sea by semaphore.

2nd.—The supplementary charge for onward transmission of messages "*To follow*" (*Faire suivre*).

3rd.—The expense of transport beyond the telegraph lines by quicker means than the post in States where such Service is organised.

In every case where charges are to be made on arrival, the message is not delivered till payment of the amount due is received.

Rule 37.—Insufficient charges received in error, or charges not recovered through refusal of the addressee to defray them in full, or through his not being found at the address given, **MUST BE MADE GOOD BY THE SENDER.**

Excess charges made in error are returned, but the value of telegraph stamps attached to a message in excess of the correct charge by the sender, can only be recovered by application to the Check Office. (See Rule 40.)

FREE MESSAGES.

Rule 38.—Messages relating to the traffic requirements of the International Telegraph Service are transmitted free.

REFUNDS.

Rule 39.—The whole cost of any message which has suffered a serious delay in transmission, which has not been delivered through the fault of the Telegraph Service, is refunded to the sender by the Administration which received it.

* "ch" counted as one letter.

† On messages from India addressed to places *out of India*, and which are to be posted from a seaport to destination, the sender also prepays a postage and registration fee of 12 annas.

In case of delay, the claim for re-imbursement is absolute if the message did not reach its destination sooner than it would have done by post, or if the delay exceeds six days.

No refund is given for *errors* in *uncollated* messages, but the whole cost of a *collated* message is returned to the sender, if, in consequence of errors in transmission, it has manifestly *failed to fulfil its object*.

In the case of interruption on a sub-marine line, the sender of any message has a right to a refund of the portion of the charge belonging to the distance not traversed, deduction being made, if necessary, of the expense incurred in sending the message by any other mode of transport.

These rules do not apply to messages which pass over the lines of a non-adhering administration which would not on its side make similar refunds.

Rule 40.—Every claim for re-imbursement of charges ought to be made to the CHECK OFFICE, GOVERNMENT TELEGRAPH DEPARTMENT, CALCUTTA, and be supported as follows: In case of *non-delivery*, by a written statement from the terminal station or addressee; in case of *mutilation* or *delay*, by the copy actually delivered to the addresser, and by a certificate stating that, in consequence of the errors complained of, the message *failed to fulfil its object*. The *particular errors* which led to this result should also be specially mentioned. A complaint regarding a *received* message may, if the addressee chooses, be addressed to the CHECK OFFICE, which, if possible, disposes of it, otherwise it is returned to be presented at the Office of Origin.

If the sender does not reside in the country where he deposited his message for transmission, he can have his claim forwarded to the original Administration through the medium of another Administration. In this case, if it becomes evident on investigation that the claim is well founded, the latter is deputed to make the refund.

When a claim to refund is admitted to be well founded by the administration in fault, the refund is made to the sender by the CHECK OFFICE.

Complaints are not forwarded when the fault complained of does not give the sender a claim to refund, or has resulted from an omission or irregularity on his part.

Rule 41.—The charges on messages stopped in transit under operation of Rule 18 are returned to the sender.

Rule 42.—The refund rules apply only to the cost of the actual messages lost, delayed, or mutilated, and not to the cost of any further correspondence caused or rendered useless by such loss, delay, or mutilation, except in the case of the exception mentioned in Rule 33.

Rule 43.—Every claim should be made, under penalty of rejection, within *six months* of the date of the message.

CALCUTTA GENERAL POST OFFICE, the 1st July 1879.

TO obviate inconvenience at present felt by people wishing to register letters for the Assam, Darjeeling, and Northern Bengal Mail (which closes at the General Post Office at 12 noon), a change will be made in the hours of registration at the Calcutta Post Office.

No letters will in future be received for insurance or registration between 7 and 8 A.M., as this time is not found suitable to the public; but registration and insurance will commence at 11 A.M., instead of at noon, and continue till the present hour of 5 P.M.

This change will have effect from 1st December 1879.

RESOLUTION ON THE ANNUAL CUSTOMS REPORT OF THE BOARD OF REVENUE FOR 1878-79.

REVENUE DEPARTMENT—MIS. REVENUE.

Calcutta, the 5th November 1879.

RESOLUTION.

Read—

The Annual Customs Report of the Board of Revenue for 1878-79.

IN the Resolution on the reports for 1877-78 the Lieutenant-Governor was constrained to remark that, although the Collector had furnished a complete review of the trading operations of the year, the Board had failed to do more than submit a covering letter, in which no proper review even of the trade of the outports was attempted. Sir Steuart Bayley is glad to acknowledge that the reports of the Board and the Collector for 1878-79, now under consideration, are very full and complete. The Board have so fully reviewed the returns for the different ports under each head that it is unnecessary for the Lieutenant-Governor to place on record any detailed examination of the trade of the year. The following paragraphs will recapitulate briefly the leading statistics. The issue of this resolution has unavoidably been delayed by the necessity of checking the figures supplied by the Board with the trade and navigation returns.

2. The returns of customs revenue naturally show a very considerable falling off. The general dulness of trade, the removal of such special stimulating causes as operated during the Russo-Turkish war, the revision of the tariff, and the reduction in the duty on salt, all tended to cause the receipts for

1878-79 to compare unfavourably with those for previous years. The Board justly remark, however, that in consequence of the various alterations which have taken place in the import and export tariff, the revenue statistics of the different years afford no accurate gauge of their relative commercial activity. The gross amount of import and export duty realized in each of the past five years was :—

	1874-75.	1875-76.	1876-77.	1877-78.	1878-79.
	Rs.	Rs.	Rs.	Rs.	Rs.
Import duty (excluding duty on salt)	89,63,721	86,02,446	80,20,800	96,40,063	76,81,798
Import duty on salt	2,66,05,673	2,44,38,993	2,47,88,004	2,50,09,262	2,21,04,388
Export duty	20,00,533	21,25,374	21,91,723	22,44,339	21,89,826
Total gross duty	3,68,57,977	3,51,67,017	3,49,09,126	3,74,54,264	3,22,76,013

To the difference (Rs. 51,78,252) between the amounts of duty levied in 1877-78 and 1878-79 the reduction in salt contributed Rs. 32,64,874. The modification in the rates of duty on piece-goods caused the greater part of the decrease in the amount of general import duty levied. The decrease under exports was not serious. The amount realized was only a fraction less than that received in 1876-77, and was considerably greater than the collections of 1874-75 and 1875-76. The decrease, such as it was, occurred chiefly under the head of indigo. Turning to the returns for the different ports, the Lieutenant-Governor remarks that, while the net revenue in Calcutta showed a decrease of 14 per cent. on the previous year, there was an increase of 12 per cent. in Chittagong and of no less than 244 per cent. in Cuttack. The gross duty levied at the Cuttack ports amounted to Rs. 55,393, against Rs. 20,634 in 1877-78. In Balasore there was a decrease, but this was the necessary result of an exceptional import of salt in 1877-78. The export trade from this port in 1878-79 showed a satisfactory increase, which will be further noticed below.

3. The gross value of trade of the province during the past five years, exclusive of Government transactions, was :—

	1874-75.	1875-76.	1876-77.	1877-78.	1878-79.
	Rs.	Rs.	Rs.	Rs.	Rs.
IMPORTS { Foreign	20,26,70,825	18,91,77,197	19,31,02,703	24,31,88,148	18,43,21,050
... .. { Coasting	3,41,05,166	2,44,13,201	2,92,79,189	3,75,39,420	3,60,83,198
Total	23,69,75,991	21,28,90,401	22,14,71,992	28,10,27,874	22,03,86,157
EXPORTS { Foreign	22,77,19,339	24,49,30,024	26,69,08,492	31,26,55,236	20,83,00,330
... .. { Coasting	6,78,05,945	6,78,48,310	11,70,89,379	16,73,16,920	6,71,82,440
Total	29,56,15,283	30,27,78,334	38,40,87,871	47,00,02,162	30,56,82,788
Total Trade	53,25,91,274	51,56,69,325	60,55,59,833	75,10,30,036	53,60,67,945

Thus the total value of the trade of the province, exclusive of Government transactions, though, considerably less than in 1877-78, and something less than in 1876-77, shows an excess of seven crores of rupees over 1875-76 and of nearly $5\frac{1}{2}$ crores over 1874-75. The diminution in comparison with 1877-78 was mainly in the coasting trade owing to the cessation of the large demand for grain in Southern India. The value of the foreign export trade was in round numbers $29\frac{3}{4}$ crores, against $22\frac{3}{4}$ in 1874-75, $24\frac{1}{2}$ in 1875-76, and $26\frac{3}{4}$ in 1876-77.

4. One very satisfactory feature in the returns is the steady decrease in the value of stores imported by Government. The figures for the past three years are :—

1876-77.	1877-78.	1878-79.
Rs.	Rs.	Rs.
64,20,772	44,70,790	24,17,960

Of certain articles of course Government must continue to procure supplies from Europe. Among these may be mentioned railway materials. There was an

increase of $1\frac{1}{4}$ lakh in 1878-79 in the value of materials imported for the construction of State Railways. But the year shows a decrease of nearly 8 lakhs in the imports of boots and shoes, of $4\frac{3}{4}$ lakhs under malt liquors, of the same amount under woollen piece-goods, and of $1\frac{1}{4}$ lakh under metals. It is the desire of Government that the requirements of the public service should, as far as possible, be supplied in this country, and to the furtherance of this policy the most earnest endeavours are being addressed.

5. Compared with those of 1877-78, the foreign imports of 1878-79 show a decrease of Rs. 5,91,98,380. There was an increase in imports of free merchandize of Rs. 1,09,26,623, or more than 100 per cent. Under the head of dutiable merchandize there was a decrease of Rs. 3,87,01,449, and under the head of treasure a decrease of Rs. 3,14,20,554. The increase in free imports is of course the result of the exceptions granted in March 1878. The general decline in imports of merchandize is observable chiefly under the heads of cotton and woollen goods, coal, liquors, copper, and tin. The falling off in these was to some extent counteracted by increased activity in salt, railway materials, betelnuts, and iron. Compared with 1876-77, however, the imports of merchandize show only a very trifling decrease. The falling off in the imports of treasure is explained by the quite exceptional nature of the operations of 1877-78. In that year the cessation of the Secretary of State's drafts altered materially the course of exchange with Europe, and a large quantity of silver was rendered available for export to India.

6. In exports of merchandize to foreign countries there was a falling off compared with 1877-78 and a corresponding increase compared with 1876-77. The figures for five years are:—

1874-75	1875-76.	1876-77.	1877-78	1878-79.
Rs.	Rs.	Rs.	Rs.	Rs.
21,69,98,237.	23,55,71,690.	26,45,34,814.	30,99,69,984.	28,50,61,311.

A stronger reaction might have been looked for after the great advance taken in 1877-78, but the decrease in wheat, seeds, indigo, sugar, and silk has been accompanied by an increase in raw-cotton, rice, opium, jute, raw and manufactured, castor oil, tea, and silk piece-goods. In round numbers the foreign trade of Calcutta is distributed among the different countries in the following proportions:—United Kingdom, 60 per cent; China, $15\frac{3}{4}$ per cent; United States and Ceylon, each $4\frac{1}{2}$ per cent.; Straits Settlements, 4 per cent.; France, 3 per cent.; Mauritius, $1\frac{3}{4}$ per cent.; Australia and Italy, each $1\frac{1}{4}$ per cent.; other countries, 4 per cent. The share of the United Kingdom fell from $65\frac{1}{2}$ to 60 per cent., owing chiefly to the comparative slackness of trade in piece-goods, wheat, and seeds. The trade with France was affected by the falling off in the import of piece-goods on the one hand and the export of indigo on the other. With the United States, on the other hand, there was a satisfactory increase; the total value of the trade being Rs. 2,15,39,210, against Rs. 1,95,18,314 in 1876-77 and Rs. 2,06,09,649 in 1877-78. There was a large increase in the exports of jute, raw and manufactured, indigo, shell lac, saltpetre, and ginger, and the special advantages enjoyed by articles imported directly into the United States from the country of production appear to promise a further expansion of the immediate trade between India and America. The Lieutenant-Governor understands that much activity is being shown during the current season, and that there has been a remarkable rise in American freights. The export trade with Australia shows a considerable increase under rice, tea, gunny-bags, and castor oil.

7. The first item in the import list requiring special notice is coal. There was a very large reduction in the quantity imported, from 77,375 tons in 1876-77 and 80,703 in 1877-78 to 31,341 in 1878-79. The Board justly remark that this is only partially explained by the low rates of freight ruling during the year. It is no doubt the case that, where high freights are obtainable, vessels will come in search of employment with coal or other low-paying cargo rather than with ballast. But the evidence of the increasing demand for country coal forbids the acceptance of the condition of the freight market as the sole cause of the decrease in the imports of the English staple. It is

shown that the quantity of country coal taken as stores by sea-going steamers increased from 90,000 tons in 1877-78 to 126,000 tons in 1878-79. It is estimated that the output of the Ranecogunge mines was 523,097 tons in 1878-79, against 467,924 tons, the average of the three previous years, and it appears reasonable to suppose that the English article will be gradually superseded by the produce of the Indian mines.

8. Some interesting information is given regarding the peculiarities of the coral trade, a department of commerce which appears to be liable to very remarkable fluctuations. It appears that the Nepalese, the people of the North-Western Provinces and the Punjab, and the people of Eastern Bengal, all affect different sorts of coral, and that scarcity of one description does not promote the sale of another. The value of the Calcutta trade ranges from five to six lakhs of rupees, and it is believed that the demand considerably exceeds the supply.

9. There was a large falling off in the imports of cotton twist and yarn and piece-goods from England, as the following figures show :—

	1874-75.	1875-76.	1876-77.	1877-78.	1878-79.
	Rs.	Rs.	Rs.	Rs.	Rs.
Twist and yarn	1,19,30,702	1,04,43,082	1,05,55,852	1,17,65,668	1,05,71,836
Piece-goods	10,37,03,728	10,34,61,621	9,38,71,448	11,42,74,160	8,56,28,850
Total	11,57,24,430	11,39,05,213	10,39,30,300	12,60,39,828	9,61,00,686

It was remarked in the resolution on the last report that there was reason to suppose that the large importations in 1877-78 were stimulated by an increased demand resulting from the high prices of agricultural produce as well as by overtrading. The Government of India questioned the correctness of this view chiefly on the ground that Northern India as well as Bengal draws the bulk of its supplies of cotton goods from Calcutta, and that in the Upper Provinces there was considerable distress among the agricultural population. With reference to this question the Board point out that the quantities of cotton goods supplied to Upper India from Bombay has considerably increased of late with the extension of railway communication and the special efforts made to foster the trade. The Lieutenant-Governor would invite attention to the following statistics of the movements of English piece-goods by rail from Bombay during the last quarter of 1877-78 :—

			Ind. Maunds.
To Stations on the East Indian Railway	31,710
" " Holkar State Railway	25,436
			<u>57,146</u>

The quantity of piece-goods imported into Calcutta by sea during each of the past four years was—

	1875-76.	1876-77.	1877-78.	1878-79.
	Yds.	Yds.	Yds.	Yds.
From Foreign ports ...	776,983,927	733,812,196	930,694,670	719,284,013
" Indian ..	840,392	3,358,542	10,346,909	10,566,300
Total ...	<u>777,824,319</u>	<u>737,170,738</u>	<u>941,041,579</u>	<u>729,850,313</u>

The increase in the importations of Bombay goods is remarkable, and there can be little doubt that the market is to some extent being forced by them. But, looking to all the circumstances, the Lieutenant-Governor thinks that the Board have correctly inferred that the large importations in 1877-78 were to some extent due to the exceptional prosperity of Bengal during that year.

10. Under malt liquors, spirits, and wines, there is a decrease. The falling off is most marked under the first head, and this is rightly attributed in some measure to the competition of the produce of the breweries in the hills. The Board have carefully examined the figures under the different heads, and have advanced good reasons for thinking that the fluctuations are normal.

14. The imports of unwrought iron fell from 3,484 tons in 1877-78 to 1,214 tons in 1878-79. In connection with this, it is interesting to learn that the Bengal Iron Company manufactured 7,800 tons during the year; and it

may reasonably be hoped that the time is no distant when Indian wrought iron may also displace to some extent the imported article. In tea there was some increase in quantity, but a falling off in price. The average declared value was only 8 annas a pound, against 10 annas in 1877-78. This cheap tea is imported to provide for the increasing local consumption. The decrease in the quantity of cigars imported, shown in the following figures, points unmistakably to the increasing popularity of Indian cigars:—

1876-77.	1877-78.	1878-79.
lb	lb	lb
86,613	77,947	68,834.

Further reference will be made to this subject under the head of exports

12. The trade in raw cotton displayed a considerable recovery during the year, and the exports reached the highest quantity attained since the very favourable year 1872-73.

Exports.

In 1877-78 the trade was injuriously affected by the large crop in America, the failure of the crop in the North-Western Provinces, and the famine in China. During the past year the large crop in India induced low prices, and the export to the United Kingdom rose from 23,068 cwts. to 173,157 cwts. The exports to Austria amounted to 19,355 cwts. as against 1,099 cwts., while the trade with China was more than doubled. There are indications of a prosperous trade in this staple during the current year. There is a brisk demand, and prices are said to have lately risen in London from 3½d. to 1½d. per pound, while the supply is reported to be large. In indigo there was a large falling off, only 74,747 cwt. being exported against 99,402 in the previous year. The price, however, was kept down owing to the increased production of inferior indigo. There was a falling off in the exports to France, but only in comparison with 1877-78, when the shipments were exceptionally large. Some increase was looked for in the trade with America owing to the failure of the crop in Guatemala, and the Board appear to apprehend correctly that the demand must have been indirectly supplied.

13. The exports of husked rice have risen uninterruptedly from 2,721,232 cwts. in 1874-75 to 5,701,035 cwts. in 1878-79. The exports to Ceylon advanced in 1876-77 from less than half a million to more than two million cwts., and they have averaged nearly 2½ million cwts. during the past two years. Direct communication was opened during the year with Natal, and this colony took 100,000 cwts. The price of exported rice has risen from about Rs. 3-12 in 1876-77 to about Rs. 5-5 in 1878-79, and the gross value of the exports in the latter year was over three crores of rupees. The exports to the United Kingdom have not yet reached the point arrived at in 1875-76, but they show an increase of 86,000 cwt. over the previous year, and altogether the Board appear to be justified in taking a sanguine view of the prospects of the trade in this staple. The remarkable expansion of the trade during the past five years shows the wisdom of retaining the small export duty on rice, which now produces nearly a lakh of rupees a year paid by the consumers.

14. The wheat trade was stimulated in 1876-77 and 1877-78 by special circumstances. Short crops in America, the practical exclusion of the produce of Southern Russia from the markets of Europe, and an abundant outturn in this country, all operated to make the exports exceptionally brisk. There has now been a reaction after this period of prosperity. The large demand during the two previous years is believed to have led to considerable reduction of reserve stocks, while production in America has been undertaken on a very large scale, and the conclusion of the war in South-Eastern Europe has re-opened the trade of the Black Sea ports. The Indian wheat trade, though reduced in bulk through the removal of exceptional advantages, is still prosperous. The following are the quantities exported in each of the past six years:—

			Cwts.
1873-74	489,443
1874-75	279,280
1875-76	1,330,821
1876-77	3,882,218
1877-78	4,544,392
1878-79	889,869

The price advanced from about Rs. 3-5 a cwt. in 1876-77 to about Rs. 4-11 in 1878-79. There has recently been a considerable rise in price in England owing to the bad harvest, and the exports of the current year are likely to show a considerable advance on those of last season.

15. The mortality among the Madras cattle during the scarcity caused a large supply of hides from that Presidency to be thrown on the market, and the Calcutta trade suffered. There has now been a considerable recovery, as the following figures of the exports of raw hides and skins show :—

1874-75.	1876-77.	1878-79.
No.	No.	No.
9,628,296	6,751,246	8,666,262

The opening of the Northern Bengal Railway has increased the supply of small fine skins known in the trade as "Dacca hides." The Board have reason to believe that the demand from America, which declined during the year owing to a crisis in the boot trade, is likely to revive. In dressed hides and skins the trade still maintains the advance made in 1876-77.

16. The exports of raw jute reached the highest point yet attained since 1872-73, when they exceeded 7 millions of cwts. Between that year and 1876-77 there was a decline to $4\frac{1}{2}$ millions. Notwithstanding the large demand for the supply of the local mills, which has only been fully developed during the past four or five years, the exports in 1878-79 amounted to 5,701,346 cwts. (within 15 tons of the quantity of rice exported), and the value of the trade was more than $2\frac{1}{2}$ crores of rupees. It is important, moreover, to note that the year witnessed a great increase in the foreign exports of jute from Chittagong. A valuable trade in this staple is being established, the jute being conveyed to Chittagong down the Megna from Naraingunge. The English price of jute has lately risen one-seventh, and considerable shipments are being made to Europe and America. The trade with countries other than the United Kingdom shows a satisfactory advance. The exports of 1876-77 and 1878-79 were—

	1876-77.	1878-79.
	Cwts.	Cwts.
Austria	53,460	81,372
United States	881,312	1,102,191
Australia	13,311	20,298
Other countries	7,219	134,855

In manufactured jute the trade continues to advance with rapid strides, and there appears to be a probability that a further increase will be shown during the current year. The Board apprehend that the market is being unduly forced in order to carry off the large outturn of the local mills, and it is certainly doubtful if the trade can be maintained on its present scale. The exports, however, to America and to Hong-Kong, whence the greater part is transhipped for San Francisco, have shown a wonderful expansion. They were less than a million bags in 1874-75: in 1878-79 they were $18\frac{1}{2}$ millions. To Australia the number exported in 1874-75 was less than $1\frac{1}{2}$ million. For the last two years it has been $8\frac{1}{2}$ millions. The mill-owners are making every effort to improve the quantity of their fabrics, and, with cheap labour and the raw material at hand, they may reasonably hope to secure the supremacy in the manufacture of jute.

17. In oil-seeds there has been a considerable falling off. The decline in the trade with the United States in linseed is attributed to the extension of home cultivation; but the Lieutenant-Governor understands that large shipments are now being made. The export of seeds to Europe during the previous two years had been stimulated by the restriction of Russian commerce and the general briskness of trade. The trade with the United Kingdom in linseed is, however, still considerably more than twice as large as it was in 1873-74, while in rapeseed there has been a vast increase, which is steadily maintained. There has lately been an advance of one-seventh in the price of linseed and of one-eleventh in the price of rapeseed in the home market.

Reports of Fluctuation of Traffic on the East Indian Railway for four weeks ending 27th September 1879.

EAST INDIAN RAILWAY. TRAFFIC MANAGER'S OFFICE, JAMALPORE, THE 17TH OCTOBER 1879.

Remarks on Traffic of East Indian Railway for four weeks ending 27th September 1879.

THE approximate figures for the period are—

	Coaching.		Goods.		Total.
	No.	Rs.	Mds.	Rs.	Rs.
1879	523,903	6,78,708	40,97,093	17,70,753	24,49,461
1878	523,087	6,35,815	38,44,197	15,53,094	21,88,909
Increase	219	32,893	1,62,786	2,17,659	2,35,558
Decrease					

showing a satisfactory increase of over 11 per cent in the total earnings.

The increase in coaching traffic is owing to despatches of Government cannon and cattle to the Afghan war, and to the running of a few special trains for Native Chiefs.

Mechandise Traffic.

The noticeable fluctuations are as follow—

Increases.		Decreases.	
Coal.	Gunny.		Railway material, foreign.
Grain and pulses	Iron.		Sugar and jaggree.
Decreases.		Increases.	
Ghee and oil.	Piece-goods.		Seeds.
		Mds.	Rs.
Coal, up		+2,65,000	1,47,200
„ down		—1,11,600	12,600
Nett		+1,53,400	1,34,600

This increase in up-coal is due to the demand from foreign Railways, viz. Scinde, Punjab and Delhi, and the Punjab Northern State, Oudh and Rohilkund (via Benares), and the Rohilkund State Railway (via Agra).

Grain and pulses Mds. 22,100 Rs. 43,800

These figures are arrived at thus—

	Increases.		Decreases.	
	Mds.	Rs.	Mds.	Rs.
Wheat	1,27,500	93,000		
Other grain and pulses			1,05,400	49,200
Total	1,27,500	93,000	1,05,400	49,200
Net increase			Mds. 22,100	Rs. 43,800

There is brisk demand for wheat for export owing to the continued unfavorable account of the English harvest and the consequent advance in prices at home.

The decrease in other food-grain is principally in the despatches from the North-Western Provinces to the Bombay Presidency, owing no doubt to the unusually heavy rains.

Gunny Mds. 7,800 Rs. 8,900

This is mainly in the despatches from Calcutta to Cawnpore and Patna for bagging grain seeds and other produce

Iron Mds. 3,500 Rs. 7,200

Iron pipes for the Simla water-works and iron sockets for the Government telegraph to Jheelum, despatched this month, account for the increase.

Railway material, foreign Mds. 88,100 Rs. 1,23,200

This increase is attributable to despatches of Public Works material for the Sukkur and Furrakabad State Railways, wagon frames for the Oudh and Rohilkund to Benares, and a few wagons for the Gya line to Bankipore.

Sugar and jaggree Mds. 26,800 Rs. 12,900

As remarked in last month's report, this increase is owing to continued demand from Rajputana and the Central Provinces and plentiful supplies.

Decreases.

Ghee and oil Mds. 14,900 Rs. 22,400

Owing to increased local consumption and limited supplies the prices in the Behar and Cawnpore districts have been unfavorable to exporters.

Piece-goods Mds. 39,300 Rs. 59,600

This noticeable decrease is to be accounted for by the heavy rains we have had; the flooded state of the country rendering the roads impassable.

The rush prior to the Doorga Poojah also was earlier last year and will compare with October of this year.

Seeds Mds. 1,26,600 Rs. 79,500

The principal decrease is in despatches from Cawnpore, owing to scarcity in the market and the demand being small.

The train mileage for the period is—

				Coaching.	Goods.	Total.
1879	181,426	318,973	500,399
1878	185,875	293,439	479,314

1878	3 6 9	5 4 8	4 9 1
Increase	0 3 8	0 4 2	0 4 7
Decrease

This increase of nearly five annas in the total train mile earnings may be considered satisfactory.

Shunting mileage—Increase

Hours 1,190

Jubbulpore line traffic:—

				Coaching.	Goods.	Total.
				No.	Mds.	Rs.

Decrease	1,522	...	181

My remarks on the falling off in despatches of food-grain and pulses from the North-Western Provinces to the Western Presidency apply to the decrease over the Jubulpore line.

Train mileage for the period—

				Coaching.	Goods.	Total.

The decrease in firewood traffic is due to less import owing to wood-cutters being engaged in cultivation or otherwise.

The increase in straw is insignificant.

The decrease in hay and wooloo is due to less demand in selling markets.

The increase in paddy is due to a favourable market at selling stations.

The decrease in building materials is due to less work in rice mills.

The decrease in rice is due to cultivators not selling it owing to prospect of the crop being bad.

The increase in sundries is due to greater demand of sundry articles at rice mills.

The increase in brass and bell-metal ware is due to greater import to a favorable market.

The decrease in coal is due to larger import in March 1879, and its taking other route.

The increase in edible grains is due to greater import to a favorable market in the neighbourhood of Azimgunge, owing to failure of early crops on account of early floods of the Padma river and owing to destruction of crops by later flood.

The increase in piece-goods is due to larger import on account of Doorga Poojah holidays.

The increase in sugar is due to greater import to a favorable market.

The increase in seeds is due to greater import to a favorable market.

The increase in shoes is trifling.

The increase in silk is due to greater export to a favorable market.

The increase in sundries is due to greater import to a favorable market.

The decrease in wine and beer is trifling.

RESOLUTION ON THE REPORT OF THE BOARD OF REVENUE ON THE ADMINISTRATION OF THE STAMP DEPARTMENT FOR THE YEAR 1878-79.

FINANCIAL DEPARTMENT—STAMPS.

Calcutta, the 17th November 1879.

RESOLUTION.

The report of the Board of Revenue on the administration of the Stamp Department for the year 1878-79.

Government Resolution dated 21st October 1878, on the report for the year 1877-78.

THE Board's report on the administration of the Stamp Department does not cover precisely the same ground as the Department of Revenue which was made provincial in 1878. As in the case of the Stationery Department, the Superintendent distributes stamps to the Governments of the North-Western Provinces and Oude, the Punjab, Assam and British Burmah, and the Board refer to these transactions and analyse them in paragraphs 2, 3, and 4 of their report, while the two first statements which are appended also relate to the receipts from stamps in all the provinces and districts which receive their supplies from the Calcutta office. It seems to the Lieutenant-Governor unnecessary

and somewhat out of place to review the revenue receipts of other provinces, and in future the report of the Board may be limited to the transactions in stamps in the Lower Provinces only, other provinces being referred to, if at all, only for the purpose of comparison. With this view the following statement which is taken from Statement A annexed to the Board's report is of interest as exhibiting the relative progress of the stamp revenue for the last four years in the several provinces supplied from the Calcutta office:—

Moreover the report of the Stamp Department includes the sale of postage, service and telegraph stamps, the revenue derived from which is Imperial. These, however, are kept quite distinct in the figures furnished by the Board of Revenue and will be separately noticed in this Resolution.

2. The following statement shows the gross revenue in Bengal from the sale of the different denominations of stamps, the receipts from which are provincial, during each of the last six years:—

YEARS.	STAMPS SOLD UNDER THE GENERAL STAMP ACT.				Total.	Court fee stamps.	TOTAL RECEIPTS.
	Non-judicial stamp paper.	Special adhesive stamps.	One anna revenue, share, transfer, and foreign bill stamps.	Hundi and bill of exchange stamps.			
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
1873-74	10,80,685	5,23,322	1,81,687	94,731	24,81,405	60,12,681	81,03,986
1874-75	16,03,309	5,08,256	1,01,761	97,914	26,41,239	62,40,787	87,88,025
1875-76	17,71,671	5,45,353	1,86,964	99,798	26,03,514	65,79,553	91,82,860
1876-77	17,63,846	5,46,324	2,06,989	88,378	25,99,536	68,52,158	93,91,694
1877-78	18,43,199	6,03,866	2,20,568	1,10,788	27,78,361	78,53,311	1,06,31,662
1878-79	19,80,374	5,47,114	2,07,934	1,03,376	28,47,797	77,52,775	1,06,00,572

It will be seen that there has been during the year a falling off under all the denominations of stamps, except impressed stamps. The increase under the latter description of stamps is Rs. 1,46,175, or 7·9 per cent, which more than covers the deficiency under all other denominations of non-judicial stamps.

3. On the other hand the revenue from judicial stamps, which since the passing of the Court Fees Act has been steadily increasing, has, during the year under review, fallen off by Rs. 1,00,536, or 1·2 per cent. This, however, is less than might have been expected. The receipts from Court Fee Stamps in 1877-78 were abnormally swollen by the operation of the Land Registration Act under which, as the Board report, 714,927 petitions were filed. Each of these was as a rule accompanied by a mokhtarnamah, and the value of each petition to the stamp revenue may thus be estimated at one rupee. This accounts for over seven lakhs of the increase of ten lakhs on the sale of Court Fee Stamps in 1877-78 as compared with 1876-77.

In the year under review only Rs. 57,845 such petitions were presented, and a falling off in the revenue of much more than one lac might have been anticipated. The License Tax Act partly conduced to this result. 260,200 petitions under this Act were presented on a one-anna stamp. The direct receipts on this account would only be Rs. 16,362, but no doubt in very many cases they were accompanied by a mokhtarnamah on a higher stamp.

4. The total amount realized during the year on account of the sale of all classes of stamps that contribute to the provincial revenue being Rs. 1,06,00,572, and the amount payable to the Government of India on account of stamps

under the new financial arrangements being Rs. 1,01,25,000, the Board remark in paragraph 11 that stamps thus yielded a net profit of Rs. 4,75,572 to the provincial revenue. This, however, is incorrect and understates the profit. Under the budget head of stamps is included the revenue derived from the sale of papers, which during the year amounted to Rs. 1,64,880. This raises the total stamp revenue to Rs. 107,65,452, and the profit over and above the amount for which the Local Government is responsible to Rs. 6,40,452.

5. Again however, in reviewing this important branch of the revenue, as in reviewing the Excise, Sir Steuart Bayley has to remark on the inconvenience which arises from the Board omitting to compare their figures with those of the Accountant-General. The Accountant-General returns the total stamp receipts for the year under review as 107,84,690, or 19,238 in excess of the figures adopted by the Board of Revenue. It must be remembered that these, and not the Board's figures, are authoritative and give the real receipts as credited finally to the Local Government. If therefore the Board's figures are correct, all the greater is the reason for comparing the figures with those of the Accountant-General and proving their correctness. In future the Board should endeavour to make the figures which they review agree with those shown by the Accountant-General.

6. Calcutta, as usual, stands foremost in the list as having contributed by far the largest share of the revenue. The following twelve districts show receipts exceeding three lakhs of rupees :—

DISTRICTS.				General stamps.	Court fee stamps.	Total.	Incidence of revenue per head of population.
				Rs.	Rs.	Rs.	
Calcutta	7,51,295	10,10,098	17,61,393	4 10
24-Pergunnahs	1,10,909	4,03,798	5,14,707	23
Mymensingh	1,29,678	3,50,936	4,80,614	20
Jessore	84,304	3,67,916	4,52,220	21
Dacca	1,38,153	3,12,267	4,46,420	24
Backergunge	86,869	3,21,349	4,07,718	21
Midnapore	73,661	2,65,817	3,39,508	13
Mozufferpore	58,594	2,71,074	3,29,668	15
Nuddea	66,194	2,02,875	3,29,009	18
Tipperah	75,626	2,45,823	3,21,449	20
Burdwan	69,283	2,50,569	3,19,852	15
Patna	95,173	2,07,180	3,02,353	19

In 1877-78 thirteen districts returned receipts exceeding three lakhs, namely all the districts above named, and Chittagong, which now shows a falling off by over Rs. 20,000. In the remaining districts the receipts were more than two lakhs in ten districts, more than one lakh in ten, and below one lakh in twelve. Singbhoom shows the worst results with an aggregate receipt of only Rs. 7,281.

7. The incidence of stamp revenue per head of population ranges from .01 in Singbhoom to .34 in Noakholly. In Calcutta, which is an exceptional district, the incidence is 4.10, and taking the population at 60 millions that for the whole province is .17 per head. But the actual pressure on the lower classes is much lighter than these figures represent. The burden in a great measure falls on those who cannot afford it, as the high *ad valorem* court fees affect only those concerned with large estates, and the charges on ordinary business transactions fall on those who have extensive dealings. The new Stamp Act (I of 1879), which came into operation immediately at the close of the year under review, will, it is hoped, contribute to the expansion of the revenue from stamps, as it provides for a direct increase of duty on a number of instruments, imposes a new duty on the entry of names of advocates, vakeels, and attorneys on the rolls of the High Court, and contains more stringent provisions to enforce the observance of the law.

8. In paragraphs 15 to 65, the Board give an interesting analysis of the sales of the various descriptions of stamps, and the causes which led to fluctuations in the same.

Impressed Stamps.—As already noted in paragraph 2 above, the receipts under the head of impressed stamps during the year were 7.9 per cent in excess

of the receipts of 1877-78. The increase was almost general, as it spread over forty districts, only four districts, viz. Darjeeling, Mymensingh, Calcutta, and Durbhunga, showing a decline. The principal decrease occurred in Darjeeling, 18·2 per cent. As regards Calcutta, there seems to be a discrepancy in the accounts furnished by the Commissioner of the Presidency Division and the Superintendent of Stamps, the former showing an increase of 1·1 per cent, while the latter a decrease of 1·8 per cent. The Lieutenant-Governor will await the explanation which the Board have called for on the subject. The causes of the fluctuations in the different districts have been variously explained by the several district officers, but the Board are of opinion that the increase in the revenue derived from this class of stamps is due to general causes. They add:—"The population and wealth of the country advance year by year, and, as education spreads, a preference is developed for written and legal contracts, rather than verbal agreements. We may expect to see these agencies continue to work in the future, as in the past, producing not a large, but a fairly certain, increase in this part of the revenue."

9. *Special Adhesive Stamps* are not sold to the public, but are affixed by the Collector of Stamp Revenue, Calcutta, to documents brought to him for the purpose of "denoting." The realizations from these stamps during the year show a great falling off, owing, it is believed, principally to the stagnation of trade which prevailed throughout the year.

10. *Other Adhesive Stamps*.—The most important of these stamps are the one anna revenue stamps used for receipts, &c. The gross collections under this head for the last four years are given below:—

		Rs.			Rs.
1875-76	...	1,53,755		1877-78	1,84,021
1876-77	...	1,62,821		1878-79	1,76,066

Leaving out of comparison the collections of 1877-78, which were abnormal, the receipts of 1878-79 were satisfactory. There have been improved collections in twenty-four districts, and a decline in twenty. The decrease in Calcutta (4·7 per cent) is believed to be due chiefly to the depression of trade and stagnation of commerce during the year, and partly also to a large quantity of stamps brought to Calcutta for sale from Ajmere, where the rates of discount on sales of stamped papers are higher than in Calcutta. On this subject the Lieutenant-Governor is awaiting a report which has been called for from the Board of Revenue.

11. *Share Transfer Stamps* are used only in Calcutta in the transfer by endorsements of the shares of the Bank of Bengal and the Bonded Warehouse Association, and the receipts are consequently regulated by the number of such transactions. In 1878-79 the receipts amounted to Rs. 6,460 against Rs. 5,205 in the previous year. The receipts under this head would have been higher if it were not the fact that the stamp dues are largely evaded by the use of blank share transfer deeds. There is no remedy for this, as the Legislature, while recently revising the Stamp Act, declined to provide against such evasions.

12. *Foreign Bill Stamps*, i.e., adhesive stamps used for bills of exchange, cheques, and promissory notes, drawn or made out of British India, yield a revenue of Rs. 25,408 against Rs. 31,282 in 1877-78. This shows a falling off of 18·7 per cent, which the Board attribute to the importations from Ajmere, and to evasions of the law by native bankers, who cash bills of exchange without first affixing the proper stamp.

13. *Hundi or Bills of Exchange Stamps*.—The realizations under this head amounted to Rs. 1,03,375 against Rs. 1,10,788 in 1877-78, showing a falling off of Rs. 7,413, or 6·6 per cent. The decrease is ascribed to evasions of the law by the shroffs, to the stagnation of trade, and partly also to the sale of Ajmere stamps.

14. *Court Fee Stamps*.—The gross receipts amounted to Rs. 77,52,775 against Rs. 78,53,311 in 1877-78, showing a decrease of Rs. 1,00,536, or 1·2 per cent. There was an increase of revenue in eighteen districts, and a decrease in twenty-six. The decrease, as compared with the year 1877-78, is accounted for by the diminished operations under the Land Registration Act, which in many districts were almost closed. Compared, however, with the average of the four previous years, the income under this head shows a steady increase.

15. The sales of plain paper and the discount allowed on it during the last two years are shown below :—

			Sales. Rs.	Discount allowed. Rs.
1877-78	1,52,931	8,695
1878-79	1,61,880	10,240

16. Turning now to the denominations of stamps the receipts from which are not provincial, it appears that the receipts from sales of postage, service, and telegraph stamps in Bengal and Assam, North-Western Provinces and Oudh, and British Burmah during the past two years were as follow :—

YEARS.	Postage.	Service.	Telegraph.	Total.
	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.
1877-78	10,57,415 13 0	4,78,312 9 0	22,28,657 10 0	35,64,384 0 0
1878-79	21,20,710 1 0	4,91,507 5 0	21,58,301 11 0	47,10,518 1 0

In addition to the above, telegraph stamps of the value of Rs. 1,450 and Rs. 25,000 were supplied during the year by the Superintendent of Stamps, Calcutta, to Bombay and Madras respectively to replenish the stocks in those Presidencies. The sales of Assam are included in the return of sales in Bengal, but the Board of Revenue have instructed the Superintendent of Stamps to show the sales in these two provinces separately in future.

17. It will be seen from the above table that the sales of postage stamps show an increase over the sales of 1877-78, while the sales in service and telegraph stamps show a decrease. The increase in the sale of postage stamps has been steady, and is attributed by the Board to the normal progress of the country in the distribution of wealth and the spread of education, as well as to the improvements effected by the Postal Department. The decline in the sale of service stamps was chiefly owing to the reduction in the official postage rates, the extended use of zemindari dak lines, and the falling off in the operations under the Land Registration Act. The decrease in the sale of telegraph stamps was probably due to the dullness of grain traffic owing to the cessation of the Madras famine.

18. In the Financial Resolution No. 299, dated 30th April 1879, the Government of India directed that a statement should be appended to each annual report upon the stamp revenue, showing the receipts on account of general stamps separately from those of court-fee stamps, and exhibiting the net revenue from each class by apportioning the total charges between them in proportion to the amount of revenue realized from each, so far as such charges could not be definitely traced to one or the other head of stamps. In this resolution the Government of India passed no orders on the objection of the Board of Revenue, as to the apportionment of the salary of the Superintendent, who controls the issue of stationery as well as of stamps, while he, and the establishment under him, are employed in the supply of stamps of all kinds, Imperial as well as Provincial, to many other provinces besides Bengal. A similar objection was raised as regards certain small establishments employed at Dacca, Patna, Jessore, Calcutta, and the 24-Pergunnahs which sell postage and telegraph, as well as judicial and non-judicial stamps. Failing any orders on this point, the Board have charged the entire expenditure to Bengal, and divided it rateably between judicial and non-judicial stamps. It seems to the Lieutenant-Governor that this is the best and simplest solution of the difficulty, but it obviously increases the expenditure unduly. On this basis the Board append to the present report a statement in the new form of receipts and charges for the past five years, as shown below :—

YEARS.	GENERAL STAMPS.			COURT FEE STAMPS.		
	Income.	Refunds and other expenditure.	Net revenue from general stamps.	Income.	Refunds and other expenditure.	Net revenue from court fee stamps.
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
1874-75	25,70,100	1,29,570	24,40,530	62,55,056	1,21,475	61,33,581
1875-76	25,42,060	1,12,822	24,29,238	68,67,107	1,39,422	67,27,685
1876-77	24,77,061	1,32,430	23,44,631	69,40,170	1,39,706	68,00,464
1877-78	28,50,683	1,27,861	27,22,822	78,23,702	1,60,530	76,63,172
1878-79	28,02,061	1,33,583	26,68,478	78,17,650	2,14,064	76,03,586

The above statement does not include recoveries of stamp fees in pauper suits and the charges incurred on that account, as such recoveries and charges are now adjusted under "Law and Justice." It does not also include the sale proceeds of plain paper used with court-fee labels. The heavier expenditure against non-judicial stamps is due to the refunds being proportionately larger, and to the rate of discount allowed to vendors being higher.

19. The following table shows the number of cases in which duty was realized by civil courts and by Collectors under sections 20 and 24 of Act XVIII of 1869 respectively, and the amount of duty recovered:—

YEARS.	NUMBER OF CASES IN WHICH DUTY WAS REALIZED BY		DUTY REALIZED BY	
	Civil Courts under section 20.	Collectors under section 24.	Civil Courts.	Collectors
			Rs.	Rs.
1877-78	761	1,036	1,906	3,325
1878-79	748	1,228	665	3,202

The results of the year under review contrast rather unfavourably with those of the preceding year. The amount of duty realized shows a falling off especially in the civil courts.

20. The prosecutions for offences against the stamp law were generally successful as shown below:—

YEARS.	Number of cases instituted.	Number of persons tried.	Number convicted.	Number acquitted.	Fines realized.	Paid to informers.
					Rs. A. P.	Rs. A. P.
1877-78	161	269	223	46	2,591 2 0	152 8 0
1878-79	185	358	309	49	4,229 1 0	Nil.

The increase is attributed to the more active enforcement of the provisions of the stamp law. In the districts noted in the margin, however, there were no criminal prosecutions, owing probably to lack of exertion on the part of the Collectors in this direction. The absence of any prosecutions in Calcutta is especially noteworthy. The Collectors of the above districts should be reminded of the responsibility attaching to them in this matter, and of the necessity of displaying more energy and ability in enforcing the provisions of the law, and the Lieutenant-Governor will rely generally on the Board to watch carefully the working of the new Act.

21. To afford greater convenience to the public, the Board have issued instructions to the Commissioners to increase the number of licensed vendors as much as possible. The salaried vend system in Calcutta has also been abolished, and, as an experimental measure, the right to sell stamps at the High Court and the Calcutta Collectorate was put to auction. The successful bidders have lately commenced work, and the Collector has been asked to watch carefully the trial of the new system. The result of the experiment will be awaited, as well as of the reference which the Board has made to the Commissioners on the subject of the introduction of the auction system in the interior of the country.

22. Since the close of the year some remarkable discoveries have been made both of forgeries of stamps of various denominations and also of the fraudulent re-use of court-fee stamps. As these cases have been separately disposed of, it is not necessary to do more than refer to them in the present orders. A proposal has been made to the Government of India to revert to the use of impressed stamps for all values exceeding eight annas.

23. The acknowledgments of Government are due to the Board for their successful management of the Stamp Department, and the Lieutenant-Governor notices with satisfaction the commendation bestowed by the Board on Lord H. Ulick Browne, Commissioner of the Rajshahye and Cooch Behar Division,

Mr. F. B. Peacock, Commissioner of the Presidency Division, and Mr. F. H. Pellew, Commissioner of the Dacca Division, for their careful reports. The Lieutenant-Governor is also glad to find that the officers named in paragraph 97 of the report, and Mr. J. B. Roberts, Superintendent of Stamps, Calcutta, are favourably mentioned.

ORDER.—Ordered that a copy of the above Resolution, with a copy of the Board's report, be submitted for the information of the Government of India, in the Department of Finance and Commerce, and that a copy of the Resolution be forwarded to the Board of Revenue for information.

By order of the Lieutenant-Governor of Bengal,
H. L. HARRISON,
Offg. Secretary to the Govt. of Bengal.

ADMINISTRATION OF THE HOOGHLY BRIDGE FOR THE YEAR 1878-79.

No. 838C.

Extract from the Proceedings of the Hon'ble the Lieutenant-Governor of Bengal in the Public Works Department (Communications) under date the 15th November 1879.

READ—

Letter No. 1201, dated the 7th July 1879, from the Vice-Chairman to the Bridge Commissioners, forwarding a report of the Administration of the Hooghly Bridge for the year 1878-79, together with the report by the Auditors on the accounts of the bridge for the half-year ending the 31st March 1879, and a copy of the annual accounts as passed by the Auditors.

Read again—

Public Works Proceedings (A), Communications, for May 1879, Nos. 2-3, being the report of the Administration of the Hooghly Bridge for the year 1877-78, together with the resolution passed thereon.

Public Works Proceedings (A), Local Accounts, for May 1878, Nos. 1-4, being the budget estimates of income and expenditure of the Hooghly Bridge for the year 1878-79, together with the resolution passed thereon.

RESOLUTION.—The total receipts and expenditure on the Hooghly Bridge for the year 1878-79, including book adjustments for deposits, advances, and recoveries, transfers, &c., &c., amounted to—

						Rs.
Receipts	4,85,512
Expenditure	4,57,736

Omitting the book adjustments which are closing entries that are required merely for accounts purposes, the actual receipts and expenditure, as compared with the amounts estimated, were as follow :—

		Estimated.	Actuals.	More.	Less.
		Rs.	Rs.	Rs.	Rs.
Receipts	...	4,00,672	3,69,936	30,736
Expenditure*	...	4,08,787	3,49,707	59,110

The falling off in receipts and saving in expenditure is, to some extent, apparent only; this is owing to the receipts from the steamer *Howrah* having been entered in the accounts after deducting the salaries paid to the Armenian Ghât establishment: whereas in the estimates the gross receipts were entered as receipts, and the cost of establishment as expenditure. This causes a reduction of about Rs. 15,000 from both sides of the account.

2. It will be seen from the figures below that a considerable reduction was expected this year in the receipts from railway traffic, but that the actual loss has been slightly larger than was anticipated. The receipts from local traffic have also been less than was estimated—

		1877-78.		1878-79.	
		Actuals.		Estimated.	Actuals.
		Rs.		Rs.	Rs.
Railway traffic	...	3,21,307		2,40,000	2,32,490
Local traffic	...	1,17,819		1,17,804	1,12,404

* Including the usual provision for Sinking Fund and Reserved Fund.

The falling off in the receipts from railway traffic was due to the receipts of 1877-78 having been abnormally high, owing to the extraordinary traffic in grain caused by the Madras famine, and to the suspension of the terminal charge on coal. In the seven months of 1877-78, during which the terminal charge was levied, the receipts from that source amounted to Rs. 43,468; the loss owing to the reduction in grain traffic may therefore be taken at Rs. 48,349.

3. The total quantity of coal brought to Howrah by rail in 1878-79 was 1,07,30,758 maunds, the bridge toll on which would have amounted to Rs. 1,07,308; the actual amount received for coal crossing the bridge was Rs. 8,345: the amount surrendered by the suspension of the toll was therefore Rs. 98,963, or in round numbers about a lakh of rupees.

4. The decrease in local traffic appears to have been due to the laxness of the collecting establishment after it became known that the Commissioners had decided, with the permission of Government, to farm the tolls. The tolls were leased for one year, from the 1st March 1879, to Messrs. Stanley & Co. for a monthly rental of Rs. 9,187.

5. Rs. 15,000 of the saving in expenditure has been shown to be apparent only; of the balance, Rs. 31,230 represents the part of the sum provided for the purchase of a new ferry steamer which remained unutilized, and the rest is accounted for by numerous small savings on various estimates.

6. A memorial was received from the Municipal Commissioners of Howrah asking that the tolls levied on local traffic should be reduced by one-half, and especially remarking on the high toll charged on private carriages; but, after due enquiry, the Lieutenant-Governor decided that it was desirable to postpone the consideration of the question to the end of the official year 1879-80.

7. The new tug steamer ordered from England had not arrived at the close of the year as expected. The delay is stated to have been due to the severe winter and to the novel character of the vessel, which has been designed to act as a dredger as well as a tug steamer. A new ferry steamer, required to maintain the efficiency of the ferry service, was ordered towards the close of the year, and it was expected that she would be completed and ready to run by the end of the present year (1879-80).

8. It is reported that three large steamers collided with the bridge during the year. The Marine authorities held special enquiries in all three cases, and decided that two collisions were due to faults of the officers in charge, and that the third was accidental. The following number of inland vessels and boats also collided with the bridge and required the assistance of the bridge establishment to get clear:—

		In collision.	Sunk.
Inland steamers	...	1	...
Do. flats	...	2	...
Country boats	...	188	22

In these collisions seven lives are reported to have been lost.

9. The wearing surface on the bow-girder bridges and on the inclines on the north half of the bridge were renewed during the year, and the necessary material was imported for renewing the wearing surface of the rest of the bridge. The bridge appears to have been maintained in good repair and in thorough working order during the year.

ORDERS.—Ordered that a copy of this Resolution be forwarded to the Bridge Commissioners for information.

Ordered also that this Resolution be published in the Supplement of the *Calcutta Gazette* for general information.

By order of the Lieutenant-Governor of Bengal,

T. H. WICKES,

Offg. Asst. Secy. to the Govt. of Bengal,
P. W. Dept.

REPORT ON THE STATE OF THE SALT MARKET FOR THE FIRST QUARTER OF 1879-80.

No. 1060B., dated Fort William, the 15th October 1879.

From—P. NOLAN, Esq., Officiating Secretary to the Board of Revenue, L. P.,
To—The Secretary to the Government of Bengal, Revenue Department.

I AM directed to submit the following report on the state of the salt market for the first quarter of 1879-80, comprising the months of April, May, and June 1879.

HON'BLE C. T. BUCKLAND.

2. The quantity of salt of every description cleared in the quarter under report amounted to 21,24,562 maunds 22 seers and 7 chittacks, against 20,41,318 maunds 16 seers and 14 chittacks in the previous quarter, and 19,94,767 maunds 29 seers and 3 chittacks in the corresponding quarter of the previous year; and the amount of duty levied thereon was Rs. 56 37,039-14-4, against Rs. 54,22,595-4 in the previous quarter, and Rs. 57,68,341-7 in the corresponding quarter of the previous year.

3. The quantity of excise salt sold in the districts of Cuttack, Balasore, Pooree, and 24-Pergunnahs during the present quarter from the stock of the different seasons' manufacture, and the quantity which remained in store at the close of the quarter, are shown in Table I:—

The mean pressure, temperature, &c., are deduced from observations made at 6h., 10h., 16h., and 22h.; the maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The direction and movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

NOTIFICATION.

The 12th November 1879.—The following rules for the lease of waste lands in the Sundarbans of the 24-Pergunnahs, Jessore, and Backergunge districts having been approved by His Excellency the Governor-General in Council, are published for general information :—

I.—LANDS AVAILABLE FOR LEASE.

1. The “waste lands” to which these rules

Definition of waste lands. apply include all ungranted and unoccupied land at the disposal of Government in the Sundarbans of the 24-Pergunnahs, Jessore, and Backergunge, which has not been declared reserved forest under the Forest Act VII of 1878.

2. In respect of the granting of leases for such lands the Commissioner in the Sundarbans shall exercise all the powers of a Collector of Land Revenue under Act XXIII of 1863, provided that, before acting on an application for the lease of any land, the Commissioner in the Sundarbans shall refer the application to the Conservator of Forests and ascertain that there is no objection in his department to the application being granted. If the Commissioner is unable from any cause to accept the Conservator's objection, the matter shall be referred through the Board of Revenue for the decision of the Local Government.

3. The Government reserves to itself the right of withholding any land from being leased by special order made at any time before the lease is finally given by the Sundarban Commissioner; in such cases all expenses deposited by the applicant for demarcation, survey, and advertisement under the following rules shall be refunded to him, together with the reasonable expenses of clearing any lines and erecting any temporary boundaries which he may have incurred with the permission of the Sundarban Commissioner, as provided in Rule 10.

3(a). The Government reserves to itself the right to all minerals on the lands which may be leased together with such rights of way and other reasonable facilities as may be requisite for working, getting, and carrying away such minerals. It also retains its proprietary rights in the lands, and will only confer on the lessee an occupancy right which shall be hereditary and transferable.

II.—APPLICATION AND PROCEDURE BEFORE ADVERTISEMENT.

4. Applications for leases shall be written on paper bearing a court-fee stamp as required by law, and shall contain the following particulars :—

First.—The estimated area of the land applied for in standard beeghas of eighty cubits square, with its character and description.

Second.—The situation of the land accurately ascertained, and described as fully as possible.

Third.—A rough sketch map of the lands applied for.

A form of application marked A is annexed to these rules.

5. All applications shall be entered at once in a register, of which the form shall be prescribed by the Board of Revenue.

5(a). In the portion of the Sundarbans which has been declared “Protected Forest” under the Forest Act, no blocks of waste land which are altogether surrounded by ungranted and unoccupied land shall be leased under these rules. No block shall be given on lease which is not adjacent to land which has already been granted for the purpose of cultivation. All applications which do not comply with this rule shall be rejected.

6. Every lot applied for must be compact, including no more than a single tract of land such as might be enclosed in a ring-fence. If the land touches a navigable river, the river frontage must not exceed one half the depth of the lot; but for special reasons the Board of Revenue may relax this condition.

7. No greater area of land than 5,000 standard beeghas will be included in one lease except under special orders of Government, nor will a smaller area than 200 beeghas be leased unless the lot has distinct water boundaries on all sides. The sanction of the Board of Revenue shall be necessary to the lease of more than one lot to one applicant, or to the lease of a second lot to an applicant who already holds one. The Board may at its discretion allow such further leases to be given on being satisfied that the applicant is in a position to begin clearing and cultivating at once, and that he *bond fide* means to do so, provided that each application shall comprise no more than the prescribed maximum area.

8. On receipt of an application, the Sundarban Commissioner shall satisfy himself that it complies with all requirements of these rules, and that the land is such as can properly be leased. Should he find that the lands are not available for lease, or that for any reason they ought not to be leased, or that the application does not fulfil the requirements of the rules, he shall reject the application, or in the latter case, allow it to be amended. In no case shall any application be admitted without special sanction of the Board of Revenue for any land which any persons are found to be occupying or using.

9. When no objection is known to exist against the lease being made, the Sundarban Commissioner shall determine whether a survey is required, or whether the maps and records of previous surveys available in his office are sufficient for the ready identification and demarcation of the boundaries on the ground.

10. If no survey is required, and it is only necessary to demarcate the boundaries on the ground, the Sundarban Commissioner shall estimate the cost of such demarcation as well as the cost of clearing the lines and erecting temporary boundary marks, and shall call upon the applicant to deposit the same before a certain day, which shall be fixed with reference to the time at which

the demarcation can conveniently be made. Provided, however, that it shall be optional with the said Commissioner to allow the applicant himself to clear the jungle and construct such temporary boundary marks as may be considered sufficient for the ready identification of the land, until the permanent marks prescribed by article XIII of the "Terms of lease" shall be erected. If the applicant is allowed to clear the jungle and erect temporary landmarks, he shall enter into an agreement to do so within such reasonable time as shall be fixed by the Sundarban Commissioner.

11. Should the Sundarban Commissioner decide that a survey of the land is necessary, he shall

Cost of survey.

call upon the applicant to deposit, before a day fixed for that purpose, the cost of survey in addition to the cost of demarcation, &c., as provided in the preceding rule. The cost of survey shall be calculated at the rate of four annas an acre on the area estimated in the application, or at such higher rate as may for special reasons be fixed in any case. The sum payable for survey shall be adjusted at the rate fixed per acre according to the actual area which may be ascertained by survey, a further payment being made by the applicant, or a refund being made to him, as may be necessary for adjustment.

12. In addition to the cost of survey, demarcation, &c., the applicant shall be required to deposit a sum of Rs. 16 to cover the cost of issuing the notice prescribed by Rule 17.

13. Should the applicant fail to deposit any amount required by the foregoing rules before the date fixed for that purpose, or should he fail to clear the lines or to demarcate the boundaries by the date fixed under Rule 10, the application shall be struck off the file; an application so struck off may be re-admitted, but in that case the application shall be considered to have been made on the date of the application for such readmission, and not on the date of the original application.

14. After the deposit of fees, if for any reason the application should be struck off, or the survey abandoned, the applicant shall not be entitled to a refund of the sum deposited, except when lands are withheld from lease under Rule 3. Refund may, however, be made at the discretion of the Sundarban Commissioner of any balance remaining in deposit after meeting all expenses incurred on the objects for which the deposit was made.

15. Surveys shall ordinarily be made by Government surveyors; if made by other agency temporarily employed for the purpose, they shall be tested by Government officers.

Agency for survey.

16. Surveys need not be more minute or detailed than is necessary to ensure approximate ascertainment of area, but the boundaries must be very accurately and clearly defined.

III.—ISSUE OF NOTICE OF LEASE.

17. When the land has been surveyed and demarcated, and the Sundarban Commissioner is satisfied that it may be leased, he shall issue

Issue of notice.

a notice in the form B annexed to these rules, announcing that an application has been made, and calling upon all persons who may have objections to make to appear before a date to be specified, which date shall not be less than three months from the date of the notice as provided in section I, Act XXIII of 1863.

18. The notice shall be published at the office of the Sundarban Commissioner, the office of the Board of Revenue, the office of the Collector of the District, at the Court of the District Judge, at the Sub-divisional Office, at the Moonsif's Court, and at the Police Station within the limits of which the lands are situate. A copy shall also be published in the Government Gazettes in English and in Bengali.

19. In framing the notice the Sundarban Commissioner must be careful to state, as precisely as possible, all rights which will be reserved, such as waterways and the strips of land along the banks of rivers and nullahs for towing-paths (vide article XI of the annexed terms of lease), which will be held available for the use of Government and the public use.

20. If, after the issue of the notice and before the lease has been sold, any claim be preferred or objection taken, the Sundarban Commissioner must proceed as directed in Act XXIII of 1863.

21. If the Sundarban Commissioner shall consider that any claim or objection is established, he shall stay his proceedings for selling the lease as directed by section IV, Act XXIII of 1863, and make a special report to the Board of Revenue.

22. If the objection be such as can be got over by an arrangement without proceeding to formal trial under section VI of the Act, the Sundarban Commissioner may, with the sanction of the Board of Revenue, order the arrangement to be made, and in such case, or in case the claim or objection is eventually withdrawn or pronounced invalid, the Sundarban Commissioner may proceed, on the date specified in the notice, to sell the lease of the land.

IV.—SALE IN CASE OF MORE THAN ONE APPLICATION.

22(a). If there is but one applicant for the lease of the land, it shall be sold to him at the upset price of one rupee an acre.

Sale to applicant.

23. Should there be more than one application for the lease of the same lands before the survey or demarcation fees have been deposited, and should the second application comprise the whole of the lands contained in the first, the Sundarban Commissioner shall put the lease up to auction on the day named in the notice, and shall sell it to the highest bidder; but no person shall be allowed to bid who has not made such application; and no bid shall be accepted which is not *bond fide* on behalf of such person. If the second application comprise a portion only of the land contained in the first, it shall be rejected.

When more than one application is received for the same land.

24. The lease, whether sold to the only applicant or by auction, shall be sold subject to the conditions contained in the terms of lease annexed to these rules and to those contained in the notice issued in form B.

25. The purchaser of the lease shall be required to pay down at once a sum of 500 rupees, or the full amount bid for the lease, if such amount be less than 500 rupees. In default of immediate payment the lease may be put up to resale at once, or may be reserved for future sale.

26. The purchaser shall be required to pay in the balance of the purchase money, if any, together with all fees for demarcation, survey, and advertisement which may be demanded by the Sundarban Commissioner, within one month of the day of sale. If he fail to do so, the sale shall be cancelled by authority of the Sundarban Commissioner, and the amount deposited under rules 11 and 12 shall be forfeited, and the land shall be available for lease to any other applicant.

Cancelment of sale in case of default of full payment of purchase-money.

27. After the conditions of this sale are fulfilled, the Sundarban Commissioner shall grant a lease of the lands in such form as may from time to time be prescribed by the Board of Revenue. He shall forward the lease for registration in the office of the Board, and will also cause it and its counterpart to be duly registered by the Registrar of Assurances.

V.—MISCELLANEOUS.

28. All leases of waste lands shall be recorded in a register to be kept in such form as the Board of Revenue may prescribe.

Registers.

29. The Board of Revenue shall as soon as possible after the publication of these rules—

I.—Prescribe forms of the register of applications as required by Rule 5, and for the register of leases as required by Rule 28.

II.—Issue a schedule specifying the rates of assessments subject to which the different lots of land available for lease in the Sundarbans shall be leased, as provided in article II of the terms of lease.

III.—Prescribe forms for leases.

30. The Board may issue any further subsidiary instructions for giving effect to these rules.

31. As the present policy of Government is not to allow the redemption of assessments on the land except in the case of very minute estates, no future application for the redemption of the assessments payable on account of leases of waste lands in the Sundarbans, either under the rules of 1853 or under any other rules, will be entertained.

TERMS OF LEASE.

I.—One-fourth on the entire area leased shall be for ever exempted from assessment as an estimated allowance for unassessable area, such as that occupied by water-courses, creeks, tanks, roads, the space required for the construction of the

lessee's embankments, dams, tow-paths, &c., and for irreclaimable waste land.

II.—The remaining three-fourths of the area leased shall be held free of assessment for ten years, and shall be subject thereafter to such assessment within the limits given below as may have been fixed and notified by the Board of Revenue for the land in question :—

Table of rates of assessment.

TRACT.	PER BENGHA OF 80 CUBITS SQUARE.		
	From 11th to 15th year.	From 16th to 20th year.	From 21st to 40th year.
24-Perkunnahs, west of the Kalindi river	1 to 2 as.	2 to 4 as.	4 to 8 as.
24-Perkunnahs, east of the Kalindi river, and Jessore	6 pie to 1 an.	1 to 2 as.	2 to 4 as.
Backergunge	2 to 4 as.	3 to 6 as.	6 to 12 as.

III.—One-eighth of the entire area leased, as recorded in the lease, shall be cleared and shall be in a state fit for cultivation at the end of the fifth year, reckoning from the date from which the free term of the lease commenced. At any time after the expiration of the said year, the Sundarban Commissioner or any person authorized by him may enter upon the land and cause it to be measured for the purpose of ascertaining whether this condition has been fulfilled.

IV.—On failure to comply with the above clearing condition the lessee shall forfeit all rights in the land under his existing lease, and the Government shall have the right of immediate re-entry. Provided that, if the lessee shall give up the said lease to the Sundarban Commissioner within one month of the date on which notice of such forfeiture shall be given to him, and shall demand a fresh lease, such fresh lease shall be given to him on the following conditions, namely, that the lessee shall forfeit all claim to continued possession of the land free of assessment, and shall at once pay the assessment at the lowest rate fixed in the original lease, and shall continue to pay it at such rate for the remaining free term of the lease, and shall also pay the assessment at a rate 20 per centum higher than that which was fixed in the original lease for each period up to the termination of the settlement.

V.—In the event of the lessee failing to demand such lease, and to execute the corresponding agreement, the entire area comprised in the lease shall be resumed by the Government, which shall enter into possession at once, and the lessee shall forfeit all right and interest in the lands, both those which may still be uncleared and those which may have been cleared and brought into cultivation.

VI.—The amount of assessment due on the land shall be paid according to the fixed instalments to the Collector of the district.

VII.—All arrears of assessment due on the land shall be recoverable as arrears of revenue due on temporarily-settled estates according to any law for the time being in force.

VIII.—After the expiration of 40 years, Resettlement after 40 years. reckoning from the date of the original lease, the lot shall be open to resettlement for a period of 30 years on such terms as the Government shall think fit, provided that the assessment shall not be fixed higher than the rate which would be paid by cultivating ryots in the neighbourhood for land growing the ordinary crops of the country, less 30 per centum to be allowed to the lessee to cover the risks and cost of collection, and to represent his profits. The above assessment shall be calculated on the area of the entire area leased, less the one-fourth which is exempted from assessment under article I of these rules.

VIII(a).—The land shall be subject to any cesses—such as the District Road cess, the Public Works cess, or any other—in addition to the assessment to be paid, but the liability of the land to these cesses shall be left to the discretion of the local Government after the first period of the 40 years settlement has expired.

IX.—The land shall from time to time be subject Periodical resettlements. to resurvey and re-assessment in accordance with the preceding rule after the expiration of 30 years from any resettlement.

X.—The land shall be subject to all existing Reservation of rights of way, &c. rights of way and water and other easements, and to any exceptions and reservations which may be particularized in the notice of sale of lease in form B annexed to the rules.

XI.—The right of using all streams and channels in any way navigable Tow-path reserved. shall be reserved to the public, as also the use of a tow-path not less than 25 feet in width on each side of every such stream and channel.

XI(a).—No charge will be made for wood and timber standing on the land at the time it is leased, nor for any wood which may be cut and burnt to effect clearances, or which may be used on the land. But, for wood and timber exported for sale, a duty shall be levied under the rules for the Sundarban protected forests, dated the 22nd April 1879, at any of the revenue stations mentioned in those rules, viz.—

For every maund of Sundri timber—one anna.
For every maund of any other kind—one-fourth of an anna.

XII.—In the event of any boundary dispute Boundary dispute. arising between the lessee of any lot and the lessee of any adjoining lot already leased under these rules, or which may subsequently be leased, the lessees shall be bound to submit such dispute to the decision of the Commissioner in the Sundarbans. The decision of the Sundarban Commissioner shall be appealable to the Board of Revenue, and the decision of the Board shall be final and binding on the lessees. No lessee under these rules shall have any claim against the Government for compensation or damages in respect of land having been included in his lease which has already been included in some previous lease; but the lessee shall be entitled to proportionate reduction of the assessment in respect of any land covered by his lease which may subsequently be discovered not to have been available for lease.

XIII.—On being put in possession of a lot Boundary marks. which has not been previously defined by permanent marks, the lessee shall, except where the boundary runs along a river or well-defined nullah or water-course, within three months, erect masonry pillars or platforms or such other landmarks as may be required, to the satisfaction of the Sundarban Commissioner, at each point where more than two lots or patches of waste or other properties meet, and large earthen mounds at every angle and at intervals of a hundred yards of the boundary line between such masonry pillars or platforms.

XIV.—If the lessee neglect to demarcate Neglect of lessee to erect boundary marks. the lands as prescribed in the preceding rule, the Commissioner in the Sundarbans shall have the right of entry on the lands, and shall erect the landmarks hereinbefore described; and all costs incurred in that behalf, whether the actual costs of the landmarks, or the expenses incurred for clearing any jungle, or for supervision, or travelling expenses; and all charges whatsoever shall be recovered from the lessee by the law in force for the time being for the recovery of Government demands or the recovery of arrears of assessment on the land, as shall be decided upon by the Commissioner of the Sundarbans.

XV.—If any land leased under these rules Land subsequently required for public purpose. should hereafter be required for any public purpose, such land, whether cultivated or uncultivated, may be resumed by Government on exempting the lessee from payment of the assessment on the area required, and in the case of cultivated land by further payment of the reasonable cost of bringing the land under cultivation, and on payment of reasonable compensation for the value of any building, &c., which may stand on the lands.

Form A.

APPLICATION UNDER RULE 4.

To

THE COMMISSIONER OF THE SUNDARBANS.

Dated

SIR,

I APPLY for a plot of waste land in the Sundarbans under the rules for the lease of Sundarban waste lands dated the

, and hereby bind myself to comply with all the requirements of the said rules.

2. The estimated area of the land is about beeghas of the standard measure of 80 cubits square. The land is entirely covered with jungle and unoccupied, and to the best of my information and belief has not been leased out.

3. The land is in the Sundarbans of the district, and is a portion of lot No. of Lieutenant Hodges' map. Its boundaries are—

North,
East,
South,
West,

4. A rough sketch map of the land is herewith annexed.

Form B.

NOTICE UNDER RULE 17.

FORM OF NOTICE OF LEASE OF WASTE LANDS.

NOTICE is hereby given that the lease of the land specified in the Schedule hereunto annexed, and of which the plan is open to inspection at the office of the Commissioner of the Sundarban, has been applied for by _____, and will be sold at 12 o'clock noon on the _____ of _____ unless meantime the sale is stopped or postponed

in consequence of claims or objections under Act XXIII of 1863 (to provide for the adjudication of claims to waste lands), or owing to any other cause.

2. The lease of the land will be granted subject to the conditions which are specified below, as well as to the general Terms annexed to the rules for the sale of leases of waste lands in the Sundarbans of the 24-Pergunnahs, Jessore, and Backergunge, dated _____

RULES FOR CULTIVATION LEASES OF PLOTS OF WASTE LAND NOT EXCEEDING 200 BEEGHAS IN EXTENT IN THE SUNDERBUNS OF THE 24-PERGUNNAHS, JESSORE, AND BACKERGUNGE.

(In continuation of "The Rules for the Lease of Waste Lands," issued on the same date.)

In the rules for the lease of waste lands in the Sunderbuns of the 24-Pergunnahs, Jessore and Backergunge, issued this day, provision is made for leases of blocks of land not being more than 5,000 beeghas or less than 200 beeghas in area. It is further desired to give every facility to small settlers who may wish to take up and bring under cultivation plots of land of less than 200 beeghas in area, holding the same directly as tenants of the Government. With this object the following rules are laid down:—

1. Cultivators who desire to bring plots of land into cultivation, and to hold the same directly from the Government, will be allowed to do so in the following lots:—

24-Pergunnahs.—Those parts of the "protected forest" area in which no embankments or other expensive works are required, provided that no lease will be given here without the consent of the Conservator of Forests.

Jessore.—The ungranted portions of lot 216 and lot 224.

Backergunge.—Dhulloora Burgona, Karaibaria, part of Kalamagra, Chota Nishanberia Aboogunj, Meethagunj.

2. Applications for this purpose should be presented to the Sunderbuns Commissioner and should specify—

- (1) the name of the applicant and of his father;
- (2) his residence;
- (3) the area of land required, which must not be in excess of 200 beeghas;
- (4) the situation of the land, giving any available landmarks;
- (5) its present condition;
- (6) that it is at present unoccupied;
- (7) whether it is known ever to have been occupied, and if so, by whom and when, and why it was abandoned.

3. On receipt of such an application, the Sunderbuns Commissioner shall, if he sees no objection, give to the applicant an authority to take possession by an amalanamah in the annexed form A, guaranteeing a formal lease to the applicant if he shall bring the land under cultivation within two years.

3(a). No charge will be made for wood and timber standing on the land, nor for any wood which may be cut and burnt to effect clearances, or which may be used on the land. But for wood and timber exported for sale a duty shall be levied, under the rules for the Sunderbun protected forests dated the 22nd April 1879, at any of the revenue stations mentioned in those rules, viz. for every maund of sundri timber, 1 anna; for every maund of any other kind, $\frac{1}{2}$ of an anna.

4. If the land, or any part of it, shall have been brought under cultivation within the term specified, the applicant shall be entitled to a lease of the land so brought under cultivation for 30 years. The conditions of the lease will be—

- that the land shall be held free of assessment for two years from the date of the lease;
- that from the beginning of the third year to the end of the thirtieth year the lessee shall pay such assessments for each period of years as are specified in the lease, which shall be fixed on the cultivated area with reference to the rates ordinarily paid for similar lands in the neighbourhood to grantees and other landholders by their ryots;
- that, if available, an area of unreclaimed land equal to the cultivated area shall be included in the lease and reserved for cultivation by him;
- that in addition to the said unreclaimed land the lessee shall be at liberty to bring under cultivation any quantity of land adjoining his holding which he may find *bond fide* unoccupied;
- that the lessee's holding shall be liable to measurement at the expiration of the fifth year from the date of lease, and again from time to time at the expiration of not less than five years from the date of the previous measurement; and that on each occasion all land found to be in his possession under cultivation in excess of the area originally

assessed under the lease shall be assessed, but at no higher rates than were imposed on the land originally assessed under the lease ;
 that at the end of the thirtieth year, and so at the end of every period of thirty years, the lessee shall be entitled to a fresh lease for a further period of thirty years ; the rates of assessment being similarly fixed on all lands which may then be found to be in his possession under cultivation, at such rates as are paid in the neighbourhood for similar lands by the ryots of grantees and landholders ;
 that the tenure shall be heritable and transferable, provided that notice of every transfer shall be given to the Sunderbuns Commissioner within one month of its occurrence :
 Provided, however, that no holding shall be divided without the permission of the Sunderbuns Commissioner.

5. The Board of Revenue shall, as soon as possible after these rules are issued, prescribe forms in which registers of amalnamahs and of leases granted under these rules shall be kept, and also a form of the lease to be granted under Rule 4.

Amalnamah.

FORM A REFERRED TO IN RULE 3.

WHEREAS , son of , inhabitant of ,
 having applied for the settlement of beghas or thereabouts of land in the Government estate , within the boundaries roughly set forth hereafter, this amalnamah is given to him, empowering him to take possession of the lands at once if they be not already in the occupation of others, and to bring them into cultivation within the period of two years or earlier, of which notice in writing is to be given by the said

NOTIFICATION.

The 28th October 1879.—The Lieutenant-Governor has sanctioned the substitution of the following for rules 1 and 4 of the rules for the examination of, and the granting of certificates to, commanders of inland steam vessels, published in the *Calcutta Gazette* of the 20th August 1879:—

N. B.—The provisions of Rule 1 will not be applied in the case of candidates who are at the date of the publication of these rules actually in command of a river steamer.

Rule 1.—Candidates for certificates as commanders of inland steam vessels must be not less than 21 years of age and must have served either three years at sea and three years as mate of a river steamer or master of a flat, or six years as mate of a river steamer or master of a river flat.

Rule 4.—The examination of candidates shall ordinarily be conducted by the Committee which sits quarterly for the examination of pilots, assisted by a person, selected in each case by the Port Officer, holding a certificate duly in force under these rules. But the Port Officer may at any time convene a Special Committee for the examination of candidates under these rules.

2. The Lieutenant-Governor has also sanctioned the addition of the following Rule 9 to the above rules:—

Rule 9.—Commanders holding Pilots' certificates will not be required to pass the examination.

NOTIFICATION.

The 18th November 1879.—The following revised rules for the regulation of the departmental examinations of junior members of the Covenanted Civil Service, the Subordinate Executive Service, the Non-Regulation Commission, Police, &c., having been sanctioned by the Lieutenant-Governor, and approved by the Government of India, are hereby published for general information :

1. All Assistant Magistrates, Assistant Commissioners, Deputy Magistrates and Collectors, Assistant Superintendents of Police, and others (to whom these rules may be applicable) who may have been more than six months on duty, shall, and those who have been less than six months on duty may, at their option be subjected to half-yearly departmental examinations, and shall be required to pass according to the standard, or the standards, of examination which may be applicable to them respectively in each subject according to the rules hereinafter set forth.

2. To direct and control these half-yearly departmental examinations, there shall be a Central Examination Committee appointed by Government. It shall consist of a President and of as many members (of whom one shall be Secretary) as the Government may think proper to appoint from time to time.

3. The examinations may be held, in the Regulation Provinces, at any station which is the head-quarters of a Divisional Commissioner, or where there is a District Judge; and for the Non-Regulation Provinces at the following stations, and at any other stations where the Commissioner may, in communication with the Central Examination Committee, think it necessary to hold Committees for examination :—

For Chota Nagpore, at Ranches.

For Cooch Behar, at Darjeeling or Julpigoreo.

For the Sonthal Pergunnahs, at Bhagulpore.

For the Chittagong Hill Tracts, at Chittagong.

4. Each Divisional Commissioner shall notify, at least one month before the date of examination, at what stations in his division examinations are to be held, and shall report the names of intending examinees, specifying at which centre of examination each is to attend. If a Divisional Commissioner has only a very few examinees, and if the means of locomotion are easy, he will probably have only one or two centres of examination in his division.

5. The Central Examination Committee may, on sufficient cause being shown, permit the appearance of an officer for examination at a station other than that at which, under ordinary circumstances, he would be required to present himself.

6. At the several stations at which examinations are to be held Local Committees shall be formed, who shall conduct the examinations under the instructions of the Central Committee.

7. The Local Committee at each station, which is the head-quarters of a Commissioner, shall consist of the Commissioner, the Collector (or Deputy Commissioner), and a native civil officer to be selected by the Commissioner. In the absence of the Commissioner or Collector, the Judge (or Judicial Commissioner) shall take his place on the Committee. At the other stations the Committee shall consist of the Judge, the Collector, and a native officer to be selected by the Judge. At the stations in the Non-Regulation Provinces which are not the head-quarters of the Commissioner, and at which there is no Judicial Commissioner, the Deputy Commissioner shall form a Committee, with one or two other officers to be selected by him.

8. The Government will, in communication with the Central Committee, fix the days for the half-yearly examination, which shall be the same for every district. The first half-yearly examination will usually be held in the month of April, May, or June, and the second in the month of October, November, or December.

9. It shall be the duty of the Central Committee to prepare, previous to each examination, sets of questions to be put to the examinees, to forward a sufficient number of copies of each of such sets to the President of each Local Committee in a sealed packet, to determine the order in which the examination in each paper and subject shall be held, and to arrange all other details for the conduct of the examinations. The Central Committee from time to time shall lay down such rules as may appear to them best for the guidance of the Local Committees, in order to ensure a fair and uniform method of ascertaining the proficiency of the examinee in each subject.

10. The Local Committee shall not open the sealed packet of papers until the time of examination; they shall superintend the written examinations of the examinees only so far as may be necessary to ensure the conduct of them with proper strictness; they shall not examine the written answers, but shall forward them to the Central Committee with a report, which shall be furnished by the District Officer and Commissioner under whom the examinee has been employed, respecting his official character, qualifications, and the work done by him during the preceding six months, as well as a statement specifying the marks which they assign to candidates for conversational proficiency in the vernacular, in which branch their decision shall be final.

11. The Central Committee, after perusing the reports and the examination papers, shall report to Government the names of such officers as in their opinion have passed, noticing specially, in the order of their merit, those who may have passed with distinction. They shall also report the names of those officers who have succeeded in some of the subjects only, as well as of those who have failed altogether.

12. There shall be two standards of examination in Law and Languages: the Lower and the Higher Standards. With the exception specified below, officers are required to pass in Law and in the language of the district by both the Higher and the Lower Standards, and in a second language by the Higher Standard only.

13. In Appendix IV will be found the rules prescribing the tests in the vernacular which European officers of the several departments are required to satisfy.

For native officers, when required to pass in any vernacular, the same rules and tests shall apply as in the case of European officers. But if the officer does not know English, he will translate into his own vernacular, and not into English, and it will be unnecessary for him to transliterate the paper set for that purpose.

14. The only language in which officers generally shall be required to pass by the Lower Standard shall be the vernacular of the district in which they may be serving, and the principal object of the examination shall be to test the proficiency for practical purposes of the examinee in such language.

15. The object of the Lower Standard of examination in Law shall be to test the examinee's practical acquaintance with the Criminal Codes, and his general knowledge of certain of the more important local laws, regulations, and rules. One paper shall be prepared specially for this examination, which shall be confined to the Criminal Codes, and for which the use of the Codes, but no manuals, guides, or books with indexes, shall be allowed. The questions must not be such as can be answered by copying a passage from a book; they must be such as shall thoroughly test the capacity of the examinees to understand the bearing of facts, and to ascertain the law and apply it. Another paper shall be prepared, consisting of questions on the local laws, regulations, and rules enumerated in Appendix I. These must be answered without the aid of books. This paper is designed equally for the candidates for examination by the Lower and Higher Standards, but the number of pass marks shall be less in the case of examinees by the Lower than in that of those by the Higher Standard of examination.

16. In the examination by the Higher Standard, it is necessary for the examinee to pass under the rules referred to above in two vernacular languages, ordinarily Bengali and Urdu. The questions of law and practice will be selected from the whole field of the duties of a Magistrate and Collector. All examinees will be required to pass in two papers. The nature of the one, in answering the questions in which the use of books will not be allowed, has already been explained in paragraph 15. The other paper, for which the use of books will be allowed, will contain questions on the local laws, regulations, and rules set forth in Appendix II. The examinees may have all the Acts, Regulations, and Circulars, but no Manuals, Guides or Indexes. The questions should be confined as much as possible to cases commonly arising in the ordinary routine of the office of a Magistrate and Collector, or of a District Superintendent of Police. Certain facts of probable occurrence in real practice should be stated, and the examinee required to find and apply the law applicable to the facts.

17. A Covenanted Civil Servant must pass the examination in local laws, regulations, and rules, and in both languages, by the Higher Standard. He will be required to pass by the Lower Standard

in one subject only, and that the vernacular of the district in which he is serving.

18. Officers who, after passing in the higher grade the preliminary examination for admission into the Subordinate Executive Service held in 1873 or subsequently, have received appointments in that service, will be subject to no further examination except the Higher Standard departmental examination, and the opium laws examination for those candidates who are appointed to the Opium Department without having taken the opium papers. Candidates who passed at the Subordinate Executive Service examination which was held in 1872 are exempted from examination by the Lower Standard in the vernacular only. They will be required to pass in Law by that standard.

19. Where a candidate, other than a Covenanted Civilian allowed by Government for any special reason to present himself for examination by the Higher Standard in Law or Languages before passing the Lower, fails to pass the Higher Standard in either subject, the Central Examination Committee shall have full authority to decide whether he has done sufficiently well to pass by the Lower Standard.

20. An officer who succeeds in passing by either standard, (a) in Law or (b) in either of the Languages, shall not again be required to present himself for examination by the same standard in the subject in which he was successful, but only in those in which he failed.

21. The marks to be assigned to each branch of the Law examination, the proportion required for passing by the different standards, and the time allowed for each paper, are set forth in Appendix III. The same information as regards the examination in Languages will be found in Appendix IV. Uniformity must be rigidly enforced in the time allowed for each subject, whether in Law or Language.

22. A civil officer who has passed according to the Lower Standard of examination, and who has exercised the powers of a Magistrate of the Third Class for six months, shall usually be vested with the powers of a Magistrate of the Second Class, described in sections 20—24 of the Code of Criminal Procedure (Act X of 1872), provided he is certified by the Commissioner to be fully competent to exercise them. Assistant Magistrates and Assistant Commissioners will also then be vested with the powers of a Deputy Collector.

23. An officer, however, who shall have passed by the Lower Standard in the Criminal Codes and in the language of his district, may be vested with the powers of a Magistrate of the Second Class on the Commissioner's recommendation to that effect, provided he has had not less than six months' experience in his magisterial duties.

24. An officer who has passed according to the Higher Standard shall be eligible to be vested with the powers of a Magistrate of the First Class, but not until he shall have exercised the powers of a Magistrate of the Second Class for at least six months.

25. An officer who has passed in Law and in the language of his district according to the Higher Standard may also be vested with the powers of a Magistrate of the First Class, subject to the condition of his having exercised the powers of a Magistrate of the Second Class for six months; but he shall not be entitled to any promotion or increase of pay until he has passed fully by the Second Standard. He shall exercise the powers of a Magistrate of the First Class so long only as he is employed in a district where the language in which he has passed is the vernacular.

26. Assistant Magistrates and Assistant Commissioners on first appointment draw only Rs 100 a month. On passing the Lower Standard of examination, and being invested with the powers of a Magistrate of the Second Class, they shall be allowed an increase of Rs. 50 a month, provided they have exercised the powers of a Magistrate of the Third Class for six months at least; and on passing fully the Higher Standard, and being invested with the powers of a Magistrate of the First Class, they will receive a second increase of Rs. 50, provided they have also exercised the powers of a Magistrate of the Second Class for not less than six months.

27. Officers attending these examinations will be allowed travelling allowance subject to the rules laid down by the Government of India in the Financial Department, in Notification No 4425 of the 12th December 1872.

28. No application from any junior officer, liable to examination, for privilege leave or leave on private affairs, will be entertained if the following half-yearly examination falls due before the expiry of the leave applied for, unless the application specifies that the applicant will attend the examination.

29. If such leave is applied for, and the application from such an officer is submitted to Government, it should be stated that he is liable to pass an examination, and that the next examination will be held within the period of the leave applied for. This will enable the Lieutenant-Governor to decide whether, for the reasons stated, the leave should be granted; and if so, on what conditions.

30. It is the duty of district officers to look to the practical training of the young officers placed under them from their first entering into official life till they acquire a practical experience of their work and qualify themselves for the exercise of higher powers by passing the prescribed examinations. District officers are expected to take active interest in the well-being of the young men placed under them, by exercising due supervision over their studies, by holding periodical examinations to test their qualifications and official knowledge, and by any other means which may seem to them to be expedient for the purpose.

SPECIAL RULES.

1. For Police Officers the papers set in Law for both the Lower and the Higher Standards shall be prepared separately from those for other officers. For the Lower Standard questions shall be set in the Penal Code, the Code of Criminal Procedure, Act V of 1861, the Village Chowkidari Act VI (B.C.) of 1870, Act I (B.C.) of 1871, and the D and N Circular Orders of the Police Department. The use of books will be allowed in answering those questions. For the Higher Standard the questions will be taken from the same Acts and from all the Circulars of the Police Department, from the Excise, Salt and Opium Laws, from Act V (B.C.) of 1876 (so far as it relates to Police), and from the Evidence Act I of 1872. In this examination the use of books will not be allowed.

2. Police Officers transferred to the Executive Service, or who desire such transfer, will be required to satisfy the same tests as those prescribed above for officers of the Subordinate Executive Service, subject to the exception noted below.

3. When such an officer has already passed by either standard in a language, the pass will be accepted as sufficient to that degree.

4. Any officer so transferred, who has passed in Law by the Lower Standard (as hitherto required for the Police), will be required to pass for the Lower Standard in the general papers of local laws, &c. He will be exempted from examination in the Criminal Codes prescribed for the Lower Standard if he so desire; but if he elects to pass, such pass will be taken into account in his favour.

5. Such officers who have passed by the Higher Police Standard in Law will still be required to pass in both law papers prescribed in paragraph 16 above, the term "law" including Revenue and General law.

6. Officers of the Opium Department will be examined, after admission to the department, in the subjects mentioned in Government orders No. 1157G of 28th October 1872.

APPENDIX IV.

Revised Rules for the examination of Civil Officers in the Lower Provinces of Bengal in the Vernaculars.

THE following rules for the examination of civil officers in the Lower Provinces of Bengal apply to all European officers of the classes specified in them, and to such others as the local Government may from time to time direct. They do not affect the rules for the encouragement of the study of the languages of frontier tribes, a copy of which is given in Appendix V.

2. Three grades of examination are recognized :—

(I)—The Higher Standard of examination for civil officers, held under the direction and control of the Central Examination Committee.

(II)—The Higher Standard of examination prescribed for military officers by G. G. O. No. 734, dated 9th September 1864, and G. G. O. No. 294, dated 24th March 1866; and the Lower Standard of examination for civil officers held under the direction and control of the Central Examination Committee.

(III)—The Lower Standard of examination prescribed for military officers in Hindustani by the G. G. O. above quoted.

3. Officers of the Public Works, Education, Survey, and Forest Departments are examined under special rules.

Officers of the Survey, Forest, Education, and Public Works Departments.

In their case either of the standards specified in grade II will be accepted as sufficient, should they exceptionally have to be examined along with the officers attached to the general administration.

4. The officers named in the margin are required to pass the examination specified in grade I above in the vernacular of the district in which they may be serving. Assistants in the Opium Department, who have not passed the Native Civil Service Examination in Hindustani, are required to pass in that language only by the

Officers required to pass in one language only.

1. Deputy Magistrates and Collectors.

2. Salaried Sub-Registrars.

3. Canal Superintendents.

Lower Standard of departmental examination specified in grade II above.

5. Deputy Collectors who, under this rule, have passed in one language only will not be eligible for transfer to, or promotion in, another province, unless they pass also in the language which is there the vernacular.

6. Medical officers in civil employ, whether covenanted or uncovenanted, will be required to pass in the language of the district by one or other of the standards specified in grade II. Army medical officers, who have passed the Military Lower Standard of examination specified in grade III in Hindustani, will not be subject to further examination in that language.

7. Medical officers in civil employ, who have passed in one language under the above rules, if posted to a district where another language is the vernacular, will be required also to pass in it, but only by a conversational test designed to prove their ability to converse with the people and be understood by them.

Officers required to pass in two languages.

1. Covenanted Civilians.
2. Assistant Commissioners.
3. Assistant Superintendents of Police.

8. The officers named in the margin are required to pass by the standard specified in grade I above in two languages, which may be Bengali and Hindustani, or Oorya and Hindustani.

9. Military officers who have passed in Hindustani by the Military Higher Standard of examination specified in grade II are not liable to further examination in that language.

Exemption in the case of military officers.

10. Officers generally are required, in the first instance, to pass in the language of the district in which they are serving by the Lower Standard specified in grade II above, before attempting a second language, in which passing by the Higher Standard only will be required. Covenanted civilians are, however, allowed to pass by either standard, and in either language in any order.

Order in which the languages must be taken up.

11. Uncovenanted officers who have passed in any vernacular at the Native Civil Service Examination are not required to pass in it again by the Lower Standard of departmental examinations, but may go up for the Higher Standard in cases where they become liable to this examination.

Officers exempt from the Lower Standard of examination.

12. An officer liable to pass in two languages, when he has passed in the language of the district by the Lower Standard as required in Rule 10 above, may present himself for examination by the Higher Standard in that language, and in the second language, which will be Hindustani in the case of those who first qualify in Bengali or Oorya, and in the case of those who first pass in Hindustani, Bengali or, if they be posted in Orissa, Oorya.

13. Covenanted civilians who, on the 4th May 1874, were of less than 12 years' standing, and have passed in Hindustani and Bengali, will, on transfer to Orissa, as a condition of promotion to the substantive grade of Magistrate, be required to pass in Oorya as a third language. Similarly, those who have passed in Hindustani and Oorya only will, on transfer to Bengal, be required to pass in Bengali as a third language. On passing in a third language under this rule, covenanted civilians become entitled to a reward of Rs. 500.

Cases in which a third language is compulsory.

14. Police officers and uncovenanted Deputy Collectors are not required to pass in a third language under the preceding rule; but if they elect to do so, they will be eligible for a reward of Rs. 180.

Cases in which a third language is optional.

15. The examination specified in grade I above, and the Lower Standard of examination specified in grade II above, will be held under the rules for the conduct of the departmental examination of civil officers, and under the direction and control of the Central Examination Committee in Calcutta.

16. The Military Higher and Lower Standards of examination specified in grades II and III above will be conducted in the case of military officers by the Board of Examiners in Calcutta under the rules applicable to these examinations generally. In the case of uncovenanted medical officers, and optionally in the case of covenanted medical officers, these examinations will be held under the direction and control of the Central Examination Committee, and along with the departmental examinations.

The following are the tests prescribed for the several grades of examination :—

Grade I.—The Higher Standard of Departmental Examination.

A.—Reading current handwriting in the vernacular.

Two documents of the more difficult description of office papers selected and lithographed by the Central Examination Committee shall be transliterated into the Roman character.

B.—A written translation from the vernacular into English.

The same documents shall also be translated into English correctly.

C.—A written translation from English into the vernacular.

An English judgment or other official document of a somewhat difficult nature, selected by the Central Examination Committee, shall be translated into the vernacular without assistance, and in a generally correct manner.

D.—Dictation from English into the vernacular.

An English report or other official paper of some difficulty shall be translated into the vernacular and dictated off-hand fluently and intelligibly, and the translation written down by a clerk exactly as dictated.

E.—Conversation in the vernacular.

The examinee shall be tested in conversation with several natives in such a manner as to satisfy the local Committee of his power of making himself understood by them, and of explaining himself with clearness and sufficient propriety in the vernacular in an argument or topic of some difficulty, such as may occur in official business.

The maximum and the pass marks assigned to each branch of the examination, and the time allowed for the papers, are subjoined :—

Subjects of Examination.	Maximum marks.	Passing marks.	Time.
Transliteration	20	10	One-and-a-half hours.
Translation from vernacular	20	10	
Translation from English	20	10	Two hours.
Dictation from English	20	10	Half an hour.
Conversation	20	10	Ten minutes.

Grade II (a).—The Lower Standard of Departmental Examination.

For this examination the tests shall be the same as the above, but the papers shall be less difficult. The proportion of marks to be obtained in order to pass, and the time allowed for the papers, shall be the same as for the Higher Standard above described.

Grade II (b).—The Military Higher Standard of Examination.

The Military Higher Standard examination is intended to ascertain the ability of candidates—1st, to read and construe passages in books of ordinary difficulty in Urdu and Hindi; 2nd, to make accurate and idiomatic written translations from English and Hindustani in both the Persian and Deva Nagri characters; 3rd, to read and translate petitions, native letters, &c., in Urdu and Hindi; 4th, to converse with educated or uneducated natives of India in Hindustani.

The following are the tests prescribed :—

First.—Reading fluently, and construing with readiness and accuracy, not less than an ordinary octavo page of the undermentioned works :—

(1) *The Bāgh-o-Bahār.*

(2) Selections from the prose of the *Prém Sāgar.*

Second.—Translating accurately, and with correctness of idiom and grammar, not less than half an ordinary octavo page of plain English into language similar to that of the *Bāgh-o-Bahār*, and an equal amount into language similar to that of the *Prém Sāgar*. The translation must be reduced to writing, in the former case in the Persian character; in the latter in the Deva Nagri character.

Third.—Reading fairly, and translating readily and correctly, Hindustani manuscripts written in both the Persian and Deva Nagri characters. These manuscripts may be selected from the proceedings of a case in court, from reports or petitions addressed to civil or military authorities, from letters passing between natives of India in the ordinary course of business, or from private correspondence. They should not be written with the clearness of a printed book, nor yet in

a very cramped or crabbed hand, but in such a manner as fairly and honestly to represent the written characters as practically employed in the presidency or province in which the examination is held.

Fourth—Conversing in Hindustani with the examiners or with natives of India with fluency, and with such correctness of pronunciation, grammar, and idiom, as to be at once intelligible.

In other languages the tests imposed are similar, but the books are different. Those used are—

In Bengali	{ (1) Nobonari.
	{ (2) Rajdūt.
In Oorya	{ (1) Hitopadisa.
	{ (2) Batris Singhasun.

Grade III (a).—Military Lower Standard of Examination.

At this examination shall be tested the ability of candidates to read and translate passages from easy Hindustani books written in the Persian and Deva Nagri characters; and to speak on, and interpret, common or professional subjects in Hindustani so as to understand, and to be understood by, any ordinary uneducated native of India.

They are required, *first*, to read fairly, and construe with accuracy, not less than half an octavo page of the undermentioned works:—

- (1) "Hindustani selections * " in the Persian character.
- (2) "Hindustani selections * " in the Deva Nagri character.

Second, to converse in Hindustani with the examiners, or with natives of India, on subjects likely to occur in the performance of regimental or professional duty, in the transactions of ordinary business, or in the course of every-day life.

"If this test be applied through the medium of a native of India, he should speak the plain Hindustani of the presidency or province in which the examination is held, free from peculiarities of idiom and dialect, and not a *patois*, and though, as regards the performance of professional duties, it must to a certain extent be technical in its nature; if, in other respects, the candidate prove his ability to comprehend readily all that is said to him, and to make himself fairly intelligible, more should not be required."

The colloquial examination of each candidate will be carefully recorded in writing by the Committee of Examiners, and a copy of this record will be forwarded with the Committee's report to the Adjutant-General of the Army. It is in this portion of the examination that discretion and judgment on the part of the examiners is most required; and in conducting it, Committees should strictly follow the instruction laid down in the extract from the orders of the 9th September 1864 above quoted. Questions intended simply to puzzle a candidate should be particularly avoided. The questions need not exceed 15, but should not be less than 10 in number.

APPENDIX V.

Rules for the encouragement of the study of the languages of Frontier Tribes mentioned in paragraph 1 of Appendix IV.

THE following are the rules sanctioned for granting rewards to civil officers in Bengal for proficiency in the languages of frontier tribes.

2. A reward of Rs. 1,000 (one thousand) will be granted to any Covenanted Civilian, Deputy or Assistant Commissioner, Deputy Collector or District or Assistant Superintendent of Police, who shall pass by the prescribed standard an examination in any one language

- Group I.—Kol or Munda, Sonthal.
- " II.—Oron, Rajmahal Paharia.
- " III.—Khond of Orissa.
- " IV.—Thibetian, Lepcha, Bhootia.
- " V.—Kuki or Lushai.
- " VI.—Garo.

in any of the groups of languages noted in the margin, provided that the language is spoken within the district where the officer is at the time employed, or by tribes conterminous to it with whom he has official relations. A second reward will in no case be given to an officer for proficiency in a second language of the same group.

3. The examination shall be conducted by a local Committee to be specially appointed by Government on each occasion.

* Until these selections have been prepared, candidates will be examined in the first-half of the *Bāgh-o-Bahār* and the first-half of the *Bytal Pachess*.

4. The tests which a candidate for the above reward must undergo are as follow :—

- (a.) He must be able to converse freely with the people of the tribe in whose vernacular he may wish to qualify, to understand, and to make himself understood by them.
- (b.) He must write down in the English, or the Bengali, or Hindi character, sentences spoken in the tribal language by one of the tribe, or a conversation held between two of them, and must explain it correctly in English.
- (c.) He must without assistance translate from English or his mother-tongue into the tribal language (writing it in either the English, or Bengali, or Hindi character) sentences not of a more difficult nature than those described in clause (b). The translation must be substantially correct and intelligible when read to a native in whose language it might be written.

5. These rules will not affect those prescribing the rewards to which Junior Civilians who succeed in passing High Proficiency and Honors examinations in certain specified languages will be entitled.

APPENDIX VI.

HOME DEPARTMENT.

No. 3101, the 5th October 1864.

THE Governor-General in Council having had under consideration the rules for the examination of military officers seeking admission to the Staff Corps in the Civil and Political Departments, which were published in the notification of Government, No. 242, dated 25th May last, has determined, subject to the sanction of Her Majesty's Secretary of State, on the substitution of the following rules :—

In continuation of the general regulations for the admission of officers to the Staff Corps, notified by the Military Department in G. O. No. 531 of 1864, dated the 27th June, the following rules relating to the future employment of military officers in the Civil and Political Departments of the Government are published for general information :—

I.—A candidate for appointment to the Civil or Political Department, with the view of qualifying for the Staff Corps, must furnish the certificates mentioned in paragraph 5 of G. O. No. 531, of which the forms were given in Appendix A of the same general order, and are now re-published at the end of the present notification.

II.—He must have been previously attached, for a period of not less than one year, to a native regiment;* but such period may form part of the three years' duty with a regiment required by the general regulations for admission to the Staff Corps. He will be required to produce a certificate from his superior officer, testifying to his efficiency and good conduct, and especially to his conciliatory demeanour towards the native soldiery and other people of the country with whom he has been brought in contact.

III.—The period of one year,—reckoned, as explained in the following rule, from the date of the first half-yearly examination held subsequent to appointment,—is fixed as the limit within which an officer, admitted on probation to employment in the Civil or Political Department, will be required to qualify himself to undergo the examinations hereinafter mentioned, in passing which he will have a claim to have his services retained; and he will then, under the orders of the Military Department, be appointed to the Staff Corps.

IV.—Examinations will be held half-yearly in October and April of each year. A candidate may appear at the first examination held after the expiry of the first six months of his probation, and if he fail to pass, must again appear at the next examination six months later. A candidate failing to pass at the first examination, held after the expiration of his year of probation, will be removed from employment in the Civil or Political Department, and consequently will not be appointed to the Staff Corps.

* Any officer who has been employed for a year in one of the departments named in the margin, will be exempted from the condition prescribed by Rule II of one year's service with a native regiment. Provided, however, that he shall produce, from the officer under whom he has served in any such department, a certificate to be countersigned by the head of the department to the same effect as that required from a superior officer in case of service with a native regiment.

V.—Subject to such general directions as shall from time to time be given by the Government of India, the examinations will be conducted by a Committee acting under the orders of the Lieutenant-Governor, or Chief Commissioner, or Political Agent or Resident, as the case may be.

VI.—The examination will embrace, in the case of officers employed in general civil duties, the subjects of Indian History, Political Economy, and Jurisprudence. The works on the two last-named subjects in which candidates will be examined are Mills' Political Economy, Austin's Principles of Jurisprudence, Volume I, and Maine's Ancient Law. Notice of any change in the books for examination will be given at least one year before it takes effect.

VII.—Every officer in civil employment will, in addition to the above examination, and notwithstanding his appointment to the Staff Corps, be required to undergo the local and departmental examinations prescribed for Covenanted Civil Servants in the province in which he is serving.

VIII.—The examination in the case of officers employed in the Political Department will embrace the subjects above-mentioned, and the candidate will in addition be examined in Wheaton's Work on the Principles of International Law. He will also be examined in the collection of Indian Treaties and Engagements, now being published under the direction of the Foreign Office.

IX.—No officer will be admitted on probation to civil or political employment who has not passed the examination in Hindustani required by the general regulations for the admission of officers to the Staff Corps.

X.—Cantonment Magistrates will be classed with officers in civil employment. Separate rules will be promulgated hereafter as regards Police Officers; but Police Officers, if transferred to civil employment, will be required to pass the examination prescribed for officers in civil employment.

XI.—As a general rule, military officers will be appointed to the Political Department from among those who are already in civil employment; and every officer so transferred will be required to pass, within one year from the date of his transfer, the additional examination in International Law and Indian Treaties prescribed for the Political Department, failing which he will forfeit his appointment.

XII.—These rules are intended to be prospective in their effect. They will not apply to any officers now holding permanent appointments in civil or political employment. Such officers will be entitled to join the Staff Corps in virtue of their appointments. Officers, however, who do not hold permanent appointments will be subject to these rules. But the case of any officer who has been formerly in civil or political employment, and who, having quitted such employment, may hereafter be re-appointed to it, will be specially dealt with as the circumstances of the case may require.

APPENDIX A.

Certificate of Commanding Officer.

Certified that Lieutenant _____ of the _____ Regiment _____, a candidate for the _____ Staff Corps, completed three years' duty with a regiment on the _____, two years of which (or the whole period of which, as the case may be) were spent in India.

Lieutenant _____ has passed the examination in the Native languages which qualifies for Staff employment; and has attained such a knowledge of his drill duty as an officer of infantry (or cavalry) in all its branches as to qualify him for the command of a company (or troop) in all situations. He also possesses a fair knowledge of the Articles of War and the Queen's Regulations, as well as of the Military Regulations of the (Bengal, Madras, or Bombay) Presidency, besides having gained some general acquaintance with the organization and nature of the duties of all branches of the Army serving in _____ (Bengal, Madras, or Bombay).

I further certify that during the period Lieutenant _____ has served with this regiment he has been attentive to his duty, and that his conduct has been in all respects unexceptionable.

The following orders, issued by the Government of India in the Department of Finance and Commerce, are republished for general information :—

NOTIFICATIONS.

Simla, the 8th November 1879.

No 3745.—In exercise of the power conferred by section 5 of the Local Authorities Loan Act, 1879, and in supersession of the rules published with Notification No. 3761, dated 15th October 1873, the Governor-General in Council has made the following rules—

I.—In these rules (1) "The Act" means "The Local Authorities Loan Act, 1879," (2) "Local Authority" and (3) "Funds" have the meanings assigned to them respectively in the Act, (4) "The Local Authority" means "The Local Authority applying for or, as the case may be, receiving or raising, or having received or raised the loan," and (5) "Loan" means "A loan under the Act."

II.—A loan must be defined in rupees, and not by the sterling or any other foreign standard

III.—No loan shall be granted or raised except for the construction or repair of works of public utility, within the local limits of the jurisdiction of the local authority, or for the benefit of the inhabitants within those limits.

IV.—No loan shall be granted to or raised by any district committee for the construction of any public work unless it be estimated that a direct net revenue will be derived therefrom equal to at least four and a half per centum per annum on its capital cost. Provided, however, that the local Government may make a loan, not exceeding Rs. 20 000, and repayable in not more than one year, to a district committee, for a work designed especially to employ labour for the purpose of relieving distress.

V.—An application for a loan, or for permission to raise a loan, shall be signed by three-fourths of the members of the managing body or committee duly constituted and acting for the local authority. Every such application shall state—

1st.—The work or works for the construction or repair of which the loan is required and an estimate of the cost thereof.

2nd.—The amount which it is proposed to borrow

3rd.—The fund or funds on the security of which it is proposed to borrow

4th.—The law or laws under which the said fund or funds is or are levied, received or held.

5th.—The period for which the loan is required, the number and amount of the instalments, if any, in which it is proposed that the loan shall be taken, the dates proposed for receiving such instalments, and the instalments in which it is proposed to repay the loan

6th.—The yearly proceeds of each of the funds received or held by the local authority

7th.—All expenditure incurred by the local authority in each of the three last preceding years

8th.—All existing prior charges upon the funds of the local authority.

VI.—The local Government shall cause such enquiry as it thinks necessary or expedient to be made into the statements contained in the application and into the use and value of the proposed work.

VII.—If it appears to the local Government that the loan ought not to be granted or raised, it shall reject the application.

VIII.—If it appears to the local Government probable that the loan ought to be granted or raised, it shall cause to be published in the local official gazette, and otherwise, as it deems fit, within the local limits of the jurisdiction of the local authority, a copy of the application and such particulars in regard to any enquiry made under Rule VI as it may think necessary.

IX.—After the expiry of one month from such publication, and after calling for any further information which it may require, and considering any objections which may be preferred, the local Government may either reject the application, or, subject to the provisions of Rule X, grant the loan, or refer the application for the orders of the Governor-General in Council.

X.—(a) Save as provided in clause (b) of this rule, the local Government may make a loan from any sums which the Governor-General in Council allots for the purpose

(b) If the proposed loan is more than twice the yearly income of the local authority, or if the local authority be not a municipal committee, or persons legally entitled to the control or management of a municipal fund, or if the loan exceeds Rs. 5,000, the previous sanction of the Governor-General in Council is necessary.

XI.—Receipts for loans shall be signed on behalf of the local authority in the manner in which orders for the disbursement of money on behalf of such authority are required by law to be signed. If there be no such law, such receipts shall be signed by the President or Chairman and by the Vice-President or Vice-Chairman, and by two members of the managing body or committee duly constituted and acting for the local authority. The signature of a receipt shall be deemed to be an acceptance by the local authority of the loan and all the conditions upon which it is granted or authorized.

XII.—The local Government shall make provision for the proper inspection of all works which are being carried out by means of a loan and for ascertaining and securing that the loan is duly applied to the purposes for which it is made. Every such work, and the accounts connected therewith, shall be open at all times to the inspection of the Superintending or Executive Engineer in whose division it is situate, and of any person who may be authorized to inspect the accounts of the local authority, and of any other person specially authorized by the local Government in this behalf.

XIII.—If the local Government considers that the conditions on which a loan was granted or authorized have not been fulfilled, or that the local authority has failed to comply with any of the requirements of these rules, it may, at any time, order that no further payments shall be made or received on account of such loan, and, if the loan was made from the public treasury, recover the amount advanced, with interest thereon, in the manner prescribed by section 6 of the Act.

XIV.—(a) Interest shall be charged half-yearly on each loan at the rate agreed upon; and until the loan is completely raised, or until the local Government shall at some earlier period declare the loan to be closed, shall be reckoned and paid on each instalment from the date on which it is received.

(b) Every loan shall be discharged in equal half-yearly instalments, so calculated that the principal shall be repaid with interest in not more than twenty years from the date on which the loan is completely raised or declared by the local Government to be closed.

(c) Provided that, with the sanction of the Governor-General in Council, the equal half-yearly instalments may be so calculated that the principal shall be repaid with interest in more than twenty but not more than thirty years, from the date of the completion or closure of the loan.

XV.—The local authority may, at any time, repay the whole or any part of a loan made from the public treasury in advance of the periods fixed by the conditions of the loan.

XVI.—The cost of any enquiry made under Rule VI of advertisements published under Rule VIII, of inspections made under Rule XII, and of any other proceedings by order of the local Government or the Governor-General in Council under these rules, shall be determined by the local Government, and shall be paid by the local authority.

XVII.—(a) The accounts of every loan shall be kept by the Accountant-General of the province in which it is made.

(b) The local authority shall give to the Accountant-General and the local Government any information which they may require regarding the expenditure of the loan, and regarding its funds.

XVIII.—An annual statement of all loans granted or raised under the Act, repayments due and made during the year, and balances outstanding at the beginning and end of the year in each province, or under each local Government, shall be prepared by the Accountant-General and submitted to the Government of India through the local Government, which shall add a report of the progress of the works. Such statement shall be published in the local official gazette.

XIX.—An attachment of any funds under section 6 of the Act shall be made by a notice to the local authority prohibiting the collection or management of such funds by the local authority, and vesting the administration thereof in such officer as the local Government may appoint. Such notice shall be published in the local official gazette, and otherwise, as may be directed by the local Government, within the local limits of the local authority. The moneys collected or received under such attachment shall be paid into the Government treasury, or, if the loan has not been obtained from the Government, to the lender; and the accounts of moneys so collected and of the cost of collection shall be prepared in such form as the local Government may from time to time direct. A copy of the accounts shall be delivered to the local authority, and published in the local official gazette.

Advertisements.

[N.B.—Advertisements, Notices, &c., intended for insertion in this part of the Gazette, cannot be received after Noon on Monday.]

LAND SALE NOTICES.

NOTICE is hereby given that the proprietary right of Government as specified in the conditions of sale below, to the undermentioned plot of railway C class land situated in the village of Mohajidpore, pergunnah Bhagulpore, in the town of Bhagulpore, which with other lands was acquired free of all incumbrances by Government under the Land Acquisition Act, and was made over to the East Indian Railway Company for temporary use, under the denomination of C class land, and which having reverted to Government on its relinquishment by the said Company, will be put up to sale at the Bhagulpore Collectorate on Monday, the 12th January 1880, corresponding with 16th of Pous 1287, F.S.

2. Intending purchasers are informed that Government did not in any way encumber the land by settling it with tenants for any period or otherwise, but on the relinquishment of the land by the Railway Company, Government found that Dwarka Nath Sing, Mr. N. J. Gantzer, junior, Mussamut Zera, widow of Horil Mistry, and Darogah Lohar were in possession by erecting tiled-houses, golas, &c., and as the Railway Company had no proprietary title to the land, called upon the occupants to produce their pottahs and title-deeds to satisfy the Collector upon what terms they were holding, and on their failing to produce any document they were, in the month of March last, served with notices to quit, and remove their houses and materials thereof within a month from the dates thereof, and the said period has expired.

3. The applications made to the Collector by the occupants, in which they set up the nature of their title to the land, may be seen at the Collectorate. Such applications, with the receipts of the occupants acknowledging service of notices to quit, will be handed over to the purchaser with the certificate of sale.

4. The purchasers will be subject to the following conditions of sale.—

Conditions of Sale.

1st.—The plot of C class land to be sold revenue-free to the highest bidder above the upset price. The purchaser of this plot of C class land will be considered as the proprietor of the land, and the entire proprietary right of Government in such land will be transferred to him.

2nd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

3rd.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale to be cancelled (the sum deposited being forfeited to Government) and the land to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

AMENDMENT OF THE CALCUTTA PORT IMPROVEMENT ACT, 1870.

THE HON'BLE MR. BUCKLAND moved that the Bill to amend the Calcutta Port Improvement Act, 1870, be read in Council. He did not propose to

trouble this Council with any lengthy remarks and explanations on the sections of the Bill. It was not the custom at meetings of the Port Commissioners to make speeches of any length. There was, however, a statement in the preamble of the Bill which might perhaps puzzle some hon'ble members: he alluded to the statement about a certain sum of Rs. 17,65,000. That sum represented the value of what might be called the block of the port, and consisted of buoys, chains, anchors, and other things of that kind, most of which were under water. The Government valued the stock at Rs. 17,65,000 when they made over charge of the port, and that was why it stood upon a separate footing from the rest of the money which had been borrowed from the Government. Then, again, in the preamble there was mentioned a sum of Rs. 54,22,567. That sum would have to be altered, because the Port Commissioners were in the habit of paying off their debts very steadily, and the debt would consist of about Rs. 53,22,567 by the time the Bill became law.

The Bill repealed many provisions of the Act of 1870, but it did not affect the validity of anything done or suffered, or of any right, title, obligation, or liability which accrued under the old Act.

Then he came to a section which provided for a special arrangement. Although the Port Commissioners were not to borrow from the Government any more, this Act enabled them immediately to borrow from the Government the whole sum necessary to repay the existing debt to the Government. They would lend the Port Commissioners with one hand and take it back with the other. Having lent them this sum, (say) 54 lakhs, they would immediately repay themselves the debt now due to them, and stand upon the same footing as all the future creditors of the Port Commissioners. The other sections were re enacted almost verbatim with the necessary alterations.

Then they came eventually to a new section, 19, which was a modification of section 82 of Act V of 1870, relating to the power of the Commissioners to make bye-laws. The learned Advocate-General would probably remember that his opinion was taken regarding the meaning of section 82 of Act V of 1870. When the Act of 1870 was drafted, section 82 was set forth in one long sentence, and because in the first sentence it was said that the Port Commissioners might make rules for their own servants, therefore the lawyers were afraid that the courts might hold that all their rules under the section would apply only to their servants. Doubtless to an ordinary mind it seemed astonishing that bye-laws which were only to regulate the conduct of the Port Commissioners' servants should need to be published and sanctioned by the Government. But in order to give the highest authority to the proposed alteration of the power to make bye-laws, the section in the present Bill was taken from the latest Bill turned out from the anvil of the Government of India, namely, the Rangoon Port Bill.

There remained section 20 of the Bill, in which it was provided that the words "conveyance of passengers and" should be inserted after the word "appliances" in section 39, paragraph 2, of Act V of 1870, relating to the tramway which the Port Commissioners had. As a matter of fact they had not at present the means of carrying passengers, nor the proper contrivances to enable them to do so, and the goods traffic was so considerable that it was very improbable that they would ever be able to carry passengers, especially if the East Indian Railway came to this side of the river. But it might be possible that it would be the duty of the Commissioners to carry passengers in connection with goods, and therefore with the words now proposed they would keep themselves within the law.

The HON'BLE KRISHODAS PAL said he had not intended to make any comments upon this Bill, but the remarks which had fallen from the hon'ble mover suggested a doubt as to whether the Port Commissioners should be vested with the power given by section 20 of the Bill of carrying passengers in the town by their tramways. Hon'ble members were aware that there was already a Bill before the Council regarding tramways in Calcutta, and if the Port Commissioners should take advantage of the power proposed to be conferred upon them of carrying passengers in their tramways, there would be competition between them and the grantees of the Municipal Corporation. As on a former occasion competition led to the ruin of the Municipal tramway, so competition again between the Municipal grantees and the Port Commissioners would, he was afraid, lead to the disadvantage of both, if not ruinous to one of them. The

hon'ble mover said that the Port Commissioners had not now the necessary appliances for carrying passengers in their tramway, and that they did not intend to carry passengers, but that it was thought desirable to have the power; in other words, if the Port Commissioners should find that the carrying of passengers would be profitable, they might make the necessary appliances and exercise the power proposed to be given to them.

BABOO KRISTODAS PAL did not think it advisable to have two competing lines of tramway between a few yards of each other, such as the Calcutta and Port Commissioners' tramways would be.

There was also another provision in the Bill which called for remark: he alluded to section 19, clause (c), which gave power to the Port Commissioners to provide water for ships and for licensing and regulating water-boats within the port. He did not know whether hon'ble members were aware that there had been a contention going on for some time past between the Port Commissioners and the Town Commissioners in respect of supply of water to the shipping, and that the Town Commissioners had claimed the right and had gone to heavy expense to provide the necessary apparatus for the purpose. He did not know to what extent this power would be exercised by the Port Commissioners, but it was a question whether they should have power regarding a duty which had hitherto been discharged by the Town Commissioners in a satisfactory manner. Not only would they under the Bill have the power of supplying water to the shipping, but also to regulate water-boats within the port. He did not think it would be just or expedient to give another Corporation power over the arrangements and appliances of a rival Corporation in the discharge of its own duties. The water-boats in the port now belonged to the Town Commissioners; with those boats water was supplied, and they ought to have full power to regulate their own boats. He did not know for what reason, or with what object, this power was claimed by the Port Commissioners; but he hoped the Select Committee would take this point into consideration.

HIS HONOR THE PRESIDENT said he had no doubt that the Select Committee to whom this Bill would be referred would look into all the papers on the subject, and make such provisions in the Bill as they might think necessary. He did not understand the hon'ble member to oppose the reading of the Bill, and if the principle of the Bill was accepted, the details could thereafter be discussed in Select Committee.

The HON'BLE MR. BUCKLAND said he should be happy to consider in Select Committee the suggestions which the hon'ble member had made.

The Bill was then referred to a Select Committee consisting of the Hon'ble the Advocate-General, the Hon'ble Mr. Mackenzie, the Hon'ble Mr. Field, the Hon'ble Mr. Inglis, the Hon'ble Baboo Peary Mohun Mookerjee, and the mover, with instructions to report in three weeks.

CONTAGIOUS DISEASES AMONG ANIMALS.

The HON'BLE MR. O'KINEALY moved that the Bill to provide against the spreading of contagious diseases among animals be read in Council.

The HON'BLE KRISTODAS PAL said he was sorry to observe that in introducing this Bill the hon'ble member in charge had placed before the Council such scant information showing the necessity for the measure. The statement of objects and reasons was dismissed with about ten lines, and was not accompanied by any official papers whatever, showing whether there had been any such increase of contagious diseases among animals in Calcutta as to necessitate the proposed measure.

In his introductory speech the hon'ble member laid great stress on the Bill which had been introduced into the Council of His Excellency the Governor-General. He said—

“Every motive which induced the Government of India to legislate for the Upper Provinces applied with tenfold force to induce the Government of Bengal to pass a somewhat similar enactment for Calcutta and its suburbs.”

It was not for BABOO KRISTODAS PAL to enquire whether there were good and valid reasons for the introduction of a Bill of this kind in the other Council, but every member of His Honor's Council had a right to know what reasons did exist for the entertainment of a measure of this kind for these provinces. If the rate of mortality amongst horses in Calcutta had not been

more than what was ordinarily the case, and if no necessity was established for such rigorous law as was proposed, he did not think this Council would be justified in sanctioning it. He dared say the hon'ble member would be able to put the Council in possession of papers which would show the necessity for such legislation. But looking to the Bill as it was put before the Council, he must confess that the machinery it provided would perhaps do more harm than good. In the first place the Bill was not complete in the definition of "contagious disease" It said—

" 'Contagious disease' means glanders, farcy, and any disease which the Lieutenant-Governor may from time to time, by an order published in the *Calcutta Gazette*, declare to be a contagious disease for the purposes of this Act."

With all deference, BABOO KRISTODAS PAL submitted that it was the duty of this Council to define by its own enactment what diseases should be brought within the scope of the Bill. Surely His Honor the President would admit that, aided by his Council, he was more competent to define "contagious disease" than he would be as the head of the Executive Government.

Again, it was provided that owners of diseased animals should give notice when any animal was affected with any contagious disease. With regard to the diseases of glanders and farcy, BABOO KRISTODAS PAL could say on behalf of native gentlemen that he doubted whether one out of a hundred could at the early stage of the disease discover what it was, and it would therefore be very hard if from suspicion that an animal was so affected a person who did not give information should be subjected to a penalty of Rs. 500 as provided in the Bill.

Then again it was provided that an animal affected with glanders or farcy was to be slaughtered on the certificate of a Veterinary Surgeon, or in his absence of a Civil Surgeon or an Assistant Surgeon. Now, if the disease should really exist, and a competent person should certify to the fact of the disease, certainly there could be no reasonable objection to the destruction of the animal. But it was well known that the Assistant Surgeons as a body know nothing about horse diseases, and it would be most dangerous to authorize them to grant certificates and empower police officers to act upon such certificates. With regard to Civil Surgeons, he did not know how far they were acquainted with such diseases: it was Veterinary Surgeons alone who possessed a special knowledge of the subject. If this provision were restricted to Veterinary Surgeons, BABOO KRISTODAS PAL would not object to it; but, as it was framed, it applied also to Civil Surgeons and Assistant Surgeons, the majority of whom, as he had already remarked, could not be presumed to possess a scientific knowledge of horse diseases, and the result he feared would be abuse of power and oppression. Armed with a certificate thus given, the police officer would seize the suspected animal, and if so inclined might slaughter it; or on pretence of suspicion he might first seize the animal, and afterwards take a certificate from an incompetent Assistant Surgeon, and under its authority destroy a valuable horse. If Civil Surgeons and Assistant Surgeons without special training could not fairly be expected to be acquainted with diseases among animals, how much less could a police officer be expected to have such knowledge; but the section in question gave power to a police officer to seize a horse on mere suspicion of disease. He thought such a provision would lead to much hardship and oppression. For his own part BABOO KRISTODAS PAL thought the object of the Bill was good, but the machinery for putting it into force should be different from what was contemplated in it. If a hospital were established, and if suspected animals were taken to such an hospital and there kept under observation, and in cases of actual outbreak of disease the infected animal were slaughtered, probably a sufficient safeguard against a wanton interference with private rights would be provided. It was observable that the English Contagious Diseases of Animals Act provided that, when a diseased animal was slaughtered, compensation should be given to the owner of the animal so slaughtered, but no such provision obtained in this Bill.

And lastly, he considered it his duty to enter his protest against that part of the Bill which authorized the slaughtering of cows and oxen under suspicion of being affected with contagious diseases. Such a provision would be most revolting to the religious feelings of the Hindu community. The hon'ble member in charge of the Bill had neither in the statement of objects and

reasons, nor in his introductory speech, said anything to show that cows and oxen were subject to glanders or farcy, but the Bill as it was framed had for its object the suppression of those contagious diseases.

BABOO KRISTODAS PAL had thought it proper to refer to an experienced Veterinary Surgeon on this point, and he wrote as follows:—

Cows, oxen, and all horned cattle are not susceptible to "glanders" or "farcy." Even when they are inoculated with the matter taken from an affected horse, they fail to take the disease.

Then, BABOO KRISTODAS PAL thought, the hon'ble member must mean some other contagious diseases than glanders and farcy. But if he did so, he ought to have proved that such contagious diseases were prevalent among cattle, and that there was an extraordinary mortality in consequence before he asked for legislative interference. All that had been said was about horses, but cows and oxen were included in the Bill. If it was at all thought necessary to extend the Bill to cows and oxen, he would suggest that provision be made for the isolation and treatment of diseased cows and oxen, instead of a summary law for their slaughter. BABOO KRISTODAS PAL did hope that hon'ble members would take this point into consideration and not sanction any provision of law which was calculated to grossly outrage the religious feelings of the Hindus.

The HON'BLE MR. O'KINEALY said he understood the hon'ble member who had just spoken to say, first, that there was no reason for the introduction of this Bill; and secondly, that the object of the Bill was good. MR. O'KINEALY thought under those circumstances that it was hardly necessary for him to enter into details and give reasons which induced the Government of Bengal to introduce this Bill. The reasons which induced the Supreme Government to introduce a somewhat similar enactment had been elaborately given in the Gazette of the Government of India, and he for his part thought that any gentleman referring to those papers would see that the Government had made out a *prima facie* case for the introduction of the law. If the hon'ble member was not satisfied with that, and he wished to know any other reasons which induced the Government of Bengal to take up this measure, MR. O'KINEALY would be happy to place in his hands all the papers that were at his disposal. He did not think that the Government would be satisfied to pay money compensation for horses affected with glanders or farcy which in 99 cases out of a hundred would die.

But all these objections went rather to the details of the Bill than to the Bill itself, and as the hon'ble member who had raised those objections would be placed upon the Committee, he would have every opportunity for discussing the details.

HIS HONOR THE PRESIDENT, before putting the motion, said that to a great extent he concurred in the objections which had been taken by the hon'ble member on the left (Baboo Kristodas Pal) in his remarks on the subject of this Bill. The Bill, he might say, was pressed upon this Government by the Government of India for very good reasons, which he was sorry to say had not been stated to the Council. There had been a great deal of mortality of late amongst horses, and especially so amongst the Government troops. His Excellency's Body-guard had been almost decimated last year by an infectious disease which they were said to have contracted in Calcutta; and he might mention that a detachment on duty as his own body-guard had also suffered some time ago, and the Colonel of the regiment from which his body-guard was supplied had brought to notice two years ago the great danger to horses in Calcutta in consequence of frequent outbreaks of glanders and farcy amongst horses brought down to Calcutta. If these two very prominent cases occurred under the eyes of our own officers, there was good reason to believe that the disease was general in the town: if it affected Government in this way, it might be understood that it also affected private persons to a still greater extent. When a disease of this sort got into the town and spread about—and it had spread about—there was no calculating the mischief it might do. There had been considerable correspondence on the subject which was not published. Admitting that it was an evil, Government was clearly bound, with a view to protect private property, to do something;

but he thought there was a great deal of truth in what had been said as to the manner in which the Bill proposed that remedial measures should be carried out. He thought that, while protecting those who kept horses, the Council must as far as possible protect the interests of those who were exposed to be dealt with under the Act as being suspected of having diseased animals. He thought the Bill was very rough and summary in its mode of procedure, and that such procedure was rather calculated to suit the interior of the country than a very large town like Calcutta, where there were numerous facilities for putting diseased animals under proper treatment, and so ascertaining what was wrong with them through the agency of specially skilled men. He thought there was a good deal in the objection that Surgeons and Assistant Surgeons should not be allowed to meddle with these things; they could really know little or nothing of horse diseases. The certificate should be given by a qualified Veterinary Surgeon, of whom there were plenty in Calcutta, and he also thought that arrangements should be made for a hospital of observation to which suspicious cases of animals diseased might be removed until all doubts as to the disease were disposed of.

As to the definition of "contagious disease," he could not accept, as had been proposed by Baboo Kristodas Pal, the responsibility of deciding, with the help of the twelve gentlemen around him, what were contagious diseases: he would sooner, when any question arose, consult Veterinary Surgeons, and would therefore leave the section as had been originally proposed. He believed that, as to this definition great difficulty was felt in the Council of the Governor-General. He thought it was better to leave some amount of elasticity in the definition in order that, when any new disease broke out, after consulting qualified veterinary officers, such disease might be included.

As to cows and oxen, he was not at all prepared to agree that this Act ought to be made into a Cattle Diseases Act. He understood that the Bill was to be confined to dealing with diseases amongst horses, and he did not think that anything had occurred to show that any provision of the sort in regard to the diseases of other cattle was required in Calcutta, and he should be very glad that the Select Committee should consider whether there was any ground for including oxen and heifers and cows in the definition of "animal" in the interpretation clause. He did not think that that was the main object of the Bill, and he was sorry that the provision should have been brought into the Bill in such a manner, as he could quite understand the provision of the Bill as it stood must be very offensive to the religious prejudices of the people. He would be the last person to accept such prejudices when unreasonably urged as an objection to a measure really affecting the interests of the public at large; but looking to the way in which this Act had been drawn, he thought there was much in the Bill which might become very offensive to Hindus with regard to the destruction by the owners of cows and cattle which were supposed to be affected with contagious diseases. These, however, were all subjects that would be taken up by the Select Committee, and he hoped they would give their careful consideration to them before dealing with the subject.

The motion was agreed to, and the Bill referred to a Select Committee consisting of the Hon'ble Mr. Field, the Hon'ble Mr. Inglis, the Hon'ble Kristodas Pal, the Hon'ble Syed Ameer Hossein, and the mover, with instructions to report in four weeks.

CESS FOR ROADS AND PROVINCIAL PUBLIC WORKS.

THE HON'BLE MR. DAMPIER moved for leave to bring in a Bill to repeal "The District Road Cess Act, 1871" and "The Provincial Public Works Act, 1877," and to amend and consolidate the law for providing by local rating for the construction charges and maintenance of communications and of provincial public works.

Eight years ago their late colleague Mr. Schalch carried through this Council a Bill to provide by local rating for communications, which was known as the Road Cess Act. MR. DAMPIER would only be paying a just tribute of praise to the memory of Mr. Schalch if he said that owing to the intimate practical knowledge which Mr. Schalch brought to bear on the framing

of the Bill, and to the minute attention and care with which, while at the Board of Revenue, he watched its first introduction, the measure had been successful beyond expectation, and it was owing to those causes that there were so few points in which alteration was found necessary in the law. As must be expected, however, in the course of eight years' working some points had come to the surface in which the Act might properly be amended, and they were points of some importance. In 1877 a Bill to provide by local rating for provincial public works was passed, under which the tax was to be assessed on the same principle and collected by the same procedure and by the same machinery as the Road Cess; it was obviously desirable, when the Council was about to amend the earlier law, that they should take the opportunity of consolidating the two.

The important points then in the Road Cess Act which required amendment were four, two of them in the direct interest of the tax-payer, the other two only so far in the interest of the tax-payer as all measures were for their benefit which facilitated administration.

The main point in the interest of the tax-payer was connected with the levy of cess from what were called lakhiraj or rent-free holdings, lands which were held rent-free within estates as distinguished from revenue-free lands which were recognized as such and borne on the general register of the Government as revenue-free. As the law now stood, these petty lands which were held rent-free were considered to be part of the estate within which they were geographically situated, and if there was any difficulty in settling that question, an arbitrary discretion was left to the Collector to decide that such land should be included for the purposes of the Act in this or that neighbouring estate. The law required the zemindar in whose estate these lands were so included to enter them in his returns for assessment, and in the first instance to pay the cess due on them, recovering it afterwards from these rent-free holders by the same process as that provided for the recovery of rents from tenants. The duty thus imposed on the zemindars was found to be burdensome and most distasteful. The items recoverable were often numerous, but the amount of each so trifling as to make many of them not worth collection; in one case which Mr. DAMPIER had come across it could not be represented in any coin. Moreover, these lakhirajdars were not in the position of ryots dependent upon the superior zemindar or tenure-holder, but were independent and in a normal state of antagonism to them.

For these reasons zemindars and tenure-holders were naturally inclined to do all they could to avoid the acceptance of this liability: it was extremely difficult to identify the lands, and the authorities knew nothing about them; therefore it was easy for the zemindar or tenure-holder simply to omit entering them in his returns in order to avoid the burden of collecting the assessment; when this was done, the holder of the land thus escaped assessment altogether. On the other hand, if the zemindar, like Maharajah Norendra Krishna, who had been one of the greatest sufferers, was honest enough to include these lands in his returns, he was obliged to pay the assessment of which he could eventually recover a part only.

The main object of the amendment proposed in the Act was to give some relief in this respect. Mr. DAMPIER would endeavour to lay before the Council a scheme for the registration of these petty lands, which he hoped would have some effect in making their holders come forward and pay these cesses directly to the Collector.

The second point for the relief of the tax-payer was this. As the law stood, if an estate was divided into two parts by what was known as butwarrah, so far as the revenue was concerned they became two different estates, neither of them being liable for the revenue payable by the other. Unfortunately in the Road Cess Act no provision was made for such cases, and re-adjustments of assessment under the Act could, strictly speaking, only be made after five years had elapsed since the first assessment. Therefore, until the expiration of the five years, each part of the divided estate remained legally liable for the entire assessment imposed upon the whole estate as it existed before partition. There was a similar condition of things where a separate account was opened for the payment of revenue under the provisions of Act XI of 1859.

The other amendments, as Mr. DAMPIER had said, were only indirectly in the interest of the tax-payer, but they were required to facilitate the working of the Act. First, as the procedure for the recovery of fines and arrears of assessment was found to be too dilatory and cumbrous, it was proposed to amend the law in that respect. The other point was with regard to the valuation of petty holdings. As the law stood, estates of which the revenue was less than Rs. 100, and tenures of which the gross rental was less than Rs. 100, might be valued by a certain summary process, the assessment so imposed being open to objection by the assessee. The object of this was to expedite matters, and to reduce to a minimum the trouble of the assessee where he accepted the assessment without objection; but no similar provision had been made in respect to lakhiraj property; and therefore, however small a lakhiraj property might be, provided it was recognized as revenue-free and borne on the register of Government as such, it must be valued according to the more perfect and lengthy process. It was proposed to authorize the Collector to value such small lakhiraj properties by summary procedure.

These were the four cardinal points in which the existing Act would be amended. The opportunity would be taken to make alterations here and there in some minor points which Mr. DAMPIER hoped would be such as would meet with the approval of the Council.

. The motion was agreed to.

The Council was adjourned to Saturday, the 3rd January 1880.

DISTRICT ROAD FUND.

No. 1429A.

Extract from the Proceedings of the Hon'ble the Lieutenant-Governor of Bengal in the Public Works Department (Local—Accounts), under date the 23rd December 1879.

READ—

Memorandum from the Examiner of Public Works Accounts in Bengal, No. 711D dated the 16th December 1879, submitting an abstract of the receipts and expenditure of the several District Road Committees for the quarter ending 30th June 1879.

RESOLUTION.—The Lieutenant-Governor directs that the accounts of the receipts and expenditure of the District Road Fund for the third quarter of the cess year 1878-79 be published in the *Calcutta Gazette* and circulated to the officers concerned.

ORDER.—Ordered that a copy of the Resolution, together with a copy of the abstract of receipts and expenditure, be published in the Supplement to the *Calcutta Gazette*.

Ordered that a copy of this Resolution, and of the abstract referred to, be forwarded to the Financial Department of this Government for information. Also that copies of the above be forwarded to all Commissioners of Divisions, to all Superintending Engineers of Public Work Circles in Bengal, to the Chief Engineer, Irrigation Branch, to the Accountant-General, Bengal, and to the Examiner of Public Works Accounts, Bengal, for information.

BENGAL.			
<i>Western Districts.</i>			
BURDWAN DIV.	1 Burdwan, Dec. 29 '79	Nil	Weather—fair and cool. Rice harvest almost completed; outturn satisfactory. All <i>rubbee</i> crops and sugarcane promise well.
	2 Bankoora, „ 27 „	Nil	Weather—clear, but rather warm for the season. Outturn of <i>amun</i> believed to be with some exceptions fair; better than first expected. Prospects of spring crops continue good. General health good. Outbreak of cholera in Bishenpore sub-division subsiding, but some cases reported from other villages.
	3 Beerbhoom, „ 27 „	Nil	Weather—seasonable. Rice harvest nearly complete. Cold-weather crops doing well. Cholera abating.
	4 Midnapore, „ 27 „	Nil	Weather—seasonable. State and prospects of crops generally favorable. Standing paddy being reaped.
	5 Hooghly, „ 27 „	Nil	Weather—cloudy and seasonably cold. Harvesting of <i>amun</i> nearly at an end. <i>Rubbee</i> crops progressing fairly. Fever still prevalent. Small-pox and a few cases of cholera reported from Serampore sub-division.
	Howrah, „ 29 „	Nil	Weather—seasonable. Prospects all favorable.
<i>Central Districts.</i>			
PRESIDENCY DIV.	6 24-Pergunnahs, Dec. 29 '79	Nil	Weather—cold and seasonable. Prospects of <i>amun</i> and winter crops fair. <i>Amun</i> harvesting continues. A few cases of cholera reported from Bussirhat.
	7 Nuddea, „ 27 „	Nil	Weather—cold, fine, and seasonable. Harvesting of <i>amun</i> finished. Winter crops doing fairly well. Prices slightly less.
	8 Jessore, „ 27 „	Nil	Weather—fine, cool, and seasonable. Harvesting of <i>amun</i> nearly completed; outturn good. Prospects of winter crops good. Fever still prevalent, and cholera in Bagirhat, Narail, and Magora sub-divisions.
	9 Moorshedabad, „ 29 „	Nil	Weather—seasonable. <i>Haimanti</i> paddy being harvested; <i>rubbee</i> crops doing well. Epidemic fever still prevalent in thana Burwa; isolated cases also reported from other thanas. Cholera appeared in Berhampore town, and cases ended fatally.
	10 Dinagepore, Dec. 26 '79	Nil	Weather—cold. About 10 annas of winter rice cut. Prospects of <i>rubbee</i> crops good. Rain wanted in circles of Peergunge and Potnitola. Husked rice 10 to 22 seers per rupee.
RAJSHAHY AND COCH BEHAR DIV.	11 Rajshahye, „ 27 „	Nil	Weather—cool and clear; heavy dews at night. Winter rice still being cut; outturn generally very good where crop not damaged by floods. Spring crops have come up well and thriving. Price of common rice 16 seers per rupee. Public health good.
	12 Rungpore, „ 26 „	Nil	Weather—cool and cloudy, with foggy mornings during first part of week. State and prospects of crops good. Outturn satisfactory.
	13 Bogra, „ 27 „	Nil	Weather—fair and cold. More than one-fourth of <i>amun</i> harvested. Sugarcane and <i>rubbee</i> crops promising. Cholera reported from Khatal, Shyngunge and Sheriakandy stations and Dhauat outpost.
	14 Pubna, „ 27 „	Nil	Weather—clear and cool. <i>Amun</i> harvest almost completed; outturn good where crop not destroyed by floods. Spring crops very promising. Much <i>chena</i> sown. Cholera still in three or four thanas; otherwise public health good.
	15 Darjeeling, „ 27 „	Nil	Weather—clear sunshine. Heavy frost at night. Morning and evening very cold. In Terai <i>haimanti dhan</i> being harvested; <i>kalar</i> being gathered; <i>dal</i> and mustard in ground, and prospects good. In Hills wheat, barley, <i>phaphur</i> and mustard in the fields, and prospects good.
	16 Julpigoree, „ 27 „	Nil	Bright sunny weather and perceptibly colder. Harvesting continues. About 8 annas cut in Doours and 12 annas in the Julpigoree portion of the district. Winter crops so far promising.
	Cooch Behar, „ 26 „	Nil	Cold mornings. Sometimes clear, sometimes foggy. <i>Haimanti</i> rice nearly harvested. Price in town fallen to Rs. 1-8 per maund. Some complaints about tobacco and mustard in eastern part, but on the whole they should be fair crops. Public health good.

The mean pressure, temperature &c. are deduced from observations made at 6h., 10h., 16h., and 2h.; the maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the new Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No. 86, formerly at the Surveyor General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The direction and movement of the wind are taken from the trace of a Bickley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

HENRY F. BLANFORD,

Meteorological Reporter to the Government of India.

Reports of Fluctuation of Traffic on the Eastern Bengal Railway for the five weeks ending the 29th November 1879.

Report on Goods Traffic for the five weeks ending the 29th November 1879.

EASTERN BENGAL RAILWAY COMPANY, TRAFFIC SUPERINTENDENT'S OFFICE, SEALDAH TERMINUS.

Dated Calcutta, the 16th December 1879.

From—JAMES BRANDER, Esq., Traffic Superintendent, Eastern Bengal Railway,
To—The Agent, Eastern Bengal Railway, Sealdah.

THE total weight of goods carried over this railway during the above period amounted to 8,41,843, as compared with 6,27,855 for the same period of last year, showing an increase of 2,03,988. This increase was chiefly in grain including rice, jute in drums, piece-goods, and miscellaneous goods.

The following items show the largest decrease, viz. jute in bales, railway materials, and salt.

Increases.

Grain, including rice ... Mds 14,767

The most of this increase is owing to large quantities of grain having been carried to the late inundated districts along our line.

Jute in drums ... Mds. 1,81,128

The increase is owing to the increased briskness of trade

Piece-goods, European ... Mds. 12,085

Owing to increased facilities for transport to Northern Bengal districts and to the improved condition of the inhabitants.

Miscellaneous goods ... Mds. 62,899

This increase is doubtless in consequence of the marked improvement which has lately taken place in trade generally.

Decreases.

Jute in bales ... Mds. 33,548

The demand for this may now be expected to revive.

Railway materials ... Mds. 7,359

In consequence of the supply to Northern Bengal State Railway being completed

Salt ... Mds. 11,740

In consequence of merchants having laid in their supplies earlier this season than usual.

I attach the usual statement of increases and decreases.

EASTERN BENGAL RAILWAY.

Report on the Fluctuations in Traffic on the Northern Bengal State Railway during the month of November 1879.

GENERAL REMARKS.

THE favorable rate ruling in the Calcutta market for jute has resulted in unprecedented heavy despatches during the month; in fact the traffic offering in this particular staple has been more than the present rolling-stock of the line could well cope with, although all available open trucks sheeted have also been used.

Increases.

Ale Mds. 604

Last November we carried 20 maunds only under this head. The weight lifted this month is made up of public consignments and Commissariat beer for the depot at Darjeeling.

Food-grain Mds. 36,507

This increase, in the face of a considerable decline in prices during the month in the Calcutta market, is promising. The new crop, which is just beginning to find its way to the port, is reported to be a bumper one, and should a sufficient margin be left between the selling price and that of the stuff on the ground, a large traffic may be looked for.

Ginger Mds. 5,366

The special reduced rate for this article has enabled holders to send the stuff forward. In November 1878 we lifted 220 maunds only, against 5,586 maunds during the current month.

Jute Mds. 95,546

The traffic in this staple is expanding so rapidly that great difficulty is being felt for want of sufficient rolling-stock to promptly move away all that is offering. During the month we have lifted no less than 1,14,007 maunds, and when the bulky nature of the article as universally despatched over this line (in drums) is borne in mind, together with the small measurement capacity of the wagons, some idea of the difficulties which have to be contended with will be recognizable.

Piece-goods Mds. 13,583

Heavy despatches continue to go forward under this head.

Salt Mds. 10,475

A gross weight of 10,574 maunds of this staple has been carried during the current month, against 99 maunds in the corresponding month last year, a result that is no doubt due to the present reduced rate.

Sugar Mds. 1,014

The traffic in this article is insignificant. The movement is at present entirely regulated by the demand for local consumption, as there are no despatches towards the port.

Tobacco Mds. 14,314

The main portion of last season's crop of tobacco has been, I am told, already sent forward, and what is now being despatched is brought from a considerable distance from the line.

All other goods Mds. 17,319

There is no staple carried over this line that more surely shows the steady development of traffic than the miscellaneous consignments lifted under this head. During November 1878 we carried 12,265 maunds only, whereas for the month under review we have lifted 29,614 maunds.

Decreases.

Gunny Mds. 2,439

The high price offering for the raw material on the spot has no doubt had something to do with the falling off under this head. In fact it is just a question whether it is not better worth while to send the stuff forward in its raw state.

Railway material Mds. 1,689

A slight cessation in despatches of permanent-way material for the tramway accounts for this decrease.

Tea Mds. 1,366

The remarks made in my last monthly report explain the falling off under this head.

Sd/- FOR, the 21st December 1879.

G. M. DRURY, Traffic Superintendent

Report of Fluctuation of Traffic on the Tirhoot State Railway for the month of November 1879.

The total quantity of goods carried during the month of November 1879 aggregated maunds 1,73,532 as compared with maunds 2,01,583 carried during the corresponding period of 1878, and maunds 1,38,262 carried during the previous month, showing a decrease of maunds 28,051 in the one case and an increase of maunds 35,260 in the other.

Increase.

Hides and horns	Mds.	1,081
There is a great demand for this staple for export to the Continent and to America, and prices have risen in the Calcutta market.						
Iron	Mds.	169
This is nearly dependent on local requirements.						
Piece-goods	Mds.	1,101
In June 1877 the import of piece-goods into Tirhoot represented 56 maunds, and for the month under review the import has risen to close on 11,000 maunds. A large quantity of the English bales imported are sent on into Nepal.						
Seeds, indigo	Mds.	21
This is somewhat early for import of this seed.						
Seeds, oil	Mds.	665
This represents a slight but steady increase, and it can be hoped that very much more of this traffic would be caught if the line were extended and feeder roads developed.						
Salt	Mds.	194
This is a slight increase.						
Salt-petre	Mds.	4,261
This is due to the sudden rise in the market prices.						
Tobacco	Mds.	1,182
The tobacco crops throughout the district have been very good and the plant continues to thrive. An impetus has been given to this traffic by the improved tobacco firm on the American principle introduced by Messrs. Begg, Dunlop & Co. at Poosa near Wini.						
Miscellaneous goods	Mds.	2,026
The traffic under this heading having risen to so high a figure, it will in future be classified in detail.						

Decrease.

Coal	Mds.	7,783
Due to the demand for brick-burning and other purposes having ceased.						
Food-grain	Mds.	28,280
Last year's traffic in this staple was exceptional, owing to the famine in Madras and to the general demand for this staple.						
Indigo	Mds.	1,292
The despatches of indigo late this year.						
Railway material	Mds.	1,058
This is entirely dependent on railway works under construction. This item will be struck out of future statements unless freight paying.						
Sugar	Mds.	618
The heavy rain and floods checked the growth of the sugarcane.

The decrease in brass and bell-metal ware is due to less import.

The decrease in coal is due to larger import in March 1879, and its taking other routes than the railway.

The increase in edible grains is due to greater import to favorable market in the neighbourhood of Azimgunge, owing to the failure of early crops on account of early floods of the Padma river and owing to destruction of crops by later flood.

The decrease in piece-goods is due to less import.

The increase in sugar and jagree is due to greater import.

The increase in silk is trifling.

The increase in sundries is due to greater import.

The increase in oil and ghee is due to larger import.

The increase in wine and beer is trifling.
